"PACKED & PESTILENTIAL CITY"

With such a proud tradition and glorious history Calcutta cannot die nor can it be turned into a 'derelict city'. Still a controversy has arisen after a reported remark made by the Prime Minister of India. The city has allowed the old to continue while it has always welcomed the new and thus it occupies an elevated position for blending the both. The record of progress of this expanding city for the last 250 years is worth-mentioning and nobody can deny that the future of Calcutta is equally great. Of course the city needs improvement in many of its spheres.

Picked up for superficial and misleading attacks by the Press there were over-emphasis of Calcutta's dark sides and under-emphasis on its bright

spots. The Chief Minister's attention was recently drawn to one such article bublished in American "Time" (reprinted inside for reference).

The city's high mortality figures, its epidemic diseases, its stink and filth, and others might have prompted foreign travellers to omit this city from their itinerary. But the Chief Minister has boldly asserted his faith. Calcutta has the energy and vitality which give it a special character. So he finds reasons to denounce those who announced the city's death-knell. Quoting figures from statistical data, Dr. Roy claimed that Calcutta had the lowest death rate of all cities in India. Notwith-standing the heavy increase in population, the death-rate per one thousand population has come down to 11.04 within a few years; while during the British rule the figure varied between 39.2 and 42.3 at similar Certainly there is nothing to poke at the distressing condition of the rates. Certainly there is nothing to poke at the distressing condition of the city. The city's health measures are quite sufficient to ease the situation. And thus one should not be complacent to say that 'the city is dead'.

Enlivened with fresh energy and enthusiasm the city is lively with its multifarious activities. In no other city three million people gathered to give reception to important foreign dignitaries like Bulganin and Khrushchev when they had visited this city. All this was referred to by the State Chief Minister, when he firmly expressed 'Calcutta will never die'

and its vigour never has flown on the low ebb.

Calcutta can never die because of its vibrant cultural life which an ordinary politician fails to foresee. There are reasons to believe that even strong exponents of culture are reluctant to recognize its heart still burning with the spirit of patriotism once enkindled by the great past. Men like Rabindranath, Abanindranath, Sarat Chandra and others had ever sung the glory of mankind and their voices still echo over its air. To them Calcutta. was the city of their birth.

The city's sickness are farthest from its becoming a dead city. Because most of the present causes are the creations of the past, they are the legacies of the last World War. It was because of them Calcutta was stormed by the enemy and its economic life was dislocated. Since then it could not recover itself. But surely all these would be surmounted and Calcutta would shine

3 5

with brilliance for ever and ever so long human civilization lives.

Dr. Bidhan Roy-A Legendary Figure In Contemporary India

WEST BENGAL'S Chief Minister, Dr. Bidhan Chandra Roy, touched the age of 77 on the 1st July. One more useful year has been added to his eventful career. He has been described as one of the great leaders of all times. He is also one of those who never grow old. He carries on his shoulders an heavy odd job, re-building of his own country to the desired end of prosperity.

Dr. Roy believes in the dictum that work will bring its own reward

and that is why the philosophy of his life has been expressed through that very word, 'work'. He is not one who ever falters in his steps rather walks on boldly on a path full of thorns and difficulties.

Dr. Roy is loved and honoured and admired by every section of people of this truncated State whose mounting problems have not been solved yet. People look upon him for proper help and advice and he is ever-ready to extend his might as much as possible.

In whatever way we show our appreciation and respect to this poble.

In whatever way we show our appreciation and respect to this noble son of Bengal, this city of Calcutta has a special appeal to this hero whose Seventy-sixth Birth-day Anniversary was celebrated duly by the citizens

amidst felicitations and rejoicings.

Many people called at Dr. Roy's house in Wellington Street, on that morning to offer their felicitations. Among them were Dr. Harekrishna Mahatab, the Chief Minister of Orissa, Shri Asoke Sen, the Union Law Minister, and Shri Atulya Ghosh, M.P., West Bengal Congress President. The Governor, Shrimati Padmaja Naidu, who was then in Delhi, spoke to Dr. Roy over the telephone.

A large number of people went with presents, which included handiwork, like a chair and art objects. Children from north and south Calcutta presented Dr. Roy with purses containing small coins which they had saved from their pocket money.

In the evening a special function was arranged in a spacious pandal at Raja Subodh Mullick Square. A large gathering witnessed the function

which was organized by the Pradesh Congress Committee.

Dr. Roy's past services were recalled when a number of addresses were read felicitating him on behalf of different Municipalities, District Boards and School Boards, spreading over the State. The Mayor, Dr. Triguna Sen also read an address on behalf of the citizens. It is being published elsewhere. The Chief Minister was profusely garlanded, one of the garlands being made of hand-spun yarn, and received presents, including beautiful caskets containing scrolls, a miniature replica of the Asoke pillar in ivory and a nicely drawn portrait.

Dr. Roy said on that occasion: "So long as I live I like to be actively associated with work for the country inspired by new ideals and thoughts." He wanted the audience to be self-analytical and try to ascertain how far they themselves conformed to this standard.

On behalf of the Pradesh Congress Committee, its President presented a cheque of Rs. One Lakh to Dr. Roy, who returned the money to the Congress. Part of the sum will go to the Dr. Bidhan Chandra Roy Students' Welfare Home, which was inaugurated on the same day.

Among those present at the function were Shri Sankardas Banerjee, Speaker, West Bengal Assembly, Dr. S. K. Chatterjee, Chairman of the Council, Central and State Government Ministers, the Mayor Dr. Triguna Sen, and Shri S. C. Roy, Sheriff of Calcutta.

THREE SECRETS IN DR. ROY'S LIFE

I live to devote myself to the service of the people in new ways', thus observed Dr. Roy while replying to the septiments expressed by different speakers. He also prayed to the Almighty to grant him fresh energies and inspirations to be born anew each day.

Visibly moved with emotion, Dr. Roy said that since the year when the Pradesh Congress had begun holding public celebrations on his birthdays he had been thinking and thinking why this honour was shown to him. He was born in 1882 and had seen many birthdays in his life but why was it that his birthdays, during the recent years, had become so significant to them.

Referring to his affiliation to the Congress, Dr. Roy said that. he was drawn to that organization because the Congress represented a code of life. This code of life taught a man or woman how to conduct himself in relation to others. Should he behave in a fashion that would interfere with the life of his fellowmen and deprive him of what was, his legitimate right. Continuing his appreciation on that organization Dr. Roy said that no society could . go on if its people individually or collectively were bent on suppressing the right of living of their fellow brethren. That would be an anathema to the Congress way of life as it had been handed down to them from Gandhiji. It was to accept others as they were and have agreement with them even though he did not have identity of thinking with them on all the points.

Dr. Roy further said that his association with the Congress was chiefly because it represented a way of life. It also indicated the way in which an individual should shape his life. The Congress was a democratic organization and herein lay its difference from other organizations. People could achieve great things if they followed the Congress ideals.

Before conclusion, Dr. Roy said that he had learnt three things in early life from his parents. These were self-less service, a spirit of equality and never to accept defeat. He had always felt that basically all men were equal and they differed only in respect of their capacity to do things. Everyone should go on trying to do things even if that resulted in his death, he concluded.

GOOD SENTIMENTS EXPRESSED ON THE OCCASION

The addresses presented on the occasion, were read mainly by the Chairmen of the Municipalities, District Boards and District School Boards. They were mostly Congress legislators including a Deputy Minister of West Bengal.

Shri S. K. Patil, Union Communication Minister, described Dr. Roy in that meeting as a great leader of all times. He drew sustenance from his earnest desire to do good to people. His was a practical mind. He knew Indian politics and its

maladies and how to remedy them. The people of India, Shri Patil said, would remember Dr. Roy's services in solving problems with confidence after independence.

"Dr. Roy is the guardian of the Eastern region," remarked the Orissa's Chief Minister, Dr. Harekrishna Mahatab. He was a leader who rose above the State level: Dr. Mahatab added, other leaders of Eastern India often looked to this outstanding personality for advice.

DR. B. C. ROY STUDENTS' WELFARE HOME

Synchronizing with the Birth-day Anniversary came off the day when Dr. Bidhan Chandra Roy Students' Welfare Home was opened on Rani Harshamukhi Road, Paikpara, on the 1st July. It was the first public function of the day, Dr. Harekrishna Mahatab, Chief Minister of Orissa performed the function.

Besides, Dr. Mahatab, Shri A. K. Sen, Union Law Minister, Rai Harendra Nath Chaudhuri, Education Minister, West Bongal Shri P. C. Sen, Food Minister, and Prof. N. K. Sidhanta, Vice-Chancellor, Calcutta University were present.

Regretting that the planning of education was defective, Dr. Mahatab said that the most important problem facing the country was the creation of a congenial atmosphere in which students could concentrate on study. In Bombay, 50 per cent, of students liven under unhealthy and undesirable sur-

roundings. Calcutta could not present a better picture, he added.

The Education Minister admitted that there was congestion in Calcutta Colleges because moffusil students wanted admission into city institutions with the hope that better training would be available there. But they forgot that over-crowding impaired education, said the Minister. He also hoped that with the proper functioning of multi-purpose schools, congestion in the city's colleges would decrease.

Prof. Sidhanta said that provision had not yet been made to accommodate even 2,500 students in hostels in this vast city though there were 80,000 University students last year. He also hoped that organizations like the West Bengal Welfare Board which had sponsored the Students' Home, should set up similar Homes in other localities.

-CALCUTTA'S PROBLEMS DISCUSSED

(Continued from page 257)

be finally solved. A resolution in connection with refugee rehabilitation was also passed. During its discussion the State Rehabilitation Minister Shri P. C. Sen presented the State's current position.

WEST BENGAL'S SACRIFICES RECALLED

On the conclusion of the last day Shri Patil recalled West Bengal's sacrifices in the struggle for independence and said that the Union Government would do all in its power to assist the State in achieving the goal.

Inauguraing the Conference Pandit Pant said that if India had made any progress during the last 11 years, it was mainly because it had internal stability. No country could advance without this and external security.

Pandit Pant also complimented the people of Bengal for their leadership in the past in political and cultural spheres even before the Congress was born. He also explained the "unique nature" of

India's struggle for independence under Mahatma Gandhi's leadership. Non-violence was the sheet-anchor of Congress policy. The organization also stood for truth and uplift of the weak. Congressmen should take care that they did not deviate from this policy.

WITH HONESTY & INTEGRITY

Shri Patil, in course of his address said that it was true that when the Congress got power, it did not have the necessary experience to run the administration. But the Congress could not but accept it, nor could it go to Russia to ask for experts. The Congress in its own way formed Ministers in the Staes and in the Centre from among Congressmen with honesty and integrity, and during the last 11 years "we have been experimenting with the administration, changing people and sometimes going outside the Congress organization to find a Minister."

SHREG. B. PANT.

Shri Gobinda Ballav Pant, Union Minister for Home, had a brief stay in this city during last week-end. He was seen in the pandal of the Political Conference at Raja Subodh Mullick Square on the 29th June, when he inaugurated the Conference.

TWO DISTINGUISHED PERSONS WHO VISITED THIS CITY RECENTLY

Shri S. K. Patil, Union Minister for Communications and Transport, who not only presided over the deliberations of a two-day session of the State Political Conference but also fulfilled many other engagements. During these days he went round the routine visits of the Union Government's offices located in this city under him.

SHRI S. K. PATIL.

SHRI PANT INAUGURATES THE STATE POLITICAL CONFERENCE

The State Chief Minister, Dr. B. C. Roy, Shri A. Ghosh. M.P., Pradesh Congress Chief, the Mayor, Dr. T. Sen, the Deputy Mayor, Shri K. C. Basu, Shri C. K. Bhettacheryya, M.P., Shri S. K. Mookerjee and many others are seen in the picture.

Photo: SANTOSH MUKHERJEE.

Calcutta's Problems Discussed

A Two-Day Session of the West Bengal Political Conference discussed many of the problems the country faced at present. Speeches were delivered by so eminent a person as Pandit Covindo Balláv Pant Union Home Minister, who inaugurated the Conference, the Orissa's Chief Minister, Dr. Harekrishna Mahatab, the State Chief Minister, Dr. B. C. Roy, Shri Atulya Ghosh M.P., the Pradesh Congress Chief and several others. The Union Communication Minister, Shri S. K. Patil presided over the Conference which was held under a specially erected pandal at Raja Subodh Mullick

Square, in the central part of the city, on the 29th and the 30th June.

A full size portrait of Mahatma Gandhi with an indication of offering blessings to the nation was placed inside. There were portraits of great leaders who struggled and fought for country's freedom. A large number of delegates attended the Conference. The dais was filled up with important personages including parliamentarians and legislators. The city's Mayor, Dr. Triguna Sen, the Deputy Mayor, Shri Keshab Chandra Basu, and several Aldermen and Councillors were also present.

RESOLUTIONS FACING ALL PROBLEMS

Of the eight resolutions passed on the occasion, many related to the political and economic problems of the country and others on the party organization and programme.

The Conference adopted a resolution emphasizing the importance of implementing the Farakka Barrage Scheme. It said that unless this was taken up immediately no basic problem of the State could be tackled. It would also be difficult to save the city of Calcutta and its around known as Greater Calcutta. There was no controversy over this. Shri Patil himself said that through the implementation of the scheme many of West Bengal's problems could be solved. Shrimati Renuka Ray. M.P. also spoke in support of the resolution. Others to speak were Shri Bimal Chandra Sinha and Shri Bhupati Mazumdar, Ministers.

The only resolution that aroused controversy was the one on the "Unemployment Problem". To set the controversy at rest, Shri Atulya Ghosh

intervened. Shri Ananda Gopal Mukherjee, M.L.A., the mover of the resolution, and Shrimati Maya Banerjee, Deputy Minister, spoke in support of it, and strongly condemned the policy that being pursued by certain quarters not to employ Bengalis.

The speakers emphasized that the problem could be solved through the combined efforts of West Bengal and Central Governments. It also welcomed establishment of big industries within the State.

CALCUTTA, THE CENTRE OF EASTERN REGION

On the second day Dr. Mahatab spoke of the need for close co-operation among the States in the Eastern region which, he said, had a distinct entity with Calcutta as its centre.

Shri Meherchand Khanna, Union Refugee Minister, gave the Conference an idea of the immensity of the refugee problem and said that the time had come to fix a dead line by which the problem should

(Continued on previous page 255)

VIEWS AND REVIEWS

OVERBRIDGES AROUND THE CITY

During Budget discussion, on the floors of the West Bengal State Legislative Assembly, Shri Khagendra Nath Das Gupta, Minister of Works, disclosed that the city's links with outside would be maintained as before. These links, mostly overbridges, were built long ago during the days of British rule. The Minister stated that with the increase in population it had become necessary to widen and improve certain important roads with a view to cater the growing needs of traffic. He informed the House that Government had decided to undertake the following projects at a very early date:—

- (a) Reconstruction of Tallah Railway Overbridge with 9 ft. wide pathway on both sides at a cost of Rs. 43.61 lakhs.
- (b) Widening of Budge Budge Road from 12 ft. to 18 ft. at an estimated cost of Rs. 7.79 lakhs.
- (c) Widening of Diamond Harbour Road from Sahpur Road junction to Thakurpukur at a cost of Rs. 36.85 lakhs.
- (d) Improvement of the approach road from Jadabpur to Kasba.
- (e) Thorough repairs of Russa Road South and Bansdhani Road at an estimated cost of Rs. 3.07 lakhs.
- (f) Construction of Gariahat Road Bridge over railway crossing; and
- (g) Reconstruction of Majerhat Bridge at an estimated cost of Rs. 47.70 lakhs.

In consequence of taking over a large mileage of roads and a large number of buildings constructed under the First Five Year Plan the department has lately been overburdened. There are increased expenditure in almost all the sections of the department. Besides, the department would be required to maintain if any of the above projects are completed by this time.

Whatever might be otherwise, the above projects would greatly benefit the city.

THE U. C. C. PARTY

The report of the annual elections of the United Citizens' Committee, published in a previous issue of the Gazette, should have included the name of the Assistant Secretary to the Party along with other officer-bearers. Councillor Nilratan Sinha was elected to the post. We regret for the inadvertance made in that connection.

A walk-out followed with the rejection of Councillor Anil order raised bv point with regard to the proposal Maitra as a member of Dr. Chunder nominate the Municipal Service Commission in place of Shri Bejoy Singh Nahar. Councillor Maitra and others contention was that the validity of the Commission, as it was constituted at present, had been questioned and consideration of the proposal should, therefore, be postponed. After several members had left the meeting, the proposal was passed.

CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE ELEVENTH ORDINARY
MEETING OF THE CORPORATION HELD ON
FRIDAY, THE 27TH JUNE, 1958.

REFUGEES' PLIGHT IN CITY

Rising on a matter of urgent public importance Councillor Dr. K. P. Ghosh pointed out the sufferings and misery of the refugee population who had settled on the Sealdah Station Platforms, in tin sheds and other adjoining areas. Councillor Dr. Ghosh said that the misery had filled to the cup when a few women were abducted by some unsocial elements on the 21st June, last, from a temporary shed at Kaizer Road near the Station.

Dr. Ghosh alleged that the role of the State Government in this regard was quite unsatisfactory. The indifferent attitude of the Government authorities had put them in a most difficult position. Regarding provision for their health amenities they had lots of complaints against the proper authorities also.

Councillor Dr. Ghosh thought that the Corporation should approach the Government for remedy ing many of the grievances of those suffering humanity.

ELECTORAL ROLL

Councillor Biman Mitra pointed out many of the defects and irregularities in the voters' list prepared and published by the State Government. This was meant for inviting suggestions for filling up of the omissions and commissions, if there had been any. Moreover, proper publicity work was lacking, according to Councillor Mitra.

Furthermore, Councillor Dr. Aurabindo Prasad Das Gupta drew the attention of the House to the irregularities made in preparing the Electoral Roll of the Corporation within the Tollygunge area. He urged that these rolls should be prepared in a most efficient manner so that all eligible voters were included.

The Deputy Mayor, Shri Keshab Chandra Basu, who was in the Chair, assured the House that it would be looked into.

CORPORATION REPRESENTATIVES

The House nominated Alderman Shrimati Pratima Bose, and Councillor Kumar Benoyendra Kumar Deb Rai, as representatives of the Corporation in the Minimum Wages Advisory Committee. The first one replaced Councillor K. L. Dhandhania, who had earlier resigned from the seat and the second one due to inclusion of another representative in the Committee.

MUNICIPAL SERVICE COMMISSION

The House elected Dr. Pratap Chandra Chunder, M.A., B.L., D. Phil., as a representative of the Corporation to serve as a member of the Calcutta Municipal Service Commission under Section 82(1)(b) of the Calcutta Municipal Act, 1951. Dr. Chunder's term of office will commence when the present incumbent Shri Bejoy Singh Nahar, M.L.A.'s term expires.

SPECIAL ARTICLE

PACKED AND PESTILENTIAL TOWN

By the sewage rendered fetid, by the sewer Made impure.

By the Sunderbunds unwholesome, by the swamp Moist and damp

As the fungus sprouts chaotic from its bed, So it spread-

Chance-directed, chance-erected, laid and built On the silt-

Palace, byre, hovel-poverty and pride-Side by side:

And, above the packed and postilential town, Death looked down.

That was how Calcutta seemed to Rudyard Kipling 70 years ago. Last week, slowly recovering from a cholera epidemic that killed 2,000 people, India's biggest city was as much as ever a pesthole, and in the words of the United Nations' World Health Organization one of the most unhealthy places on earth. Hemmed in by salt marshes, clinging to the angleworm course of the chocolate-colored Hooghly River, the city of Calcutta's 4,000,000 people inhabit an area about half the size of the District of Columbia. Take away the city's parks, lakes and roads and the human density is on the order of 135,000 persons per square mile. Thousands live in the streets, with entire families staking out bits of curb, usually under the protection of a marquee, where they sit, sleep, urinate, wash their clothing, cook their skimpy meals over fires made from shreds of dung scraped from the tracks of wandering sacred cows.

CALCUTTA shocks the eye with its misery, its swarming beggars on stamps of legs holding out stumps of arms, its starved mothers feeding infants at shrunken paps. It stings the nose with mingled odors of garbage, curry, roasted onions, rancid mustard oil, human sweat. It assaults the ear with the cry of hawkers, the shriek of cartwheels, the incessant din of horns sounded by bearded Sikh cab drivers who hurtle past in ancient taxis as if pursued by many-handed Kali herself.

THE BLACK HOLE: Calcutta is Kali's city, sacred to the ancient Hindu goddess of death and destruction. Britain's Empire Builder Job Charnock founded Calcutta on the banks of the Hooghly 268 years ago, near a Hindu shrine called Kalighat ("the landing-place of Kali") that marked the spot where a fringe of Kali fell when the blood-drinking goddess was sliced into 51 pieces by the disk of Vishnu and scattered over all India.

DEATH and destruction have long been the city's lot. The Nawab of Bengal stormed Calcutta in 1756, stuffed 146 English prisoners into the famed Black Hole, a prison cell that measured 15 ft. by 14 ft.; the next morning only 23 were alive. Malnutrition, cholera, small-pox, plague pay regular calls. The opening act of the great Sepoy Mutiev took place in Calcutta; more than 6,000 Moslems and Hindus were slaughtered in its streets in the wild communal rioting of 1946 that preceded the partition of Pakistan and India. In Calcutta howling well-armed mob can come to life in seconds and seemingly, on any excuse-a fraction of a cent increase in tram fares, an auto accident, a rumor. The police beat down the mobs with lathis and tear gas; the mobs fight back with stones and paving blocks and Calcutta's own secret weapon; electric-light bulbs filled with nitric acid.

THE Calcuttans are mostly Bengalis and—when not rioting—a charming, easygoing people who love the roaring life of their city, would rather talk than eat, and do anything rather than work with their hands. Bengalis crowd

Calcutta University (40,000 students), but the factory jobs in the industrial belt are mostly held by Biharis, Orissans do much of the physical labor needed in the city; wily Marwaris are merchants and bankers. Though some educated Bengalis occupy high government posts and dominate the professions, little is left for most but minor clerkships and unemployment.

The favored. On top of this bubbling pit some 10,000 privileged people—Marwari-millionaires, British and U.S. businessmen, Indian Government Officials. They flourish on the jute, tea, iron ore and textiles of Calcutta, which handles half the seaborne trade of India. For them and for the small middle class there are air-conditioned restaurants, palatial cinemas, night-spots, cricket fields, rowing clubs, handsome residences. They take late evening cocktails by the fountains in the Grand Hotel's Scherazade Garden.

The British stamp is still on Calcutta, Streets bear such names as Wellesley, Cornwallis, Amherst, Curzon, Britons, ignoring the acres on acres of jampacked bustees (native hovels), called it "the city of palaces," referring to university buildings, cathedrals, exclusive clubs, and governmental monstrosities typified by the Victoria Memorial—which took 20 years to build, was opened by the Prince of Wales in 1921 and as now slowly sinking into the oozy subsoil of Calcutta.

Bur the British Raj is gone now, and Calcutta is more odoriferous than ever. It suffocates under the weight of its people. Every day 300 more are born. Every week upemployed hundreds pour in from the countryside. There are five men for every three women in the city. From 4,000 to 5,000 of the desperately poor live permanently in the busy Sealdah Railway Station, sleeping in the dirty waiting rooms and on the platforms, lying under benches and around ticket windows. The city's administration is clumsily divided between the Calcutta Corporation (in charge of sanitation, drainage and water) and the state of Bengal, which handles, or mishandles, everything else. To charges of corruption, nepotism, mismanagement and inefficiency, Bengal's aged Chief Minister, Dr. B. C. Roy, 75, recently replied airily; "I am so much in the right that I do not bother to convince others that they are in the wrong".

THE COMMUNISTS. Calcutta's ingrained miseries, insoluble within the means available to correct them, and the result of a succession of Congress Party failings, have given the Communists much to build on. Communists now control one-fifth of the seats in the State Assembly; party membership in the last two years has doubled to 24,000. When Khruschev and Bulganin visited Calcutta in 1955, the Red apparatus was able to fill the streets with 2,000,000 screaming enthusiasts.

This week the State Assembly is meeing in Calcutta and high on the agenda is a Bill for Slum Clearance—the first such major legislation ever introduced in Calcutta. Even this first timid gesture to clean out the bustees is opposed by the Communists. They argue that the bill favours the bustee landlords, who are to be compensated for their slum holdings, and that the money would be better spent on improving areas where there is no running water and where eight toilet seats serve 400 people. Cynically, they add that nothing will come of Slum Clearance anyway.

CALCUTTANS are waiting to see. Their city, as always boils with activity night and day, restless and surcharged. In the evenings, families line the 1,500 ft. Howrah Bridge

(Continued on page 260)

CITY · NEWS · PARADE

OBITUARY: The death occurred at his residence of Shri Surya Nath Chatterjee on Sunday, the 29th June after a brief illness. He was 52.

The late Shri Chatterjee was a well-known sportsman and one of the first to popularize rifle shooting in West Bengal. He was a Committee member of the National Rifle Shooting Association of India.

PANCH SHILA ANNIVERSARY was celebrated at a meeting at the Calcutta University Institute Hall on Saturday, the 28th June. The meeting was organized by the West Bengal Peace Council in co-operation with the Kalikata Juba Sangha. This was in significance of the signing of the peace treaty based on the five principles as enunciated by Lord Budha. The treaty was signed between the Indian Prime Minister Shri Jawharlal Nehru and the Chinese Premier Mr. Chow En-Lai, four years back on this day.

The meeting passed a resolution expressing satisfaction at the wide support Panch Shila had received from the peoples of the world and a number of Governments. In a world divided into military blocs, the resolution stated, adherence to the five principles was the only guarantee for peace.

The Mayor, Dr. Triguna Sen, who presided, said that although India had not felt the direct impact of the last war, its effect on social life, particularly in Bengal, was well-known. He also pointed out that adulteration of food and medicine had become common since the war which required to be eradicated at any cost.

A HOUSE CRACK: The first and third floors in the north-east block of the Great Eastern Hotel building developed a crack at the corner of the outer part of the wall at the junction of the ground and first floors.

The management of the Hotel, hastily vacated some of the rooms appeared to be affected due to this. Alternative arrangements had promptly been made by the

HOMEOPATHY'S ROLE FOR BETTER METHODOLOGY

DR. M. N. JAYSOORYA, M.D. (Berlin), gave an illuminated talk on the better methodology of treating patients through the science of Homeopathy, on Sunday, the 22nd June last, in the premises of the D. N. De Homeopathic College, 63, Upper Circular Road.

Addressing the physicians which included a few prominent practitioners in that branch of medical science, Dr. Jaysoorya said that the science should be cultivated from a different angle than others. He was then speaking on Peramsky Researches on the action of Drugs on the Autonomic Nervous System of Human Body. The advocate of Homeoapathy also advised the physicians present to take a perspective view of the diseases which included the system, temperament and psychology of the patient suffering and not the disease alone.

The one-time President of the International Hahneman Society of India, advocated the cause of this science's introduction in poor countries like India. He felt that its proper cultivation would greatly benefit the poor masses in continuing their existence.

Dr. Jaysoorya, who had been in this city on a short visit was felicitated through different functions. He also visited a Homeopathic Pharmacy at Netaji Subhas Road in one of the days accompanied by Dr. M. N. Das, the present Secretary of International Haneman Society.

management to house some 20 or so members of the staff who had been shifted from the affected block. Barting the portion facing British Indian Street, the other parts of the hotel building were comparatively new and the affected block was mainly used as staff quarters, stores and godowns.

The Corporation authorities considered the crack dangerous and blocked the portion of British Indian Street, which the affected part of the building faces to vehicular and pedestrian traffic.

According to the Corporation's City Architect the affected portion, running at least up to 20 ft. on the east and north sides, should have to be demolished as there was little scope for repair.

The corner of the ground floor above which the crack had appeared was the dumping place of garbage from the hotel. The City Architect held that rat holes in the foundation did not appear to be a satisfactory explanation for the crack.

A MILK DISTRIBUTION SCHEME jointly undertaken by CARE (Co-operative American Remittances to Everywhere) and Lions International was inaugurated by Shri S. K. Patil, Union Transport and Communication Minister, on Wednesday, the 2nd July, for proper distribution.

About 1,500 needy children of 15 schools in and around the city will receive free milk daily for six months. Forty-five crippled children of the Rotary Clinic will be among them.

Shri Patil referred to American humanitarian activities for peoples of various countries. He said such activities, and not merely possession of wealth and military power, made countries great.

The Calcutta Lions' Club, which selected the schools for milk distribution in consultation with the Union Refugee Rehabilitation Department and the West Bengal Government's Education Department, is considering other schemes of service for the poor.

ID-UZ-ZUHA, one of the important Muslim festivals, was celebrated by the community in the city on Sunday, the 29th June. It was scheduled to be observed on the day previous. Prayers were as usual arranged in mosques and other public places. Members of the community dressed themselves in new attires and exchanged greetings with each other when they met.

The All-India Radio, Calcutta Station, broadcast a special programme on Saturday, the 28th June, which included a talk in Bengali by Janab Abul Hayat, reading from the Koran-Shariff by Mohammed Zaman Saifee Hussain. Naat and Qawwali was also heard.

A Press communique issued by the Corporation stated of "extra supply of filtered water on the occasion for extra hours."

PACKED AND PESTILENTIAL TOWN

(Continued from page 259)

for a cooling touch of breeze from the distant area, or stroll the green areas of Maidan parks. Holy men chant by lantern light as the devout perform their religious ablutions in the muddy water of the Hooghly. bazars are chocked with wandering fiddlers, cloth fortune-tellers. merchants, naked children. sidewalk barbers; every third man has fountain pens tor sale. In their thousands, the always-hungry poor lie down on their hard beds on pavement, railroad platforms, under bridges. Some of them will not rise in the morning.-TIME, June 16, 1958.

PHENEOL LAMP BRAND

A POWERFUL DISINFECTING FLUID

-DISINFECTS-

Drains, Cess-pools, Hospitals, Sick-rooms, Lavatories and every place where Dirt and Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD. CALCUTTA BOMBAY KANPUR 11

MARKET NOTICES

1. It is recommended that ecolies should be paid at the following rates:—15 minutes—Two annas. I Hour—iour annas. I Hour—eight annas. Every succeeding hour or part of an heur—four annas.

2. Coolies for carrying basar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the surrent half-year. "A" class coolies have been allowed Red arm badges with Black numbers from Nos. 1 to 400.

2. Any complaints about coolies should be made at the superintendent's Office giving the number of the cooly,

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not becought to the notice of the Superintendent at the time of eccurrence.

gramme.

5. To avoid conflicts of statements both as regards the ds purchased and the nature of the sales, customers are nested to insist on getting a voucher, as far as

cticable

6. If goods are taken "on approval" customers are commended to obtain a voucher to that effect stating the

or paid.
7. Any articles lost or found in the market should be orted at the Superintendent's Office.

E. No dogs, bicycles, tricycles, or perumbulators are allowed inside the markets.

2. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 a.m. to 7 r.m.; between 7 r.m. to 12 a.m. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Oustomers are requested that if they suspect any weight used by any vacador of that market to be short, they will bring the market mimmediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12 12. Oustomers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shep-keeper if any spurious coin is alleged to have been detected after they leave the shop.

CALCUTTA MUNICIPAL ACT (AMENDMENT) BILL PASSED

The West Bengal Legislative Assembly on Monday, the 7th July, passed the Calcutta Municipal (Amendment) Bill. This was an official Bill.

Shri I. D. Jalan, Local Self-Government Minister, moved the Amendment Bill. According to the statement of objects and reasons under Section 55 of the Calcutta Municipal Act, 1951, a person is disqualified for being elected an Alderman

CALCUTTA MUNICIPAL (AMENDMENT) BILL

In the Gazette's issue dated the 28th June, 1958, an Amendment to the Calcutta Municipal Act, 1951 in the form of a Bill, was published as a 'Supplement'. This was drafted as a private member's Buill and was not accepted by the House due to some technical defects. The State Chief Minister requested the mover to submit a fresh Bill as this was found unsuitable for the purpose for which it was meant.

The Bill was moved by Councillor Dhirendra Nath Dhar, an important member of the Corporation.

or a Councillor if such a person being a candidate at an election as a Councillor or his election agent, has failed to lodge the return of election expenses within the prescribed time.

The object of Clause 2 of the Bill is to provide, as a measure of relief, extension of time in lodging such returns.

One of the important provisions of the Municipal (Amendment) Bill is to authorize the Corporation to enter into an agreement with the Calcutta Tramways Company for using tramway posts for better street lighting.

The object of Clause 3 of the Bill is to enable Calcutta Corporation to utilize tramway posts to

fix lamps for lighting both sides of the streets so as to minimize accidents caused by insufficient lighting.

Under Section 417 of the Calcutta Municipal Act, the Corporation cannot utilize any post for lighting purposes except the posts placed and maintained by them. Hence it is proposed to amend Section 417 so as to authorize the Corporation to enter into agreement with any firm or company for using posts maintained by such a firm and company.

Earlier, the Corporation tried to enter into an agreement with the Tramways Company but this could not be fulfilled according to the stringency

GENERAL RE-VALUATIONS

The Calcutta Municipal Gazette will publish in its issues from the 19th July a list of Assessment Valuations of holdings under Ward No. 60, made on the basis of the General Re-Valuation by the Assessment Department.

The lists of other Wards covered by the General Re-valuation would also be published from time to time as soon as they are received.

of the Act. Hence a special amendment was necessary to implement a resolution passed to that effect by the Corporation.

Amendments in other sections were felt necessary both by the Aldermen and Councillors in their individual capacities as well as by the Corporation as a whole. The Corporation also appointed Special Committees for putting up suggestions as to the Amendment of the Act. All these were forwarded to the State Government for taking necessary action.

However, we appreciate the steps taken by the State Government in this regard and hope that good senses would prevail upon them in amending the rest of the Sections suggested from to time by the Corporation.

TOLLYGUNGE DRAINAGE

Recently on the floors of the West Bengal Assembly the State Irrigation Minister, Shri Ajoy Mukherjee, informed that the Government had a scheme to excavate the Panchannagram Khal to drain the water-logged area of Haltu Union under Tollygunge Police Station. It would cost Rs. 29.25 lakhs. About 8.192 acres of land would be benefited by the scheme.

The Minister added that money for the drainage scheme had been provided. The original scheme, which had been modified on technical grounds, was pending before the Planning Commission for its approval.

On the 11th July last when Corporation meeting was in progress Councillor Nripendra Nath Banerjee urged upon the House that the Corporation should move the State Government for early execution of the scheme. He narrated the untold misery of people residing at the end of the Corporation boundary namely the eastern extremity of Dhakuria and Kasba areas under Ward Nos. 76 and 77. These areas are situated on the west border of the Haltu Union which suffers badly from lack of drainage. According to him the area had been completely inundated and the water level stood at one and a half feet high due to approach of monsoons within recent days. Councillor Banerjee apprehended that flooding might encroach upon the high-level areas of those Wards soon with the intensiveness of rains.

Councillor Banerjee further said that the scheme was mooted a long-time past and the estimates were then of lesser amount than the present one. The Corporation had also a hand in that undertaking. But until its proper execution had been effected there were little chances to maintain proper health of the people inhabiting there. In this connection Shri Banerjee referred to a resolution adopted by the Corporation as early as 1924 even long before Tollygunge was merged into Calcutta. The sponsors of the resolution then realized that this would bring a great relief to the entire city of Calcutta.

At the present moment, Calcutta's drainage system has suffered much deterioration and the city itself is not free from occasional floodings due to heavy rains. And if another approach is made from the eastern extremity then the city would surely face danger.

Thus Councillor Banerjee's warning should be heard of carefuly and the State Government be approached for early excavation of the Panchannagram Khal.

SLUM CLEARANCE BILL PASSED

The West Bengal Legislative Assembly on Saturday, the 5th July last, passed the Calcutta Slum Clearance and Rehabilitation of Slum Dwellers Bill. Thus the Bill has reached at a stage of receiving the assent of the State Council. The Bill passed through a Select Committee comprising of members from both the Houses and the second reading stage was over. It was then introduced in the House during the previous session but could not be completed due to adjournment of the House. The Bill was passed by 115 votes against 46, three remaining neutrals. It took a single day to do so.

The Bill empowers the Government to clear slums in this city of Calcutta and, wherever possible, erect planned buildings after demolition of existing huts and other structures and to provide better accommodation and improved living conditions for slum dwellers.

The main objection raised against the passing of the Bill was that it did not provide effective safeguards to the bustee inhabitants, in respect of alternative accommodation at lower rents in the vicinity of their existing sites of residences in the city. There were other apprehensions also. The slow moving policy of the Government might cause the slum clearance scheme to spread over a long period even up to a century, many members contended.

All these were replied to by Shri I. D. Jalan, Minister, Local Self-Government Department, who introduced the Bill in the House and piloted it through both the Houses.

The Opposition members also feared that with the limited money at the disposal of the Government it would not be possible for it to clear the slums even if a target date was fixed. They said it would have been more realistic if the Government had assisted slum dwellers in improving their living conditions themselves and provided essential amenities in bustees. According to them, the upshot of the Bill would not be bustee improvement but payment of high compensation to landlords and eviction and harassment of the present inhabitants.

In reply Shri Jalan said that in most bustees hardly any improvement could be effected unless the existing structures were demolished. He admitted that complete removal of bustees would take time and depend on resources available. But a start had to be made. He would not deny that in developing slums temporary inconvenience was bound to be caused to their inhabitants.

Pleading for the Bill, Shri Jalan informed the House that the aim of the Government was to remove the difficulties of bustee dwellers. It would be unrealistic to say that no one would be inconvenienced in any way; the Government would see that bustees were developed with the least inconvenience to their inhabitants.

Initiating the day's discussion, Shri Hemanta Kumar Basu, representing a part of the city, said that about 5.5 lakhs of people lived in slums spread over 4,000 bighas of land. In any event, their development would have been an expensive affair. The way the Government had chosen to do this would make it much more expensive than it should be.

Shri Basu wanted tenants given occupancy rights and those of them, who had the money, be encouraged to build their own houses according to Government plans. Many amenities such as water supply, electricity, and drainage, could even now be provided. To speed up bustee improvement the Corporation should be given powers and the Government should seek public co-operation.

Shri Ganesh Ghosh said that there were about 4,000 bustees in this city. With its existing resources it was doubtful if the Government could take more than two or three bustees a year. Representing an area mostly Bustees, Shri Ghosh feared that under Government management rents of buildings to be erected would be higher than the people could afford to pay.

Dr. M. A. Q. Gani calculated that with Rs. 2 crores at its disposal under the Second Plan, the Government would not be able to construct tenements for more than 25,000 inhabitants in five years. This meant that a century would pass before Calcuttas five and a half lakh bustee dwellers could be settled in tenements to be erected after the demolition of existing bustees.

Supporting the Bill, Shri Nepal Roy requested the opposition parties to co-operate with the Government to solve the problem.

Shri Jatin Chakravarty suggested formation of a Board with non-official representatives to tackle the bustee problem while Shri Subodh Banerjee maintained that the provisions of the Bill could not be implemented and the purpose for which the Bill had been introduced could not be achieved.

Shri Niranjan Sen representing the greater Calcutta area, asked what the Government proposed to do about bustees outside the city and in industrial areas.

Shri Deven Sen, who represented an area in the city mostly of bustees, apprehended that the economic life of the lower middle class Bengalees would be threatened by the operation of the measure. He characterised the Bill as an unrealistic one, which had no good of the people at its back. They were not going to allow people to be stranded and their economic life shattered by the Bill. The Bill, he said, did not contain any assurance of a tradewise resettlement of the dehoused population.

Shri Amar Bose said that the vast majority of the bustee dwellers would be confronted with the problems of rehabilitation. Most of the bustee people belonged to poor middle class who feared that the rent for the alternative accommodation would be beyond their capacity to pay. He urged upon the Government to consider this difficulty while fixing the rent of tenements.

Dr. Narayan Roy apprehended that the operation of the Act would have adverse repurcussions on the middle class population of Calcutta Bustees. Many decent citizens were now living in them. He emphasized the need for providing economic rehabilitation to the dehoused population of the bustees.

Whatever might be the trend of speeches in the discussion on the Bill on slum clearance, the housing problem stands in the top-most. And its acuteness gives cause for much concern in this regard.

While something was done in regard to subsidized industrial housing in the Greater Calcutta area, the progress had been slow in this city. Under the present arrangement the Calcutta Improvement Trust has done something both for the industrial as well as for middle class housing.

But progress has been equally slow in the matter of slum clearance and provision of alternative accommodation. The West Bengal Government could not draw more than nine lakhs of rupees from the Centre out of a total allocation of Rs. 2.8 crores for the purpose.

The Corporation's Scheme in this regard has progressed a little. The Rs. 2-crore scheme to provide houses for sweepers was discussed at a meeting between the Union Minister of Works, Housing and Supply, Shri K. C. Reddy, and the Mayor, Dr. Triguna Sen, recently, when the former

had visited the city. The Minister appreciated the need for implementation of the scheme, but he pointed out the difficulty of finding funds to that extent.

The Minister further pointed out that all funds allotted for clearance of slums in Calcutta had already been earmarked almost completely. He, however, assured that the Ministry would discuss with the Planning Commission and the Central Finance Ministry to examine whether finances to that extent, could be found for the scheme. This could be done either by raising the allocation for Slum Clearance Schemes in West Bengal or by augmenting the overall resources for housing schemes in the country.

The Sweepers' Housing Scheme of the Government of India has been formulated on the lines of the slum clearance scheme. The Centre gives 50 per cent. of the total cost of the schemes as loan and 25 per cent. as subsidy. The remaining 25 per cent. is raised either by the local authority or by the State Government concerned.

It may be noted here that recently three Central Housing Schemes relating to West Bengal were discussed and their progress reviewed at a meeting of Shri K. C. Reddy, Union Minister of Works, Housing and Supply, the State Chief Minister Dr. B. C. Roy and Shri K. N. Das Gupta, State Minister for Works, Buildings and Housing.

A review of the low-income housing scheme disclosed satisfactory progress. The allotment under the Plan for this scheme is Rs. 2.75 crores.

Under the subsidized industrial housing scheme Rs. 1.69 crores has already been drawn by the State Government out of the Plan allotment of Rs 4.70 crores. It has been decided that the State Government will shortly formulate a Rs. 3 crore scheme.

The West Bengal Government is making every effort to implement the schemes and for this purpose has set up a high-level Housing Advisory Committee with Shri K. N. Das Gupta as Chairman. The State Government proposed to undertake a composite scheme of all the three groups on the bank of the Circular Canal off Manicktolla Bridge. The scheme is being finalized and will shortly be forwarded to the Union Government for technical scrutiny.

RATE-PAYERS' DIFFICULTIES EXPLAINED

(Continued from page 281)

The Conference then further resolved that by indiscriminate raising of taxes alone the financial problem of the Corporation cannot be solved. In order to put the finances on a firm footing, it was necessary to obtain a larger share of the Motor Vehicles Tax, to raise the fees on amusements, to collect Octroi Duties, to augment revenues from cinema houses by suitable amendment of Sub-section 4 of Section 168 of the Act and to levy imposts on plants and machinery in accordance with the recommendations of the Local Finance Enquiry Committee. It was the considered opinion of this Conference that the yield could be increased only by recourse to these measures and that progressive raising of the rates year after year should be put a stop to.

CORPORATION AT-WORK

A GIST OF PROCEEDINGS OF THE TWELFTH ORDINARY MEETING OF THE CORPORATION HELD ON FRIDAY, THE 4TH JULY, 1958.

INCREASED PRICES OF ESSENTIAL **FOOD-STUFFS**

At the outset, Councillor Dr. K. P. Ghosh drew the attention of the House to the abnormal increase in prices of essential food-stuffs in the city as well as in the State of West Bengal. Councillor Dr. Ghosh emphasized that this increase had caused much hardship to the citizens particularly to people belonging to middle class or lower middle class groups. Their sufferings have been multiplied with the non-availability of many of the medicines and other necessaries in the open market. The retrenchment axe had also added the problem much.

Councillor Dr. Ghosh thought that unless there was a price control system of essential foodstuffs or an enhanced rate of emoluments to the wage-earning population the hardship could never be mitigated. The present policy of retrenchment pursued by many of the business houses should also be stopped in order to maintain their income level.

Councillor Dr. Ghosh wanted that the Corporation should move the State Government in this regard.

CONSERVANCY SERVICES

Councillor Mohammad Ismail complained that accumulation of garbages in various points made the city unhealthy. He alleged that this was due to failure of conservancy lorry services and there were accummulated garbages for three or four days continuously in many points. Even the shortage of unfiltered water had caused flushing work difficult.

Councillor Md. Ismail urged upon the Mayor, Dr. Triguna Sen, for taking measures for speedy removal of garbages.

TOLLYGUNGE PEOPLES' SUFFERINGS

Councillor Nripendra Once again Nath Banerjee drew the attention of the House to the scarcity of filtered water in Dhakuria area. He described the sufferings of the citizens. He informed the House that the scarcity had become so acute recently that a section of ladies had come on a deputation to see the Mayor in order to place their grievances.

Councillor Banerjee felt that if financial difficulties had stood in the way of implementing many of the projects then the Corporation should have pressed upon the Union Government for adequate grants or loans.

The Mayor, Dr. Sen, however, requested the Chairman of the Standing Water Supply Committee to meet the deputation and to see what could be done in this regard.

IRREGULARITIES IN LIGHTING **DEPARTMENT**

Pointing out to a news item published in a section of the Press, Councillor Samar Rudra said that the Corporation lost several lakhs of rupees through an alleged malpractice of a responsible officer. He demanded of the Mayor to investigate into the matter. He also said that this had caused a loss amounting to Rs. 36 lakhs in connection with purchase of electric poles for providing street lighting. According to Councillor Rudra, the Chairman of the Standing Public Utilities and Markets Committee was in the know of facts and he should have disclosed it earlier.

Councillor K. L. Dhandhania, Chairman, Standing Finance Committee said that the Committee received a report from the Chief Accountant regarding this matter. It had also asked for a statement from the officer concerned. He assured the House that the Committee would, in duecourse, place its findings before the House.

DETERIORATED GAS SUPPLY

Speaking on a matter of urgent public importance, Councillor Narendra Nath Sen, pointed out that there had been a deteriorated quality of gas supply in this city causing poor gas lighting on streets. Even the supply during day time had so much depleted that the consumers' sufferings had increased much. Even the University Science College Laboratory could not be fully worked out due to low pressure in gas supply. Similar difficul-ties had also been faced by many of the manfacturers of small scale industries who work with it. So far the quality of supply scale concerned there were adulterations and other defects.

Councillor Sen wanted that there should be a , stop to this practice.

NEW MARKET PLACES

The House, on the recommendation of the Standing Public Utilities and Markets Committee, declared the following places as open markets. These places have satisfied the necessary requirements of the Corporation:-

- (1) Premises Nos. 85 & 87, Syamaprasad Mookerjee Road (Ganesh Katra),
- (2) Premises No. 135, Canning Street,(3) Premises No. 83, Syamaprasad Mookerjee Road (Luxmi Katra).
- (4) Premises No. 30, Rani Rashmoni Road.

CREATION OF A POST

The House, on the recommendation of the Standing Finance Committee, permanently created the post of an Assistant Medical Officer, Mansatala Chest Clinic.

A RE-ORGANIZATION

Based on a recommendation of the Standing Finance Committee, the House decided to reorganize the Planning and Development Department with a number of personnel attached to it.

It was further directed that the Standing Finance Committee, the Standing Works Committee and the Standing Water Supply Committee should sit together and decide what personnel should be appointed actually for any particular project and to speed up the implementations of the projects.

QUALIFICATION OF OFFICERS

The House, on the recommendation of the Standing Finance Committee, prescribed certain qualifications for the posts of Deputy Assessor and Assistant Assessors.

Shri Siddhartha Sankar Ray, (sitting fourth from left and facing camera) addressing the members of the Press. Shri Sunil Das, M.L.A., Councillors Anil Maitra, Prasanta Sur, Kumar Dutta, Sudhir Mukherjee, Satyananda Bhatta charyya, Sachin Sen, Mani Sanyal and others are seen in the picture.

Photo: Anjan Gupta.

RATE-PAYERS' DIFFICULTIES EXPLAINED

The enhancement of Consolidated Rates in Calcutta houses and buildings caused by the system of assessment under the Municipal Act, 1951, was discussed at a Press Conference by Shri Siddhartha Sankar Ray, a former Judicial Minister of West Bengal, on Monday, the 7th July, at Hotel Metropole, Central part of the city, on behalf of the rate-payers. This was the effect of General Revaluation of properties made every sixth year as provided under the Act.

Several Councillors and representatives of the South Calcutta Citizens Co-ordination Committee took part in that discussion.

Of the Corporation's 80 Wards, revaluation in 43 under the new Act has so far been completed. Assessment in the rest of the Wards is likely to be made by April next year. Of the Corporation's total revenue 84 per cent. is said to be derived from the Consolidated Rates and there has been marked improvements through this G. R. System. And now the valuation had increased from Rs. 11 crores in 1951-52 to Rs. 21 crores in 1957-58.

Shri Ray apprised the Pressmen that absence of any guidance in the Act in respect of "fair rent", the valuation was being fixed in an "arbitrary" manner. There should have been something concrete, for example a table, before the executive officer concerned to assess the rent.

The present mode of assessment under the existing Act, has caused great hardship to the rate-payers. We have had the opportunity of witnessing the working of the system for the last six years. Sharp increases in valuation have uniformly been the result. Enhancement by 100 per cent. has been almost the general rule. Increases upto 300 per cent, are also frequent, emphasized the former Judicial Minister. The annual tax has multiplied from Rs. 2 crores to Rs. 4 crores.

There was a provision under the old Act for granting lower percentages in appropriate cases.

This was abolished under the present law. The provision requires to be restored, he added.

Anomalies are most apparent in cases of partly or wholly residential buildings. Under the old Act these were assessed on cost basis. Now, the valuations are made on the rental basis in these cases also. Speaking on behalf of the South Calcutta Citizens Co-ordination Committee, Shri Ray said that the system of assessment under the new Act had caused great hardship to rate-payers. This had affected 63 per cent. of the rate-payers whose valuation of properties stood below Rs. 1,000 only. At the same time there had been continuous deterioration in the services rendered by the Corporation. He also referred to the resolutions adopted by the Committee at a meeting held about a month ago in South Calcutta. He and his Committee had no inflexible attitude towards the solution of the problem. They believed that the valuation should be assessed on the cost of construction of the building on the basis of a particular year, or, "fair rent" should be clearly defined in the Act itself.

Shri Ray also said that under the new Act, people in the bustees had to pay taxes at the maximum rates while richer sections were not touched at all. Bustees were being assessed as one unit, and the entire rent of all the huts, sometimes numbering over 100, was taken into account and the aggregate rent was taken as the annual rent for the purpose of valuation. According to him, each unit should be dealt with separately otherwise, each hut owner would have to pay a much higher tax. Similarly he wanted that there should be a difference between the commercial houses, those situated in business quarters and non-commercial houses lying in residential areas.

CITY-NEWS-PARADE

OBITUARY: The death of Mr. A. Tholasingham: occurred at the Seth Sukhlal Karnani Hospital on Tuesday, the 8th July. The late Mr. Tholasingham was the Chief News Indexer of the "The Statesman", Calcutta. He was 52.

The late Mr. Tholasingham joined "The Statesman" in 1943 after long service in the 'Madras Mail'. An affable man, he was very popular among his colleagues.

The death of Shri Benoy Kumar Roy, Advocate, occurred after a protracted illness, on Sunday, the 6th July at his South Calcutta residence, Lake Avenue. He was 78.

During pre-partition days, the deceased was a distinguished lawyer of North Bengal and a popular figure of Pabna town, now in the East Pakistan. He was the Chairman of the Pabna Municipality, Secretary of the Bar Association, Secretary of Sadar Hospital Committee and also a member of the Governing Body of Pabna Edward College.

Prof. Jatindra Nath Sinha, M.Sc., Head of the Department of Mathematics, Vidyasagar College, passed away in his Calcutta residence on 10th July.

Born on 8th October, 1899, the late Prof. Sinha served the College since 1921, first as a lecturer in Mathematics, and then as the Head of the Department.

The late Prof. Sinha's death was widely mourned. A large number of friends, colleagues, and students rushed to his residence as soon as the news of his death reached them. Carrying the bier a large procession of students and teachers paraded the city streets when they wended towards the funeral place.

AMERICAN STUDENTS IN CITY: Seven students, including three girls of California University, reached Calcutta on Tuesday, the 8th July for a short stay. They came directly from Bombay. In this city they mainly met college students to remove any "misunderstanding" they might have regarding the American way of life.

During their three weeks' visit to the city the students, who are on a good-will tour of India, will work with members of the Bharat Sevak Samaj to build huts in refugee colonies in South Calcutta. Their programme also includes a visit to Santiniketan.

AN EXHIBITION OF CHINESE GRAPHIC ART was opened at the Indian Museum Building, Calcutta, on Saturday, the 5th July last by the Chairman of the State Legislative Council, Dr. S. K. Chatterjee. Lady Ranu Mookerjee presided. Mr. Ly Hsi, Consul-General of the People's Republic of China, was present.

Prof. Nirmal Chandra Bhattacharyya, Secretary of the India-China Friendship Association, which sponsored the Exhibition, said that it was intended to mark the third State Conference of the Association to begin towards the early part of August.

Dr. Chatterjee recalled China's contribution towards enrichment of art, philosophy and crafts, China took to graphic art, about 2,000 years ago. It was the first to print books with coloured illustration, and graphic art developed through this form of illustration. Under the present Communist regime, Chinese art was centered round the common man, added the Chairman of the Council.

Lady Mookerjee heped that the Chinese Government would be seen that the chinese covernment would be seen that the country.

CALCUTTA UNIVERSITY LAW COLLECE'S GOLDEN JUBILEE was celebrated builtingly at the Darbhanga Building Hall, on Friday, the 4th July last. Among those present were many old students, including retired High Court Judges.

The unique position occupied by the Law College in legal education was emphasized by Prof. N. K. Sidbanta, the Vice-Chancellor, and Pref. P. M. Besserjee, Principal of the College, at that function.

In course of his speech Prof. Sidhanta recalled famous names, like Sir Asutosh Mookherjee's, who had been associated with the College.

Prof. Beneriee claimed that the College had given to India its first President and two Chief Justices of the Supreme Court. All were proud of the services rendered in different fields, especially to Bengal's intellectual life, by students of the institution.

As Principal of the biggest Law College in India, Prof. Banerjee said his ambition was to make it a centre of "original thinking." He was also conscious that such thinking could flourish only in a correct atmosphere. The institution's main difficulty was its acute lack of space.

The celebrations began in the morning with the hoisting of the flags of the University and the College by the-Vice-Chancellor on the lawns of Darbhanga Buildings.

THE INDIAN INSTITUTE FOR BIO-CHEMISTRY AND EXPERIMENTAL MEDICINE was visited on Wednesday, the 9th July, by Janab Humayun Kabir, Union Minister for Research and Cultural Affairs.

In course of his remarks Janab Kabir assured that: the Government would give all possible encouragement for: higher research on that subject.

The need for fundamental biological research for solution of practical problems of health and medicine was also-stressed by Janab Kabir, Union Minister for Scientific.

Research and Cultural Affairs, in course of his visit there.

Dr. J. C. Ray, Director, said that the Institute was the first to develope a vaccine for the treatment of a protozal disease known as Oriental Sore and to introduce it in Therapy.

The Institute was among other things, engaged in mapping out the permanent sources of infection of cholera in and around the city.

Dr. Monomohan Das, Union Deputy Minister for Scientific Research and Cultural Affairs, was also present.

A MILK DISTRIBUTION SCHEME jointly undertaken by Co-operative American Remittances to Everywhere and the Lions International was inaugurated by Shri S. K. Patil, Union Transport and Communication Minister, at the Marble Hall, Raj Bhavan on Wednesday, the 2nd July last.

The scheme distributes free milk daily to nearly 1,500 needy children in the age group 6 to 12 years belonging to 15 schools. Among the recipients is Paschim. Bangla Samaj Seva Samity who have undertaken the distribution of free milk to 400 children in six schools.

Shri Patil praised the humanitarian activities of the Americans in various parts of the world. Such activities, he said, and not merely possession of wealth and military, power, made a nation great.

PHENEOL LAMP BRAND

••

A POWERFUL DISINFECTING FLUID

-DISINFECTS-

Drains, Cess-pools, Hospitals, Sick-rooms, Lavatories and every place where Dirt and Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD. CALCUTTA **BOMBAY** KANPUR

MARKET NOTICES

1. It is recommended that cooles should be paid at the following rates:—15 minutes—Two annas. A Hourfour annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Cooles for carrying bazar purchases are obtainable at the principal entrances and care should be taken that anly cooles bearing number badges are engaged. For the current half-year. "A" class cooles have been allowed bear and the supplementary badges with Block numbers from Nice 1 to 1000.

enly coolies bearing number badges are engaged. For the current half-year. "A" class coolies have been allowed Red arm badges with Black numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not becought to the notice of the Superintendent at the time of occurrence.

occurrence

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the serios paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

No dogs, bicycles, tricycles, or perumbulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lesses thereof on payment of a fer of 0.1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 a.m. to 7 p.m.; between 7 p.m. to 12 a.m. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle 1-8-1-8-0. The Corporation does not take any liability

Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are equested that if they suspect any weight used by any endor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

SHRIMATI JOGMAYA DEVI PASSES AWAY

We deeply regret to announce the death of Shrimati Jogmaya Devi, wife of the late Sir Asutosh Mookerjee at her Bhowanipur residence on Wednesday, the 16th July. She was 87.

The late Shrimati Jogmaya Devi was in broken health for the last five years—her health having broken down after the death of her illustrious son, Dr. Syama Prasad. Her condition took a serious turn during the last three days before her end came. She was in full possession of her senses till death.

As soon as the news spread over the city many of the educational institutions were closed. Important citizens including the ex-Mayor, Shri Satis Chandra Ghosh, rushed to her residence

Wreaths were placed on behalf of the University of Calcutta, Asutosh College, Mitra Institution and other public bodies as well as by individuals. A funeral procession carrying the bier was taken to the Sahnagore Burning Ghat, where many of the members of her family were cremated.

Sm. Jogmaya Devi was 13 years old when she was married and came to live in South Calcutta as the daughter-in-law of the late Ganga Prasad Mukherjee. Born of a high family of Krishnanagar, she was a daughter of Pandit Ram Narayan Bhattacharyya.

Highly religious minded, the late Shrimati Jogmaya Devi had fair knowledge of the 'Puranas' and the 'Upanisads', which she learnt from her father and late husband. She was kind-hearted and made silent contributions to many social and educational institutions. Besides, she helped many poor families throughout her lifetime.

Once in her life she intervened in public life after the death of her brave son, Dr. Syama Prasad Mookerjee, in 1953 when she addressed an open letter in reply to the Prime Minister Shri Jawaharlal Nehru's letter of condolence. The whole country became aware of the spirited mother in her through the letter.

The weekly mering of the Corporation on Friday, the 18th july, was adjourned for the day as a mark of respect to her memory. The House also stood in silence praying peace for the departed soul. The meetings of the Standing Committees were also adjourned on their scheduled dates.

Moving the condolence motion, the Mayor, Dr. Triguna Sen said:-

অত্যন্ত শোকসন্তন্ত চিত্তে ন্বৰ্গত স্যার আশ্তোৰ মনুখোপাধ্যারের সনুযোগ্যা সহধন্মিণী শ্রীমতী বোগমারা দেবীর লোকান্তর সংবাদ আপনাদের জানাইতে হইতেছে। গত ১৬ই জনুলাই, বুধবার বিপ্রহরে, আশ্তোৰ মুখান্জী রোডন্থ বাসভবনে ৮৭ বংসর বরুসে এই প্রম নিন্টারতী ও ধন্মপ্রাণা মহিলার জীবনের পরিস্মাণ্ডি ঘটে।

MORE ABOUT WATER SUPPLY AND FARAKKA

The deteriorating quality as well as the inadequate quantity of supply of filtered water in this city have caused much anxiety to the individual citizen and the authorities concerned. Concerns were expressed earlier by the Corporation Councillors upon whom the prime responsibility of water supply rests. In many of the weekly meetings as well as in a special meeting convened for the purpose, the Councillors discussed the issue inconclusively. Many members put up suggestions of constructive nature and if adhered to they could have placed the Corporation in a more advantageous position than before. Sinking of small-diameter tube-wells had always helped mitigate the situation as a temporary measure. The Corporation's attempt in other ways-both by sinking of big-diameter tubewells and extension of plants and machinery towards the permanent solution of water supply is in progress. The completion of laying up of a new 72 inches Pulta-Tallah Main would, no doubt, go a long way to solve the problem.

Since the earlier days of the present session the issue of water supply, its quality and quantity, was raised in the House whenever an opportunity was presented before it. The leader of the Opposition, Shri Jyoti Basu, pleaded one day about the inability of the State Government for not ensuring adequate quantity of water supply and the consequential cholera epidemic. Shri Deven Sen, a representative from the northern extremity of the city, wanted another day to discuss the issue to the utmost. But this was refused with an assurance to do so later on.

On Thursday, the 10th July last the issue came for discussion again when Shri Sunil Das, representing the southern part of the city, moved a motion expressing concern at the deteriorating quality of city's water supply and reduction in quantity. The motion was inconclusively discussed on a previous day. It was, however, rejected by the House on that day, also said Dr. Roy.

During discussion, the members argued that the Government had failed to ensure that the Corporation performed its duties properly in this regard. Many members asked why Messrs. Structural Engineering Co., a Bombay firm, had been entrusted with the work of laying a new main between Pulta and Tallah. They enquired why they had not yet installed a plant to fabricate about 4,000 tons of steel which had been lying in the open field for a year.

Intervening the Chief Minister, Dr B. C. Roy, claimed that while the population of Calcutta had increased five times since its water supply was laid on in 1872, the supply had increased 15 times. "But I do not say that we attained the target we desired; nor is there any room for complacency", he added. Want of proper pressure in the mains was one of the reasons why people had to use unfiltered water, which might carry germs, for many domestic purposes.

Replying on the occasion, Dr. A. B. Ray, Health Minister, said that the primary responsibility for Calcutta's water supply lay with the Corporation, but in emergencies, such as this year's cholera epidemic, the Government stepped in to help the Corporation.

Stating that about 90 million gallons of water were supplied daily in the city, he claimed that the supply was adequate. It worked out at about 30 gallons per head per day. Dr. Ray further asserted that chlorination was adequate to eliminate harmful germs without affecting the flavour of the

Resuming the debate on that day, Shri Somnath Lahiri who also represented a part of the city, said that the State Government and the Central Government were equally responsible as the Corporation had failed to supply adequate filtered water in the city.

While speaking of the implementation of water supply, Shri Lahiri said that tube-wells in a bustee have been given an alternative name by the inhabitants who called them memorial columns. Disclosing this Shri Lahiri suplained that the bustee dwellers had coined the same because each tubewell they used was connected with a cholera outbreak and had only been sunk after lives had been

When he visited the bustee during the recent epidemic the residents had told him that they only hoped to get two tube-wells when the number of deaths rose to 25.

Shri Jatin Chakravorty who also represented a part of the city, referred to a report, purported to have been made by some experts, of samples of filtered water supplied in Dalhousie Square area which was stated to have noted the absence of residual chlorine in them. He further said that unless adequate water supply was ensured citizens would launch campaigns to have them.

In one of the previous days during discussion on the resolution on water supply several members, including Dr. Suresh Chandra Banerjee spoke on the issue.

Councillor Dhirendranath Dhar charged the Government with indifference towards such a vital problem as water supply not only in Calcutta but also in the districts. He said that unless the present personnel was removed and efficient men were appointed there was no chance of the Corporation's administration improving.

Dr. Banerjee expressed concern over the high salinity of the Hooghly because of its inadequate flow of sweet, upland water. If the Government did not take proper steps in time Calcutta would meet the same fate as Gour, Tamralipta and Saptagram.

Lately, salinity in filtered water has appeared to have existed in greater magnitude than any other impurity. The report of the saline contents in river water was, however, published in a previous issue of the Gazette. The Corporation tried its level best to do away with the evil still the attempts were not successful. A legislator complained that tea was unpalatable. The city's housewives cursed the authorities as they had suffered from the trouble of falling hairs and what not.

The Mayor, Dr. Triguna Sen wrote to several laboratories in the United States of America for information on available processes for converting saline water to fresh. It appeared that for some time past, the Interior Department of the U.S. Government had been directing various research projects in this field with a view to find out a permanent solution of the saline water conversion problem. It is evident from the following:-

"The saline water research program needs a boost, says Sen Anderson. It needs a chance to prove itself, to make use of some of the research results obtained by OSW. For saline water research, he says, we should do the same thing we did for atomic energy: Pick three or four of the most promising processes as they stand today, and build at least one full-scale demonstration plant. This may possibly be the best investment we ever made."

The progress so far made in this regard may be seen from the following:-

"From a field of 20 starters, the most promising conversion methods appear to be these: several distillation and membrane separation processes and

one form of this water separation by freezing. Here is where editoplent work is needed. Some pilet plant work is where way at Harbour bland, N.C. Here, two maddled distillation processes—one based on vapour compression, the other on multiple-effect evaporation—are under test."

What is needed then is to start research work on developing an economic process of converting saline water to fresh on the best method suitable for Indian conditions in collaboration with the State and the Union Governments. The immediate need is reduction of salinity in Ganga water from 600 parts per million to 40|60 parts per million. And even if a research work is completed it would take long time to erect a plant suitable for the increasing water supply in accordance with Calcutta's needs. In U. S. A. the work was started in 1952, and it had been fulfilled the other day only.

About costs, some idea can be formed from the following:-

"A Sub-Committee of the Senate Interior Committee last week approved legislation authorising the construction of five plants by the Department of Interior to demonstrate the feasibility of converting saline water to potable water. Three of the plants would operate on salt water or sea water, of which two would be of a scale to handle one million gallons daily. The third would be a small plant to be erected in Virgin Islands. The two other plants will operate on brackish water converting from 2,50,000 to upwards of one million gallons daily of potable water. Cost of the programme is estimated in the bill at \$10 million."

In Bombay, the Corporation used to charge 14 annas per 1,000 gallons to industrial users some years back. In Calcutta cost for the production of filtered water from the Ganges is nominal compared to the \$ 1 per 1,000 gallons which industrial users in the U. S. A. think an economical figure. But if the charge of removing salinity causes a higher level of rates then it would be difficult for the citizens to maintain themselves. Besides, the problem of water shortage has to be faced in anoother way.

Leaving apart those things, if we discuss the question of undertaking a scheme for constructing Ganga Barrage at Farakka for chanelling upland fresh water towards the city, we find that even if work on the project is begun right now, it would take at least ten years to complete it. Recently, the Union Minister, Shri S. K. Patil assured the citizens of Calcutta, in a political conference, that there would be very little delay in undertaking the task. While another Union Minister, Shri Asoke Sen, who also represents a part of this city in the Parliament, told that the delay was due to some international controversies. And the exact position is far from anybody's knowledge.

The West Bengal State Legislative Assembly, con that day also passed a resolution asking the State Government to approach the Union Government for a definite pronouncement on the immediate inclusion of the Farakka Barrage project in the Second Five Year Plan. It was being moved by Dr. Suresh Chandra Banerjee, that passed on a voice vote. The mapority party refrained from voting.

A few years ago, the Assembly had passed a similar resolution unanimously and the mover did not think that the Government could do anything more at this stage.

Several members hinted on that day, that if the Centre did not reject, they might have to start a movement, in which they hoped all would join.

Speaking on the occasion Dr. Roy thought that the barrage was one of the three projects which would greatly benefit Calcutta. The other was reclamation of the North Salt Lake area.

Emphasizing the importance of the Farakka Barrage Project which would also provide a road and rail link between the northern and southern parts of West Bengal, Dr. Roy listed five major benefits expected. These were: Improvement of navigability, a decrease in salinity, improvement of drainage capacity and the consequent reduction in the chances of floods, a decrease in the intensity of tidal bores and reduction of sandbar dangers.

Dr. Roy also added that he had heard that the Union Government had accepted the report of Dr. Hensen who had been asked to examine the projects.

The Union Government had forwarded to the State Government an estimate of expenditures to be incurred to conduct investigations which would be spread over two years from March, 1958, to collect data in connection with the project. This part of the work could not be foreseen during the First Plan period.

From the above, it appears that Farakka Barrage is the prime perd of this day.

WEEKLY CALCUTTA WEATHER

Calcutta had one of the heaviest showers on Thursday morning the 10th July. There were showers also on Wednesday.

The city recorded about 1% in rainfall during the 24-hour period ended 8-30 A.M. on Thursday, much of it concentrated within the last two hours. Torrential rain continued for some time after that. The rainfall recorded 1.79 inches during 24-hour period ended that evening.

The city's storm water drainage system was put to severe strain and several areas in the north and the south became water logged bringing train services in these areas to a standstill for hours. Bus services ran in several cases, with diversion of routes.

A large part of the Maidan was a sheet of water. Breakdown of cars and lorries occurred in scores.

Russa Road in South Calcutta-where the railway overbridge crosses it was the worst affected area. On Thursday morning water accumulated there to a depth of 27 in.

Over 400 telephones in the "23" exchange area, covering the Chowringhee region, went out of order owing to damage caused to main underground cables.

Although intermittent rains with one or two heavy showers were the forecast for many of the days still on Tuesday, the 8th July, rainfall recorded only 0.96 inch. The rainfall on the last week-end days were slight and negligible. Thus Calcutta recorded only 5.3 inches of rain since June 1, a deficit of more than nine inches, the normal being 15 inches for the period. The rainfall in the corresponding period last year, was eight inches only. Between 1949 and 1956, rainfall during the period had always been above 11.5 inches. The highest during these years—16.5 inches—was recorded in 1950.

A unique teature so far of this year's monsoon, delayed by a fortnight, is that it has not been associated with depressions which cause heavy and widespread showers.

THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE THIRTEENTH ORDINARY MEETING OF THE CORPORATION HELD ON FRIDAY, THE 11TH JULY, 1958.

CITY'S TRANSPORT DIFFICULTIES

Referring to the heavy burdens on the city's transport system particularly during peak periods of office hours, Councillor Samar Rudra said that another feather had been added to the burden by the city's taxi drivers. Councillor Rudra alleged that these drivers generally showed their reluctance to carry passengers on short distances. Even they had been given so much indulgence by the authorities that they would generally refuse to take bonafide passengers unless they were pursuaded to do so. In that connection he narrated his personal experiences when he suffered a few days back for want of a taxi for carrying him a short distance.

Councillor Rudra admitted that this was the result of shortage of adequate public carriers in this city. But he wanted that Corporation should move the authorities so that these taxi drivers were taken to task.

The Mayor, Dr. Triguna Sen, however, assured the House that he would look into it.

G. R. IN CORPORATION

Councillor Dr. Sukhabehari Mukherjee pointed out certain irregularities in the Assessment Department, particularly the section dealing with General Revaluation of the city's properties and holdings. Councillor Dr. Mukherjee informed the House how the Department concerned had moved recently—and caused harassment to the rate-payers. A single rate-payer residing in his area had been served with four similar intimation notices issued on the same date under the signature of the same officer. Failing to unfold the mystery behind the curtain Councillor Dr. Mukherjee further alleged that instances were not rare where similar events had happened.

Councillor Dr. Mukherjee hoped that Assessment Department should refrain from issuing such notices in future and thus rate-payers' money would be much saved by this.

ACCUMULATION OF GARBAGES

Pointing out that accumulation of garbages in the Sealdah area had caused constant deterioration of citizens' health, Councillor Sudhangshu Sekhar Mitra wanted that the Corporation would have taken a quicker measure in removing them from the street corners.

In that connection he mentioned two of the plague spots in Ward No. 44 which he represented in the House. He stated that frequent reminders to the District Engineer's Office for removal of garbages from Bepin Ganguly Street in front of Nafar Kolay Market had proved fruitless. Another spot was at the junction of Mahatma Gandhi Road and Baitakkhana Road in front of Sir Surendra Nath College where garbages generally accumulated

for days together. Councillor Mitra complained that this was against the previous assurance of introducing house to house collection for the improvement of conservancy services. Before conclusion he wanted for the immediate implementation of the scheme as well as removal of garbage from those two places.

ASSOCIATE MEMBERS TO STANDING COMMITTEES

The House associated the following citizenswith the Standing Committees mentioned against each, under Section 15(2) of the Calcutta Municipal. Act, 1951:—

- 1. Standing Education Committee:-
- (1) Shri Sambhu Mullick, (2) Dr. Kshetra-Sadhan Banerjee and (3) Shri Kalikrishna Ganguly.
 - II. Standing Accounts Committee:-
- (1) Shri Kshirode Bhattacharyya, (2) ShriM. Dutta Roy, and (3) Major T. R. Gupta.
- III. Standing Finance Committee:-
- (1) Shri Anil Chattapadhyaya, (2) Shri Anil Mitra, and (3) Shri Indu Prakash Chatterjee.
- IV. Standing Health Committee:-
- (1) Dr. Souren Sen Gupta, (2) Dr. Samar Roy Chowdhury, and (3) Dr. Renuka Bose.
- V. Standing Town Planning and improvement Committee:
- (1) Shri Amulya Kumar Sarker, (2) Shri Mohan Ghosh, and (3) Shri Bibhuti Basu Mullick
- VI. Standing Works Committee:-
- (1) Shri A. K. Bose, (2) Shri S. K. Ghosh, and (3) Shri K. S. Mitra.
- VII. Standing Buildings Committee:—
- (1) Shri Anil Kumar Saha, (2) Shri Amal Paul, and (3) Shri T. P. Marik.
- VIII. Standing Public Utilities and Markets
 Committee.
- (1) Shri Sunil Krishna Mitter, (2) Shri K. N. Dutta, and (3) Shri B. K. Roy.
- IX. Standing Water Supply Committee:-
- (1) Shri S. C. Ghose, (2) Shri G. P. Sharaf, and (3) Shri Ashoke Das.

West Bengal Local Bodies And Municipalities

(By Staff Reporter)

In course of discussion while voting on the demand for grants for Rs. 95.21 lakhs under the head: Miscellaneous—Contributions to Local Bodies, certain interesting revaluations were made on the floors of the Assembly some time ago. The demand was moved in the House by Shri I. D. Jalan. Minister for Law and Local Self-Government.

Among the two main points which came to the forefront-one was the paucity of funds from which the Local Bodies in the State had been suffering and lack of civic amenities due to this. The the was effect of sion on a mass scale by the Government whereby the citizens had been denied their rights and privileges of Self-Government. This was finely presented by Shri Bankim Mukherjee, a veteran legislator, who said that mass supersession of Municipalities by the Government had given rise to the belief that Government wanted to suppress those Municipalities which were in the hands of some political parties opposite to the ruling group. He advised that a Board should be appointed to advise the Administrator General in the discharge of his duties and the Minister promised to consider this suggestion.

As regards supersession, Shri Jalan denied the allegation that there had been supersession on political grounds. Supersession has been done, irrespective of the political affiliation of the party in office, he added.

Besides, the appointment of Executive Officers, vested with special powers, working at the descretion of the State Government, has also been considered as partial supersession. Although much controversies still remain over the powers, functions and duties of these officers, still they are being appointed under certain Sections of the present Bengal Municipal Act, and many of them have made encroachments upon the duties and powers of the Municipal Commissioners as alleged.

Bengal Municipal Association The West demanded some time ago, that these officers should work under the control of the Commissioners and they might be transferred or removed if wanted by two-third of the total number of Commissioners holding office for the time being. Furthermore, the elected Commissioners should have larger amount of controls over the financial matters than the officers. The Association also wanted that Government should bear the cost of maintenance of the officer fully or partially considering the financial condition of the Municipality concerned. The most vital point in this regard was that no such appointment should be made before exploring all the avenues for rectification by the Commissioners themselves and obtaining the views of the proposed Municipal Advisory Committee.

Many of the members, participating in the debate, represented mainly urban areas. They informed the House of the fact that the Municipalities

could not provide even the minimum amenities satisfactorily because of their limited finances.

It was also pointed out in regard to administration of Local Bodies that the Government had not been able to improve the financial position of Municipalities by supersession.

It was demanded that proceeds from State taxes such as Motor Vehicles Tax, Recreation Tax, Electricity Tax and such like should be substantially given to Municipalities. They emphasized that the recommendations of the Taxation Enquiry Commission had not been implemented.

Shri Gopal Bose, representing the Greater Calcutta area, suggested radical changes in the Calcutta and West Bengal Municipal Acts to give the Local Bodies larger powers and greater financial resources.

Shri Pabitra Row urged the West Bengal Government to racke the Union Government for early payment of Rupees Two lakes due to North Dum Dum Municipality in respect of arrears of taxes for land acquired for the extension of Dum Dum Airport. He was the elected representative from that locality.

Taking a broader view, Dr. Kanai Bhattacharya, a representative from Howrah Municipal area, said that all of the 86 Municipalities in West Bengal were handicapped as regards providing civic amenities to the people in their respective areas due to paucity of funds. He also felt that larger sources of revenue should be allotted to them.

Replying to this, the Minister for Local Self-Government Department, admitted that financial position of Municipalities was difficult. Efforts were being made to improve them, but then the State Government's resources were also limited. The State did not get the necessary funds from the Centre. It wanted Rs. 4 crores for Water Supply Schemes, but was allotted only Rs. 2 crores and even that was not paid in full. The State Government had increased its share of the dearness allowance expenses of Howrah Municipality to 70% and was considering the question of increasing aid to other municipalities.

The Union Government, Shri Jalan said, delayed payment of taxes in respect of its properties. The State Government had already moved the Centre for payment of arrears in respect of Dum Dum Airport land.

Similar difficulties are being faced by the Corporation of Calcutta. Recently the Standing Finance Committee apprehended much paucity of funds due to stoppage of grants and aids from the State Government as well as non-payment of Rates and Taxes' shares due to the Corporation by the Union Government. A nearing position of financial collapse was not at a distant. This caused much concern and anxiety to the authorities and

a special meeting of the Corporation was convened to discuss the issue. Repeated representations to the State Government were also made in this regard, but little progress was made.

The Municipal Association drew the attention of the Government in similar terms. Particularly the problem of water supply has assumed in mounting proportions as 52 Municipalities within the State have no pipe water supply and it is but inadequate and incomplete in the remaining 36. The per capita supply has not exceeded ten gallons a day and the conditions are fast moving from bad to worse as the Municipalities have no means to meet even a small fraction of the capital expenditure involved for the purpose.

A sum of about Rs. 80 lakhs only is said to have been spent on urban water supply during the First Five Year Plan period. During the Second period a sum of Rupees Two Crores have been promised for the same purpose out of an original demand of at least Four Crores. The Howrah Municipality, the second populous town in West Bengal, is going to execute a scheme of Rs. 2.5 crores for the same purpose. A promishad been made for that. And if that be the case then the lots of the remaining Municipalities having similar schemes, can easily be imagined. Within recent years the Government has not sanctioned any new scheme for urban water supply. Water supply problem of this city has not been fully dealt with. Thus it is apprehended that the present rate of progress would take decades to reach the goal of 300 million gallons of water a day.

Among the other demands of the legislators were an expeditious introduction of adult franchise in Municipalities and the future of District Boards with the enactment of the Panchayat Bill.

Replying to the question on the future of District Boards, the Minister said that it was "intricate." The State Government was considering what should be the intermediary between it and the Panchayats and what should be its functions, finances and powers.

Explaining the reasons for not holding District Board elections Shri Jalan said that as it depended upon the future the Government did not like to spend such huge amounts necessary for such purpose.

The Adult Franchise Committee has not submitted its report yet on the question of introduction of the system in Municipalities, was the reply came from the Minister of a state pledged to run its administration on democratic principles. The State Government had appointed an Expert Committee in this regard during last September. The Committee sent a few questionnaire and those were discussed in many of the Municipal Boards' meetings. So far it has been ascertained that about 33.4% of the members of the Municipalities have given their verdict for introduction of adult franchise in Municipal elections in line with the system of Parliamentary elections. While about 27.3% members recommended for conditional adult franchise. And it may be reminded that these members were returned to the Boards on the basis of limited franchise. The percentage of persons who directly opposed the idea was not known.

The Corporation itself passed resolutions favouring the introduction of adult franchise in city's civic elections. Amendments were also suggested in the existing Calcutta Municipal Act for the introduction of the same. But the Government is moving in a snail's progress in this regard.

Truly speaking, in order to make dismocracy successful adult franchise should always be accompanied by free compulsory primary education. And the Municipalities of the State including the Calcutta Corporation suffer much from funds in providing the same. Recently, in the West Bengal Assembly, while assuring free primary education in rural areas the State Education Minister said that Municipal Boards had failed to submit any programme or scheme for the spread of education in their respective areas for which Government help was assured to earlier.

According to the West Bengal Municipal Association, the State Government had agreed to bear fifty per cent. of the running as well as the capital cost of free primary education in urban areas so long denied. It is almost similar to the practices prevalent in other States.

It should be noted in this connection that the Calcutta Corporation was never in receipt of grants in this head while Bombay, Madras and other Corporations enjoyed the benefits. Even the Government has to bear the full cost of expenditure on the spread of Primary Education within the Chandernagore Corporation in West Bengal according to the previous conventions and customs existed there.

About the demand for increase in pay of Municipal employees the Minister said that Minimum Wages Committee had arrived at certain tentative decisions in this respect which when implemented would solve the problem. The question of fixing minimum wages for Municipal employees is being studied by three different Advisory Committees constituted under Minimum Wages Act, 1948. The one dealing with the Municipalities of West Bengal except Calcutta and Howrah have almost completed its observations and its recommendations are forthcoming. The Committee has divided the employees into certain categories and the Municipalities would have to face another problem of financial stringency in implementing those recommendations. And then Government aid would become almost essential.

Separate recommendations would be put up in case of Calcutta Corporation employees by a Committee comprising of a few Corporation Councillors. Howrah would have another set of recommendations.

Thus the Municipalities of West Bengal which have developed into growing cities with the influx of population face a great magnitude of problems in order to improve the living conditions there. To-day solution of the problems of supplying safe water in sufficient quantities, the disposal of wastes, the provision of communications and roads, installing of lights, water, food, fuel and other public utilities has played a great part in making possible the existence of a city. And surely each and every Municipal town in West Bengal faces a greater amount of those problems.

CITY-NEWS-PARADE

OBITUARY: The death occurred of Kumar Shuvendu Prakash Ray, youngest son of the late Raja P. N. Ray, of Dighapatia on Tuesday, the 15th July, at his Calcutta residence. He was 48.

Associated with the Bengal Flying Club for a long time the late Kumar had been its Hony. Secy. for about 16 years. As a mark of respect to his memory the Club was closed on Thursday. He was also connected with many of the cultural and social service organisations in this city.

VANA-MAHOTSAV was observed in the city under the auspices of the State Government on Sunday, the 13th July, at the Maidan, near I. T. A. Pavilion. The Minister for Agriculture, Dr. R. Ahmed, who presided, planted 15 saplings of "Akashmani", "Golmuhar" and other varieties of trees on the western bank of the reserved tank at the crossing of Chowringhee Road and Outram Road to mark the occasion. Dr. Suniti Kumar Chatterjee, Chairman, West Bengal Legislative Council, also attended the ceremony.

Speaking at the ceremony Dr. Ahmed asserted that about 61 per cent. of the saplings planted in West Bengal during the last seven years had survived. Since Vana-Mahotsav was introduced, about 117 lakh saplings had been planted all over the State.

Maintaining that West Bengal had not the requisite acerage under forest Dr. Ahmed asked the people to take particular interest in giving protection to trees. With a little more care on the part of the public, it would be possible to ensure the growth of even a larger percentage of trees planted during Vana-Mahotsavs.

EXHIBITION ON ART: Within recent days there were a number of exhibitions on arts and crafts holding in this city. An exuberance and a fondness for rich colours and free drawing were noticed in an exhibition of children's art, opened at 34. Dehi Serampore Boad, on Tuesday, the 15th July. The show was organized by the Exhibition Centre and was scheduled to last one week only. There were 150 paintings and sketches on view.

Another Exhibition holding at the Artistry House, 15, Park Street during last week contained as many as 130 pictures.

Paintings and drawings included those by Shri Rahin Mitra. They were done in different mediums, like oil, water colour, pastel, and so on. The young artists were all between the ages of 11 and 16. They painted obviously from memory, and sometimes also from the direct study of an object.

They confined themselves to themes to which justice could be done without any considerable mental ripeness. The titles of many of them were 'Milking', 'Grocer's Shop', 'Bullock Cart'.

One water colour achieved dramatic force in the scene of an arrest as the incident related to a part of our political struggle for freedom. It had an appeal not entirely due to its artistic success as a piece of painting but the artist, Shri Madhukar Shah, was only a boy of 12 and made this group.

'Still Life' by Shatruji was more comprehensive in the view. A well-built house overlooking hills, thickly covered with trees, the front door was partly open, and it was near it, that there were toys, birds, guns, etc., justifying the title chosen. A piece of talented work, 'August Shower' by Shri Jyoti Sah achieved an effect of gaiety with the help of red with which he coloured cottage tops, trees, parts of the road, and even the lower garments of a man with an

umbrella whom we could only see from behind. There were other picture also.

TENSE SITUATION IN THE MIDDLE EAST accompanied by landing of American fhariners in Lebanon caused much resentment among the members of many of the political parties sharing opposite ideals and ideologies. The demonstration constituted mainly of presentation of Memoranda to the American and British Consulates located in this city.

Shouting "Hands off Lebanon, Hands off Asia", and "Long live world peace", over 200 men and women went in procession under the leadship of the Socialist Unity Centre from Subodh Mullick Square on Thursday, the 17th July. They demonstrated for about an hour near the U.S. Consul-General's Office at Harrington Street Central Calcutta. They were soon joined by another procession organized by the Democratic Vanguard, another Leftist party, with the same object.

A resolution condemning the U.S. intervention in Lebanon was adopted at a meeting of the General Secretaries of Calcutta College Students' Unions and the West Bengal Student Organizations' representatives on that day.

Led, among others by Shri Jyoti Basu, M.L.A., Shri Hemanta Basu, M.L.A., Shri Subodh Banerjee, M.L.A., and Councillor Anil Maitra, a procession went from Wellington Square towards the U.S. Consulate-General in Harrington Street on Friday, the 18th July. They handed over at the Consulate General's Office a Memorandum containing their demand that foreign troms be immediately withdrawn from Lebanon.

Another Memorandum demanding withdrawal of British troops from Jordon was similarly handed over to an employee of the British Deputy High Commission in Harrington Street. On their way the demonstrators stopped in front of the U.S.I.S. and shouted slogans. The procession was comparatively bigger one on that day. Many of the Councillors belonging to the U. C. C. and several M.L.A.'s joined that procession.

On Wednesday Shri Bankim Mukherjee, Deputy Leader of the Communist Party, in the State Legislative Assembly referred to the landing of American mariners in Lebanon and urged the State Government to request the Union Government to protest strongly against the United States' action.

DEATHS AND DISEASES IN THE CITY

There was a slight fall in the incidence of cholera in the city during the week ended the 12th July. Attacks and deaths from the disease numbered 139 and 30 against 142 and 38 respectively in the previous week. In the corresponding weeks last year there were 54 and 60 attacks and deaths numbered 19 in each of the corresponding weeks last year.

Smallpox attacks and deaths were two and one against three and one the week before. There were 13 attacks and seven deaths during the corresponding fortnight last year.

Tuberculosis claimed 28 lives against 38 in the previous week and 51 and 47 in the corresponding weeks last year.

Deaths from Malaria were also two against a similar number the week before. Typhoid caused eleven deaths while there were three deaths from the same during the previous week.

Deaths from all causes totalled 636 during the week ending 12th July against 590 on week before. During corresponding weeks last year deaths numbered 584 and 640.

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

District No 11 Engineering Department

Tenders for the following works are invited and will be received by the Chief

invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 23rd July, 1958 up to 2 p.m.

The abstract of the estimate can be seen at the D. E. II's Office (Estimating Section). The Corporation Standard Specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders. used in submission of tenders.

The successful tenderer shall have to deposit 5 p.c. of the total value of the accepted tender, as security deposit within a week from the date of intimation of the a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. 'CALCUTTA STILL A VITAL CENTRE IN COUNTR' S PUBLIC LIFE'

Speaking at a Press Conference at Raj Bhavan, on Sunday, the 27th July. India's Prime Minister, Shri Jawharlal Nehru, said that he had never used the word 'dead' or 'dereliet' to describe conditions in this great city. Certain aspects of this city's life, had made Calcutta appear to be a 'nightmare'. Shri Nehru emphasized this. The Prime Minister further said that during a discussion with a foreign correspondent in Delhi about the situation in Calcutta he had used the expression "nightmare". 'I was then discussing the unfortunate refugee situation and processions that went up and down the streets every day and interfered with the city's normal activities', added Shri Nehru.

The controversy of a dereliet city had prompted the Calcutta's Pressmen to pose a question before Shri Nehru from whom the words came. The Union Law Minister, Shri Asoke Sen, who first disclosed this, also stated sometime ago: "I said that I have not heard the Prime Minister using the expression 'nightmare' but that he had often told me that Calcutta was fast becoming dereliet. I used the Bengali word 'poro'"

Shri Nehru, who arrived in this city on that morning, left for Delhi on the next morning. In the picture above he is seen along with the Pressmen. The Union Minister of State, Janab Humayun Kabir and Shri Anil Chanda, a Deputy Minister, are also seen standing.

At that Press Conference the subjects discussed included the purpose of his visit to this city, the situation in West Asia with particular reference to the question of a Summit Conference and internal problems concerning development of agriculture and conditions in Kerela.

The main object, on the visit, as he stated was to discuss problems of the country and the Congress with individuals and groups not as the Prime Minister but in the "old way". Referring to the West Asian situation the Prime Minister said that Arab nationalism must be recognized. He also hoped that foreign forces would be withdrawn from Lebanon and Jordon.

In the evening the veteran leader also addressed a meeting of the West Bengal Congress Mandal Committee's Presidents and Secretaries, the State Congress Committee members and Congress M.L.A.s., M.L.C.s and M.P.s in a pandat at the crossing of Chowringhee and Harrington Street. He spoke for over an hour and a half about the duties and responsibilities of the Congressmen to-day. Among those present were Shri V. K. Krishna Menon, the Union Defence Minister, Shri Meher Chand Khanna, Union Minister for Rehabilitation, the State Chief Minister, Dr. B. C. Roy the Mayor, Dr. Triguna Sen. Prof. Humayun Kabir and Shri S. D. Banerjee, Speaker of the State Assembly.

CIVIC RECEPTION TO MAGICIAN SORCAR

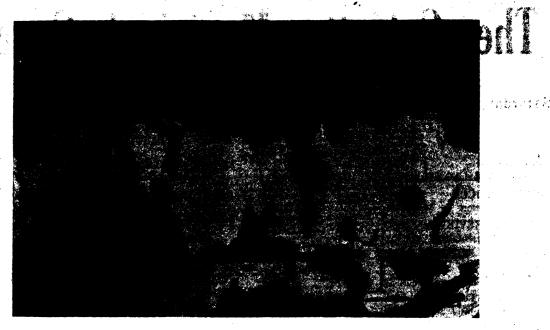

HISTORY made itself an occasion to repeat in an event when the Corporation accorded a Civic Reception to the world-renowned magician P. C. Sorcar on Wednesday, the 30th July, in the Council Chamber, Central Municipal Office Buildings, S. N. Banerjee Road. A packed gathering witnessed the function when the wizard magician, who by his enthralling magic art earned laurels from the rest of the world, received an Address describing his qualities, from the hands of the City's Deputy Mayor. Shri Keshab Chandra Basu. The Address was scrolled inside a silver casket. It was the citizens tribute to one of the sons of the soil whose fame had spread over the world earlier. This Corporation took pride on the occasion when it honoured one of its citizens whose enchanting performances had superseded the previous enchanters. The Mayor, Dr. Triguna Sen being away from the city, the Deputy Mayor presided over the function

The Council Chamber wore a festive appearance on the occasion with its swastikas of flowers and foliage. The Mayoral dais was bedecked with blooming flowers. Shri Sorcar was garlanded by Shri Basu before the Address was presented to him. The Address paid tribute to his earnest efforts for resuscitation of the treasures hidden in the Tantras and in the Atharba Veda and installation of Indian magic on a high pedestal before the astounded Western World. Expressing the view that he has enhanced the glory of this city, Bengal and India, the Corporation, in the Address, wished him a long life of further achievements.

Replying to the sentiments expressed Shri Sorcar narrated how the man who had sold out his books for Rs. 75 in 1933 came to be the recipient of Rupees Seventy-Five Thousands for a fifteen minute performance during last June. He was taken to New York by the National Broadcasting Company for its Television programme and for featuring his sawing a lady in half. There he was paid the amount. He concluded by expressing the hope that Indian magic would hold its sway over other forms of similar art.

The function over, Shri Sorcar displayed some of his card and other tricks before a host of important citizens, Aldermen and Councillors and Corporation officials in the Mayor's office room where he was entertained at

It may be recalled here that the Corporation decided to accord a Reception to the magician some time ago on the suggestion of Councillor Mukur Sarvadhikary. A suitable sum was also sanctioned for the purpose.

In presence of a large number of invited guests, Aldermen and Councillors, Shri Sorcar giving demonstration of his wonderful magic on playing cards. The Deputy Mayor, Shri K. C. Basu, himself holds a card.

ART OF MAGIC—A Great Fascinating Value

Shri Sorear said that magic had a great fascination for him from his boyhood. In 1933, he had sold out his B.A. Honours text books for Rs. 75 and with that money took to the path of magic, learning the art as best as he could from all and sundry. He had also made a serious study of the Tantras and the Atharba Veda. In 1936, he went to Japan,—that was his first sojourn outside,—and later visited America and England, showing his skill as a magician. He soon realised that Indian magic was superior to the Western.

Narrating the influence of the magician, held even a long time ago, Shri Sorcar re-iterated a story, now almost forgotten by all. Janab Fazlul Huq known to have resigned the Chief Ministership of the then United Bengal twice, first on December 1, 1941, and again on March 29, 1943. Very few know that he "resigned" from the office on yet another occasion. This happened when he resigned the Chief Ministership of Bengal and named magician P. C. Sorcar as his "successor." Janab Huq signed a statement to this effect in presence of some members of his Cabinet. It was the occasion when

Shri Socar had been invited to demonstrate before Janab Huq and others his magic art. Thus he illustrated his witty art which he used to perform in those days.

India's Place In Magic World

That Civic Address placed the Indian magician in the same footing with Jean Eugene Robert Houdin of the nineteenth century France and Mr. Harry Hudni of the early twenties in the United States of America, who elevated their respective Motherlands in the world of that witty art of magic. It further stated that so long India was blamed as a country of black magic with so many heinous motives but the successful achievements of Shri Sorcar had proved otherwise, and India's glory had been enhanced to its top-most level. And this had been amply proved in the magician himself as a promoter of the ancient India's art dated back to the King Bhoja of the mythological age. And thus his name would be written in golden letters in the history of the magic world by the historians so eminent as Lean Thorn Dykes.

A FEW CHANGE OF ADDRESSES

Within recent times many of our Aldermen and Councillors have changed their places of residences.

Our Deputy Mayor, Shri Keshab Chandra Basu, has shifted his residence from Madan Mitter Lane, Calcutta—5 to 29|1, Ballygunge Circular Road, Calcutta—19. His Telephone Number is 47—2417.

Councillor Purnendu Sen Gupta has also changed his address to 79|44, Raja Nabakissen Street, Telephone No. 55-3387. Formerly he lived in the same street. Councillor Chandra Sekhar Bhowmick has recently been favoured with a telephone connection, the number being 35-3307.

Councillor Dr. Himanghsu Das has opened another professional chamber at 9, Chowringhee Road with Phone No. 23–3209. His old chamber at 24|3B. Surya Sen Street (Mirzapur Street) has also been linked with telephone, the number being 24–2131. His residence is at 2-B, Chatterjee Lane, Calcutta—12, Phone No. 34–1568.

PUNDIT ISWAR CHANDRA VIDYASAGAR

Sixty-fourth death anniversary of Pundit Iswar Chandra Vidyasagar was observed by the students and staff of the Metropolitan Institution Main on Tuesday, the 29th July at the school premises at 39, Sankar Ghosh Lane, central part of the city.

The students garlanded the marble bust of Pundit Iswar Chandra and a meeting was held under the president-ship of Shri Sushil Kumar Chatterjee, the oldest teacher of the institution. Speakers included Shri Dharani Mohan Mukherjee, Headmaster and others.

The marble bust of Iswar Chandra at College Square was also garlanded by the students and teachers of the Vidyasagar College, wherein a function was arranged in the afternoon.

Similar functions were also arranged by different: philanthropic and benevolent public institutions in this city. The Vidyasagar Charitable Dispensary, at Chakraberia Road, South Calcutts, arranged another function besitting the occa-

Themes & Merrieures

TRUST REPRESENTATIVES

Calcutta Corporation at its Special Meeting on Friday, the 1st August, elected three representatives among the Aldermen and Councillers as the members of the Board of Trustees of the Calcutta Improvement Trust. Councillors Mihirlal Ganguly, Dr. Sukhabehari Mukherjee and Satyananda Bhattacharyya were the elected members.

The election was held by secret ballot system. Altogether 22 candidates filed their nomination papers but when according to party decisions many of them wanted to withdraw their names they were not allowed to do so as per election rules. However, whips were issued from two opposite groups. The first two were duly elected by majority votes while the third one was elected by toss as another candidate, Councillor Chandra Sekhar Bhowmick secured an equal number of votes along with Councillor Bhattacharvya.

The Deputy Mayor, Shri Keshab Chandra Basu, who presided over the meeting, announced the names of elected candidates.

The election being over, Councillor S. K. Gupta, I.C.S., Chairman, Calcutta Improvement Trust, welcomed them on behalf of the Trust. They will replace Councillors Dulal Chandra Mukherjee, Sudhir Chandra Mukherjee, and Amulya Ratan Sarkar in the Trust's Board. Their term of office is stated to be expired towards the end of August.

We also extend our congratulations on their being elected as Trust's members.

ENCEPHALITIS OR MYSTERY DISEASE

It has been apprehended that the city might fall into the grip of the mystery disease Encephalitis. A report of its first incidence in this city was published in the Press sometime ago and the citizens could not restrict themselves but they looked upon for help and advice.

In this connection it may be stated that replying to a question put up by Shri Sasanka Sekhar Sanyal in West Bengal Legislative Council recently Dr. A. B. Ray, State Health Minister, said that Encephalitis was not new to Calcutta. Sporadic cases had been reported since 1956, and a few months ago Dr. Manas Ray Choudhury, an eminent doctor, was suspected to have contacted Encephalitis infection from one of his patients. The doctor died of the infection.

Dr. Ray said the State Government was aware of the problem and referred to the recommendations of the experts' conference. Replying to a supplementary question by Prof. Nirmal Bhattacharyya, Dr. Ray said that the State Government was considering a proposal to declare Encephalitis a notifiable disease.

Although a mild endemicity of Encephalitis is always present in this city there is no immediate risk of an outbreak of the disease in epidemic form, according to medical experts who met in a conference on Tuesday, the 29th July last, in this city. The conference recommended that drinking water should

be boiled and general sanitary conditions be improved to prevent incidence of the disease.

Among those present at the conference were Col. N. Jungalwalla, Director, All-India Institute of Hygiene and Public Health, Dr. S. C. Seal, Professor of Epidemiology, Dr. B. K. Aikat, Director of Micro-Biology, Institute of Post-Graduate Education and Research. Alderman Dr. Amiya Bose, Chairman, the Standing Health Committee, Shri M. N. Majumdar, Professor of Sanitary Engineering, and Dr. S. K. Chatterji, Deputy Director of Health Services, West Bengal.

The conference also noted that nothing was positively known about the mechanism of transmission of Encephalitis and that no preventive vaccine had yet been invented. As it had been finally established that the disease was caused by intestinal virus, it might be water-borne.

Steps were earlier taken by the Corporation to rid its 250 primary school areas of mosquitoes as a possible precautionary measure against Encephalitis as children were supposed to be more vulnerable to this virus disease a of mosquitoes were carriers of many ailments. Teachers and medical officers of the primary schools were asked to report any case of high fever with brain complaints or paralytic symptoms among the 50,000 children of these institutions.

Alderman Dr. Amiya Bose, Chairman of the Standing Health Committee, said recently that the Government should make such cases notifiable and should immediately set up a special laboratory to isolate the virus.

This year the disease had spread over the northern India and number of cases reported was no less considerable. In Delhi six children died of the disease within four days. In the Uttar Pradesh 35 children died causing anxiety to the authorities. An almost similar position was witnessed in Bombay. In Nagpur and Akola nearly 50 deaths occurred within ten days. Experts rushed to those places to study the virus on the spot and to have it cultured in the scientific laboratories.

All these had prompted Councillor Dr. K. P. Ghosh, to refer the matter in the weekly Corporation meeting some time ago and to request the authorities to take precautionary measures.

Tragedy has been heightened by the fact that particularly children have been the victims in this city. Parental fear has also been increased because not enough is known about the disease and, of the means to cure it or prevent its spread. In Nagpur, schools were closed; in U. P. this precaution had been deprecated because the attack was sporadic. Still only during an outbreak of this sort there is only a chance of isolating the virus. Success has eluded previous attempts and facilities have been improved in India's laboratories recently.

Neverthelesss, knowledge is being gathered about Encephalitis, which was not a stranger in this country even before the outbreaks in Delhi and lamsedpur of 1954. There are apparently several

varieties of the disease. Children are particularly vulnerable. The incidence is heaviest at about this time of the year. Death is usually caused through respiratory failure. A Lucknow Expert Committee has said that there is no cause for panic as "adequate measures for proper treatment are being taken". Medical opinion had hitherto suggested that there is no effective treatment; sulpha and untibiotics have been tried without success. It is not even known how the disease is transmitted. Diagnosis is difficult, even with the aid of a well-cquipped laboratory.

Speaking about the disease it has so far been learnt that Encephalitis is the inflammation of the brain substance primarily caused by filtrable virus infection. It is also occasionally secondary to direct infection from a neighbouring tocus, specific infective fevers and meningitis.

Symptoms are headache, vomiting, lethargy, coma and sometimes delirium and convulsion. The local signs due to irritation and paralysis of a particular area are also present.

The primary septic process in Encephalitis cases is soon followed by a rise in temperature to 101 degree or more usually with rigor and general bodily discomfort. The cerebral symptoms appear slowly.

The infection, according to specialists, is probably by filtrable virus conveyed by 'droplets'. All ages and both sexes are affected but more commonly young adults. The incubation period is 8 to 10 days.

Some of the earlier signs in acute cases are: an increasing lethargy slowly develops; the patient lies quiet in bed and sleepv in the day, unmindful of his surroundings. If roused he is capable of intelligent conversation or even doing some work but soon lapses back; the swallowed food remains in the mouth. In some cases talkativeness, excitement, delirium and violent mania are also apparent.

It had been reported that a five-year old girl of Cossipore, suspected to be suffering from Encephalitis, had been admitted into R. G. Kar Hospital recently. This was the second case in this city, so far gathered, during this season. As this deadly disease has already caused a number of deaths in different parts of India, the duty of the Government should be to be more alert. The State Public Health Department should suggest preventive measures as are known to it as early as possible for the benefit of the public.

It was reported that an elaborate scheme drawn after investigation would cost nearly Rupees Four lakhs. But, as this city has now, in fact, become "pestilential" after being visited by one disease after another in an epidemic form like influenza, cholera and others, the Government should not hesitate to spend such amounts so that immediate actions are taken in order to check the spread of this disease at the onset. Every possible precaution must taken, 80 that sanitation be especially the provision of a safe water supply should be the core of these precautions. In the meantime it is to be hoped that the latest outbreak will spur research that has been in progress since the Delhi and Jamesdpur outbreaks. International assistance could well be sought in this undertaking.

Personalia

SHRI V. K. KRISHNA MENON IN THIS CITY

India's Defence Minister Shri V. K. Krishna Menon had a busy programme in this city during his two-day visit. Reaching on Saturday, the 26th July last, he rushed to Fort William to look into the progress of defence arrangements on the Eastern Regions, which have its Headquarters in this city. During a tense situation like this he could not but to see in his own eyes whatever the strategic achievements the country has made. He was received at Dum Dum Airport by the City's Military Officials.

Besides, Shri Menon fulfilled many of his engagements in civil affairs. He was found to address a gathering of citizens at Shyam Square, northern part of the city, where the members of the Paschim Banga Samaj Seva Samity, were celebrating the Birthday Anniversary of the State Chief Minister, Dr. B. C. Roy.

Addressing a conference of workers of the Samaj Seva Samity at the same place on Sunday evening, Shri Krishna Menon asked the youth to develop a team spirit. He believed that such a spirit would help the country's prosperity and the cause of democracy.

The Defence Minister, also told members of the All-India Youth Festival Committee on Sunday that since independence there had been less effort on the part of individuals to do social service than before. Shri Asoke Sen, the Union Law Minister, presided.

Urging young men to sink differences and try to solve all problems through mutual discussion, Shri Krishna Menon advised them to put a restraint on themselves and appreciate other people's points of view. Youth organizations, he added, should not look for patrons but must develop a sense of purpose and integrity for their success.

Addressing a Re-union of the Ex-Territorials' Association at the Territorial Pavilion, Calcutta Maidan, on the same day Shri Krishna Menon said that social barriers in the T.A. must go and people from all walks of life should join the organizations.

The Defence Minister said that the Government intended to raise the number of T. A. units in the eastern part of the country. India had not been able to establish friendship with her neighbour inspite of sincere attempts. The T. A. must supplement the Army in keeping her frontiers intact.

Shri V. K. Krishna Menon presiding over the Annual Conference of the Bengal Cine Art Society, said on Sunday that it was the time when film production was recognized as an important industry because it contributed substantially for earning foreign exchange but also provided employment to many.

The Defence Minister dwelt mainly on the utilitarian aspects of art and culture, particularly the film. This form of expression, he felt, must have an important place in a democratic society. He believed that "art which lives in an ivory tower is not the art of the modern age."

Shri Krishna Menon had also addressed a meeting of the Congress workers at Chowringhee, before Nehru advised them. He left the city on that night.

INAUGURAL FUNCTION OF THREE DAY CELEBRATIONS
Seen on the dais are Dr. B. C. Roy, the State Chief Minister, Shri A. K. Sen, Union Law
Minister, Shri T. S. Bancrice, M.L.C., Shri S. D. Bancrice, Speaker, State Assembly,
Shri P. C. Sen, State Food Minister, Prof. N. K. Sidhanta, Vice-Chancellor, the Deputy
Mayor, Shri K. C. Basu, Shri S. K. Mookerice and others. The Mayor, De T. Sen is

'Service Above Self Should Be The Nation's Motto'

found talking with the Union Defence Minister, Shri V. K. Krishna Menon.

SEVENTY-SIXTH Birth-day Anniversary of the State Chief Minister, Dr. Bidhan Chandra Roy was celebrated in the northern part of the city under the auspices of the Paschim Banga Samaj Seva Samity. Inauguration of the three-day functions was marked by a big assemblage at Shyam Square, on Saturday, the 26th July last. Many of the city's notable personalities who paid their tributes to the veteran statesman of Bengal were present.

Replying to the felicitations Dr. Roy showed his personal humiliation and personified himself as an ordinary social worker. Explaining what was called social work, Dr. Roy said that it could not be estimated through the numbers of schools started, hospitals opened or roads laid out. An all round progress was essential to bring out the welfare of the society.

In conclusion, the elderly politician advised the social workers not to forget the individuality of mankind and to work hard to establish a prosperous society.

Presiding over the function the Mayor, Dr. Triguna Sen, expressed satisfaction at the social welfare activities rendered by the Samity Rendering of social service along with love and syncolary is the distinctive characteristic of Dr. Roy, added the Mayor, while paying his personal tribates to the State Chief Minister.

The Mayor also said that he was an institution by himself. It was rare to find an equal to Dr. Roy who was equipped with so many lofty ideals.

Inaugurating the function, the State Food Minister, Shri P. C. Sen said that they had assembled there to felicitate Dr. Roy on the occasion of Lis 77th birthday. For half of a century Dr. Roy had been associated with every notable social welfare and educational activity of this State.

In his address of welcome, the Union Law Minister, Shri Asoke Kumar Sen, President of Seva Samity, reviewed (Continued on next page)

Chief, Shri B. N. Mukherjee, M.L.C., Councillors J. L. Saha, M.L.C., K. L. Dhandhania

and others.

The Mayor, Dr. T. Sen, distributes prize to Shri Asoke Basu, who stood first in the School Final Examination this year while the Deputy Mayor, Shri K. C. Basu is looking on. The function was held on the first day.

'SERVICE ABOVE SELF SHOULD BE THE NATION'S MOTTO'

(Continued from previous page)

its past activities. On this occasion last year the Samity opened 76 dispensaries in different parts of the city and suburbs. The Samity had also started domiciliary treatment centres. 350 T.B. patients and about 300 typhoid patients had been receiving treatment under the scheme. Besides, other social services like free reading library and distribution of milk are included in their programme, added the President.

Prof. N. K. Sidhanta, Vice-Chancellor, said that Dr. Roy was a source of inspiration to the people of West Bengal. As the Vice-Chancellor of the Calcutta University Dr. Roy did laudable work. Shri Sankardas Banerjee, Speaker and Shri S. C. Roy, Sheriff, also wished a long and healthy life to Dr. Roy.

On the second day morning Dr. Roy took salute of thousands of boys and girls at a joint parade participated in by more than one hundred organizations at Deshabandhu Park. They came from all parts of the city and suburbs to show their respects to the beloved leader of Bengal.

The Chief Minister asked his audience to place man above everything in their mission of service. Social service should be treated as a mission and kept above any selfish consideration and parochial outlook, he emphasized.

The concluding function was held on Tuesday, the 29th July at Shyam Square. Convention of different social welfare organizations with Swami Punyananda of Sri Ramkrishna Mission presiding; Dr. Nihar Ranjan Roy, M.P., inaugurated a cultural function.

Among the participants in the March Past Ceremony the Corporation Employees Union is also marching on. Dr. Roy takes the salute from a distance

THE CORPORATION AT WORK

A gist of Proceedings of the Fifteenth Ordinary Meeting of the Corporation held on Friday, the 25th July, 1958.

DHAPPA PUMPING STATION

Drawing the attention of the House, Councillor S. K. Gupta, I.C.S., Chairman, Calcutta Improvement Trust, stressed the need for functioning the Pumping Station at Dhappa Lock Gate without further delay. He said that the installation had been belated for long. In this connection he referred to previous promises made by the Corporation authorities for the implementation of the project. According to Councillor Gupta the first date of execution of the scheme dated back November, 1956.

The Mayor, Dr. Triguna Sen, who was in the chair, said that the Pumping Station at Dhappa was expected to be put into commission by the end of August, provided necessary staff for the running of the Plant was made available.

Councillor K. L. Dhandhauia also said that the Standing Finance Committee would give due consideration of providing the necessary staff if the matter was placed before the Committee. This has since been done and the matter is at present under consideration of the Standing Committee.

WATER SUPPLY AND CONTAMINATION

Councillor Subrata Kumar Sen Sarma pointed out that when citizens had been suffering from scarcity of filtered water, about one lakh gallons of filtered water per day were being supplied to parties without proper sanction by the Standing Water Supply Committee. Of this quantity about 8,000 gallons were being supplied to the State Transport's Garage at Belghoria for cleansing the vehicles, he said. This had been caused by tapping 48 in. main to Tallah.

Councillor Sen Sarma said that the citizens' grievances should be removed first and then they should look after others. He wanted an enquiry into those allegations.

Councillor Dr. K. P. Ghosh said that in a recent analysis of drinking water collected from different parts of the city, 22 out of 100 samples were found contaminated. Dr. Ghosh emphasized the need for taking immediate measures to remove the causes of contamination. This was, however, agreed to by the Mayor, although those germs found in water did not contain cholera virus; still they were injurious to health according to the member of the Standing Health Committee.

FOOD ADULTERATION

During discussions on matters of public importance Councillor Ratan Manick Chatterjee referred to the adulteration of foodstuffs in an immense magnitude. He stressed the need for intensifying the anti-adulteration drive by the Corporation's Food Inspectors. In that connection he also said that adulteration in mustard cil. essential to every Bengali household, had become so common that even the oil mill-owners had warned the citizens not

to use any kind of mustard oil other than those manufactured by their recognized firms.

The Mayor, however, noted the warning and requested the executive to take necessary action.

COSSIPORE BURNING GHAT

Councillor Narda Lal Banerjee drew the attention of the House to the need of taking immediate steps for the development of Cossipore Burning Ghat for which Corporation had already sanctioned a sum of Rs. two lakhs from its annual Budget grants.

Councillor Banerjee alleged that no development work had appeared to be undertaken by the Corporation executive since it was re-named as Cossipore Ramkrishna Mahashasan in 1956. It was then the project to develop the site into a place of international worship as its name had been associated with the great religious leader, Shri Shri Ramkrishna Paramahansa Dev. There was another idea of transferring the site to the hands of a Board of Trustees, a responsible body to undertake the task of completion of its development work.

It may be noted here that the Rs. 2 lakh plan of development included raising of loan for 1.5 lakhs and the rest, a contribution from the Corporation Treasury. The site is situated in Ward No. 1.

LEPROSY MENACE

Calcutta urgently needs a Leprosy Hospital somewhere in the outskirts of the city. This was stressed by Councillor Naren Sen who pointed out the growing menace of this disease. According to Councillor Sen the city still holds nearly 20,000 citizens who have got infections of this disease of a mild nature. And 25 per cent. of the said figure are cases of highly infectious nature. These people move about freely in city's streets and public-carriers causing infection to others as the disease is a contagiuous one.

Councillor Sen wanted that the Corporation should move the Government in this regard so that the city might get rid of them.

TRAMWAY TRACKS

Complaints were made by several members as to the inconveniences experienced by the pedestrian public caused by the condition of tramway tracks placed on streets. Councillor Samar Rudra pointed out many of the sites where the tracks were remaining unrepaired for mouths together. This has caused much inconvenience to the public due to accumulation of rain water there. In that connection he particularly mentioned the tracks near Rajabazar Tram Depot, on Circular Itoad, Chitpore Road and Tollygunge area.

Councillor Rudra wanted that the Corporation should force upon the Tramway authorities to have them repaired immediately. He also said that the company had been reaping a good harvest and there should be no financial difficulty on their part to undertake the work.

UNION GOVERNMENT OFFICES

TRANSKERBED 2 0 A recent decision of the Government of Indian

Union to transfer the office of the Bureau of Indian Mines to Nagpur has caused much resentment among the citizens. This was drawn to the notice of the House by Councillor Mukur Chandra Sarvadhikary, who submitted that this was in violation of the previous assurances given by the authorities not to disturb the present set up of office locations. Councillor Savadhikary further informed the House that the ruling party in their latest convention had resolved to the same effect. And unfortunately the Government of India has started to transfer their offices on minor pleas, and this had caused much inconvenience to the citizens of the Eastern Region as well as had placed many of the employees in the unemployment roll. The transferrence of the office of Mines was also due to similar minor grounds according to Councillor Savadhikary. And he wanted that the Corporation should move the Union Government to put a stop to this practice.

GRANTS-IN-AID TO PRIMARY SCHOOLS

The House, on the recommendation of the Standing Education Committee, sanctioned grantsin-aid to the Primary Schools including the Primary Departments of Post-Primary and Secondary Schools for the years 1955-56 and 1956-57. Institutions imparting free primary education got special priority in this.

SITES FOR CORPORATION PRIMARY SCHOOLS

The House on the recommendation of the Standing Education Committee, accepted a scheme for construction of Corporation Primary School Buildings in city's Parks and Squares and selected the following sites where buildings might be constructed within an estimate between Rs. 18 and Rs. 30 thousands:-

- (1) Wards 2-26-Seven Tanks Lane-Corporation Land.
- (2) Wards 4 & 5-Two schools at Tallah Park-one at North Middle of the park at the Buffalo Bathing Platform and the other at South East corner.
- (3) Ward 6-Space occupied by Mali's quarters at Kumartuly Park.
- (4) Ward 10-By extension of 3rd storey to the existing Corporation Building in Deshabandhu Park.
- (5) Wards 15-13, Canal East Road-Corporation Land.
- (6) Ward 17-Ramdhan Khan Lane-Corporation Land.
- (7) Wards 19 & 20-Beadon Square. Exact site to be selected after consultation with the Ward Councillor and Education Officer.
- (8) Ward 22-Marcus Square for which Marcus Square Ground Committee be approached.
- (9) Ward 32-Corporation huilding in the ground floor at Hari Nath Dey Road.
- (10) Ward 34-Beliaghata Road-Corporation Land.
- (11) Ward 44-South East corner of Sradhhananda Park.

RE: TAX COLLECTION

TO THE EDITOR, "CALCUTTA MUNICIPAL GAZETYE"

Dear Sir.-We thank you for the publication in your esteemed journal of 14th June under the caption "Social Crimes" the dismissal of seven Bailiffs and suspension of three of the same category for keeping and using for private purposes the collected taxes for two years, or so without depositing the same in the Corporation Treasury. This could be done only for want of proper supervision and scrutiny of outstanding Rate Bills on each and every quarter and failure to transfer the field of activities of bailiffs from one area to another at regular intervals. Cannot the Corporation away with the practice of collection by the staff and introduce fully the system of depositing all dues at counters of the Treasury like the Calcutta Electric Supply Corporation? Surely this would save much of the rate-payers' money as well wastage of human energy. The money spent in appointing so large number of bailiffs can easily be utilized by extending larger civic amenities to the citizens.-Yours

RABINDRA NATH DEY.

55, Bancharam Akrur Lane, Calcutta-12. The 31st July, 1958.

- (12) Ward 45-North East corner of Wellington Square.
- (13) Ward 49-At the crossing of Kulia Tangra 2nd Lane and Kulia Tangra 3rd Lane-Corporation Land.
- (14) Ward 52-Goaltuli Lane-Corporation Land.
- (15) Ward 58-South East corner of the Congress Exhibition Park.
- (16) Ward 66-10|1, Nepal Bhattacharjee Street-Corporation Land.

- (21) Ward 80-Junction of Naktala and Roypur Road near Roypur Colony No. 3-Corporation Land.

CHANGE OF CADRE

والمرازع والمرازع والمساورة والمساورة والمرازع

The House on the recommendation of the Standing Finance Committee, made an amendment to the existing Leave and Acting Allowance Rules, as agreed to by the Municipal Service Commission subject to the final approval by the State Government in respect of certain carde of appointments to be classified as Inferior Service.

CUTTACK RAJ BHAVAN BECOMES A HOSPITAL

The Government of Orissa State had decided some time ago to hand over the spacious Raj Bhavan premises in Cuttack, now used by the Governor of Orissa, to the State Branch of the Red Cross Society for accommodating a blood bank and a women and children's hospital after the Governor shifts to Bhubaneswar.

WATER SUPPLY SCHEME FOR PURULIA

The Government of West Bengal has sanctioned a sum of Rs. 41.50 lakhs for undertaking a major Water Supply Scheme in Purulia town. The scheme plans to draw water from the Kansai river, a few miles from the town and to supply drinking water within the Municipal limits.

LARGER CIVIC AMENITIES FOR CONTAI

In order to provide larger civic amenities to the citizens the State Government has sanctioned a sum of Rs. 45,000 for the newly constituted Contai Municipality. This sum given as a loan will have to be repaid in ten equal instalments.

MUNICIPAL COMMISSIONERS' ENTERPRISE

Many of the Councillors of the Ujjain City Municipality, co-operated with the people in cleaning up the city when the strike of over 550 municipal sweepers continued for a few days, sometime ago.

HOSPITAL AT HABRA TOWNSHIP

The number of beds in the hospital at Habra township, 24-Parganas will be increased to 100 as decided by the Government of West Bengal. At present there are 50 beds in this hospital. A training course in the same hospital for auxiliary nurses and health assistants would be opened soon. Initially 50 to 80 trainees will be admitted to this short term course.

NABADWIP PEOPLES' GRIEVANCES

Nabadwip, one of the most populous towns in West Bengal with more than a lakh of people, with 4.5 square mileage, is passing through various types of problems for a long time. With the influx of refugees from East Bengal these problems have multiplied.

Deprived of a suitable hospital, the high percentage of T. B. patients are mounting daily owing to the absence of any clinic there.

Want of a Town Hall and a park in the heart of the town are the other grievances.

Flowing on the east of the town the river hed is speedily silted up causing great inconvenience to

the people to cross the river by boat. At the same time erosion by the river, has, ingressed causing damage to the town on the other side.

STADIUM IN PATNA

The Government of India and the State Government will equally share the expenses for building up a Rs. 15-lakh stadium in Patna. The proposal has been mooted some time ago.

A sum of Rs. 10 lakhs will be initially spent on the stadium having a sitting capacity for 30,000 spectators.

MILK COLONY AT DURGAPUR

A detailed scheme for Milk Colony and gigantic dairy farm to be located at Durgapur has been prepared. The blue-print of the plan will be submitted soon.

The scheme patterned after Haringhata Farm will cost about Rs. 1 erore. A portion of the cost will be borne by the Union Government as a good number of refugee people will be provided with jobs there.

LATE SHRI BARADALAI'S STATUE

Shri L. Sharma, Deputy Commissioner, Lakhimpur district of Dibrugarh has handed over a cheque for Rs 2,000 to the Chairman, Dibrugarh Municipal Board for the erection of a marble statue of Lokapriya Gopinath Bardalai, a former Chief Minister of Assam at Jalan Nagar Children's Park at Chowkidinghee, Dibrugarh town by the Municipal Board. Sums have been raised for the purpose.

This will be the second statue to be erected by the Dibrugarh Municipal Board,—the first being that of Mahatma Gandhi installed in the street crossing in front of the police station.

"Lokapriya Gopinath Bardalai Avenue" will be constructed on the approach road of the Assam Medical College located in that town.

SUBSIDISED INDUSTRIAL HOUSING IN URBAN AREAS

Under the Subsidised Industrial Housing Scheme, the West Bengal Government will construct 2,108 tenements at Patulia, Sundia, Baruipur, Rishra and Serampore after lands are acquired.

A programme for construction of 4,876 tenements, in the public sector including 616 two-roomed tenements in the different districts has been undertaken by the Government, at an estimated cost of Rs. 1.69 crores. In Calcutta proper there would be 660 one-roomed tenements by the Calcutta Improvement Trust, at an estimated cost of Rs. 45 lakhs.

Out of the programme for 4,876 tenements, construction of 1,440 tenements in this city, Shyamnagar, Dum Dum, Kadamtala and Howrah Circular Road have already been completed. The construction of 1,323 tenements at Alambazar, Ghusuri, Belur, Baidyabati, Asansol are in progess.

In the private sector, the schemes so far sanctioned by the State Government involve the construction of 1,222 tenements by Private Employers. Out of this construction of 650 tenements at Dhakuria, Ranigunj, Asansol and Tribeni has been completed.

CITY-NEWS-PARADE

MOHARRUM, the greatest of the Muclim festivals, was celebrated by the Calcutta Muslims during last week. They observed the last day of the 10-day festival on Monday, the 28th July, when thousands went in processions to Karbala tank in Beliaghata. Three main processions from different parts of the city converged at a point near Sealdah Station and then went to Karbala along Beliaghata Road and Beliaghata Main Road. Several small groups paraded different areas carrying "tazias".

The day was a public holiday. Tram and bus services were dislocated on many routes of the city for some time.

ORDERS UNDER SECTION 144 (r. F. C. banning processions and demonstrations in the Dalhousie Square area has been extended until the 31st October, 1958, according to a West Bengal Government notification. Imposed on the 1st July, 1954, for the first time, the order had been periodically extended.

IMPLEMENTATION OF FARAKKA BARRAGE SCHEME was urged at a meeting organized by a number of distinguished public men at the Maha Bodhi Society Hall, Central Calcutta, on Saturday, the 26th July last. A resolution was adopted urging the Union Government to give priority to the Farakka Barrage scheme over other irrigation and power schemes. Dr. D. M. Bose, the eminent scientist, presided.

For proper implementation of the scheme, the meeting suggested appointment of a Ganga River Board which would devise plans for equitable distribution of water to the different reaches.

Some experts, who attended the meeting, discussed the technical aspects of the scheme with Dr. Bose, the Mayor, Dr. Triguna Son, and Prof. Nirmal Chandra Bhattacharyya, M.L.C., a representative of Calcutta graduates in the Council.

Dr. Sen briefly referred to the problems facing the people of Calcutta and its environs. He said that the implementation of the Farakka Barrage Scheme would take at least 10 years. He wondered if anything could be done to reduce the salinity in the Hooghly, such as drawing some water from the Damodar Valley Corporation canals and injecting it into the Ganga to reduce the salinity to minimum.

A large number of people demonstrated on Esplanade East, on Sunday, the 27th July to impress upon the Indian Prime Minister, Shri Jawharlal Nehru, then in Calcutta, the importance of the scheme. The demonstration was organized by the Revolutionary Socialist Party.

Later, the demonstrators' leaders including Shri Jatin Chakrabarty, M.L.A., handed over a Memorandum to the Prime Minister, who gave them a sympathetic hearing. It had also mentioned the question of foreign exchange required for implementation of schemes such as the Farakka Barrage.

Councillor Satyananda Bhattacharjee and others of the Socialist Party, West Bengal, also handed over to the Prime Minister an open letter in protest against his "indecent remark" about Calcutta and unless the scheme was implemented there lay no chance of making the city worth-living. In this connection a meeting was earlier held at the Maidan and a procession was taken out.

A STAIRCASE COLLAPSES: l'art of the staircase of a three-storeyed residential building near Upper Chitpur Road, North Calcutta, collapsed at about mid-day on Saturday, the 26th July last trapping people living on the first and second floors of the house.

The Police and Fire Brigade uses rescued all inserescent people, numbering about 46 facts storeys of the building.

storeys of the building.

Complete described of the requiring position of the staircase was carried out till the properties by the Compention's Building Department staff. Further demotition was also ordered.

The building appeared to be old and the staircase, was in a delapidated condition.

A woman of 24 and a child of five were injured when another staircase collapsed in a house in Bindu Palit Lane, Jorasanko, on Wednesday, the 30th July. The injured were removed to hospital.

BENGAL CERAMIC INSTITUTE'S Annual Convocation was held at Beliaghata, on Saturday, the 26th July last, wherein 78 students received diplomas and certificates in Ceramic Technology. About 300 students have passed out of this Covernment institution so far. Dr. Anath Bandhu Roy, Health Minister, West Bengal, presided.

According to the Superintendent Shri S. Roy, some of these students have started production centres of their own. Many others have found employment in ceramic factories in different States. The Institute supplies process material to about 60 small units of production and also helps these in finishing their products.

Dr. B. C. Guha, Dean of the Faculty of Technology, Calcutta University, hoped that the degree course in Ceramic Technology would shortly be introduced in the institute.

Shri Sankerdas Banerjee, Speaker of the Assembly, referred to acute unemployment among the educated middle class in the State and said that solution lay in the development of industries with the help of scheme and technology.

AN 'UNWARRANTED' POLICE FIRING IN KERALA caused much resentment amongst the political circles in the city. Almost all the Opposition political groups voiced their protests against such action of the Kerala Government led by the Communist Party. The action was condemned and judicial enquiry was demanded. Demonstrations were also staged by them.

In the weekly meeting of the Corporation on Friday, the 1st August, confusion arose on the issue of Kerala firing. Members divided in different opinions and the meeting was abondoned due to some unhappy incidents. An apparent agreement, between Praja Socialist Party, a minority group, and the majority party the Congress Councillors, tried to adopt a resolution moved by Councillor Biman Mitra and duly seconded by Councillor Sushil Roy over the recent happenings in Kerala. This condemned the Communist regime there for police firing and oppression of students and demanded a judicial inquiry.

After the resolution had been seconded, an independent member, Councillor Naren Sen moved another resolution more or less to the same effect but with more invectives against the Communists. It also proposed adjournment of the meeting for the day as a protest against that barbarous atrocities. It was seconded by Councillor Nilratan Sinha.

This was resented to by another member having an opposite faith, who said that they were all sorry for the police firing, but the facts mentioned in the resolutions were not true. He said that they would support the resolutions if they also condemned the police action against food marchers in Krishnagar and demanded only a judicial inquiry into the firing at Kerala.

An amendment to the resolutions expressing grave concern at the incidents in Kerala and demanding a judicial inquiry was moved by Alderman Dr. Amiga Lose. This did not satisfy the other members,—several of whem stood up to make their points against the activities in Kerala.

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. I Hour—four shanes. I Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the corrent half-year. "A" class coolies have been allowed Bed arm badges with Black numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the say-rintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5 To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable

6 If goods are taken "on approval" customers are commended to obtain a voucher to that effect stating the "on

price paid.

7. Any articles lost or found in the market should be reparted at the Superintendent's Office.

W. No dogs, bicycles, allowed inside the markets. trioyoles, or perumbulature

allowed inside the markets.

8. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lesses thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 5 a.m. to 7 r.m.; between 7 r.m. to 12 a.m. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle ite. 1-8-0. The Corporation does not take any liability in this connection.

in this connection.

10 Customers are equested that if they suspect any weight used by any endor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the

12.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop. Customers are

SURENDRANATH BANERJEA

FOR long years India was in a stupor. Some say it was a pathetic, placid contentment with the life we lived. A divine discontent with the present, however, is the very earnest of creative growth. Without this discontent and disillusion actively fermenting life, it is bound to lead itself

into a creeping paralysis of self-complacence and stagnation.

In the latter half of the nineteenth century a new warmth was flowing through Indian life, and the heavy, dead lump of lead that lay somewhere was beginning to melt. India, slowly, surely, was awakening again to the impatience of the future, to the quick joy in the world of creative thought and was regaining the lost eagerness of her youth. It was Surendranath's part to startle this lethargy with the deep and pure agitation of astonishment. to startle this lethargy with the deep and pure agitation of astonishment. He asked for the "re-pristination" of Indian life, and its redemption. He was asking here for an immense thing, for a change of ideas, a vast enlargement of ideas, and for something very like a change of heart in hundreds of millions of human beings. But then we were dealing with the fate of an entire people, a vast subcontinent. "Where is a land" asked Surendranath Banerjea, "more interesting, more venerated in antiquity, more rich in historic traditions, in the wealth of religious, ethical and spiritual conceptions which have left an ordering impress on the similarities of marking?" The which have left an enduring impress on the civilization of mankind?" responsibilities of the present, the hopes of the future, the glories of the past, ought all to inspire us to reach the Promised Land of liberty. The life of Surendranath Banerjea was a Nation in Making. And of the fight for freedom, he lived and died a living flame, an inspirer, a master-spirit.

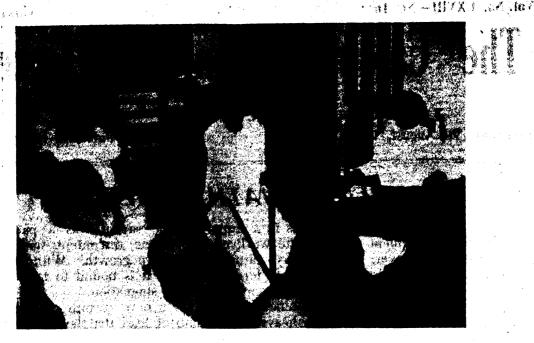

"Give me the right to know, to utter, and to argue freely according to the conscience, above all other liberties"—wrote Milton. Freedom of thought implies freedom of speech, and freedom to print and speak in public. Surendranath broadbased his movement on sound foundations. He had his newspaper. He had an educational institution. And he sought to infuse a new life into the people and make the national pulse throb quicker. How could he educate the Indian people to yearn passionately for a better world than the one they lived in? He fought against gagging orders. He fought relentlessly against suppression. He assailed the heavens with the thunders of his splendid oratory in indignation at the burning wrongs of his people. For well-nigh half a century he asserted his empire over the hearts and convictions of the Indian people. He brought them together upon a common platform of patriotism, into the spell of a common inspiration. His progresses from town to town and from village to village marked the spirit of a new initiation. He was prepared to build for India's freedom, brick by brick.

Local Self-Government, democratic institutions, would give him the power to build from the bottom upward. He was not for a brave new world all at once, at one stride. Reinhold Niebuhr warns us that our ideals, however imperative and absolute, must nevertheless reckon with the fact that we live in the realm of the historically conditioned, subject to pressures and environmental limitations that cannot be entirely put aside. "The moral ideal", as he puts it, "is a compass point, not a destination. While a fixed orientation to north and south is essential in order to find one's way to port, one may have to take one's ship, now to the east, now to the west, in order to move in the general direction one has chosen..... One steers by the fixed North Star, not in order to reach an ideal north, but in order to find a fair haven.

Surendranath had his ideal, but he strove to find "a fair heaven". The "All or Nothing" ideal of the revolutionist was not for him. That gave him

his power. That set for him his limitation.

We bow to the great patriarch of our national renaissance. We bow to the father of Indian nationalism. We bow to the maker of a free municipal Calcutta. He gave us all a heightened awareness of what it meant to be a man—and free. B.B.

Dr. P. N. Banerjea, Ex-Minto Professor of Economics, Calcutta University, paying his personal tributes to Surendranath in presence of a distinguished gathering at Indian Association Hall. The President of the meeting Dr. Radha Kumud Mukherjce, is sitting on extreme right beside Surendranath's statue.

Death Anniversary Observed

RASTRAGURU SURENDRANATH was not only a great political stalwart of Bengal but also his mind went in sympathy with the country's suffering mass who needed the leader's help in all spheres of nation's life. And this was fully emphasized by different speakers while solemnly observing the Thirty-third Death Anniversary of that Father of Indian Nationalism.

To the Corporation it was a special day. The institution remembered him as one who made the greatest gift to this civic body because it was under his guidance the Calcutta Municipal Act, 1923, was enacted and the citizens enjoyed a kind of civic freedom hitherto unknown to this land. A full holiday to the employees is the annual feature.

In the morning of Wednesday, the 6th August, under the auspices of the Indian Association, a memorial service was held at the foot of the imposing life-size statue of Surendranath at Curzon Park, near Esplanade area. The statue was beautifully bedecked with flowers and foliage. The leader's bust was profusely garlanded. Floral tributes were placed by different organizations as well as by individuals. The Calcutta Corporation, the Indian Association, the Corporation Employees Association the India To-morrow Club and many other institutions and organizations were among the participants.

Shri Sachindra Narayan Guha conducted the service. A large and distinguished gathering attended the function. Respectful tributes were paid to the memory of Rastraguru by the President, Shri Sudhir Kumar Basu and others.

AT SURENDRANATH COLLEGE

At Surendranath College, a function was held on the same morning in observance of the Death Anniversary of its founder, Sir Surendranath Banerjea. Shri S. C. Roy, Sheriff of Calcutta, presided and Shri Bimal Chandra Sinha, Minister, West Bengal, was the Chief Guest. The speakers included Shri Hemendra Prasad Ghosh, an octogenarian, who recalled his old association with

Surendranath and emphasized what the great patriot thought and did for the country. The others to speak were the ex-Principal, Shri P. K. Guha, and Principal Ramani Roy.

AT INDIAN ASSOCIATION HALL

HOMAGE to the memory of Rastraguru was: paid at a largely attended meeting held in the Indian Association Hall, Bepin Gauguly Street. The bust of Surendranath, placed inside the Hall, was: garlanded by the President of the meeting, Dr. Radha Kumud Mukherjee, veteran teacher and an ardent admirer of Surendranath.

The elites of the city were present to pay their respects to that talented leader of men whose thunderous voice once echoed and re-echoed through this Hall and who took an active part in establishing the Association, in order to voice the grievances of a section of Indian people.

Paying his homage to the memory of Surendranath nath, Dr. Mukherjee said that it was Surendranath who took the first step towards Indian freedom. He fought against heavy odds to rouse among the Indian people the sense of patriotism and the desire to be free. He recalled the activities of Surendranath as a political leader, as educationist, as journalist and in other fields of national activities and felt that it was high time that they took steps to make them known to the younger generation that Surendranath was a practical politician and a great orator.

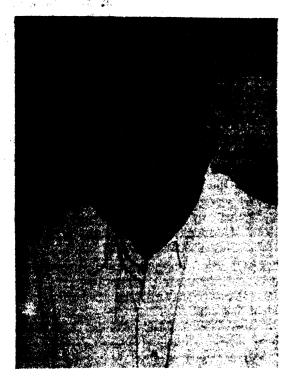

Dr. Mukherjee also pointed out that to know Surendranath was to know him as the Father of Indian Nationalism. The regeneration of India to-day owes much to Surendranath, added the President.

Dr. Pramathanath Banerjea said that when the people of India were groping in darkness it was Surendranath who tried to light the lamp of freedom and laid the foundation of Nationalism. Dr.

Dr. Mookerjee's Second Death Anniversary

CALCUTTA will never forget that popular and distinguished citizen, Dr. HARENDIA COMAR MOOKERJEE, whose Second Death Anniversary came off on the 7th August. He had an unfailing spring of human love and this prompted him to do everything he did for his countrymen. His large

Dr. H. C. Mookerjee

charities for the service of the poor truly befitted him as a Christian whose basic qualities were associated with the Message of the Lord.

His countrymen still remember him as a man who never forgot his fellow citizens leading a wretched life under sub-human conditions. The sufferings and miseries of the T. B. patients haunted him. The half finished task once undertaken by him is going to be fulfilled by his countrymen under the leadership of great minds like the State Chief Minister, Dr. B. C. Roy.

"Following his ideal of selfless sacrifice we would pay the best homage" says Dr. Roy while presiding over a meeting held at Darbhanga Hall of Calcutta University on Wednesday, the 6th August, to commemorate the Death Anniversary of Dr. Mookerjee. The State Chief Minister, Dr. B. C. Roy, appealed for donations towards the T. B. After-Care Colony proposed to be built at Digri, Midnapore.

The meeting was called by Shri S. C. Roy, Sheriff of Calcutta, on behalf of the citizens as a grateful recognition of that noble soul whose sweetness and love were the natural emanatious of his heart.

The Sheriff also spoke a few words on the occasion.

Dr. Roy pointed out to the audience that mere narrating the incidents of the great qualities of the life of late Dr. Mookerjee was not enough on such an occasion. Dr. Mookerjee was not only a great scholar and patriot, but he possessed a noble soul also, which went all out to serve the cause of the suffering people whom he considered as the living embodiments of God.

Narrating a few instances of his charity, the State Chief Minister said that soon after his assuming the responsibilities of the Governor, Dr. Mookerjee told Dr. Roy that he would take Rs. 500-only a month out of total emoluments of Rs. 5,000-. The rest of the amount he liked to be given in charities preferably for the needy students of the University with which he was associated for a long time. It was a noble gesture of a great soul which acted silently, he added.

Concluding, Dr. Roy asked everybody to try to understand the spirit of this simple-living, great scholar and patriot. It is the duty of every citizen to give in whatever measure he could, to fulfil the unfinished work of charity which Dr.

STATE GOVERNOR'S APPEAL FOR FUNDS

The West Bengal Governor, Shrimati Padmaja Naidu, who was then on a tour of districts, in a message made the following appeal on the occasion of Dr. Mookerjee's Second Death Anniversary:—

I appeal to the public of West Bengal to honour the memory of Dr. Harendra Coomar Mookerjee on August 7th not merely with beautiful words and sentiments but by a concrete expression of their appreciation of his devoted and selfless dedication to the service of the people of this State. By contributing towards his living memorial they will not only be honouring Dr. Mookerjee but they will also be helping to fulfil an urgent need of the people of West Bengal who are imperilled by the growing incidence of Tuberculosis. The T.B. After-care Colony named after Dr. Mookerjee, situated at Digri, Midnapur, is estimated to cost Rs. 25 lakhs, of which the State Government would contribute Rs. 10 lakhs, Rs. 8.5 lakhs had already been raised and balance of Rs. 6.5 lakhs had to be obtained. The first unit of the colony estimated to cost Rs. 7.40 lakhs and to accommodate 50 patients would completed in a few months.

Mookerjee had started during his life time; these are the T.B. After-care Colony Fund, and Deshabandhu Memorial Fund, Dr. Roy appealed.

The eminent physician further said that the colony would have provision for light work for cured T. B. patients and for two-room blocks, so that they could find permanent accommodation there. This was done to prevent relapse of the disease.

EMBARRASING TO SPEAK ON DR. MOOKERJEE

The Mayor, Dr. Triguna Sen, said that he felt embarrased to speak on such an occasion. Were they competent to speak on the life and work of such a great soul when they could not follow the path shown by him. From the very heginning, Dr. Mookerjee made sacrifice his motto of life. Dr. Sen also recalled the late Dr. Mookerjee's deep sense of

(Continued on page 378)

Tagore's Death Anniversary

CALCUTTA'S air is still thick with the memory of RABINDRANATH. The whole city still reverberates with his songs which are echoed and re-echoed from one corner to another. Citizens cherish to remember him on every occasion whenever an opportunity is presented to do so both in their rejoicings as well as in their distress. In one word the Poet still lives in the minds of Calcutta's citizens where the Poet took his birth.

Amidst such happenings came off the SEVENTEENTH DEATH ANNIVERSARY of that noblest son who was considered to be an important soul in the minds of the citizens.

On Thursday, the 7th August, Shri S. C. Roy, Sheriff of Calcutta, placed a wreath on the Samadhi of Rabindranath at Nimtolla Burning Ghat, northern part of the city, the very site where the Poet's last rites were performed. The function was arranged to observe the Death Anniversary under the auspices of the Tagore Society. Shri Bimal Chandra Sinha, Minister, West Bengal, also placed a wreath on behalf of the Rabindra Bharati. Prof. Charu Chandra Bhattacharyya and a galaxy of distinguished citizens watched the function. Wreaths were placed by them individually as well as on behalf of innumerable cultural and educational institutions lying both in this city as well as in its suburbs.

On the occasion of the Death Anniversary, the room in the Tagore family house at Jorasanko, Prince Dwarka Nath Tagore Street, where the Poet lived, was opened to the public and was visited by streams of people throughout the day who offered flowers.

Memorial services were arranged by a large number of organizations and institutions in almost similar way at their selected sites. The David Hare Training College observed the Death Anniversary on Friday, the 8th August last with Dr. Subodh Chandra Sen Gupta of the Presidency College in the chair. The students of the College presented on the occasion a 'Giti Alekhya' of the Poet through songs and recitals, a picture of Rabindranath as a man and a poet. The president dwelt at some length upon the characteristics of Rabindranath's writings showing a reconciliation of opposites and the secrets of his universal appeal.

'Smaranika' an almost similar function was also held at the Institute of Women's Education,

Hastings House, Alipore, on Thursday, the 7th August.

Kidderpore Surabitan observed Rabindra Tirobhab Dibas' on the same evening at Mansatala Lane through a simple ceremony of Tagore songs and speeches.

The teachers and students of Vivekananda Students' Home celebrated the Death Anniversary on the same day. Prof. Tarapada Bhattacharyya presided.

BUY SWADESHI WEEK

Buy Swadeshi Week' is associated with the names of two noblest sons of Bengal,—Rabindranath and Surendranath—who pioneered the movement in the early twenties when the first mass movement for national upliftment was started and the then Bengal took the lead of it. The week is being solemnly observed since then. Accordingly, it has been decided by the members of the Cottage Industries Development Board, West Bengal, to celebrate "Buy Swadeshi Week" throughout the country from 7th August to 14th August through meetings and industrial exhibitions at different centres and places in the State, the centre being located in this city.

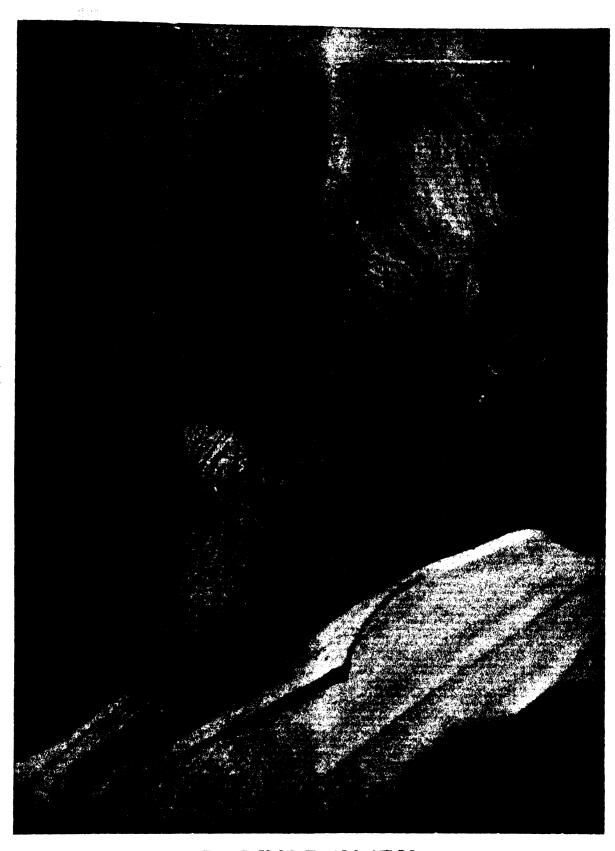

On the 7th August, a big mass meeting was held in the Municipal Museum Hall, College Street Market. Shri Bhupati Mazumdar, Minister, Industries and Commerce, West Bengal, while inaugurating the function recalled the old days when the vow of Swadeshi was undertaken by the countrymen for reviving Bengal's old cottage industries. Shri S. P. Sen, President, Bengal National Chamber of Commerce and Industries, presided. The speakers included a few important citizens who had once took up the cause of national industries in India.

BOSEPARA SCHOOLS

Situated in the northern part of the city the Bosepara Primary and Junior High Schools held its annual general meeting jointly on Sunday, the 3rd August, wherein Shri Gourikissore Goswami was elected President and Councillor Ranajit Coomar Mitter, as General Secretary of the school. A group of important citizens of the locality was also elected to the Executive Committee.

RABINDRANATH
August 7

Thems & Kenneng

GREATER CALCUTTA

In the weekly meeting, on Friday, the 8th August, the Corporation approved a proposal of the Mayor, Dr. Triguna Sen, to call a conference of the Chairmen and other heads of all the riverine Municipalities from Budge Budge to Kanchrapara to evolve a joint scheme or betterment of roads, water-supply, sanitation and sewerage, and for disposal of industrial waste, in order to develop neglected areas and to minimize the pressure of population in this city.

A proposal on these lines was stated to have been discussed by the Mayor, Dr. Sen with Dr. J. C. Ghosh, a member of the Planning Commission, during the latter's visit to this city some time ago.

The House welcomed the proposal. Councillor S. K. Gupta, I.C.S., Chairman, Calcutta Improvement Trust, thought that unless the Corporation was vested with special powers as a supreme body to undertake schemes like this the proposal would never see the light of the day.

Describing this as a timely move. Councillor Anil Maitra emphasized that as Corporation was the leading institution among the Local Self-Governing organizations, there should not be any difference of opinion about the Corporation's initiative in this. The shape of things to come in near future, as visualized by Councillor Maitra, was populous satelite towns around the city. He hoped that the Second Five-Year Plan would provide larger amenities to the citizens living within those riverine Municipalities. He was also sure that the construction of electric tracks would be completed around the city within a few years and this would help much to relieve the pressure of population in this city.

The idea for Water Board for Greater Calcutta areas was felt long before. Even a Drainage Board for the purpose was thought of at an earlier stage. And unless an integrated scheme for water-supply, sewage and industrial waste disposal is implemented according to the opinions of the experts, the city life would never be safe, as things happen in these days.

ENTHUSIASM IN CITY

A short lived enthusiasm and exuberance have centered round a bye-election for a seat of Legislature in Bhowanipur area, southern part of the city. The bye-election has been caused by the resignation of Shri Siddhartha Sankar Roy, a former Judicial Minister of West Bengal. Main contestants are Councillor Bejoy Kumar Banerjee and Shri Roy himself who has sought re-election on grounds of principle. Councillor Banerjee's candidature has been supported by the largest political party in the State, the Congress, as its nominee. Fighting as an independent candidate Shri Roy has secured the support of all the political parties in the State sitting in opposition in the Legislatures. The bye-election has been scheduled on Sunday, the 24th August. The third candidate has progressed little for securing votes.

Meetings are being arranged almost daily by those groups in support of their respective candidates. Important citizens, taking part in either

side, are addressing those assemblages whose sites are not always city's parks and public places but street corners also. At the present moment, only a few days ahead, enthusiasm and exuberance are running high amongst their respective supporters.

But the most dominating feature of the byeelection is the poster menace. There are few buildings and houses in the arec where ${\bf a}$ single paper has not been pressed. Postering and stenciling on walls have been found to be the cheapest means to canvass one's candidature. And this process has been fully uthized probably against the wishes of the houseowners. Already there had been a good number of pasted walls where advertisements on cinemas, sundries, meeting notices and what not abound in them. And the bye-election had added the greatest lot. House-walls on minor roads and lanes have not even been spared. And probably all have suffered equally irrespective of the lack of symmetry in buildings or an worn-out wall at the point of collapse. The more prominent a place, the more attractive the poster espousing the cause of the candidate. In certain places posters have targetted the opposit candidate and so on.

But whatever the poster menacing, or the enthusiasm of the young might be, the citizens' verdict would be given through the ballot boxes under a democratic constitution and surely the results would indicate such.

KAVIRAJ SATYABRATA SEN PASSES AWAY

We deeply regret to announce the death of Kaviraj Satyabrata Sen, an Ex-Councillor, at his residence, Kalighat Road, after a brief illness, on Tuesday morning, the 5th August. He was 66. He was the grandson of the late Chandra Kishore Sen, the founder of Messrs. C. K. Sen & Co. (Private) Ltd., a manufacturing firm of perfumery.

The late Kaviraj Sen was one of the most popular figures in this city. By his gentle manners and charitable dispense he earned love and respect from all quarters. He was first elected to the Corporation in 1930 under the leadership of Subhas Chandra Bose and served this institution as the Chairman of various Sub-Committees over a decade He was re-elected to the Corporation in 1940 and in 1944 and continued till 1948.

Connected with Congress organization from his youth, the late Kaviraj was Vice-President of the Central Calcutta Congress Committee and member of the All India Congress Committee for a few years. He was associated with many cultural and social welfare organizations. He was Vice-President of the Ayurveda State Faculty, Trustee of Austanga Ayurveda, Vice-President, Central Swimming Club, Executive Member, Bengal Olympic Association and Calcutta Charitable Society. As a Founder-Trustee of Hindu Satkar Samity, his services were immense for its cause. Besides, he was a member of Calcutta Rotary Club, executive member of Mohun Bagan Club, executive member of Bhowanipur Sangeet Sammelani and a Director of Art Theatres.

As soon as the death news spread over the city a large number of his friends and admirers

rushed to his residence. This included a group of his old associates in the Corporation. Wreaths were also placed on the bier both on behalf of different institutions and organizations, as well as of individuals. His last rites were performed at the Sahanagore Burning Ghat, South Calcutta. The Corporation offices were also closed for the rest of the day in that afternoon as a mark of respect to his memory.

The late Kaviraj Sen's death was also widely mourned. The Corporation at its weekly meeting on Friday, the 8th August, mourned his death. Eloquent tributes were paid to his memory by the Mayor, Dr. Triguna Sen, who moved the motion from the Chair. At the suggestion of Councillor Ushanath Sen, the House adjourned its sitting for ten minutes as a mark of respect to his memory.

Many of the Standing Committees scheduled to be held on Tuesday and Thursday also mourned his death. The Calcutta Corporation Scavengers & Labours' Union passed a condolence motion at its Committee meeting on Friday.

A meeting of the teachers, physicians, staff and studenas of the Jaminibhushan Astanga Ayurveda Vidyalaya and Hospital was held on the very day of his death at the Vidyalaya premises to mourn the deah of Kaviraj Sen, one of the Trustees of the Institution. A condolence resolution was adopted all standing. Working of all departments of the institution remained suspended as a mark of respect to the memory of the deceased on that day.

We also extend our sincerest condolences to the members of the bereaved family.

A BIG DIA. TUBE-WELL IN TOLLYCUNGE AREA

A big 8 in. dia. tube-well was sunk some time ago by the Government of West Bengal, for fire fighting purposes at Russa Road East First Laue under Ward No. 78. According to previous arrangements, the tube-well was handed over to the Corporation for its maintenance. It was put into commission by the Corporation officials of the Water Works Department in presence of Councillor Deversad Chatterjee, M.L.C., (right in the picture). Shri S. K. Kabasi, Deputy Executive Engineer, Water Works, (on the left), Shri A. Ghosh, Resident Engineer and others took special initiatives for the early execution of the project. This will, no doubt, greatly relieve the scarcity distress of the citizens residing in this part of the city.

It may be recalled here that this is the biggest diameter tube-well ever sunk in Tollygunge.

-DR. MOOKERJEE'S SECOND DEATH ANNIVERSARY

(Continued from page 375)

patriotism when India was torn asunder by political agitators. He remained steadfast to his ideal and declared that as a true Christian he did not feel that the Christians should live a separate life-from the rest of their fellow brethren in India.

Earlier, Prof. Nirmal Kumar Siddhanta, Vice-Chancellor, Calcutta University, said that no word could express adequately his deep love for this. University with which he was associated in various capacities such as teacher, benefactor and lastly as Chancellor. His charities knew no bounds and he could never forget the students and the University. As Governor of the State, he was an ideal Governor—a noble soul dedicated to service of the people, emphasized Prof. Siddhanta.

PRAYER MEETING

Respectful homage were paid to the memory of the Late Dr. Mookherjee at a Prayer meeting held at the Lower Circular Road Cemetery on Thursday morning, the 7th August.

The Memorial Committee which organized the meeting decided to erect an Epitaph on the grave of the great son of the country within a short time.

Floral wreaths were placed on the grave of the Late Dr. Mookerjee by Shri P. C. Sen, on behalf of the West Bengal Government, Capt. J. N. Chowdhury, on behalf of the West Bengal Governor, Shri Atulya Ghosh, on behalf of the West Bengal Pradesh Congress Committee, Shri S. C. Rov, Sheriff of Calcutta, Prof. N. K. Siddhanta, on behalf of the University of Calcutta, Shri Sankardas Banerjee and Dr. Suniti Kumar Chatterjee, on behalf of both the Houses of Legislatures, Shri Jyotish Ghosh, on behalf of Nikhil Bharat Banga Bhasa Prasar Samity and others.

Prayer services were conducted by Ven'ble S. K. Das and readings from the Bible were made by Rev. S. K. Biswas.

Speaking at the memorial meeting, Shri Sen, Prof. Siddhanta, Dr. Chatterjee, and Shri Banerjee, recalled the services of the Late Dr. Mookerjee, rendered for the cause of the people of the country, his ideals and simplicity.

-DEATH ANNIVERSARY OBSERVED

(Continued rom page 374)

Banerjea narrated the life and activities of Surendranath and said that in these days Surendranath's life and teachings should be made widely known in order to acquaint people that Bengal had nourished India's struggle for freedom aptly and ardently.

Referring to the oratory of Surendranath, Shri'P. K. Guha, a former Principal of Surendranath College, said that the leader brought back life to the dormant nation through his genius on oration, which one could never be imbibed unless he be a sincere patriot. The retired teacher also said that how he himself was inspired to undertake the sacred task of teaching by Surendranath underwhose feet he had the opportunity to learn.

Principal Ramani Mohon Roy, Shri Phanindra Nath Mukherjee, Editor, *Bharatbarsha*, and Shrii Radhika Prasad Banerjee also spoke.

CITY NEWS PARADE

OBITUARY: Death of Shri Dhirendra Prasanna Sen, a Trade Union leader, occurred in this city about a month ago after a brief illness. He was about 50.

Hailing from the district of Dacca, Bikrampur, now in East Pakistan, the late Shri Sen had his education in Dacca. After graduating from the Dacca University he joined the Revolutionary Party during the movement of Thirty and became one of its active workers. He was put under detention for his political activities for several years. After release he joined the Calcutta University Office and built up an Employees Union there, the first of its kind. Gradually he earned popularity among his colleagues by his amiable behaviour and suave manners.

The late Shri Sen was responsible for bringing about many of the rights and benefits to the employees. He also gave evidence before the B. L. Mitter University Enquiry Committee. This caused displeasure among the authorities and he had to leave the University. Later on, he joined the Life Insurance Corporation and became an active worker of its Field Workers' Union.

The late Shri Sen's death was widely mourned. In a meeting to condole his death, held on Saturday, the 2nd August last, in the Mahabodhi Society Hall, Bankim Chatterjee Street, a large number of his friends and admirers paid respectful tributes to his memory.

Shri Panchu Gopal Roy Chowdhury, an Advocate of the Calcutta High Court, died on the 1st August, at his residence in Bhowanipore. He was 57.

SHRIMATI ANNAPURNA GOSWAMI'S contributions to modern Bengali literature were recalled at a memorial meeting in this city by her admirers on the 27th July last. Dr. Srikumar Banerjee, former Ramtanu Professor of Bengali, Calcutta University, presided and Shrimati Radharani Devi was present as the guest-in-chief.

Dr. Banerjee in his tribute to late Shrimati Goswami said that she had made her mark in literature because of her deep insight into the life and abounding love for the people. Her short stories as well as her novels bore ample testimony of her powerful pen.

The Chief Guest said that through her untimely death Bengali literature had lost a new talent having a new refreshing outlook.

Dr. Atindra Nath Bose read selected pieces from her work "Rel Liner Dhare" (By the side of Railway Line) to show her love for the common man.

Shrimati Kanak Mukherjee, Shrimati Sagarika Ghose, Shrimati Hashirashi Devi, Dr. Ashutosh Bhattacherjee, Shri Abaninath Roy, Sm. Satidevi Mukherjee, and many other writers of modern Bengal joined in the discussion on the life and works of late Shrimati Goswami.

Earlier Shrimati Santimoy Dasgupta, Secretary, Sangathani, under the auspices of which the meeting was held, said that the late Shrimati Goswami was actively connected with the organization and it was their duty to recall her services to the literary world of Bengal.

CALCUTTA EXPERIENCED ONE OF THE HEAVI-EST RAINFALLS on Monday, the 4th August, causing heavy floods in many parts of the city. The rainfall recorded by the Alipore Meteorological Office, was 1.5 inches till 5-30 P.M. on that day. The Dalhousie Square and the Assembly areas were also under depth in addition to those autorious places.

Till 8-30 in the next morning, the rainfall recorded was of similar depth. Corporation's Pumping Stations at Palmer Bazar, and Ballygunge recorded 1.55 in. and 1.58 in. of rain respectively between 2 A.M. and 8 A.M. while its Sub-stations at Mominpur and Manicktala recorded 0.8 inches and 0.78 inches respectively.

The sky was overcast throughout Thesday but only drizzles followed the morning shower.

Tram services on almost all sections were disrupted on both the days. The services began about two hours late on the second day.

As a result of Monday's heavy downpour there was a failure of underground telephone cables affecting the service on lines between Telephone Bhavan and the office of 47 and 48 Automatic Exchanges. Partial service was restored on Tuesday evening by diverting the junctions to alternative routes. Almost all football matches on the Maidan were abandoned and some functions and meetings were cancelled.

The city experienced another heavy shower a week ago on Monday, the 28th July last. It flooded many parts of the city, dislocated transport services and a few football matches were abandoned. For about two hours it rained without a break. Monday was the wettest in this season. From 8-30 A.M. to 8-30 P.M. the rainfall recorded was 65.5 mm (28 in.). Till Monday morning there had been 15 inch of rain in this city since the 1st lunc.

The day had been cloudy from the morning and there were occasional showers.

The city's rain water drainage system was put to severe test. The Fort rampart was flooded and besides the notorious spots, such as Cornwallis Street near Thanthania Kali temple and Tollygunge overbringe site, many roads south of Park Street were also under water which was knee-deep near Rainey Park and portions of Lansdowne Road. The condition of Chittaranjan Avenue near its junction with Harrison Road was not much better.

A HOUSE COLLAPSE AND A FALL: A staircase collapsed in a house in Bindu Palit Lanc, Jorasanko area, on Wednesday, the 6th August. A woman and a child of five were injured due to this accident.

A child of seven Asoke Kumar, fell from the third floor of a building on Harrison Road, Central Calcutta, on the same morning and was removed to the Medical College Hospital.

NEW SHIPS ANCHORED AT CALCUTTA PORT:

1. N. S. Ganga, Gomati and Godavari anchored at the Man-of-War jetty, Kidderpore, on Tuesday, the 5th August. The ships belonged to the 22nd Destroyer Squadron.

Lt. Commandar Raj Khowar, Resident Naval Officer, called on Captain K. R. Nair of Godavari, the senior ship of the Squardron. Captain Nair met Major-General Henderson-Brooks, G.O.C., Local Formation and Air-Commodore Shivdev Singh, Air Officer Commanding No. 1 Group, LA.F. The Hunt class destroyers will have a week's visit before they leave for Visakhapattam.

NEARLY 70 NON-BENGALI STUDENTS learning Bengali under the guidance of the Nikhil Bharat Banga Bhasa Prasara Samity, an organization for the spread of the language, sat for examination on the 27th July last in the premises of the David Hare Training College, Ballygunge Circular Road, South Calcutta. The examination, held under the same auspices, was divided into three stages, Adya, Madhya and Upadhi. The examinees halled mostly from South India.

VITAL STATISTICS

For the City of Calcutta for the week ending 26th July, 1958.

City of Calcutta (Town and Added Areas.)

The total number of deaths registered during the week was 644 against 669 and 636 in the two preceding weeks and less than the corresponding week of the last year by 47. The general death-rate of the week was 11.03 per mille.

Town (Wards 1-27.)

The number of deaths registered during the week ending 26th July, 1958, was 480 against 531 and 507 in the two preceding weeks. There were 35 deaths from cholera against 33 and 42 in the two preceding weeks. There were 3 deaths from small-pox during the week against 2 in the previous week. There was 1 death from influenza against 2 in the previous week. The mortality from fevers and bowelcomplaints amounted to 10 and 66 respectively against 18

CHECKING OF FILTERED WATER CONTAMINATION

An additional temporary staff of about 40 men have been appointed by the Water Works Department to check and remove causes of contamination of filtered water in the mains. With the engagement of these temporary hands, the department's permanent staff has been occupied solely with the work of chlorination of water pipes, a process which is still being continuing as a measure for the prevention of water contamination. Two of the Corporation's Chlorinators are still being worked for the purpose.

The additional staff would be employed in tracing out the leakages in the water pipes throughout the city. After detection of the leakages, repairs work would be undertaken on the spot by this staff.

The permanent staff of the department would be gaged for chlorination purposes.

and 85 in the preceding week. The general death-rate of the week was 10.62 per mille per annum.

There were 76 imported deaths. Excluding these, the death-rate of the Town was 8.94.

There were 70 deaths from respiratory diseases against 76 in the previous week.

There were 25 deaths from tuberculosis against 31 in the previous week.

Added Areas (Wards 28-32 and Tollygunge.)

The number of deaths registered was 164 against 138 and 129 in the two preceding weeks. Of these, 8 were from cholera, nil from small-pox, nil from influenza, 6 from fevers, 31 from bowel-complaints and 25 from respiratory diseases. The death-rate of the added areas was 12.46 per

There was no imported death. Excluding this the death-rate was 12.46.

There were 8 deaths from tuberculosis against 5 in the previous week.

MUNICIPAL SERVICE COMMISSION

NEW APPOINTMENT:

Sub: Permanent appointment to the post of Conservancy Supervisor, Cossipore, in the grade of Rs. 200-10-350|-.

In pursuance of the Municipal Service Commission's letter No. 2 M.S.C. | 1P | 9 | 57, dated the 3rd January, 1958, the following resolution was passed by the Standing Finance Committee, dated the 28th June, 1958:-

That, as recommended by the Municipal Service Commission, Shri Paresh Chandra Bose be permanently appointed to the post of Conservancy Supervisor, Cossipore, in the grade of Rs. 200-10-350 with usual allowances, vice Shri B. M. Tagore, deceased.

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. I Hour—four annas. I Hour—four annas. Every succeeding hour part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year. "A" class coolies have been allowed.

at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year. "A" class coolies have been allowed Red arm badges with Black numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable

6. If goods are taken "on approval" customers are recommended to charge the sales.

6. If goods are taken "on approval" customers are commended to obtain a voucher to that effect stating the price paid.
7. Any

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perumbule allowed inside the markets.

allowed inside the markets.

2. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bircycles in charge of the lessee thereof on payment of a fee of 0.1-6 for a Bicycle and 0.3-0 for a Motor Cycle, between 6 a.M. to 7 p.M.; between 7 p.M. to 12 a.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

this connection.

10 Customers are equested that if they suspect any weight used by an condor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

The Fifteenth Of August

On the 15th of August, 1947, the long, dark night of our bondage came to an end, and in the van of the morning light, from heart to heart, liberty gleamed. India burst into light—and burst upon the world, Free. Liberty gleamed—amid the Partition of India. Old ties and relationships were sundered; cherished memories uprooted.

And the life we lead is one of infinite distraction and confusion—fragmentary, broken in upon and athwart in every conceivable way. A pall of blackness seems to be enveloping us. We ask social questions. We ask for a "new freedom". But wherever we breathe, a new strain of feeling bears the song of liberty. Liberty itself is a value, the supreme value. "Security", it is said, "is mostly a superstition. It does not exist in nature..... Faith alone defends." Faith alone can sustain life.

The fifteenth of August has contributed a new quality to our life and history, a quality of ideality, freedom and spiritual audacity. It is meant to liberate our energies and cheer us with new hopes and splendid visions. We have achieved liberty, and in the van of tomorrow's morning light, we shall come upon a new birth of freedom. Let us all walk unafraid towards the Enchanted Wood. Our long winter has gone—and the spring cannot be far behind.

Calcutta Celebrates Eleventh Year Of Independence

Cruzens' enthusiasm san high when the city celebrated the Eleventh Anniversary of THE INDEPENDENCE DAY, on Friday, the Eleventh Boast of a florid vigour not their own, the citizens observed that day of days in a most befitting manner as they did in the past. They smiled because they find a music centred in a doleful song steaming up from the heart of this city, so vivid in the minds of the citizens. And thus there was an added grace in the observance of the day.

Calcutta wore a festive look his occasion. National Flags fluttered everywhere in the city.

Flags were flown on Government, public and commercial buildings and on schools, colleges and houses. Buses, taxis and many private cars also flew the flag. Besides, there were ceremonial flag hoistings in parks and squares, and public places. Speeches were also made stressing on the significance of the day. Prabhat Ferris awoke citizens from their morning slumber. Placing of wreaths at the Martyrs' Column at the Gandhighat, Barrackpore, formed the main feature of the day. A State Reception at Raj Bhavan in the evening was also included in the day's programme.

Corporation's celebration was a departure from the usual practice followed during the last few years. The Deputy Mayor, Shri Keshab Chandra Basu, unfurled the tri-colour at the Market Square, a park in front of the Central Municipal Office Buildings, amidst re-iterating sounds of Bande Mataram and national songs. Decorated tastefully with flowers and foliage the park looked green and fresh. The function was held on a raised dais erected on the occasion.

Floral wreaths were placed by the Deputy Mayor, Shri Basu and others present, on the "Saheed Bedi". A sweet music went on then "ফাসীর মণ্ডে গেরে নেল......" etc. The music was provided by the Paura Pratisthan Natya Samity.

Carrying National Flags—four big processions were drawn from the four corners of the city converging into the Maidan, under the foot of the Ochterloney Monument. National Flag was hoisted at its high top. The mammoth rally was addressed by Shri Atulya Ghosh, M.P., Pradesh Congress Chief.

In the evening, Dr. Suniti Kumar Chatterjee spoke on India's Culture at a specially erected pandal at Chowringhee under the auspices of the West Bengal Pradesh Congress Committee.

Throughout the day there was a holiday atmosphere. This was particularly marked in the evening. Thousands of people were out for sightseeing.

A DAY FOR RE-DEDICATION TO WORK

EXPLAINING the significance of the day, the Deputy Mayor said at the Corporation function that it was a day when one should share his joys and sorrows with others. As an auspicious Day when the country got her hard earned freedom people should consider this as a Day for stock taking as well as to decide for the future. The freedom has been achieved through services and sacrifices and so one should re-dedicate himself to work for building up the future, Shri Basu emphasized.

Continuing his speech Shri Basu said that the eleven-year old freedom for the young country was not adequate to bring good to all and in order to achieve the concept of a Welfare State. There should be an united effort for the purpose. Everybody should contribute his mite for implementation of that project, he added.

After unfurling the National Flag a wreath was placed on the Martyrs' Tomb by the Deputy Mayor, Shri Basu. He was followed by Councillors Mani Sanyal, Karam Hossain, Mukur Sarbadhikary, Harinarayan Sadani, and others. Shri A. K. Basak, D. C. I, Shri A. K. Sen, Chief Engineer, Shri Abinash Bhattacharyya on behalf of the Employees' Association and representatives of other allied organizations also placed wreaths thereon. A large gathering witnessed the function.

Flags were flown on the top of the Central Municipal Office Building, S. N. Banerjee Road and other Corporation offices.

MAIDAN RALLY

Ceremonial observance of the Anniversary of India's Independence Day was arranged at numerous places in the city and outside. Flag-hoisting and colourful march-past formed special features of the celebrations.

Addressing the huge meeting on the Maidan in the afternoon, Shri Atulya Ghosh, M.P., Pradesh Congress Chief, said that India had made significant progress in many directions. But there were many serious problems still to be solved. People had enthusiasm. If this could be properly harnessed the country would be able to overcome all its difficulties.

"SCANDAL OF CALCUTTA"

'Sealdah', Shri Ghosh said, was the "scandal of "Calcutta." When the State Government was approached about it, it said that the responsibility transparent problems and difficulties the Centre's and when the Centre was asked the size of West Bengal and try to solve them. The to do something a plea was made that the States people of West Bengal, he was sure, would work Government was responsible. The Congress held for the building up of a new and better country.

power in both Governments. Shar Chosh did not understand what constitutional or legal difficulties stood in the way of solving the problem of Sealdah.

The president called upon the people to help in the establishment of a socialistic society and to bring to an end all kinds of injustice, corruption and inequalities. He also said that they should not remain content by dubbing the Bengalees as having aversion to hard labour but they should

AT GANDHI CHAT, BARRACKPORE.

Addressing the prayer meeting at Gandhi Ghat, Barrackpore, held on that morning, Shri Prafulla Chandra Sen, Minister for Food and Refugee Rehabilitation, said that it was because of the sacrifice made by countless people that India's independence was possible. He said that on this solemn occasion they would have to re-de-·dicate themselves to the cause of removing distress, poverty, want and other difficulties. For this purpose love for the country and self-sacrifice were

Wreaths were placed at the foot of the Memorial Column on behalf of the State Governor, members of the Cabinet and various non-official organisations including Shri Sen.

HARENDRA COOMAR MEDAL FOR GALLANT WORK

At a function of Independence Day at Raj Bhavan, the State Governor awarded the Dr. Harendra Coomar Mookherjee Silver Medal to Burjor F. Master in recognition of his gallant action in saving the life of a man who was about to be drowned in the College Square tank on June 10, 1958.

AT OTHER PLACES

Independence Day was celebrated enthusiasm at the Muslim Institute this year in presence of a big gathering. President, Muslim Institute, Khan Bahadur G. A. Dassani, hoisted the Tri-colour Flag.

Calcutta District Congress Committees organised a number of Independence Day processions and meetings in the afternoon. They also arranged flag hoisting ceremonies in city's parks and public places.

Shri Bejoy Singh Nahar, M.L.A., and Secretary, Pradesh Congress Committee, hoisted National Flag at the Rotunda of the Sir Stuart Hogg Market in the morning. Councillor J. L. Saha, M.L.C., presided over the function.

Under the joint auspices of the Sashi Bhusan Primary School for Boys and Raj Rajeswari School for Girls, the day was solemnly observed.

In the morning Shrimati Prativa Sarkar, Headmistress, hoisted the National Flag, while Shri Ananta Mitra, Headmaster, presided.

'DEMAND DAY'

Eight leftist parties gave a call for observing the Independence Day as "Food, Shelter and Employment Demand Day." They hold a raily in Subodh Mullick Square on the same afternoon.

The meeting was presided over by Shri Jihanlal Chatterjee, Democratic Vanguard leader, while it was addressed by Shri Hemanta Kumar Basu, M.L.A., Shri Subodh Banerjee, M.L.A., Shri Makhan Pal and others. They criticized the failure of the Government to solve the problems afflicting the people.

A procession was taken out from the meeting displaying flags, festoons and placards parading

DR. ROY'S MESSAGE

In a speech broadcast by A.I.R., Calcutta, the State Chief Minister, Dr. B. C. Roy said on that date: - "We commemorate this day to remind ourselves of the task that lies ahead of us-the task of building a prosperous India without which Independence would be of little significance. We commemorate this day also to remember all those who laid down their lives and made freedom possible for us.

Dharmatala Street and its locality. It was halted at the Raj Bhavan.

Nine representatives on behalf of the demonstrators submitted a Memorandum. It urged upon the Governor to persuade the State and Central Governments to fulfil the minimum demands of the people.

Speaking at another rally at Hazra Park. Shri Iyoti Basu, M.L.A., criticized the claim of the Congress that it had won independence. This was a one-sided view of history, for this had ignored the contributions of revolutionaries, the Indian National Army founded by Netaji Subhas Chandra Bose and peasant, worker and student organizations and personnel of the Indian Navy. This was a day of remembrance and all martyrs for independence should be duly honoured and their secrifices be acknowledged, said the leader.

Sri Aurobindo Jayanti Celebrations

August 15 traces the beginning of a New Era with the birth of Sri Aurobindo, the great Savant of India. In the chronology of events that made India's history so glorious, this auspicious day saw

SRI AUROBINDO

the advent of a Great Soul who visualized the country's future and a Free India emerged on that very day.

Thus August 15 can never be forgotten by the citizens of this great city who had a chance once to watch the activities of that savant. He walked and moved in this city and founded his field of activity here once.

Synchronizing with those events Calcutta citizens observed the Day with innumerable functions and festivities in this city. About three thousand boys and girls of different schools and clubs assembled at Aryans-Mohamedan Sporting Club Ground on that day to give a demonstration of various physical feats under the auspices of Sri Aurobindo Physical Demonstration Committee.

Shri Bhupati Majumder, Minister, West Bengal, who presided over the function, said that the games and amusements were not mere entertainments. They developed habits, capacities and qualities which were greatly needed for the service to the people. Without the perfection of body, perfection in mind also sometimes become difficult, he emphasised.

Dr. Nalinakshya Sanyal, Chairman of the Celebration Committee, welcomed the participants and wished them success in life. Shri Ananda Mukherjee, Secretary, explained the efforts to make the display a success and thanked for their participantion.

At a largely attended public Meeting in Deshapriya Park, South Calcutta, in celebration of Sci Aurobindo Jayanti Dr. Jay Smith of Aurobindo Athram said that with his long experience as worker for world peace he had come to realise that the only way to achieve the same had been outlined by Sri Aurobindo in his Message on August, 15, 1947.

Dr. Smith believed that in such pioneers of the new age as Sri Aurobindo and the Mother not only India but the world also would find the ultimate-Divine answer to the problem of peace and progress. Ind fulfilment on different levels of life—individual, actional and global.

The Meeting was presided over by Shri-Promode Kumar Sen. It also adopted a resolution paying respectful homage to Sri Aurobindo as a great spiritual teacher.

Dr. Jay Smith opened an exhibition on Sri Aurobindo at the Rash Behari Avenue near the Park later on.

Under the auspices of Sri Aurobindo Parishad, the 86th Birthday was celebrated at the University Institute Hall, Bankim Chatterjee Street on the 14 August. Shri Sudhangsu Kumar Basu, Editor, Hindusthan Standard, presided, and Dr. Radha Kumud Mukherjee inaugurated the conference. Shri Hemendra Prosad Ghose was the Guest-in-Chief. Mr. Justice P. K. Sarkar, Dr. P. C. Chakravarty, Dr. Jotindra Bimal Chowdhury, Shri Probodh Kumar Sanyal, Prof. Subodh Kumar Moitra and others were the speakers.

Calcutte separate its appeal Mississippeal and the light August, adopted a number of assolutions standing larger amount of benefits to the rate-passes particularly to lower middle-class system of assessment of houses and properties lang within the houses of this city. These resolutions would be forwarded to the Government of Westernsel in the shape of recommendations for necessarily amending the relevant Sections of the present Calcutta Municipal Act, 1951. These related the provision of extension of the period of allowing rebates in payment, of quarterly Rate Bills and higher percentage of rebate on Consolidated Rate on lands and buildings lying in areas where the Corporation had not yet been able to provide the essential civic amenities. The percentage of graduated Consolidated Rates on lands and buildings according to the slab system was also serviced by lowering the determining rate percentage on holdings assessed on lower valuations.

These were mainly based on the resolutions passed by a three-man Special Committee appointed on Friday, the 8th August last. The Committee was headed by the Mayor, Dr. Triguna Sen, and Councillors Ushanath Sen and Anil Maitra as members. Councillor Sen moved those recommendations. The Committee was appointed to examine the relevant papers and amendments relating to fixation of Consolidated Rates on the annual valuation of the premises in the city. The Committee was directed further to submit its report before the Corporation at its subsequent special meeting on Tuesday.

Friday's special meeting was convened to discuss the present system of Assessment in Calcutta which had hit the rate-payers, specially the lower middle-class and to suggest necessary amendments for their relief. The motion was signed by nearly two dozen members of the House.

The first recommendation was that the relate evaluation on constitution was that the related evaluation on constitution of Bills should be continued and the product of the second of the win originally moved by Councillar Schemal Kuman Dutta and the was duly seconded by another. The Special Committee was stient on this issue. It rather rejected a motion of Councillar Shy Kuman Khanma, which was a should be abolish the system of allowing many others are continued to many others including councillar forms. Some others suggested the first system of charging interest on the defaultion described system of charging interest on the defaultion described system of charging interest on the defaultion described system of charging interest on the defaultion described system of charging interest on the defaultion described system of charging interest on the defaultion described system of charging interest on the defaultion described fully and be replaced by

citadentias (86) (2) of the Calentin May (8) of the Ca

pose of allowing this remission as explained by the like of the firm of the wells to such sometime to the owners of premises to sink tube wells. The Mayor said that Corporation, as they all know would not be able to supply adequate quantity of sweet water to the rate-payers in near future. Under the circumstances, such remission on Consolidated Rate should be allowed if the rate-payers make their own arrangements for getting water by sinking tube-wells.

original provision was a six and a quarter on the Consolidated Rate for the same.

Is per cent on the Consolidated Rate glould be aloved to the rate-mayors the ages where significantly priving and urinals had been constructed by the rate-payers themselves. It was significant this facility of sebate simplificantain in force so long the aneas remained unsowered.

large number of litigation cases pending before the Lav Courts for a long time. There were confusion and other allied effects on the The Special Committee looked into it.

The meeting thus recommended for the setting up of a Three-member Assessment Tribunal, where decisions should be final in all satters relating to objections to assessment as at passent dotte by the Smill Causes Court

One President who must be lawyer with 15 year experience and two members; one of whom shald be an expert and quasted Valuer and the other a qualified and experience Engineer should be incided in that Tribunal.

A resolution, which was passed by the House, resumended graduated consolidated Rates on the annual valuation of all lands and buildings in Coutta. The purpose of his revision on Consolided Rates, as explained by Councillor Ushanath Se was to give relief t some extent to the rate-pers belonging to the middle class groups. By the amendment it was recommended that a Considered Rate of 25 per cent on the annual value to where the same stored Rs. 10,000, should be iposed.

VIEWS AND REVIEWS

THE CORPORATION A

A Gist of Proceedings of the Sixteenth Ordinary Meeting of the Corporation held on 8th August, 1958

RAISING OF A WALL

Pointing out the raising of a wall bend on Circular Garden Reach Road by Commissioners, Councillor Ushanath Sen se it had caused an increased number of the accidents at the place as the wall had obstructed view of the traffic. According to Councillor Se formerly iron bars were placed instead of th blocked wall whereby traffic could have a disting view on the other side of the road. However, h wanted that the Corporation should move the Port Commissioner authorities for taking necessiry steps in order to avoid accidents.

FLOODING OF STREETS

Councillor thandra Sekhar Bhowmick dew the attention of the House is accumulation of wher on points of the steets and roads in Manicktala sea due to rains. This hd caused much hardship to he citizens residing in at area. Manicktala was merjed to the Corporation early thirty-five years ago. ut since then nothing opreciable development wrk undertaken by was Opporation authorities, he mphasized. Councillor Bhowmick urged that he House should take neessary steps without any arther delay in order to take the level of civic arenities there at par withthe city proper.

This was, however, assured to by the Mayr who presided then.

COSSIPORE BRIDGE

The cement overbridge connecting Cossipu and Baghbazar over the Bagbazar Canal has no become not only one of the ain connecting lin between the two areas but also he only way through which a major portion of citizen on the other si maintain their link with the city poper for differen reasons. The another link is Belgichia Bridge ov which a major portion of citizens by the other sie one is the Tallah Bridge, traffic upon thich has be restricted due to its partial break-down a fev yes back and it has not been renevated sinc their

But unfortunately, the Cossipore Braiga H shown signs of decaying and a slight breakdow one part could easily be noticed. This was refere to in the House by Councillor Sushil Pal who reprsented the Cossipore area. He urged the House to undertake necessary repair work of the bridge at an early date in order to avoid peoples' difficulties foreseen at hand.

The House also wanted to know the present position as to the re-building of the Tallah Bridge.

T. Hell Sychola DILAPIDATED CORPORATION BUILDINGS

Rising on matters of usgant public importance Councillor Riman Mitra drew the attention of the

House to the dilapidated condition of a Corporation uilding wherein a number of employees under the otor Vehicles Department were housed in a pitible condition. He failed to understand how the cople were required to pay the usual rent and they were repeatedly assured that the building would be repaired soon. It was attached to the Central Garage of the Motor Vehicles Department, Lower Circular Road, central part of the city.

The House was, however, surprised when the Mayor facetiously disclosed that he had advised some workers of the Engineering Department attached to a Corporation garage to strike work if their quarters, which still remained in a dangerous condition after it had partly collapsed some time ago, were not repaired within a certain period.

WORK AT CHILD HEALTH CENTRE

Work at Child Health Centre, Dilkhusa Street, had been stopped due to some reasons best known to the authorities. This was pointed out by Councillor Nilratan Sinha, who described the difficulties experienced by many citizens who went there with their children for examinations.

Councillor Sinha wanted that the authorities would have done better if they had notified the happenings earlier.

The Mayor, however, assured the House that he would look into it.

INDIA-CHINA FRIENDSHIP ASSOCIATION

Celebrates Third State Conference

In the context of the present Middle East crisis the adoption of the resolution for recognition of China by the United Nations' Organization was most timely and besitting one. This was decided by the India-China Friendship Association's Delegate Session held on Sunday, the 10th August in the University Institute's Hall, Bankim Chatterjee Street, central part of the city, in connection with the celebration of the Third West Bengal State Conference of the Association. It was attended by a large number of Delegates from all over the State including the city itself.

The five-day long conference, which was inaugurated on Saturday, the 9th August last, at the same place, further stressed the need of greater amount of friendship between the two nations—India and China as well as strengthening of cultural bonds between them.

Expansion of trade and commerce between the two countries was also emphasized.

Symposia on subjects relating to friendship and cultural functions were the other features. A new Executive Committee for the coming year was also appointed on the occasion.

Inaugurating the conference Dr. Sisir Kumar Mitra F.R.S., and Administrator, W. B. B. S. E., said that the policy of non-alignment as propagated by the Indian Prime Minister, Shri Jawharlal Nehru, had been accepted by many of the Asian countries who had responsibility to make this policy more effective.

Messages wishing success to the conference were read from Shri Nehru, Dr. Radhakrishnan, Vice-President of the Indian Union and Madam E. Soong Ching Ling. Shri Nehru said that the friendly relations of India and China were not only important for these countries but also for Asia and the world as a whole.

The Chinese Consul-General, Mr. Lu Hsi, said that the principles of co-existence had become more significant now when the world was seriously threatened by imperialists. India and China were engaged in peaceful reconstruction. China would this year produce over 10 million tons of steel. It had left the U.S.A. behind in wheat production, he added.

Presiding over the Conference, Dr. Suniti Kumar Chatterjee, Chairman, West Bengal Council, said that there had not been a single act of aggression in the history of Indo-Chinese relations which extended over several thousand years.

The Chairman of the Reception Committee, Shri Sankar Das Banerjee, Speaker of the State Assembly, said that the tie that bound China and India was stronger than diplomatic and political ties. But imperialism in the past centuries divided the two countries and China had become a sealed book to the ordinary citizen of India.

On Monday, the 11th August, a symposium on China's Five Year Plan' being presided over by Shri

Bimal Chandra Sinha, Land and Land Revenue Minister, was arranged at the Students' Hall, College Square. The participants were Prof. Kalyan Datta, Prof. Parimal Ghosh and others.

In another symposium on 'Budhism' held at the Mahabodhi Society Hall, Dr. Suniti Kumar was the main speaker. It was also held

resent Relationship between India and was the subject of another symposium, held on Tuesday, the 12th August. Shri Vivekenanda Mukherjee, Editor, 'Jugantar' conducted the discourse. The speakers included Prof. Subimal Mukherjee of the Calcutta University, Shri Amiya Nath Basu, Bar-at-Law and others.

The five-day conference concluded on Wednesday, the 13th August, when a programme of variety entertainment, in which Indian and Chinese artistes participated, was organized in the University Institute Hall. Shri Ramesh Chandra Banerjee, Dean of the Faculty of Music and Dance of the State Academy of Dance, Drama and Music, presided.

The main feature was presentation of dances both by the Charese and Indian students. These attracted a vast gathering.

LATE SHRI SURESH CHANDRA MAZUMDAR

The fourth Death Anniversary of Sureh Chandra Mazumdar was observed on Tuesday, the 12th August, at the Ananda Bazar Patrika House, Sooterkin Street, wherein eloquent tributes were paid to his memory by different speakers. Wreaths were offered on a decorated portrait of the founder of the organization placed there.

Shri Kalipada Mukherjee, Minister, West Bengal, who presided, said that a man like Suresh Babu was not bora every day. His undaunted patriotism, keen sense of duty, extraordinary zeal as organiser, wider outlook to build up healthy worker-management relation and all these would be remembered for all time to come.

Shri Tarasankar Banerjee, M.L.C., the celebrated novelist, recalled how Suresh Babu helped and encouraged writers of Bengal in order to raise the standard of the literature of the land of his birth. For the development of Bengali language he took up various schemes which would long be remembered by all.

Shri Hemanta Basu, M.L.A., once his political associate, narrated in details the power and influence which the late Shri Majumder had in the political life of Bengal. His association with the political parties was not much known outside as he preferred to serve the country silently. He was closely associated with the top-ranking leaders not only of Bengal but also of India as a whole. Many political workers found in the late Sri Majumder a friend in their distress.

Shri Promode Chosal, Shri Jitendra Bagchi also paid their tributes to the memory of the late Shri Majumder.

Shri Chapala Kanta Bhattacharjae, M.P., Editor, Ananda Bazar Patrika said that Suresh Chandra united all his colleagues with his deep love.

Engineers Are The Servants Of Society

Mayor Analyses City's Sickness

REPLYING to sentiments expressed on the occasion of a Reception given to the Mayor, Dr. Triguna Sen, by the Institution of Engineers (India), at the Great Eastern Hotel on Monday, the 11th August, the Mayor, in a moving speech, analysed West Bengal's political and economic situation and what he thought was "the clue to the State tical malaise."

Referring to his experiences as Mayor d problem city Dr. Sen said: "I frankly admit to having come to believe that the person best suited to occupy the Mayoral Chair is not one in the service of education but a politician with ambition. About two years ago when I was asked to agree to be nominated an Alderman of the Corporation I was at acceded to the request surprised but in the belief that leaders of our country conscious of increasingly might have been the role an engineer should have to play in the reconstruction of the city which is full of engineering problems."

"I sincerely hoped I would be able to justify my selection with the help of my friends in the Institution of Engineers whose varied experiences in different fields of activity would be of immense help to the civic administration. I must now confess that the Chair of the Mayor should be suitably held only by a man of legal and political acumen," he added.

The Mayor also regretted that if Calcutta was presented by some foreigners and many Indian leaders as a "horrible and derelict city" and West Bengal written off as "a naughty, nasty child, perpetually grumbling and whinning" then it would be difficult to help others. If there was anything like a national style of politics, West Bengal had not yet learnt it—that semed to be the generally accepted view.

West Bengal was the second smallest State of the Indian Union, with a density of population next only to that of Kerala. Calcutta had to bear the weight of about a fifth of the total population of the State. Calcutta, even in the best of times, was no better than a chance-erected and chance-directed city.

About the Corporation's administration, Dr. Sen said that the Commissioner's was a key post and should be held by an engineer of wide outlook. The whole problem of civic administration was one of enginering importance and not a mere routine interpretation of laws and bye-laws.

"Ignorance and selfish indifference, callousness and incompetence, together with the sudden and sweeping changes brought about by partition, have made Calcutta what it is to day. No other city in India or electricate, with the exception of Stalingrad or Berlin during the war, had striven so much, suffered so much and borne so many gaping wounds as Calcutta had, he emphasized.

"The moral muddle of war years, the first influx of refugees from Burma, the terrible famine of 1943, the Great Killing of 1946, then, the neverending stream of displaced persons from East Pakistan, have rendered Calcutta's equilibrium chronically unstable."."

The Mayor compared West Bengal's plight with its swelling and seething mass of jobless and homeless people with that of England in the Hungry Forties of the last century.

This little historical parallel, Dr. Sen said, should induce some tolerance in those who were too ready to accuse West Bengal of being "perverse without any purpose, impatient without any cause". With some 1.20 million of the jobless and about 3 million of the displaced persons, politics in the State were bound to be perpetually simmering and boiling over.

The average Bengali had generally, since the early Swadeshi days, a zest for politics. If now the politically conscious Bengali found that everything in his homeland had gone topsyturvy since Independence and Partition, he could not, in fairness, be condemned as an incorrigle malcontent.

Dr. Sen felt that the State was in the grip of a bitter sense of disappointment. Being in the fore-front of revolutionary movement, West Bengal, more than any other States, expected changes promised by national leaders which not only remained unfulfilled but had little chance of being ever fulfilled.

"This was the clue to the State's political malaise," he stressed.

Dr. Sen said: "On the surface, West Bengal seems to be caught in an endless whirl of agitation and demonstration driving both the men in power and masses of helpless people from distraction to distraction; it is also true that the general feeling is of bitter frustration.

"But before trying to fix blame upon the Bengali for his alleged incorrigible restlessness and vehemence, it would be fair to look at some of the stubborn facts about West Bengal, set in proper historical perspective."

The function was presided over by Shri D. P. R. Cassad, President, Institution of Engineers. He recalled Dr. Sen's long association with the Institute and hoped that the Mayor would steer clear of difficulties. It was attended by over 1,000 engineers who packed the dining hall of the Hetel.

Concluding the Mayor said. "If we the engineers, the servents of society, are taken into confidence and given the opportunities, we can solve the problems of water supply, dusings, conservancy, service, sanitation, salinity of water, needs and lightings of our country and make the world for the common man worth living in."

CITY NEWS PARADE

DISTRIBUTION OF PRIZES ON CO-OPERATIVE ACTIVITIES, symbolstonizing with Dr. B. C. Roy's Birth-day, was held on Sunday, the 10th August. Shields and prizes were awarded by the West Bengal Provincial Co-operative Bank Limited to societies showing their activities. They were presented by Dr. Roy himself.

The ceremony was preceded by a folk song which told of the promises of co-operation and speeches emphasizing the need to develop a strong co-operative movement in the State.

The recipients for 1958 of Dr. Bidhan Roy Co-operative Shields were the Burdwan Central Co-operative Bank Limited, Jhantipahari Co-operative Multi-purpose Society, Ltd. (Bankura) and Rafgram Weavers' Co-operative Society Ltd. Bankura. The first in said to be the strongest Central Co-operative Bank in the State, the second is entirely composed of Scheduled Tribes and the third produces varieties of hand-loom goods.

If West Bengal were to increase production and to solve unemployment, said Dr. Roy, it should depend not merely en big industries but also on cottage and small industries. He thought that the development of the latter could be greatly helped by co-operative societies.

Shri Prafulla Chandra Sen, the Food Minister, said that co-operation could help to build an economy which would be free from the vices of both capitalism and totalitarianism.

Shri Sankardas Banerjee, Speaker of the State Assembly, wanted leaders of the co-operative movement to pay greater attention on rural areas.

PRINCE NORDOM SHANOUK, Prime Minister of Cambodia, reached this city on Sunday, the 10th August in a special plane for an unofficial visit to this country. He was accompanied by his daughter, Foreign Minister of Cambodia Mr. Son Sann, General Ngo Hoa, Chief of the Air Force, Mr. Long Nageth, Ambassador Designate to People's Republic of China and his personal staff. The Prince said at the airport that recognition of the People's Republic of China by Cambodia did not mean any change in the foreign policy of his country. Cambodia, he said, would continue to follow its present policy of neutrality.

FIRES: Four men received burn injuries when a quantity of varnish, stored in a shop on British Indian Street, caught fire on Wednesday, the 13th August. The injured were taken to hospital.

Three fire engines rushed to the Hindusthan Gas Company on New Tangra Road where in a cold storage an ammonia gas pipe developed a leak. The Fire Brigade men stopped the gas flow by controlling the central valve.

caused much hardship to the critizens. The four-day old strike has added its life for the fifth day on Saturday. Uptil our going to the Press no signs of settlement of the dispute can be forcesen still a fresh round of talks are being made in shader every day to end the strike. On Thursday, the 14th Angust two central Trade Union organizations within most the Labour Minister, Janeb Abdus Settle,

Writers' Building. The mosting was hold at the suggestion of Shri Kali Kukherjee, a junior labour leader.

Janab Sattar said, later on, that there appeared to be considerable gap between the estimates made by the Company and the Joint Committee about the amount to be paid as gratuity. The question of the payment of gratuity formed one of the main reasons for the employees to struck work,

The Company had calculated that if it had to implement the gratuity scheme, submitted by the Joint Committee, involve an extra expenditure of about Rs. 14 lakes the Committee estimated, however, that the extra d be only about Rs. 15 lakes annually.

Traffic conditions remained the same on Thursday, the 14th August, as on the previous two days. The State Transport authorities pressed into service about 470 buses during peak hours. Over 400 buses run by private operators were also put on the roads.

Trams carry over a million passengers daily. To all the gap caused by the strike it was estimated that an additional 600 double-decker buses were required. The Government did its best to meet the emergency by allowing private buses running on suburban services to ply upto the Dalhousie and Esplanade areas.

Still there were crowds at all important bus stops throughout the days of strike. The biggest crowds of travellers were seen during peak periods. The travelling conditions being appalling the additional buses drawn from suburban services met only part of the demand in the city. People braved the difficulties and, according to Chambers of Commerce sources attendance in offices was nearly normal although there were many cases of late arrival.

On the first day in a Press Statement, the Government deeply regretted the immense hasdship of the people. It requested employers to view with sympathy and consideration such cases of late attendance as might be caused by the dislocation of the tram service.

The Government referred to the steps it had taken for conciliation of the dispute and said that there were strikes on May 3 and 14 without notice during the pendency of Tribunal proceedings. This was in complete disregard of the law and caused immense inconveniences. The Unions' refusal to participate in the Tribunal proceedings was contrary to the Code of Discipline adopted unanimously at the highest tripartite level.

At a tripartic conference, the Government had supported a number of the Unions' contentions and held that the existing retirement benefits were inadequate. The management's attitude had at no stage been unhelpful. At a subsequent stage, the Government agreed to communicate to the Company's Board of Directors its views on the propriety of enhancing retirement benefits.

The lack of faith demonstrated by the Union leaders in Tribunal proceedings is completely unjustified. Whatever improvement has been affected so far in service conditions in this concern has been entirely through the efforts of conciliation and the adjudication machinery and not through any stoppage of work. Since 1947, six Tribunals have been set up to example and settle disputes select on behalf of the workmen. Substantial rises in the level of emoluments and other benefits have been the results of Tribunal decisions. For the largest category of westeren drivers and conductors—Tribunals have awarded wages increases from Rs. 55 per month in 1947 to Rs. 119.50 at passent.

DRPORATION NOTICE

To Contractors

Tenders are invited in duplicate for the following and will be received by the 2nd Deputy Commissioner on the date noted for each, upto 12 Noon. Each tender in duplicate must be enclosed in a sealed cover and superscribed "Tender for...." For specifications and tender to the Kenner of Records. "For specifications and tender forms apply to the Keeper of Records. Price Rs. 4 per set.

D. M. SAHA, Lighting Superintendent.

Central Municipal Office, The 14th August, 1958.

Notice

The Corporation of Calcutta on the 21st July, 1958, adopted on the recommendation of the Standing Health Committee dated 5th June, 1958 the following proposals of amending the Bye-laws framed under Section 527 (46) of the

framed under Section 521 (20) of the C. M. Act, 1951.

A copy of the Draft amendment of the said By-laws will be kept in the office room of the Secretary to the Corporation.

The draft for inspection by any one. The draft amendment will be proceeded with on or after the 16th September, 1958, and any objection or suggestion with respect thereto which may be received by the undersigned by that date shall be

undersigned by that date shall be considered.

A printed copy of the proposed draft amendment will be on sale in the Central Record Office of the Corporation at a price of Anna -[1]- per copy.

The proposed draft amendment of Bylaws under Section 527 (46) of the C. M. Act, 1951:—

(1) That accepting the proposal of the Director of Veterinary Services and Animal Husbandry, Government of West Bengal, the Committee recommends, as an amendment, that the following be added at the ends of Clause 1 of the By-laws under Section 527 (46) of the C. M. Act, 1951—

"No license or permit holder shall employ any young child of tender age i.e., below 15 years to work as his assistant inside the Slaughter House."

(ii) That accepting the departmental proposal, the Committee recommends

(ii) That accepting the departmental proposal, the Committee recommends that Clause 3 (d) of the Bye-laws under Section 527 (46) of the C. M. Act, 1951, be amended to read as follows:—

There shall be paid for every such license an annual free as may be fixed by the Corporation from time to time for different kinds of animals.

B. CHOSH. Secretary.

Central Municipal Office: The 8th August, 1958.

RABINDRANATH TAGORE LAYS THE FOUNDATION STONE OF MAHAJATI SADAN

"বহুদিনকার এক হবংন বাহতবে পরিগত করিবর প্রথম প্রচেষ্টা উপলক্ষে আজ আমরা সকলে একরিত হর্ষেছি। ভারতবর্ষের হ্বাধীনতার জন্য যাঁরা আপ্রাণ চেষ্টা এবং সকল প্রকার ত্যাগ স্বাকার ও নিয়াতিন ভোগ করে আসছেন, তাঁরা অনেকদিন থেকে একটা অভাববোধ করে আসছেন: সে অভাব একটা গ্রের, যেখানে তাঁদের যাবতীয় সেবা-কার্যা আগ্রয় পেতে পারে এবং যেটা তাঁদের আশা, আকাষ্ট্দা, হবংন এবং আদর্শের একটা বাহ্য প্রতীকহ্বর্প হতে পারে। পরিশেষে আপনার পবিত্র করকমলের ঘারা মহাজাতি-সদনের' ভিত্তি স্থাপনা আজ করা হবে। আনাদের পরম সৌভাগ্য যে, আমরা আজ আপনাকে আমাদের মাঝে পেরেছি এবং আপনার ঘারা সে বীজ আজ বপণ করতে পারছি, যার ফলের ঘারা আমরা একদিন ভবিষাং ভারতের জাতীয় জীবনকে পরিপান্ট ও স্বামান্ধ করে তুলতে পারবো।"

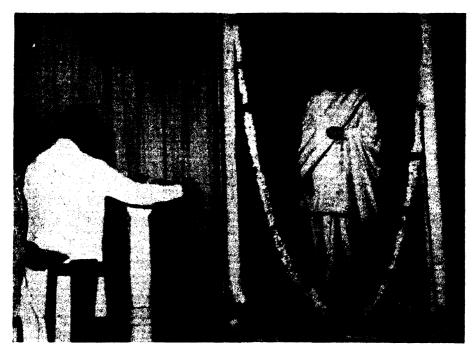

श्रीम्बायहम् वम्:।

"To-day we are assembled here to witness the beginning of the fulfilment of a long-cherished dream. Those who for years have toiled and suffered—laboured and sacrificed—so that India may be free, have wished for an abode to provide shelter and protection for their activities and to serve as visible symbol of their hopes and ideals—dreams and aspirations—"The House of the Nation. It is indeed a rare piece of fortune that we have you here in our midst this afternoon to sow with your hands the seed that will bear the fruit with which our nation will be nurtured in the days to come."

OUR NEW C. E. O.

SHRI PROBODH CHANDRA MAZUMDAR, M.A., I.A.S. (Retired), has been appointed by the Government of West Bengal, Local Self-Government Department, as the Chief Executive Officer, Calcutta Corporation, temporarily for a period of three months only. Shri Mazumdar took charge of his office on Tuesday morning, the 19th August. The appointment was announced on Thursday, the 14th August last.

Shri Mazumdar, the newly appointed Officer under the Ordinance promulgated by the West Bengal Government, visited the Central Municipal Office Buildings, S. N. Banerjee Road, on Monday. He was received by Shri Binoy Jiban Ghosh, Secretary, who introduced the important officers to him. Later, he was shown round a part of the building and had tea with some Councillors. He sat for some time in the Commissioner's room.

The Corporation, at its weekly meeting on Friday, the 22nd August, recorded an Order forwarded to the Mayor, Dr. Triguna Sen, by the Government of West Bengal, Local Self-Government Department, for information, which stated that in exercise of the power conferred by Sub-Section (1) of Section 22A of the Calcutta Municipal Act, 1951, the Governor, for the purpose of ensuring that the Municipal Administration of Calcutta does not suffer, is pleased hereby to appoint as the Chief Executive Officer, Shri P. C. Mazumdar, I.A.S., (Retd.), to exercise the powers and discharge the functions and duties of the Commissioner for a period of three months with effect from the date on which he assumes charge of his office.

Born in 1902, in the district of Murshidabad Shri Mazumdar entered the Provincial Civil Service in 1926, and was promoted to the Indian Administrative Service in 1951. He acted as Deputy Commissioner, Cooch Behar, from 1951 to 1956 and then as District Magistrate, Murshidabad, till his retirement, the end of 1957. Later on, he was reappointed as a Special Officer in the Lands and Land Revenue Department, Government of West Bengal.

SHRI P. C. MAZUMDAR

The appointment was necessitated due to the High Court judgment ordering removal of Shri B. K. Sen from his office as the Commissioner. The Ordinance known as Calcutta Municipal (Amendment) Ordinance, 1958 provided for appointment of a temporary officer to be designated as the Chief Executive Officer—who will be entrusted with all powers and functions of the top executive of the Corporation's administration.

The creation of a new office with fresh designation thus, became necessary as the High Court judgment, according to legal opinion, had not created any vacancy. Hence, to avoid all possible complications—legal or otherwise—the Covernment decided to leave the Commissioner's office undisturbed. This arrangement is expected to continue until Shri Sen's matter is decided in the court finally.

A West Bengal Government Press Note published in this connection, said:

"The Calcutta Municipal (Amendment) Ordinance, 1958 has been promulgated and published in an Extraordinary Issue of the Calcutta Gazette, dated August 12, 1958.

It states: "After Section 22 of the Calcutta Municipal Act, 1951, the following Section shall be inserted, namely:—

22A. (1) If the State Government be of the opinion that — (A) for any reason the Commissioner is unable to act, or (B) circumstances exist which render it difficult for him to act the State Government may, for the purpose of ensuring that the Municipal administration of Calcutta does not suffer, by order notified in the official Gazette, appoint a person to be designated as the Chief Executive Officer to exercise the power and discharge the functions and duties of the Commissioner for such period as may be specified in the order and the person so appointed shall, for all purposes, be deemed to be the Commissioner.

"(2) There shall be paid out of the municipal fund to the person appointed under Sub-Section (1) such salaries and allowances as the State Government may determine.

"(3) During the period specified in the Order referred to in Sub-Section (1) the Commissioner appointed under this Act shall not act as such or exercise any powers conferred, or discharge any functions or duties imposed, on him by or under the provisions of this Act."

CALCUTTA'S WATER SUPPLY

With the appearance of a number of leakages in the 60 inch Tallah-Pulta Steel Main, almost daily, the authorities of the Corporation has been put into difficulties. A breakdown in the city's water supply was apprehended, recently. Four big perforations were detected in the main and almost all of them were mended immediately. The main carries nearly 58 million gallons of water daily from Palta to Tallah overhead Tank for maintaining house to house supply. The main, erected about 32 years back, has by now become so worn-out and corroded that repairing work might not be possible any further, said an engineer. The maximum size of the holes, so far detected, is about two square inches and there is every possible chance of developing such holes to larger sizes.

All these were pointed out by several members in the weekly Corporation meeting on Friday, the 22nd August, and the House's concern was roused in it.

Recently, in a conference, held in the Writers' Buildings, some of the main problems of City's water supply were discussed by the Chief Minister, Dr. B. C. Roy with the Mayor, Dr. Triguna Sen and representatives of the Government of India and Technical Co-operation Mission, from the

U. S. A. Earlier the Mission met the Mayor, in his office at Central Municipal Office Buildings, S. M. Banerjee Road. The Chief Engineer, Shri A. K. Sen and many other engineering personnel were present then. The party had been to Pulta Water-Works to look into the matter in their own eyes. Silt, salinity and scarcity are the other problems they came across at Pulta. Danger also lurked upon the old and worn-out machinery of the Water Works at Pulta, 14 miles away from the city, installed about 90 years ago. Drawbacks and difficulties of various nature had also been detected by them.

Two experts of the Technical Co-operation Administration in India were understood to have taken an alarming view of the silting and salinity in the Hooghly and the dilapidated water supply system. They were of the opinion that these factors had rendered Calcutta's condition precarious and that immediate steps must be taken to meet the threat.

Dr. John D. Hume, Chief of the Health Division and M. Le-Bosquet, Chief Sanitary Engineer, T.C.M. New Delhi, the experts, while meeting Dr. Roy, the Mayor, officials of both the Government and the Corporation and Dr. N. K. Bose, former Director of the River Research Institute, believed to have stated that the Mission would be willing to offer technical help and to impress the Union Government about the seriousness of the problem.

Construction of the 72-inch Talla-Pulta Main they felt, must be given topmost priority in the city's development schemes and all efforts must be made to secure the steel needed for it. They further mentioned a new type of steel and concrete pipes for supply of water which they could help the State Government to secure for the purpose.

Procurement of steel plates for the projected new mains has thus become a source of constant headache to the Corporation authorities including the officials.

In that conference at Writers' Building, Dr. Roy also emphasized the need for supply of steel for immediate construction of the main. Out of 13,700 tons of steel, required for the construction of the new main, a stock of 4,500 tons of steel from Japan has so far been received by the Corporation on being allotted by the Centre.

The Government of India has also issued quota certificates for another 1,300 tons but of this quota, only 700 tons has been promised by Messrs. Tata Iron & Steel Co., towards the end of 1959.

While fabrication work in relation to the new construction and other preliminary arrangements have been completed the laying of the new main along Barrackpore Trunk Road is surely to be delayed unless emergency arrangements are made by the Government of India for the supply of steel plates.

The work for construction of the new Main is expected to start in the month of October, and steel amounting to nearly 1,000 tons would be required per month. Even if construction starts in the scheduled time, the entire work would be interrupted for lack of supply towards the beginning of the next year.

Repeated reminders were given by the Corporation to the Government of India through the

State Government for urgent supply of steel in view of the grave risk of disruption of water supply system in the city but no progress has so far been made in this direction as it appears.

The Union Ministry of Steel, Mines and Fuel has written to the West Bengal Government inquiring about the phased programme of steel requirements for the new main.

The State Government, a few weeks ago, wrote to the Centre to grant an ad hoc allotment of 7,200 tons of 1 inch and 700 tons of 3th inch steel plates for the main as the steel in the hands of the Corporation was insufficient, and the quotas allotted subsequently were "meagre". The proposed main would require 13,000 tons of 1 inch and 700 tons of 3 inch plates.

The State Government said that West Bengal required about 17,000 tons of steel material per quarter but was actually allotted only 8 to 9% of this demand. Under these conditions, the Corporation could only be allotted on an average 250 tons of steel plates per quarter and at this rate it would take 7 to 8 years to procure the entire quantity of steel needed for the project.

The Corporation at its weekly meeting on Friday, the 22nd August, resolved as follows:—

"The Corporation draws the attention of the Central Government as well as the Planning Commission to the serious damaged condition of the existing 60 inches main and the urgent necessity for completion of the new 72 inch main within the scheduled time. It also urges the authorities concerned to release the necessary quota of steel and request the State Government to take up the matter with the Union Government."

Councillor Anil Maitra, who moved the resolution, suggested that the Corporation should approach trade representatives of foreign Governments to find out whether steel could be imported on a rupee payment basis. He mentioned the countries, Russia and Poland in this connexion.

Some American experts and a representative of the Union Health Ministry had already expressed concern over the city's water supply and the civic authorities should learn a lesson from Delhi, he emphasized. The recent leakages in the existing 60 inch main had occurred because of a high tension electric cable which had been laid beside it. And this belonged to the Calcutta Electric Supply Corporation, whose electricity is being carried from Mulazore Generating Station to this city, disclosed Councillor Maitra. The motion was accepted unanimously.

Similar concern was also expressed by many others. A Councillor also warned that the Corporation did not have the required number of engineers and overseers and it was experiencing difficulties in securing them. The Corporation's pay scales for such staff did not compare favourably with those in commercial firms. In view of the Talla-Pulta main scheme, if an adequate number of engineers were not appointed money would be spent without supervision, he stated.

Thus we find that there should be an united effort in this regard in order to save this city from water scarcity. The installation of the proposed main would no doubt help much in this regard. At least it would carry double the quantity of

water than at present being supplied from Pulta to Tallah.

AHMEDABAD MAYOR RESIGNS

News has reached us that the Mayor of Ahmedabad Corporation, Shri Chinubhai Chimanlal tendered his resignation on the 18th August, within a few minutes of the Corporation's unanimous decision to permit the Maha-Gujerat Janata Parishad to set up a Martyrs Memorial in the traffic circle opposite to Congress House.

The State's Chief Minister, Shri Y. B. Chavan, last week declared there that the Government would not allow the setting up of a Memorial in a public place even if the Corporation permitted it.

The Corporation in another resolution condemned the Government's action in removing the Memorial set up by the Parishad on the 8th August last as "interference by the Government in the rights and duties of the Corporation" under the present Corporation Act.

A tense situation was prevailing in that city a few days back for the same reasons. Janab Ahmed Mian Sheikh, M.L.A. and a Vice-President of the Maha-Gujerat Janata Parishad and seven others were arrested on that day when they entered the curfew area and violated the prohibitory order on assembly of five or more persons. Earlier a large number of leaders and workers were arrested. This included Shri includal Yagnik, an elderly politician and President of the Parishad.

The Corporation recently decided to erect a pillar in memory of those who died in August 1956 during the Maha-Gujerat agitation in the Victoria Gardens.

The happenings started towards the earlier half of this month. A Calcutta daily reported as follows about the incident on two subsequent dates:—

Ahmedabad Aug., 12—The police fired three times and made several lathi-charges on crowds which had turned violent after the removal by the police of the martyr's memorial, an unauthorized structure, put up on August 8 by the Maha-Gujerat Janata Parishad opposite Congress House.

A 24-hour curfew, was imposed to-day. By 6 a.m. the police, had arrested over 300 people, had made more than 25 lathi-charges and had fired more than 100 tear-gas shells. About 25 policemen were injured.

As the news of the removal of the memorials spread, crowds began to gather in the main streets of the city. Municipal transport buses were attacked and a number of vehicles were damaged and some drivers injured.

The crowds also attacked the Rajpur and Khadia police chowkies and set fire to them. They forced open the gates, brought out the furniture and broke and burnt it. In the Rajpur area the crowd stoned Fire Brigade men who were trying to extinguish the fire in the police chowky. They were forced to retreat from the area.

Ahmedabad August, 18—Complete normalcy returned to Ahmedabad to-day.

A 24-hour curfew from 5 A.M. (Sunday) has been imposed on some parts of Ahmedabad. About 1,100 persons were rounded up by the police during the three days of disturbances.

RECEPTION TO NOTABLES

THE INDEPENDENCE DAY celebrations were accompanied by a week-long function in this city as in previous years under the auspices of the Pradesh Congress Committee. This included extending Receptions to important personages who have fared well in their respective spheres of knowledge, art and architecture, and Sutrayagna or spinning of Charka. Conveying of good wishes to many of the successful students in different examinations under the Calcutta University as well as School Final Examination this year, formed another part. Dr. Sistr Kumar Mitra, Administrator, Secondary Board, presided then. Among other features were the holding of childrens' festivals on two days both by the 'Sab Payechir Asar' as well as by the 'Manimela' groups. An Exhibition Football Match was also arranged between two important teams Mohun Bagan Club and Muhammadan Sporting Club at the Mohun Bagan Ground, Maidan, on the 16th August. The visitors were strictly students and the youth.

But the usual items of variety entertainment and dramatic performances were abandoned this year in view of the prevailing distress in some parts of the State.

Receptions to the illustrious sons of Bengal were given at special functions spreading over six days holding each towards the evening under a decorated pandal at the junction of Chowringhee and Harrington Street. These were presided over by eminent persons who were equally great in those spheres. Each one was presented with a handspun dhoti and a chadar of Murshidabad silk and a replica of the Ashoke pillar in ivory on a bell-metal plate. The functions were welcomed by Shri Atulya Ghosh, M.P., President Pradesh Congress Committee, and ended with the chanting of 'Jana Gana', the National Anthem of India.

On Saturday, the 16th August last, felicitations were offered to Dr. Radha Kumud Mookerjee, P.R.S., Ph.D., D.Litt. who was Professor of History, in different Indian Universities for long years. Dr. Mookerjee also represented many of the International Conferences where he had championed the cause of India. In post-independent days he was nominated to the Upper House by the President of India in recognition of his scholarship.

Replying to the reception, Dr. Mookherjee claimed that democracy was first tried in India. From gold ornaments and other objects found in the Indus Valley, it would be evident that India had developed a very high order of civilization about 3,000 B. C., he added.

Shri Prabodh Sen, who presided on that day referred to Dr. Mookherjee's prominence as a historian and to his books, including "Hindu Civilization", and "Local Government in Ancient India."

Shri Chhabi Biswas, the well-known stage player, and a successful film director too, was given a Reception on the second day, the 17th August.

Shri Pahari Sanyal, another renowned Bengali film actor, presided.

A Reception was given to Shri Rai Chand Boral one of the India's filmest music directors in films on Monday, the 18th instant. Shri Boral's other contributions to the Indian film world is the introduction of cartoons and playback music. . Shri Timir Baran presided on that day.

On the fourth day came off another important function. SHRI TARA SANKAR BANDOPADHYA, the well-known Bengali novelist was given a Reception in the same manner. As a prolific writer he has at his credit as many publications as the number of years he has lived through. He has just crossed sixty. Many of his books have been filmed and staged too. And each of them points out a particular angle of vision of the writer in studying the acuteness of social life. Recognized as a reputed fiction writer, he is the recipient of Sahitya, Akadami Award, 'Rabindra Prize' and 'Sarat Memorial Prize'. Recently he has travelled over China and Russia as India's representative in the field of art and literature. Another recognition of his service to the country during India's struggle for freedom is that he has been nominated by the State Governor in the West Bengal Legislative Council since its inception.

Replying on that occasion Shri Bandopadhya said that it would be wrong to suggest that Bengali literature had made no progress in recent years. Although there was need to be alert against possible deterioration in quality, he was optimistic about the future of Bengali literature. He also thought that the country did not represent only the men and branches of knowledge as felt by the authorities but it also included the farmers and small artisans whose contributions had equally placed the country to its present position.

While narrating the reminiscences of his personal life he hinted his audience the circumstances under which he was inclined to write fictions and stories and acknowledged his gratefulness to those who had helped him then.

Shri Bhibhuti Bhusan Mukhopadhya, who has wielded his pen manly in writing short stories, as president of the function, complimented Shri Bandopadhya not only as the fiction writer in the present generation but also a representing writer of the West Bengal districts where two cults Baisnaba and Sakta had equally flourished once. Categorically he mentioned the books wherein the writers' superiority in composition had been displayed.

A large number of litterateures of Bengal attended the function on that day.

On Wednesday, the fifth day of the celebrations, Prof. Debi Prosad Roy Chaudhury at present the President of the Lalit Kala Akademi of India, was given a Reception. Not only he has earned a name in the field of art, painting and sculpture but his fame has also spread over the country as a writer and a musician as well. This brought him the General Presidentship of the Ali-India Bengal Literary Conference held in Madras in 1955.

Shri Suren Kar of Santiniketan, who presided, referred to Prof. Ray Chaudhury's contributions in the field of art and sculpture.

The week was concluded by according another Reception to Shrimati Indira Devi Chowdharani, an eminent writer and scholar, on Thursday, the 21st August.

DHARMADAS TRUST MODEL SCHOOL CELEBRATES FOUNDER'S DAY

The teachers and pupils of the Dharmadas Bhattacharyya Model School for Boys, Nepal Bhattacharyya Street, southern part of the city, solemnly observed the Founder's Day of the school on the 13th August last. The day synchronizes with the birth-day of the late Shri Bhattacharyya, who founded a primary school in his own building first and later on handed it over to the Corporation of Calcutta under a Board of Trustees for proper maintenance.

The day's programme included a Route March, in the morning, participated in by pupils and a film show in the evening which entertained not only the pupils but the local citizens also.

There was a meeting in the evening wherein a large number of citizens of that locality attended. Alderman Ajit Kumar Dutta, Chairman, Standing Education Committee, presided. Councillors Chittaranjan Chatterjee and Mukur Sarbadhikary, Dr. A Barua, Education Officer and others (picture above) were present.

The President unveiled the portrait of the late Dharmadas Bhattacharyya on the occasion. It was placed inside the Hall permanently. Respectful homage was also paid to the memory of the founder by the invited guests present, while they garlanded the portrait. The function concluded with a cultural function including staging of a children's drama, which received appreciation from all.

NEW C. E. O. WITH THE OFFICIALS

On Monday, the 18th August, the newly appointed Chief Executive Officer, Shri P. C. Mazumdar, met the Corporation officials in his room before he took the charge of his office on the 19th instant. Seated on the left of Shri P. C. Mazumdar, the Deputy Commissioner, Shri L. N. Bal, Ehri A. Bhattacharyya, Assessor, Dr. A. Mukherjee, Health Officer, Shri B. Ghosh, Secretary, Shri A. K. Sen, Chief Engineer. Facing camera stood Shri B. Bhadra (third

from left), Public Relations Officer, Shri S. Bakshi, Deputy Assessor, and Shri A. K. Dutta, License Officer. Besides, the Deputy Commissioner I, Shri A. K. Basak, Shri P. Mitra, Chief Accountant, Dr. A. Barua, Education Officer, Shri B. Basu, Chief Law Officer, Shri N. K. Mondal, Collector, Shri K. L. De, Executive Engineer, Drainage, Shri F. Sengupta, Anti-Corruption Officer and others were present.

MAHAJATI SADAN' INAUGURATED NATION'S DREAM FULFILLED

NINETEEN YEARS AGO Calcutta had the opportunity to witness an unique function, the laying of foundation stone of a 'House of the Nation' which would shelter the political, social and cultural activities of a nation subjected by foreign rule, in order to achieve its ultimate goal. It was performed by that world renowned poet Rabindranath Tagore. The Kaviguru named the proposed building 'Mahajati-Sadan' on that occasion on the 19th of August, 1939.

Shri Subhas Chandra Bose, as the President-elect of the Indian National Congress, 1938, conceived the plan of the building in 1937, and on the 24th August, 1938, the Corporation formally agreed to lease the plot of land at 166, Chittaranjan Avenue, central part of the city, for the same purpose. The plan of the building was approved by the Corporation on the 14th November, of the same year. It was Subhas Chandra's dream to have the House a rendezvous of the national workers and the first architectural designs were made by Shri Bose himself.

The construction of the building was put in hand in 1940, and it was due to the energy and efforts of Subhas Chandra money and material started to flow. The Mahajati Sadan was still a building in 1941, when obstacles and difficulties put a log to continue its further construction. The inscrutable hand of an alien rule caused the whole property confiscated to the State inspite of the fact that it was then a public property. The late Shri Sarat Chandra Bose and others tried hard to have it released and to present it to the nation but failed then.

After Independence, on the 30th June, 1948, a Full Bench of the Calcutta High Court restored the Sadan to the nation. A Bill was passed unanimously on the 24th January, 1949, in the West Bengal State Legislature for the completion and maintenance of the Sadan by the Government.

Since then construction work was undertaken. The original design had undergone considerable changes befitting with the present architectural developments.

As it now stands completed, in the full splendour of its architectural beauty, it gives material form to the dream of Subhas Chandra, Kaviguru Rabindranath and the Bengalis in general. Such a house was inaugurated on the 19th August, by the State Chief Minister, Dr. Bidhan Chandra Roy. The occasion was marked by lighting five lamps and unveiling of a plaque inscribed with the names of Rabindranath and Subhas Chandra by pressing an electric switch.

BRIEF BUT SOLEMN FUNCTION

The inaugural function found everybody in reminiscent mood, recollecting the day when both Rabindranath and Subhas Chandra were present there ninteen years ago, exactly on the same date. All hoped that the building would enshrine those ideas conceived of by them. And, appropriately enough Dr. Roy could point out the responsibility that devolved on the present generation in realizing those ideals.

On the spacious rostrum stood a life-size portrait of Subhas Chandra in his usual dress. It was garlanded. The portrait was painted by the famous artist Shri Atul Bose. Nearby placed five oil lamps on a high pedestal in front of it. By lighting the lamps the Chief Minister formally declared open the building. Portraits of Rabindranath, Mahatma Gandhi and Deshabandhu Chittaranjan and Deshapriya J. M. Sen Gupta flanked the either side of the dais.

In that spacious auditorium, a packed gathering was present. Among those present were Ministers, the Mayor, Legislators, Aldermen and Councillors, and important citizens.

The two speeches made on the occasion, one by the Chief Minister and the other by Shri Khagendranath Das Gupta, Minister for Works and Buildings, emphasized the association of Subhas Chandra Bose and Rabindranath Tagore with the conception of the Sadan. Subhas Chandra had first thought of constructing the Sadan as the "House of the Nation" and Rabindranath, who welcomed the idea laid its foundation stone, they said.

Before inauguration Dr. Roy said that the name of Mahajati Sadan would be justified if only the ideals conceived by its founders were realized. Its founders dreamt of a great nation, a new society, which would provide an individual with every facility for his development. Mahajati Sadan enshrined the ideal that not by eliminating individuals but by giving them fullest recognition that a nation could achieve its greatness.

The Sadan represented the urge of the nation for political freedom that had been won. Yet a long way had to be traversed to realize the blessings of that freedom in different spheres of life, Dr. Roy added.

For that, discipline was needed in all spheres of life. Bengalees were emotional but unless that emotion was restrained and directed in proper channels nothing tangible could be achieved, stressed the elderly politician.

While speaking on the ideas which inspired the founders, the Chief Minister said that to realize the dreams of making themselves a great nation people should come for enlightenment in this Sadan. They should derive their strength from their culture and tradition for the further development of which the building would be devoted.

Earlier, requesting the Chief Minister to perform the function Shri Das Gupta gave details of the building. He claimed that it had the city's biggest auditorium and stage and its acoustic treatment was distinctive. The Sadan had a double-curveture shell-roof which was unique in Asia.

Recalling the history of the Sadan and the phases through which it came to be finally realised, the speaker added that much of what Netaji Subhas Chandra conceived of is being retained in giving the final shape to the building.

At the end the State Song and Drama Unit staged a dance-drama—'Satabdir Sadhana' in Bengali,—the theme of which was based on the freedom struggle. The function started with the singing of the National Anthem.

When the ceremony was in progress a number of people who carried a portrait of Subhas Bose were found outside. Their demand was the installation of a statue of Netaji Bose at the entrance of the building.

-RECEPTION TO NOTABLES (Continued from page 424)

Niece of Rabindranath Tagore and daughter of Satyendranath, the Bombay civilian, Shrimati Indira Devi had, while she was growing in the Tagore family, all the life-giving impulses. Born in 1873, in Bijapur, she had her early education in England where she was sent while hardly she was five or six. She later graduated from the Calcutta University securing the top place and obtaining the 'Padmabati' Medal.

During the period when Rabindranath was staging his own dramas at Jorasanko House, Shrimati Indira Devi often greeted the audience by her appearance on the stage along with her uncle. She was for a considerable period associated with the teaching of Rabindra Sangeet at Visva-Bharati. Her talents got a fuller display when she was married to the late Shri Pramatha Choudhury, the famous Bengali literateur named as 'Bir Bal'.

The Calcutta University honoured her by presenting "Bhuban Mohini" Medal in recognition of her service to literature. In 1956, she officiated for a period as the Vice-Chancellor of the Visva-Bharati University.

In reply to the felicitations offered, Shrimati Indira Devi, in a brief speech, asked young men and women to try to re-establish the past glories of Bengal. She informed the audience that in her early days she had been associated with the Congress organization and its many leaders most of whom were dead. She wished that work, honesty and friendliness might be the motto in the life of every man and woman of present day Bengal.

Prof. Charu Chandra Bhattacharyya, who presided at the function, referred to Shrimati Indira Devi's contributions in the field of literature. He also recalled many of her qualities. A large womenfolk attended on that day.

A SPECIMEN OF ARCHITECTURAL PRINCIPS

The total cost of the building is estimated at Ri-12 lakes against Rs-3 lakes budgeted by Subhas Chandra in the late thirties. A Board of Trustees to take charge of the building was also set up then. A sum of Rupees one lake was raised then from public donation.

The present Indian Prime Minister, Shri Jawharlal Nehru, supporting the proposal for the fund for the building in May, 1937, in an appeal said: "It is specially in the fitness of things that the hall that this building is intended to have will be named after our old comrade J. M. Sen Gupta"

The present building has an auditorium to accommodate 2,500 people, a big library hall and rooms for offices.

The building provides a fine example of a combination of India's ancient arhitectural tradition and modern technical skill. Excluding the stage, the hall is 97 feet long and 74 feet wide. The main entrances to the verandah and the vestibules have charming features of Hindu architecture. The dome over the staircase revives the atchala motif of West Bengal. There are four smaller domes at the base. The bigger dome has a cupola over it. Ground floor columns are octagonal in shape and have ornamental pillars in the Buddhist style. Some columns are in the Hindu style. The colour scheme is pleasing.

-VIEWS AND REVIEWS

(Continued from page 423)

in Ahmedabad. About 750 of them have been charged with rioting, arson and other offences while over 350 of them were rounded up for curfew offence.

The Mahagujerat Janata Parishad has announced its decision to start soon a satyagraha for the re-installation of the Martyrs' Memorial on the traffic circle and pavement opposite Congress House. The first group of satyagrahis would be led by Shri Yagnik, M.P., and President of the Parishad who has been underlying a sevenday's fast in protest.

Market resumed, normal trade and Municipal buses operated on all roads.

Disturbances of similar nature are not absent in many cities of India and whenever any issue arises the citizen's fury touch the peak point.

A resolution demanding a Judicial Enquiry into the firings in Ahmedabad, was sought to move in the weekly meeting of the Corporation on the 22nd August, while discussing matters of public importance. The motion had been notified earlier, and it would be taken up shortly along with the pending motions.

The motion tabled, runs as follows:-

That this House is shocked to note again that police has opened fire on unarmed men at Ahmedabad in Bombay causing death to some of the citizens. The House condemns the said police firing and demands that a Judicial Enquiry be made and the offenders be punished.

The citizens sympathy should go to the sufferers in this event.

CITY NEWS PARADE

OBITUARY: The death of Shri Purna Chandra Ray M.A., B.L., a former Managing Director of the Hindu Mutual Life Assurance Ltd., occurred on Saturday, the 16th August last, at his residence in this city.

The late Shri Ray was one of the founders of the Indian Life Assurance Offices Association and was its President for some time. He was Chairman of the Hindu Mutual Life Assurance Ltd. and rendered life long service in popularising Indian Insurance. He was appointed a member of National Planning Committee on Life Insurance in 1941. Early in his life he was an advocate of the Calcutta High Court. He was the elder brother of the present Sheriff of Calcutta, Shri S. C. Ray.

Shri Sachindra Mohan Bhattacherjee, formerly Chairman, Calcutta National Bank and Indian Economic Insurance Company, died at his residence, Ekdalia Road, on Monday, the 18th August. The late Shri Bhattacherjee had been suffering from cancer in the liver. He was 51. His last rites were performed at the Keoratala Burning Chat in presence of a large number of friends and relations.

Born in Comilla town in East Pakistan, the late Shri Bhattacherjee obtained the B.A. degree with honours in History from the Dacca University. In Rangoon he worked as a teacher for some time. Later on he started business as a dealer in tea. Subsequently he started the Calcutta National Bank, which had its branches all over India.

Shri Sukumar Banerjee, the well-known producer and distributor of films, died at his Kidderpore residence, on the 18th August,. His latest production "Indrani" completed its shooting on that very day. In the evening, he scomplained of heart trouble and passed away within half an hour. He was about 47.

The late Shri Banerjee's ancestral home was in Janai in the district of Hooghly. He had his education in Kidderpore Academy, St. Xavier's and Vidyasagar College. As a student leader, he courted arrest during the Civil Disobedience movement and underwent a prison term. Later on he was associated with National Newspapers Ltd. which published the two weeklies. "Kheyali" (Bengali), and "Varieties" (English). He himself started "Cinema Times" a film weekly. He was connected with Bengal Film Journalists' Association for a long time as one of its office-bearers. He produced and distributed many pictures in partnership. Among his major films mention may be made of "Mantrashakti", "Kankabatir Ghat", "Ekti Raat" and "Prithivi Amarey Chai."

The Corporation at its weekly meeting on the 22nd August, condoled his death. Tributes were paid to his memory by the Deputy Mayor, Shri K. C. Basu, who then presided.

The death occurred on Thursday, the 14th August last of Shri Dhruba Ranjan Das, a Barrister of Calcutta High Court. He was 52. A nephew of the late Deshbandhu Chittaranjan Das, the late Shri Das was also a member of the Board of Governors, Doon School at Dehra Dun, founded by his father. He was also known in the city's sports world.

The death of Sir John Hurbert Marshall, Director-General of Archaeology in India from 1902 to 1931, occurred on the 17th August in Great Britain. He was 82,000 The late Sir John Marshall was an expert in Greek art any archaeology. But he would ever be remembered by his book on Mohenjodaro and the Indus Valley Civilization. The sites of Mohenjodaro and Harappa were discovered by his colleagues and excavated under his guidance by eminent historians like the late Shri Rakhaldas Bondopadhya and others.

Sir John Marshall's name was ever popular even he had left this country 24 years back. The death was widely mourned in this country. Tributes were also paid to his memory through a broadcast speech over All India Radio, Calcutta Station, by Dr. Radhakumud Mukherjee.

The death was also referred to in the weekly Corporation meeting on Friday, the 22nd August, by Councillor Mukur Sarbadhikary.

HIGH TIDAL BORES: A heavy bore came up the Hooghly on Saturday noon, the 16th August last—the highest flood level being reached at about 2 P.M. Some parts of the maidan were flooded. The water did not recede fully before the evening. This flooded the southern side of Mohun Bagan-East Bengal ground where an exhibition football match was beng played.

Another bore came up the Hooghly about noon on Monday, the 18th August. After the bore the water in the river rose by about 16 ft. to 21 ft. 7 in. Three ships snapped their anchor chains but were secured before any damage was caused

BANGIYA SAHITYA PARISHAD, CALCUTTA was recently visited by Janab Humayun Kabir, Union Minister for Scientific Research and Cultural Affairs.

He suggested for the publication of bi-lingual dictionaries in all the major Indian languages. Janab Kabir also said in the first instance the Parishad might undertake the preparation of bi-lingual dictionaries in Bengali-Hindi, Bengali-Tamil and Bengali-Telegu. Such dictionaries, he pointed out, would help in fostering a sense of cultural unity. The Minister assured that the Government was prepared to assist in such projects.

To the Parishad's request for financial help for the preparation of an encyclopaedia, in Bengali. Janab Kabir said that if a suitable scheme was prepared, the question might be examined.

A BOAT COLLAPSES: A boat laden with vegetables collided with a Port Commissioners' dredger during high tide in the Hooghly on Wednesday, the 20th August, and sank. In the accident which occurred near Outram Ghat, a man was drowned and another was missing It was stated that there were seven men on the boat. Five of them were rescued by the crew of the dredger and the police.

INTERNATIONAL STUDENTS' DELEGATION met at a Recption organized by the National Union of Students of India in Darbhanga Building of Calcutta University on Tuesday, the 19th August. The members of the delegation said that they wanted to study the systems of University education in different countries and student life in general. The delegation was sponsored by the International Student Conference, who had visited the country and at the end of tour it would submit a report to the conference.

The Delegation met the West Bengal Governor and the Chief Minister, Dr. B. C. Roy. It consisted of Mr. A. M. S. Jamal Mohammed (Malaya), Mr. Ronald Morell (Sweden), Mr. Kim Paterson (Australia) and Mr. Amando Molina Cortlova (Belleta).

Mr. P. Sandell, Ceneral Secretary of the National Union of Students of India said that this aim was to organise Indian students in the Union on a non-political level for furtherance of international students co-operation.

NEW OFFICERS IN CORPORATION: Two special appointments have been made by the Standing Finance Committee in the Engineering and Health Departments for better working with regard to conservancy, prevention of food adulteration, offensive trade, epidemic control and such like.

The Special Officer under the Chief Engineer will mainly look after the co-ordination of activities for conservancy and motor vehicles department. Shri S. Mitra, District Enginer I, has recently joined the post.

The Deputy Health Officer under the Health Officer will frequently inspect District Health Offices, bazars, maternity homes and hospitals and eating houses etc. He will also look after the question of prevention of food adulteration, offensive trades and such other offences.

Maj. I. N. Sarkar, District Health Officer, took over the charge of the new post on Tuesday, the 19th August. Maj. Sarkar was in the Indian Army and was recognised to be a specialist in hygiene by the Government of India.

BENGAL TUBERCULOSIS ASSOCIATION held the annual meeting at Raj Bhavan, Calcutta, on Monday, the 18th August. Dr. A. C. Ukil, who presided, said that the Association needed about Rs. Two lakhs to meet its requirements. He appealed to members to collect larger funds and to the public to contribute liberally. They should also organise committees around chest clinics to render all possible assistance to distressed families of T.B. patients.

Disclosing important facts the Secretary said that housewives suffered most from Tuberculosis in West Bengal. They constituted the largest number, about 25 p.c. of 273 lakhs cases attended by the Bengal Tuberculosis Association's chest clinics last year. Of the total cases over 12,000 were found tuberculour. In recent years the disease has also spread among unemployed men, day labourers, clerks, mill-hands and miners, students, shopkeepers and teachers. About 60 p.c. of these cases came from bustees.

Dr. P. K. Ghose, General Secretary also said that on the basis of the findings of the National Sample Survey, recently undertaken throughout India, there were over five lakhs "active cases" in West Bengal. Of them about 1.5 lakhs could be taken as infectious. Active cases in urban areas, including Calcutta, numbered about 1.23 lakhs. It was estimated that there was one clinic for every 50,000 urban people.

A socio-economic study of 91 new cases by a medical social worker of the Association last year showed that financial stringency was the main problem which needed priority to minimize the worries of a family with a T.B. patient. It was also found that patients with active disease who were earning members of the family were working though they had been advised complete rest.

Dr. Ghosh referred to the paucity of funds and said that the result of the T.B. Seal Sale Campaigns was not encouraging. During its seventh campaign in 1956 the Association collected only about Rs. 40,000

TRAM STRIKE DRAGS ON: The twelve-day old tram strike in the city has shown little prospects of being settled. In the meantime all attempts for negotiations had failed and the citizens' difficulties had multiplied.

The Calcutta Tramways Company issued a Stateme on Friday, the 22nd August, saying that the company would he prepared to have talks with representatives of its amployeas on general terms of employment "when the employees roture to work and a suitable fast structure lies bose agreed

The threat of pegethefore, lebelistify metalehed green after the strike bestie up, by the State Labour Minis Janab Abdus Sattar, appeared to have mapped with this statement. It also appeared to have violated the prestigeand sanctity of the Tribunal set up by the Government. A. fresh start of negotiations might not be at distant towards: the early next week with the return of the Ex-Mayor, Shri Anandilal Poddar, one of the Directors of the Board, who is now in England.

Throughout the weeks, efforts continued for resumption of fresh talks to settle the dispute between the parties involved. There were allegations and counter-allegations from both sides.

The West Bengal Labour Minister made some proposals: on Wednesday, the 20th August, for the settlement of the dispute between tramwaymen and the Company. The proposals were in the light of the discussion the Minister had with representatives of workers and of management during: the past few days.

The Joint Committee of tramwaymen submitted on oneprevious day, "concrete proposals" for the disolution of the dispute. The State Labour Commissioner met some representatives of the Company on Wednesday morning. The Minister's suggestions were sent to the management, the Joint Committee and the Advisory Committee of tramwaymen's unions in the afternoon.

Janab Sattar appealed to both parties in a letter attached to the proposals to take a "reasonable attitude" so that the strike might be ended to the relief of the people who had. been suffering greatly for the past nine days. The tramwaymen on strike rejected outright the proposals of the Labour Minister.

Representatives of the Tramway Workers Union, Tram. Mazdoor Panchayat, Tram Mazdoor Sabha and the Tramways Employees' Union of this city including Shri Somnath Lahiri, M.L.A. and Shri Nepal Roy, M.L.A., said that the Labour Minister had "succumbed to the Company pressure."

The Corporation at its Friday's meeting unanimously passed a resolution urging upon the State Government to make an effort for a negotiated settlement of the tramwaymen's strike to alleviate the hardship of the public. The resolution was part of a motion moved by Councillor Dhiren Dhar M.L.A., when matters of urgent public importance were being discussed. Some members also criticized the Tramways Company's attitude in the dispute and expressed concern for the continuance of the strike.

A public meeting held at Sham Square, northern part of the city, on Sunday, the 17th August, with Councillor Ranjit Mitra, as President, urged the Government to make efforts for settlement of the strike.

The Working Committee of the Bengal Provincial Trade Union Congress passed a resolution on Saturday, the 16th August last, to the same effect.

SAB PAYECHIR ASAR'S Thirteenth Anniversary of the foundation was celebrated last week at the Sree Cinema hall. There was a big gathering of children and their guardians. Magician Shri P. C. Sorcar, who was present as the Chief Guest demonstrated some magic to the great delight of the youngsters. Swapan Buro in a neat speech described the ideals of the Asar.

Prizes were awarded to the winners of the Essay Competition sponsored by the Asar and garments were distributed among the distressed members. Child-poet Bul Bul Sen recited a self-composed poem.

The function ended after screening of the film 'Jaidev'. A large number of branch Apara in day and suberite attended the relieusether

August, See

SHRI SIDHARTHA RAY WINS THE BYE-ELECTION

Shri Sidhartha Sankar Ray, a former Judicial Minister of West Bengal, has been declared elected to the State Legislative Assembly

the State Legislative Assembly from the Bhowanipore Constituency, in South Calcutta. His main rival was Councillor Bejoy Kumar Banerjee, a popular member both in the Corporation as well as in his own locality. He was defeated by more than 10,000 votes. Shri Ray had resigned from the State

Cabinet during last March on grounds of serious allegations against the Government food policy and other allied issues. Shortly after that he resigned his Assembly seat on principle as he had been elected earlier on Congress ticket throwing a challenge that he would return independently. On this occasion he was supported by all the Leftist Parties in the State.

The voting took place on Sunday, the 24th August. Of 36,195 votes cast, Shri Ray secured 23,222 votes against 12,684 polled by Councillor Banerjee. The third candidate, Shri Rajendra Nath Buia, another independent, got 289 votes only. Out of 25 votes cast by postal ballot Shri Ray got 18 and his rival the rest. The counting took place on Monday in the Assembly House, where a crowd gathered towards the afternoon.

It was one of the most hotly contested elections Calcutta had ever witnessed. Both the Congress and the Leftists had declared it to be a pressige light and mobilized their maximum ngth. The electorate was conscious of it and of \$54, 69 per cent. had turned up to vote.

Acknowledging greetings from the crowd Shri addressed them when his victory was almost tain on Monday afternoon. He said that this a clear verdict against the present policy the State Government. He urged people to mand a policy statement from the Government thin a month in regard to the State's 12 lake temployed people.

Shri Ray was then taken in a procession wards his constituency where people were exiously waiting for the result. It was one the biggest processions seen in this city in reent years. A large part of it consisted of office imployees from the Dalhousie Square area who ame in large numbers to join it. His election ymbol was a cycle and the procession was led by group of cyclists. A cycle was also hung from bamboo pole and carried in the demonstration. The procession began to grow in size as it went long Government Place. Many of the leftist eaders also went along with Shri Ray.

Throughout the route of the procession, particularly in Shri Ray's constituency, people lined up toads and crowded balconies to cheer him as he passed. He had to stop at many points to receive garlands and to exchange greetings. The procession terminated near Shri Ray's house on Beltala Road after midnight.

Sunday, the day of voting, passed off peace-fully except several minor incidents. Long queue outside polling stations, mobilization of a large number of volunteers at rival candidates camps, many posters on walls and excited faces were signs of the great interest it aroused among the

lotat No. 1500

eitizens by the polling in the bye-election. of excitement prevailed over the whole area. of excitement prevailed over the whole area. Attractive ted would be ordered to demolish by the men were arrested for alleged rowdyisms. Executive Officer as the law would provide. minor clashes between rivel groups six men injured. One of them with alkeli nother with a bleeding nose were admitted into Hospitals. with the same

So great was the enthusiasm among voters helped by relatives many physically handicar people went to the polling stations to record votes. In the Kareya area Muslim women wea burkhas were prominent among the electors.

Shri K. V. K. Sundaram, Acting Chief Elec Commissioner, and Shri A. Niyogi, Chief Elect Officer, went round the constituency. Po pickets were posted outside the 18 polling cen with 62 stations. Mobile squads petrolled streets. Twenty-seven men and four women, w arrested at different polling booths for allege personating voters.

GRANDSON of the late Deshahandhu Chit ranjan Das, Shri Sidhartha Sankar Ray, is a Barr ter of the Calcutta High Court. His father late Shri Sudhir Ray belonged to the same prof sion. Shri Ray inherited many of the qualities the family. Within a short span of time his nar spread over the country when he resigned from t cabinet. His resoluteness, determination and ze to achieve the end, he has imbibed from grandfather Deshabandhu. In the parliamenta life, though it was a short one till the other de still he showed much ability and clear adjustme of mind. Judging from the past it is expected the his future will be equally bright there.

An enthusiast in all walks of life, his fielding in cricket and other games have attracted th sporting world. He took much pains in having stadium in the city which is yet to see the light.

We extend our congratulations to Shri Ray o his success.

AN UNAUTHORIZED CONSTRUCTION

Calcutta Corporation at its weekly meeting or Friday, the 29th August, unanimously condemned as unauthorized construction of a six-storied building at 7; Cornfield Road and adopted a resolution moved by the Chairman of a Special Committee, Councillo 8. K. Gupta, I.C.S., Chairman Calcutta Improve ment Trust. The resolution wanted that strong disciplinary action should be taken immediately against officers concerned.

The Special Committee was appointed by the House during last February when a reference was made as to that unauthorized construction by Councilior Shyamal Kumar Dutta. Councillor S. K. Gupta, LCS., B. K. Banerjee, Chairman, Standing Buildings Committee, G. Sur, Chairman Standing Town Planning and Improvement Committee and G. Dey were its members. The findings of the Committee were placed before the House as early as last May, but the House could not take up the matter before Friday due to various reasons.

The House passed only one item on that day relating to the matter and that too by sitting for extra, hours.

Accepting the unanimous report of the Special Committee the House decided that the conditions subject to which the construction was sanctioned pand be complied with by the party co within a fortnight. Falling that the sanctles would

deem it to be revoked and the building already

Secondly it was resolved that the appropriate authorities of the public samples and string the spinish of the spinish are officers found guilty by the Committee and report the action taken the Corporation within a fortnight.

It was further decided that in case of any litigation the cost and damages, if any, for which the Corporation might be made liable should be surcharged in full on the officers responsible for granting the sanction, according to the measure of their responsibility.

The resolution was seconded by Councillor Mihir Lal Ganguli and supported by Councillor Shyamal Kumar Datta.

The Report stated that a party had applied for sanction of a building plans on the 2nd March last year. On March 22, only after 20 days of the application, the Building Department sanctioned the plan subject to a condition. The party did not fulfil the condition but immediately started construction in complete disregard of the sanctioned plan. The party did it so energetically, sometimes working more than 16 hours a day, so that within four or five months six storeys had gone up. A Corporation Building Inspector noticed it either on the 31st October or a few days later of the same year. A notice was issued by the Department then to the party to stop further construction.

Among the deviations the more important were the following: the whole ground floor was constructed into a garage at ground level and the upper floors rested on pillars and beams, whereas the sanctioned plan showed the ground floor as consisting of bed rooms, and such at normal plinth height; the area shown as back space on the plan was completely built upon leaving no back space whatsoever; the southern building line was shifted seven feet further south so as to encreach upon the sanctioned 30-feet road; the position of all the inner walls and of the staircase and the cosi-tion and size of the rooms of all the floors had been changed and instead of three storeys, as sanctioned, the building went up to six storeys.

The Department sanctioned the plan earlier 'subject to separation' without making an enquiry whether in the circumstances of this case separation would be granted or not

The party, it seemed, did not pursue the question of separation at all but immediately started construction in complete disregard of the building planed and the extension of the order of

Over a period of more than seven months the Building Inspector did not detect this unauthorized construction. On receipt of a complaint through the Chairman of the Standing Buildings Committee, an Inspector visited the site and found nothing wrong. The Building Inspector again visited the area some time after on two consecutive days but was unable to trace the plot. He visited the plot for the fourth time and detected the unauthorized construction, when a notice under section 416 for stoppage of further work was served on the party concerned. The work remained suspended for some time but was found to have been regimed signs. Police was not posted on the party's primate that they would stop work leaves with went on its space of the probability order.

The Cas Architect paid a visit to the locality and the pairs saw the City Architect in his office. A revised star in conformity with the building actually constructed was filed on the 15th November and the party immediately re-started construction work inspite of the stop-work order, apparently under the impression that sanction would automatically follow. Just three days later this was noticed and when the Corporation was thinking of requisitioning police help to stop the work, the party gave an undertaking to suspend further construction till the matter was disposed of. As the revised plan fouled both the road angle and the back angle and infringed the rule about the space required to be left uncovered, it was not eligible for sanction till these defects were cured.

About a month back, on the 11th December the party filed sets of revised plans. The department noted that the party had filed revised plans complying with the requisitions "as far as practicable." The Superintendent (Plans) referred the matter to the Chief Law Officer and, with the latter's approval, granted a conditional sanction to the revised plan on the earlier part of February.

The revised plan also contained certain papers which were not properly executed according to the law in order to show the position of the building covered by open spaces.

According to the Special Committee there was a degree of promptitude in sanctioning the original plan within 20 days of its filing which was contrary to one's usual experience. Over a period of more than seven months the Building Inspector could not detect this unauthorized construction. He pleaded that he could not visit the site as his jurisdiction was too wide for efficient supervision. "The six-storeyed building would have hit anybody's eye and even an amateur would have guessed that it contravened most of the building rules", the Report said.

Referring to a statement by the City Architect, the Report said that "such conditional permission can be given only when there are no legal objections. In this case very serious objections could have been taken lawfully. Yet the Building Department made light of the legal impediment, got certain opinions from sister Departments without disclosing full facts to them and on the strength of ambiguous opinions, which they thought might clear them if the malpractice was detected, granted conditional sanction based on the happening of some future contingencies which the department probably knew would never materialize."

The Report further stated that the District Engineer concerned also gave a deliberately false report. The officiating Chief Law Officer did not seem to have applied his mind to the details of the case and was easily persuaded to accept the viewpoint of the Building Department.

When the Report was placed before the House, a tense atmosphere prevailed over the air of the House. Earlier a question was put up by a member as to the legality of the Report and a few other technical bearings.

Supporting the Report, Councillor Mihir Ganguly said that the Calcutta Municipal Act should be amended so that offenders might be dealt with more firmly. An officer of the Buikling Department had once told him jokingly that had there been an unauthorized construction there would not have been so many buildings in the city. Councillor Canana's suggested that the Corporation should

mediate steps to pull down the building, wanted that the offenders should be taken by the House, as the House was fully ed to do so.

supporting the observation of the Report. a reference was made in the House as to unauthorised constructions by Councillor Mitra many memebrs objected. They wantet the House should fully devote to that indivious only.

out one should not rest content with that inal case only. The number of unauthorized fuctions are no less considerable and in most cases they have been regularized by different bds of rules existed in practice or conventions, it in these where infringement of the law has seriously made. This was amply demonstrahrough the speech made by Councillor Ganguly, d above.

Some time ago, the Corporation while dealing the insecure buildings also wanted then a list inauthorized constructions the Department had a caross and how they had been regularized. As irds insecure buildings it was known that the partment started 251 cases for demolition since il, 1957, of these 189 buildings were either demoed or made secure.

There were 42 cases in which demolition of ildings had been stayed on an undertaking by the use-owners that the sources of danger would be noved. In most cases reconstruction work is undertaken. Demolition of 20 insecure builds had been stayed by court injunctions then.

Full list of such buildings could not be had to paucity of technical personnel and other diculties and this has placed the city in a most ward position.

HEAPER DRUGS FOR CITIZENS

A lot of protest has been voiced both by the tizens as well as by the medical men over the rant of essential drugs brought about by the urrent import restrictions. Availability of such ruff as Streptomycin, Terramycin and Aureomycin as become difficult for the citizens. Even they re not affordable, at the prices at which they are ffered for sale to the common citizens. And it has been thought of that unless self-sufficiency is obtained in the manufacture of drugs by India such lifficulties are inevitable.

This was fully stressed by General S. S. Sokhey, formerly Asatt. Director General of the World Health Organization, at present visiting this city at the invitation of the West Bengal Government to advise them on the development of drug industry with the help of the Russian experts.

The General spoke on Soviet Aid for making India self-sufficient in Modern Medicines to the Members of the Standing Health Committee in the Mayor's room, Central Municipal Office Buildings, 5, S. N. Banerjee Road, on Friday, the 29th August. Besides, several other Aldermen and Councillors and Corporation officials were present who heard him to speak. He deplored the fact that India was backward even ten years after Independence in the development of the drug ladustry. He also said that for a couple of hundred years nothing was done to implement the manufacture of drugs in this country. "Since the country

has become independent, the people must be 4. A large plant for the production of chemito assume responsibilities. "We have got the tecal intermediates with a total output of 94,000 nical knowledge which was not availatons per annum, which could be converted into even 30 years ago. We have got to create a sociover 33,000 tons of finished intermediates, over in which modern knowledge can be applied quic 17,000 for drugs and 15,000 for dyes and plastics.

and to its fullest advantage", he added.

Earlier Alderman Dr. Amiya Kumar Bosokhey who pleaded much for securing Russian. Chairman, Standing Health Committee, welcomhelp in developing the industry.

General Sokhey. Questions were put up by

Sen. All these were replied to satisfactorily. essential drug industry with its own plants for ted country like India. production of intermediate and basic chemicals as solvents and research laboratories. Such effort w CHOLERA DECLARED NON-EPIDEMIC beyond the capacity of private firms in India, and

operation, would provide India with all the anti-move. biotics and 2% times the amount of synthetic drugs

General Sokhey also said that to give effect to this project the Union Government invited the endemic group of Soviet experts visiting this country at negligible. present. He regretted that earlier the Ministry of Commerce and Industry had entered into an number of human lives during the last week when agreement with an American firm to extend Pim-44 persons died from the same against 52 the pri to produce 45 tons a year of streptomycin. In week before. Altogether the disease tolled 157 perthis deal India would have to pay heavy royalties sons during the above four weeks. The number to this firm for a period of 10 years. He thought has far exceeded the deaths from the epidemic that the same assistance could have been obtained disease raged so vigorously this year.

Hindusthan Antibiotics would be called upon to observe technological secrecy thus preventing the Indian workers from freely collaborating with world science.

It may be recalled here that a team of Soviet experts worked in India in 1956 with an Indian group and suggested that the following plants should be erected for the development of drug industry in India:-

- 1. To extend the Hindusthan Antibiotics at Pimpri to make 40 million M. U. of penicillin a year and 85 tons of Streptomycin, Aureomycin and some other tetracyclecs.
- 2. A new anti-biotic plant with an annual capacity of 60 million M. U. of penicillin and 85 tons of streptomycin and other newer anti-biotics.
- 3. A chemical-pharmaceutical plant with a capacity of 230 tons of synthetic drugs and vitamins.

But whatever the shape of aid might be and. members present including the Mayor, Dr. Triguwhat amount of help comes from either of the The situation according to General Sokhemedicines for the common folk who suffer and evencould be met only by creating a fully integrat die from want of the same in a poor under-develop-

beyond the capacity of private firms in India and such aid could not come from the West as they have built up independent concerns to cover the who the grip of that epidemic disease on the last week-ment. Even if India seeks help from the West state of the grip of that epidemic disease on the last week-ment. Even if India seeks help from the West state of the production of the General emphasized that the Soviet Unio disease. The week period 1,484 people died of the half fully integrated the industry the production of the highest number ended the 26th April recorded.

The General emphasized that the Soviet Union disease. The week period 1,484 people died of the had fully integrated the industry, the production the had fully integrated the industry, the production the highest number ended the 26th April recorded basic chemicals, intermediaries, and chemical equipment, and that under one State management. It were 43 attacks and led the 23rd August there the circumstances, General Sokhey maintained, the previous week. It deaths against 45 and 32 in the Soviet Union was the proper source for such Technology had not been confined there to only including a credit of the Russian experiment of the maintained of the social previous weeks. But on this equipment needed and accepting payment in the cocasion no such stricutive weeks. But on this period of disease was longer than scheme would involve an expenditure of Rs. 9 crores for the previous your world disease was longer than scheme would involve an expenditure of Rs. 9 crores for the previous your world disease was longer than the implementation. These plants, when in epidemic diseases. Thus the decision was a right equipment to be imported. These plants, when in epidemic diseases. Thus the decision was a right

at present in use, and would save India Rs. 35 crores the attacks were 212 during the first four weeks of August, commencing from the 2nd instant.

The attacks and deaths from the other disease and small-pox, was almost

Deaths from Malaria and Typhoid during this: period was comparatively less in number. Deaths. from all causes totalled 2,861 during these four weeks.

"INDEPENDENCE DAY"

PANNAMAYEE GIRLS' SCHOOL OBSERVES

Girls and teachers of the Pannamayee Girls' School, Gokul Mitra Lane, Baghbazar area, solemnly observed the Independence Day on the 15th August last. Hoisting of National Flag and merriments through music and dances formed the programme of the day.

Councillor Satyananda Bhattacharyya, Deputy Chairman, Standing Education Committee, presided while Miss O. Persentle, M.L.A., the Inspectress of Corporation Schools, was the Chief Guest. Prof. Monmutha Mohan Basu, Provident of the School Committee and many other distingelated citizens of that loodity were present. The found of the School Shel Resemble Lat After, evelopmed the gu

THE CORPORAION at WORK

A GIST OF PROCEEDINGS OF THE EIGHTEENTH ORD MEETING OF THE CORPORATION HELD ON FRIDAY, THE 22NDUST, 1958.

AMBULANCE SERVICES

Rising on a matter of urgent public importance, Councillor Narendra Nath Sen, wanted that the life of the temporary staff recruited by the Ambulance Section should be extended due to the exigency of the situation. This staff was enrolled during the cholera epidemic season.

Councillor Sen said that with the introduction of eight-hour-working day system in that Section. the work had suffered much. Even there was depleted staff during certain periods under the new arrangement. And still more if the staff had to face reduction with effect from the 1st September then there would be much difficulty in running it. He regretted that the Standing Finance Committee did not properly recognize the importance of the situation it demanded. This was, however, assured to by the Deputy Mayor, Shri K. C. Basu.

FELICITATIONS TO 'EASTERN BAILWAYS' CLUB

Councillor Dr. Sukhabehari Mukherjee referred to this year's Football League Matches and wanted that the Corporation should extend felicitations to the Eastern Railways' Club for winning the League Championship. Councillor Dr. Mukherjee complimented the Club as it was fully manned by purely Bengali players. He said that even the Mohan Bagan Club, the well-known Bengal's organization having its root in this soil, could not fully compose their team with the Bengalees. This he regretted by saying that Bengalees are going out of the sports field gradually.

ABNORMAL PRICES OF MEDICINES

Councillor Dr. K. P. Ghosh referred to the abnormal rise in prices of medicines and food for the babies. He suggested that the Central Government should be moved for the relaxation of restrictions of import of such essential commodities. The restrictions have been followed by racketting of prices and hoarding of stores, according to him.

In a subsequent meeting Councillor Subrata Sen Sarma also pointed out the soaring prices of essential food-stuffs and he wanted Government intervention in this through the Corporation.

HIGHER EMOLUMENTS FOR ENGINEERS

Referring to the inadequate number of engineers and other technical personnel in the Corporation, Councillor Raj Satyendra Nath Mitra felt the need of providing higher emoluments for such staff so that they might be attracted for the Corporation services. Otherwise many of the projects and programmes undertaken by the Corporation would never be implemented. Councillor Mitra desired that the House would take special notice of this fact in order to extend civic amenities to the criticens.

ICIPAL DEBENTURE LUAN

de House, on the recommendation of the ng Finance Committe, approved a draft prostor the proposed 4½ per cent, ten year a Municipal Debenture Loan of Rs. 73.36. The draft was prepared by the Finance & Chief Accountant.

DOL COMMITTEE FOR 1958-50

based on a recommendation of the Standing ation Committee, the House appointed a 14-ber School Committee for the year 1958-59, he spread of primary education in a certain of the city.

Putting up the recommendation, Alderman K. Dutta, Chairman, Standing Educa-Committee, felt that the Committee appointed, ld not be able to achieve any useful purpose he present circumstances when the institution ered from paucity of funds in this regard.

A GIST OF PROCEEDINGS OF THE SPECIAL ETING OF THE CORPORATION HELD ON THURSDAY, THE 28TH AUGUST, 1958.

W ELECTORAL ROLL

The House unanimously passed the following olution in connection with the preparation of ectoral Roll for the General Election of the proporation:—

"The Government of West Bengal be requested to extend the life of final Electoral Roll of voters for the election of Councillors for the full term of their office and fresh Electoral Roll be prepared only before the General Election, as the Corporation of Calcutta has requested the Government to introduce the system of Adult Franchise in the Corporation ensuing Election on the same basis as for the Election of the State Legislative Assembly and the Lok Sabha."

As the day was devoted mainly for consideration of many of the motions put up earlier by several members, the above was passed as an amendment to the original one moved by Councillor Ranjit Coomar Mitter. The amendment was made by Councillor Anil Maitra.

The mover also added that the office of the Registering Authority, Corporation, should be closed after 1st April, 1959 and in the meantime, the existing final rolls of different wards should be kept in force for one year only since 1st April, 1958, or until the relevant Sections of the Calcutta Municipal Act, 1951, be suitably amended by the State Government to avoid unnecessary expenses from the Municipal Fund.

Councillor Nripendra Nath Banerjee also rightly pointed out that the Corporation's expenditure in preparing and maintaining the Electoral Roll for the last few years had exceeded Rs. 3 lakhs, and it was going to spead nearly Rs. 80,000 in the current

year. The introduction of the Adult Franc FALL OF PROVIDENT FUND PROFITS system under the changed circumstances w sure to save considerable money, according to

Councillor S. K. Gupta, I.C.S., also narr the peculiar position of the Electoral Roll Off under the present set up, while he pointed out defects in the preparation of the Roll. The Offi although is being appointed by the Governm

FELICITATIONS EXTENDED TO

SHRI BROJEN DAS

The Calcutta Corporation should extend it warmest congratulations to the 27-year-old Pakistani swimmer, Shri Brojen Das, who landed just east of Dover Harbour after gruelling 14 hours and 57 minutes to swim across the English Channel from Cape Gris Nez in France. He was the second swimer to finish this year's cross channel race, landing just four hours after the winner, Mrs. Greta Anderson, a Danish-born American swimmer who won the prize. It was Das' first attempt to cross the Channel.

The proposal was put up before the House by Councillor Mukur Sarbadhíkary, at a special meeting of the Corporation on the 28th August while mentioning matters of public importance. The member was supported by many others.

Shri Das owes a debt to one time Indian ace swimmer, Shri Prafulla Ghosh. Shri Ghosh 1948 in was largely responsible Shri rekindling in Das's mind interest in competitive swimming after he had deserted the sports world, where he had a short career during his school days. He got training under Shri Ghosh and Shri Shyamapada Goswami in Calcutta and in the three years 1948-50 came second and third in the West Bengal Championships competing as a Pakistani. In 1951-52 and again in 1954 he won the 100 metres free style event in the West Bengal Championships. Since then he won several laurels in the Pakistan Swimming World snatching away many championships. After that Shri Das set his eyes on the Channel swimming and in August, 1957, he undertook the first of his three endurance tests as preliminaries to the big event this year. He covered 26 miles in 15 hrs. 28 minutes in a Dacca Swimming pool. Last year he tried to wade over the strong current 45-mile Narayanganj-Chandpur distance.

still he is not directly under the control of either the Corporation or the State Government. This has no doubt created a void in the preparation, he added. The former practice was that the Chief Executive Officer was entrusted with the task of preparation of the Roll, and he was controlled directly by the Corporation.

Several speakers also pointed out the defects in the preparation of the Roll. Non-inclusion of legitimate claims was their main grievance. Others also mentioned the defects of the existing procedure in its preparation.

The House appointed a five-man Special Committee to enquire into the causes of fall in the percentage of profit of the Employees' Provident Fund'. The members are the Deputy Mayor, Shri Keshab Chandra Basu, Councillors Anil Maitra, Mihirlal Ganguli, and Biman Mitra, and a representative of the Joint Committee of the Corporation Employees and Workers.

The action was taken on a motion put up by Councillor Biman Mitra, who stated that a strong resentment had grown amongst the general employees and workers due to sudden fall in the rate of interest for 1956-57 of the Employees' Provident Fund. Councillor Mitra doubted that there was some 'fishy game' in the matter of investment of the fund money. He also informed the House that the Fund had lost Rs. 1.29 lakhs in 1956-57 and Rs. 50,000 in 1957-58.

A section of the House wanted to entrust the task with the 'Board of Trustees for the Provident Fund' to which the House disagreed. The Board is generaly constituted every year with the representatives of the Members of the House, the officials and the subscribers.

DEFECTIVE TUBE-WELLS

At the outset, Councillor Brojendra Nath Banerjee, pointed out many of the defects in sinking small-dia. Tube-wells in city whose funds were generally provided by the local Borough Committees. He said that although sanction for sinking was granted at one time the work spread over a period of four to six months. Besides, the unsatisfactory manner of sinking had caused nearly ten tube-wells to cease operation within a short period after completion of the work. They were located mainly on Bhukailash Road, Diamond Harbour Road, Gangadhar Banerjee Road and the adjoining areas. Councillor Baneriee failed to understand how the defects were cropped up in spite of the fact that materials had been supplied from the Central Stores, Corporation. He went further to say that the indifferent attitude of the Corporation officials in repairing them had aggrieved him much.

In this connection Councillor Kumar Dutta mentioned that 17 such tube-wells were found defective in his area, Ward No. 8. He also thought that surging and sinking work in those cases had not been attended properly.

INCREASED TRAM FARES

The House also accepted another motion tabled by Councillor Dr. K. P. Ghosh, as a request to the State Government not to allow the introduction of an increased rate of Tram and Bus fares. The motion runs as follows.

"সরকার নিয়াত টাম, বাস ভাড়া তদশত কমিশন কর্তৃক ভাজা বৃষ্ণির প্রস্তাব সম্পূর্ণ নীতিবিসহিত ও অন্যায়," তাছাড়া য্ত্তিসমূহ স্ববিরোধী ও পক্ষপাতপূর্ণ, স্তরাং এই পোরসভা উভ রিপোর্ট গ্রহণ না করিতে বাংলা সরকারকে অনুরোধ बाबाইएएट ।

"It is wrong and unjustified to increase the fare structure of the trams and buses plying in the city as suggested by the Tram and Bus Fare Inquiry Commission appointed by the State Government. So the Corporation requests the State Government not to accept those recommendation."

CITY · NEWS · PARADE

OBITUARY: The death of Kumar Pramatha Nath Reg. son of the late Raja Sreenath Roy of Bhagyakul following attack of Cerebral Thrombosis, occurred at his residend Sova Bazar Street, northern part of city, on Friday, the 22nd July, last. He was 79.

The Kumar was widely known for charity. His highest single donation being Rs. 55 lakhs given to a Trust known as Kumar Pramatha Nath Roy Charitable Trust. His total donation amounted to over Rs. one crore. He was also the Director of many commercial firms.

The Corporation at its weekly meeting on Friday, the 29th August, mourned his death. The Mayor, Dr. Triguna Sen, who referred the death in the House paid eloquent tributes to the memory of the Kumar mentioning the charities he made during his life time. Besides, he bequeathed from time to time about Rs. 8 lakhs to Bharat Sevasram Sangha for establishing Dharamsalas at different cities in India for the benefit of pilgrims. He dedicated a Hall at Ballygunge known as "Raja Sreenath Hall" at a cost of more than a lakh of rupees. He also made a gift of over a lakh of rupees towards the Mayor's Fund for Clinic and Home Treatment of T.B. patients. All these enumerated by the Mayor.

"The City of Calcutta is definitely poorer by his death, We have lost a long-hearted philanthropist and a benefactor of the people", Dr. Sen added.

Rai Bahadur Siba Priya Chatterjee, retired District and Sessions Judge, died at his residence, 91, Ballygunge Place on the 14th August, last.

Many public institutions were benefitted by his charity, particularly the Prasannamoyee Charitable Hospital at Sursoonah, his ancestral village and the T.B. Hospital of Jadavpur.

Shri Sambhunath Bandopadhyaya, founder of Bando & «Co., and one of Bengal's pioneer industrialists, died at his Alipore residence on the 21st August, last. He was 70.

Associated with the revolutionaries of Bengal, the late Shri Bandopadhyaya boycotted Calcutta University and worked for some time as a lecturer of Physics and Mathametics in the National Council of Education, Bengal. Starting with very modest means, he rose to eminence by dint of his integrity and devotion.

INDIAN LIFE SAVING SOCIETY'S Thirty-sixth Birthday Anniversary was celebrated on Saturday, the 23rd August, last, at the Dhakuria Lakes. The performance of an aquated drama based on a Bengali legend, Manasa Mangal, by members of the Society at its swimming pool in the Lakes, in that connection was of a high order. The ·Governor who presided over the function, the Mayor, Dr. Triguna Sen, who was the Chief Guest, and hundreds of other guests made highly appreciative comments. This acquatic ballet was performed more frequently and at a place where a larger audience could be accommodated, they urged, The performances of Gouranga Mullik in the role of Chand Sadagar and of Dilip Banerjee in that of Sankar Ojha werp skilful. The other artists also did well.

LADY BRABOURNE COLLEGE'S Nineteenth Found tion Anniversary was held on Tuesday, the 28th August.

The need for an all-round development of the women community to fit themselves to shoulder the responsibilities of building new India, was stressed by the State Govern Shrimati Padmaja Naidu while presiding over the function

Governor also gave away prizes to the meritorious st of the Institution.

Governor said that women of the country had the eghts and opportunities in every sphere of activities. It wrefore, essential that they should be properly educated so they might ably take part in giving shape to welfare State. She hoped that women would bnest in becoming worthy citizens because of the t the future of the country depended so much on telive participation in different spheres of nationactivities.

imati Naidu expressed satisfaction at the extraprogress of the Institution and hoped that it would more and more to extend its vital services for the ent of the women community.

rlier, Dr. Roma Chowdhury, Principal of the College, at they aimed at imparting not only education ng to the prescribed syllabus, but also at the devet and perfection of the total personality of the s. She said that the college work extended far mere book work done in the class rooms. Promiwas given to useful extra-curricular activities of kinds. In that connection, Dr. Chowdhury said neir ideal was the age-old ideal of India herself: the ideal of unity, fraternity and equality.

college Parents' Day was held on the 27th August, the presidentship of Rai H. N. Chaudhuri, State tion Minister.

A LECTURE ON FAMILY PLANNING was delivered e Ramkrishna Mission Institute of Culture, South itta, on Saturday, the 23rd August, last by Shri C. drasekaran, Professor of Statistics, All-India Institute Hygiene and Public Health. The speaker emphasized family planning campaign must become a national ement in view of the difficulties in food supplies created the rapid growth of population in India.

Despite the added emphasis to family planning a tic reduction in the national birth rate could not be ected immediately. Far-reaching changes in social mizations and community thinking had usually to occur pre patterns of fertility could get modified.

The motivation towards family planning was extremely ak in most sections of the population, he said. "It is challenge which must be faced." This was the only y to achieve self-sufficiency in food because the major pediment in the realization of the country's food target s the accelerating population growth.

ANNUAL CONVOCATION OF GENERAL COUNCIL ND STATE FACULTY OF HOMOEOPATHIC MEDI-NES, West Bengal, was held at the University Senate all. Central Calcutta, on Thursday, the 28th August. bout 80 students, including a woman, received medals, rtificates and diplomas from the Governor.

The Governor, who inaugurated the Convocation, said nat in ultimate analysis the future of Homoeopathy in he State must depend not on Government help but on the ncerity of Homoeopathic practitioners who should have a niform system of teaching and training and regulations for egistration. They should also have some system of control and supervision on dispensaries to guard against impurity of flrugs.

The Governor appealed to the students receiving diplomas to start practising in rural areas and not to crowd the cities and towns.

Dr. S. N. Ghosh, who presided, said that training in that science still remained mis-managed for lack of Government patronage. Certificates presented to those obtaining diplomas after four years' course prescribed by the Faculty were not accepted by the Government. It was regrettable that the State Government had not yet made any enact to give recognition of Homocopathy although sis measures had been passed in States like Bomay, & Pradesh, Bihar and Kerala.

DEMONSTRATIONS: Grade IV employees of West Bengal Government at a meeting held at Indian A ciation Hall, on Wednesday, the 27th August, demande ban on the utilization of their services in officers' househo Appointment of a Pay Commission, grant of a mor interim allowance of Rs. 25, abolition of discrimina treatment between Grade III and IV employees, and le mate trade union rights were the other demands.

About 150 employees of Film Companies and sw and laundry shops and shop assistants in the city wen procession from Subodh Mullick Square, central part of city, towards Writers' Building on Thursday, to meet Labour Minister for presenting their grievances, demonstrators carried posters and shouted slogans. T were stopped as an order under Section 144 Cr. P.C. in force in the Dalhousie Square area.

Their representatives, including Shri Ramashan Prasad, M.L.A. and Shri Haripada Chatterjee met Jan Abdus Sattar in Writers' Building and submitted a Men randum containing their grievances. The demands include eight hours' duty, increased emoluments, permanency service and others.

Employees of the West Bengal Board of Seconda Education, who concluded their conference at an ope session in the Mahabodhi Society Hall, on Saturday, to 23rd August last, resolved to take "direct action if the demands for higher wages and Trade Union rights we not met by the authorities, Prof. Nirmal Bhattachary M.L.C., presided.

The conference also called upon the authorities to sta negotiations with the Employees Association for settlement of the demands. Formation of a Committee to inquire in mounting corruption and falling standards of efficiency in the Board was also among the demands.

A symposium on "The place of liberal education in democracy" was a feature of the conference. Prof. Hire Mukherjee, M.P., Prof. K. P. Chattapadhayaya, M.L.C., Sh Satyapriya Roy, M.L.C., and Prof. Sibnarayan Roparticipated in the discussion.

TRAM STRIKE SITUATION REMAINS UN CHANGED: Little prespects of immediate resumption of tram services in city streets have caused much concern to the citizens. The position stands as it was before at the time of our going to the Press, even about five or six days had passed since the return of the Ex-Mayor, Shri Anandilai Poddar, the only Indian Director of the Calcutta Tramways Company.

The leaders of the four striking Unions declined to make any comment on the new formula published on Friday, the 30th August, but they seemed to be not in the least enthusiastic over the proposal for reference of the issues to the arbitration of the highest Judiciary of the State.

The new formula referred to, a suggestion put up by the Indian Director, that since the Company was unable to meet the employees' demands involving financial commitments, the issue should be referred to the Chief Justice of the Calcutta High Court whose verdict should be binding on all parties. This was in similar to the State Labour Minister, Janab Abdus Sattar's earlier proposal for holding a Court of Enquiry conducted by the High Court Judges. All these proposals wanted that the employees should resume work without delay in view of the reasonableness of their suggestions, as the authors stated, and the continued hardship of the citizens whose sympathy and support they should enlist.

CHINA KABITA (Forms of Chine)—by Shiri Dilip Dutta—Published by Shiri Sunil Gangopadhya, of Messrs. Krittibas Prakasani, 22, Shyampukur Street, Calcutta—4. First Edition—Price Rs. 1810 only.

Comprising of thirty-six poems originally composed from the pre-Christ ages the renderings from Chinese to Bengali have initiated others to follow the translator. Poems have been selected from the compositions of Li Po, an eighteenth century poet with rare talents, Li-Sang-In of ninth century whose poems earned so much that his life's mission was changed to be an Administrator, and many others. The renderer has not even ignored the modern living poets flourishing in the pre-war days. The thirty-seventh number is the composition of Weig-Wei of seventh century order, whose fame spread equally as a poet, painter and physician.

The renderings show that poetry had an appeal to China's life and poets of high order had occupied high positions in Royal Court apart from their poetic recognition. The poetic flow runs from the pre-historic days down to the present generation in that country and Shri Dulta is the torch-bearer of that country's ancient flow of poetry in India.

BHARAT-CHIN—India and China—1st year—Number one—Edited by a Board of Editors—Published by Shri Subrata Deb, on behalf of the India-China Friendship Association, Bengal, 84A, Sambhunath Pandit Street, Calcutta—20. Price Annual—Rs. 4—each copy Re. 1 only.

We welcome the Number which has made a positive gesture for an everlasting friendship between the two great countries India and China. The friendship is inspiring, no doubt, to the rest of the world and the present Number is the vehicle which bears the message to strengthen that it would be the medium through which en masse would be able to learn more about China, once a Forbidden Land to the rest of the world. Except a few, the articles embodied in it are more or less timely approach towards the understanding of that country. The writers are also equally eminent in public eye as Dr. Suniti Kumar Chatterjee, Shri Tarasankar Bondopadhya, Sri Vivekananda Mukhopadhya, Shrimati Jaya Appaswami and Dr. Bejoy Kumar Basu, Prof. Nirmal Chandra Bhattacharyya and others. There is another attempt to teach Chinese through a linguist Shri Ramendra Mohan Basu and the renderings of a famous story by Lu Sen. But what is more appreciating is that the Number has been enriched by a few pictures by Chinese Artists. This is the way through which China's treasure has been opened to India. Introduced by a great exponent like Chou-En-Lai, the Number would surely receive appreciation on all hands.

The farewell address given by the poet Rabindranath. Tagore, after his visit of China in the last twenties published in the shape of an article, has further decorated the number.

Earlier in a statement the Trade Union leaders, placed on the helm of the Tram strike affairs, said that the Company's plea that fares be raised was unjustified and that the increase was not necessary to meet the workers' demands. Introduction of the system of collection of fare in both naye paise and in old coins had resulted in an additional revenue of Rs. 6 lakhs annually and this would increase to Rs. 13 lakhs when collection would be in naye paise only. Even a portion of this money would be sufficient to meet all the workers' minimum demands, soluting gratuity, sickness and interim benefits.

CORPORATIO NOTICES

To All Registered Petty Improvement Contractors

District No. II Engineering Department.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 2nd September, 1958 up to 2 p.m.

VIEWS AND REVIEWS

CALCUTTA'S MALAISE

Recently, while speaking to the Advisory Committee on Slum Clearance, the Indian Prime Minister suggested that clearance of slums should be viewed as a part of urban development integreting all activities relating to social welfare as well as provision of fruitful employment of the depressed in those areas.

The Prime Minister said that removing of slums was intimately connected with housing and future urban planning and provision of employment for dwellers must form an important part of any clearance programme. Calcutta, he also said, was the worst-affected city in India from the point of view of insanitary living conditions, over-crowding and unemployment, and Bombay, Kanpur and other big cities were not very much better.

Discussing the nature and extent of the problem, the Committee's Report said that although no regular or complete social and economic survey of slums had yet been undertaken either by the Central or State Governments, it was estimated that on the basis of previous census reports and other data available, the slum population constitutes from 70 p.c. to as high as 80 p.c. of the total population in big cities. A conservative estimate could have placed urban slum houses totally unfit for human occupation, for about 11 lakh population.

The Committee has recommended to begin with the worst slum areas in the six cities of Calcutta, Bombay, Madras, Delhi, Kanpur and Ahmedabad which might be taken up for treatment. In the States in which the first six experiments were to be conducted, the Urban Community Development organizations might be headed by Administrators, who would draw up and implement, in consultation with the Ministry-in-charge of Urban Community Development and with the State and Local Bodies concerned, a Composite Urban Development Scheme for the selected areas.

The Committee has emphasized that the short term objective of providing the basic amenities in the slums should be carried out with expedition and vigour.

The above remarks of the Indian Prime Minister about the unsatisfactory living conditions of this city caused some confusion in the minds of the citizens. One of the city's contemporaries gave an ulterior meaning of those remarks. But 'insanitary conditions of living do not always coincide fully with insanitary living habits for which we generally accuse the slum dwellers. Calcutta's long sickness in different spheres had caused much resentment among its citizens. And the Union Government was found to be equally responsible with the State Government for these maladies. The citizens here are forced to live under such deteriorated conditions of living and for which the hard pecuniary conditions contribute much. While in other cities the same reason does not hold good, rather the manner, conditions and habits of the citizens there are more or less amenities for living in slums. The Prime Minister would have done well if he could find opportunities to look into the Calcutta's slums whose identity can easily be isolated from the similar status in the rest of the country. Calcutta's slum thus, comes to be counted as a separate position and for which special measures are necessary to cope

Regarding Delhi, the Prime Minister observed that there were a number of authorities, with overlapping juricdiction dealing with the problem of slum clearance in some way or other. There was some co-ordination of late under the Delhi Development Authority, which worked under the Health Ministry. Other authorities concerned were the Ministry of Works, Housing and Supply and the Ministry of Home Affairs. The Ministry of Finance naturally came into the picture and so did the Ministry of Commerce and Industry, if small industries were to be considered.

In Calcutta, the Corporation, the Improvement Trust are the two main bodies entrusted with the task. Besides, the slum dwellers are benefitted in other ways by different social welfare and philanthropic organizations.

The Prime Minister further said that it might be possible to start small industries in the slum areas with the help of small machinery and tools. Much words were used regarding this in the floors of the West Bengal State Legislatures when the Calcutta Improvement Trust (Amendment) Bill and the Slum Clearance Bill were debated and passed.

At the same time it should be noted that Calcutta's living conditions are superior than those of Delhi. That city is now of 'breakdowns'. During July last Delhi had too much water so much that half the city lay submerged for the better part of the day. It resulted in loss of lives as well as house collapses to a considerable number. In August there was scarcity of water. Taps went dry for days together. Suddenly the Jamuna turned its back to the people of Indian capital who were basking in the limelight of international situation. When the civic administration failed the army came for rescue and it was difficult to estimate then how far that had been successful. Who knows that another breakdown of water supply is not lurking in near fututre. Although some amount of normalcy has been restored in water supply at the time of going to the Press still the official warning is there. For thousands of families Delhi became suddenly crude and dehydrated. Men, women and children went out in search of water and returned unsuccessful. And happily Calcutta has not been the victim of such malaise ever since its birth.

What keeps life going on, however, is perhaps a philosophy of daily living peculiar to Delhi which reveal the supreme capacity to compromise and co-exist with things as they happen there. Electricity and telephones very often fail. Without any arrangement of gas-cooking there a smoky city is gradually developing in. Breakdowns of bus services are not rare occasions. Even there are troubles in getting adequate number of domestic servants. And you will rarely find a satisfactory answer to these. Thus Delhi has became a 'nightmare' to the 20 lakhs of people making their hearth and home there.

STEEL FOR WATER MAIN

Difficulties are being experienced by the authorities of the Corporation in obtaining sufficient quantity of steel plates for the construction of the new 72 inches Pulta-Tallah Main. Repeated efforts have since then made to impress upon the Union Government about the urgency of the situation. Recently in the Lok Sabha, the members representing this State tried to secure an assurance from the Centre that the steel required to execute the scheme would be made available. The members also stressed the need for urgent repair work specially when the 60 inches main had leakages in its body. The witnessed certain Minister for Steel, Mines and Fuel, replied then that he was confident that if the demand was really urgent, the West Bengal Government would give it a high priority in distributing the steel already allotted to the State.

Prof. Hiren Mukherjee, a representative from this city, asked for an assurance that supplies of steel required to repair water mains would be regarded not merely as a matter of priority but "as a matter of life and death for India's largest city."

The Minister, Sardar Swaran Singh, admitted that an earlier request received from the Corporation for an additional allotment of steel had not been accepted so far. He said the State Government had been requested to phase its requirements and if this was done, "it might be possible for us to make a fresh effort to meet the demand."

Asked by another Calcutta M.P., Shri Sadhan Gupta, about the quantity of steel plates allotted to West Bengal and the quantity the Corporation had asked for, Sardar Swaran Singh said that the Corporation had assessed its requirements at 13,700 tons. The State Government had allotted 5,800 tons to it so far and he thought this amount was enough to meet urgent repair work.

Shri Prabhat Kar asked why the Centre had not taken steps to see that Calcutta's requirements were met in time so that the shortage anticipated in January might be averted.

The Minister replied that in response to requests from the State Government and the Corporation, the Government of India had pointed out that these demands should normally be met from the overall State quota. It was for the State to judge the relative importance of demands and to meet them in an equitable manner, keeping the overall shortage in mind.

Thus the requirements and the quantity thereof have confused the minds of the citizens. According to the knowledgeable circle a thorough repair
of the existing 60 in. main cannot be undertaken till
the proposed 72 in. main is laid and put into commission. Whatever repair work is being undertaken
it is very insignificant one. And for this purpose
no steel is required. But the precarious
condition of the old main would not make possible
to continue it any further at the present circumstances and thus the laying of the 72 in. main has become urgent. The quota of steel is urgently
required for its construction only.

The Resources Officer of the State Government had written to the Steel Ministry during last July about the quantity of steel required for the purpose. He pointed out that such a huge quantity of steel could not be allotted to the Corporation from the meagre quota received by the State from the Centre. The State was allotted only 8 per cent. to 9 per cent. of its demand for 17,000 tons of steel material per quarter. At present the State Government could not allot more than 250 tons of steel plates per quarter for the Corporation. If the Corporation was to depend on this meagre allotment it would take seven to eight years to procure the entire quantity required for the project.

In the circumstances, the only way left with is to make an ad-hoc allotment of 7,900 tons of steel material for the Corporation to enable it to take up the vital and very important Palta-Talla project of laying 72 in. main.

CALCUTTA'S GAS SUPPLY DETERIORATES

When the city Fathers mostly are in the opinion of introducing electric lamps for illuminating streets and thoroughfares as an object of public convenience the system of street lighting through gas can not be done away with fully. It was

the considered opinion always to maintain a duel system of street lighting both gas and electricity as still in existence in the great cities of the West.

- But unfortunately the supply of gas in this city has been of a low ebb since last few years. Recently there has been still deterioration. The position of domestic supply is no better. And thus it has become a real pain in the neck of the citizens who have the misfortune to use gas or to walk streets fitted with gas lamps.

Possibly, it is the most ill-managed public utility concern. One may go on complaining for days and weeks without rousing any one to action. Even before the workers "slowed down" work the gas was a bad mixture with no lighting or heating quality. Recently, the situation has most acute. Production and supply have been falling at the rate of nearly one lakh cu. ft. per day since the 25th August last, as detected by experts. Even more, there were occasions when no supply of gas at all. The present difficult supply position has made gas-lit roads darker and has seriously affected hospitals, laboratories, printing presses and type foundries, pharmaceutical works and other industrial units, particularly glass and glass articles' manufacturers.

Hospitals have been among the worst sufferers. Without adequate gas supply, sterilization of equipment and material have become difficult. Since Monday the number of operations a day had been reduced to half in a large hospital in the city due to shortage of supply. Medical students and hospital staff and other big establishments had to make do with spirit lamps, stoves and coal ovens.

The programme of work in a leading Scientific Institution has had to be changed during the past three or four days to suit the availability of gas. At noon generally the pressure has been non-existent there. High temperature experiments have been suspended.

Thus the Company goes on in their own way and depriving the public out of an essential supply which all civilized countries provide to their citizens.

The sufferings of domestic consumers, numbering about 10,000, are not much less. Some pharmaceutical concerns, electric bulb manufacturers and radio-makers have complained of their production being affected by defective gas supply. A type foundry in north Calcutta lay almost idle in one day during last week.

The shortage of supply has caused many hotel establishments to make alternative electrical arrangements in their kitchens. Many domestic consumers have changed to coal. Water has been taking about twice the usual time to boil over a gas jet.

Inquiries revealed that the pressure of gas at the Company's showroom in Park Street was less than a quarter of the normal at certain period in one day. The calorific value was stated to have dropped from 450 to 350 per cu. ft.

In the area bounded by Lower Circular Road, Park Street and Chowringhee Road, and some parts of Cossipore and Kidderpore, the supply of gas does not reach many street lamps because of the low pressure. According to the Corporation's Lighting Department the situation is "precarious". The Corporation had been trying to convert its gas lamps into electric lights and had already converted over 13,000 during the past few years. The conversion

of the remaining 8,000, expected to be completed by another year, would be speeded up.

There might have been periods of "vacuum" in certain areas during the past week. Still the Company said that, even if the supply gave little results, it could be stopped altogether. One reason, was that if a vacuum was created anywhere in the pipe lines, air might seep in through possible leaks and generate explosive mixture.

It is said that supply is better near the mains but the farther points from these mains the less will be the pressure. There are mains along Colootola Street, Chowringhee Road, Theatre Road and Lower Circular Road. Within the area bounded by these roads there are no mains.

When complaints are pouring in the management of the Oriental Gas Company, the supplying agency, alleged that the workers had resorted to slow-down tactics, while the workers' union, in a statement, put the blame on "worn-out machinery and plants" and an alleged "unfair practice" of utilizing used coke. It demanded an inquiry into the working of the concern.

Whatever, might be the situation, sufferings for shortage of gas supply have increased much in different spheres of life in this city. Nationalization and proper management of the concern is the most popular demand in these days. But the State Government is still silent in this respect. The only ray of hope that appears before the citizens when the Chief Minister announced on the floors of the State Legislative Assembly during the last session that the Gas Company in Calcutta was rendering "none too efficient" service and it might be necessary for the Government to take it over to save the numerous specialized industries which run on gas and ultimately to transform the city into a smokeless one. This would be done by getting additional gas supply from the Durgapur coke oven plant through a gas grid.

Justifying his arguments for a grant on Industries', the State Chief Minister, Dr. B. C. Roy, said that the Government had under its active consideration a Scheme for laying a pipe line connection between Durgapur and Calcutta to bring into this city the 90 lakhs cu. ft. of gas to be left surplus when the coke oven would come into operation. This city which had at present an inadequate supply of gas, would be in a position to make profitable use of the fuel for industrial and domestic purposes, he added.

Now the citizens' task is to watch the achievements of the announcement either critically or dispassionately.

CALCUTTA CITIZENS HONOURED

Dr. Satyendra Nath Sen, former Vice-Chancellor of Delhi University, and a former Director of the National Archives and a former President of the Asiatic Society, has been awarded a Doctorate of Literature by Oxford University.

Dr. Sen is the third Indian to receive Oxford University's D.Litt. Degree, the others being Dr. Rabindranath Tagore and Dr. Radhakrishnan, the Vice-President of the Indian Union.

Prof. Nirmal Kumar Sidhanta, Vice-Chancellor, Calcutta University, has received the Honorary Degree of Doctor of Law from the University of Toronto at a special Convocation held recently along with the executive heads of five other Commonwealth Universities.

Calcutta looks ahead

A HOSTEL IN CITY

The Government of India has decided to utilize the Nizam's Palace on the Lower Circular Road to house the Central Government's Hostel now running in the tenements at Raja Santosh Road, Alipore. It would provide better and larger accommodations. Moreover, the hutments providing 58 apartments of the hostel was built in 1948 and at present these have out-lived their utility and should be demolished.

IRON-RAILINGS AROUND DESHBANDHU'S STATUE

The Corporation has proposed to construct 18 feet high iron-rails around the newly unveiled statue of Deshabandhu Chittaranjan Das at Deshabandhu Park, northern part of the city in order to protect it from being hit by footballs. The cement statue, done by Shri Sunil Pal, would not stand football "offensive" from the nearby ground. Its outstretched hand was the most vulnerable target. Some people thought that statues in public places should be built in either bronze or stone in future.

NEW SUB-WAY NEAR HOWRAH STATION

In order to relieve traffic congestion in the Howrah Station area, construction of an underground sub-way is under consideration. One end of the sub-way, according to the scheme, will be at the station premises and the other at the western end of Howrah Bridge.

A committee comprising of the Deputy Inspector-General of Police (Traffic), West Bengal, and representatives of the Eastern Railway, Port Commission and the Howrah Improvement Trust are now examining the scheme.

With two tram goomties and about 25 bus routes operating from the western approach of Howrah Bridge and heavy movement of lorries carrying goods to and from the station, traffic management has become a problem of high magnitude. Congestion is almost a daily feature, particularly in the morning, when streams of office workers pour on the approach and buses on some routes operate in greater frequency.

It has been planned that pedestrial traffic to the Howrah Station will be diverted along the tunnel way. The bus terminus near the station will be, shifted to the vacant space near the west end of the bridge. The tram terminus in the initial stage will not be disturbed. But it is contemplated that the sub-way will ultimately have two exits, one at the bus terminus to be situated near the end of the bridge and the other near the tram terminus at the present position.

Controversy about the mooted plan of the subway has been started and it is hoped that perfection would be achieved when expert knowledge would be put into it.

NEW BUILDINGS OF THE CALCUTTA UNI-VERSITY

A new plan for the University Library Building has been prepared. Under the plan, the Library Building will be part of the University

Centenary Building on College Street. Of Rs. One crore sanctioned by the University Grants Commission nearly Rs. 29 lakhs has been allotted for the library.

Demolition of the Senate House, on the site on which the Centenary Building will be erected, cannot be undertaken as the University authorities have not yet found suitable temporary alternative accommodation for the Departments now housed there.

The University's Engineering Department will begin work of an eight-storeyed building proposed for the Science College at 35, Ballygunge Circular Road, soon.

A NEW POLYTECHNIC INSTITUTE

A Polytechnic Institute, mainly for displaced students, will be set up shortly with the financial assistance from the Union Rehabilitation Ministry, at Mayurbhanj House, South Calcutta. It will conduct three-year Diploma Courses in Civil, Mechanical and Electrical Engineering.

The institute will have 60 per cent, of its seats reserved for displaced students. Its annual intake will be 180 students—120 in Civil, 30 in Mechanical and 30 in Electrical Engineering. The setting up of the institution is expected to cost Rs. 1.2 lakhs during the next three years, in addition to an initial expenditure of over Rs. 2.8 lakhs.

A SCHEME OF DOMICILIARY TREATMENT

The need for the introduction of a scheme for domiciliary treatment, has long been felt by the State Government with the rapidly mounting difficulties encountered for the congestion and over-crowding in the city hospitals. Under the Second Five-Year Plan a sum of over Rs. 1½ crores has been allotted for expanding the Hospital facilities in Calcutta. Since the question of constructing a new hospital with adequate number of beds, to cope with the problem of congestion would entail a large sum of money and time, introduction of a domiciliary treatment scheme, in the city within a short time would partially meet the situation.

Meanwhile some re-arrangements in the beds of the Medical College Hospitals, where the number of patients admitted is almost double to that of the sanctioned number, are being made, to increase the amount of space as much as possible.

Similar questions with regard to the R. G. Kar Medical College Hospital, taken over by the State Government recently, is also being examined.

A NEW SCOPE OF WOMEN'S EDUCATION

The Aryakanya Mahavidyalaya of Baroda, a non-recognised cultural university for women, is to open branches in Bangalore, Calcutta and Delhi. In this city 400 girls are receiving instructions in their institution. They have proposed to raise the number to 500.

Run on the lines of the ancient system of Gurukul, the institution provides for physical culture. Fine arts and domestic science find a prominent place in the curriculum. The medium of instruction is Hindi and Gujrati. Sanskrit is a compulsory subject. A Santika or a graduate gets the Degree of 'Bharati Samalankrita' and,. 'Vyayam Acharya'.

CIVIC NEWS FROM FAR AND NEAR

HIGH TOWER IN TOKYO

With an envy to Eiffel Tower in Paris, Tokyo is building up an all steel Television Tower which when completed, will be the tallest independent tower in the world. Its height would be 1,082 feet or 98 feet taller than the Paris tower.

Being constructed by the Japan Electric Wave Tower Company at a cost of three billion yens (or about U. S. \$ 7,500,000), the structure already dominates Tokyo landscape for miles. Sightseers from a viewing platform at the 400 feet level would be able to appreciate the scenic views of Mt. Fuji and peninsulas on the Paciffic coast, some 85 miles away from the capital.

It stands on a hill in central Tokyo, only a few miles from the Imperial Palace and downtown shopping and entertainment districts. The Japan Broadcasting Corporation are expected to utilise the tower and facilities, and share the cost of the project. The owners also expect to recover a large portion of the construction expenses in a few years' time from visitors who will have to pay an admission charge.

A five-storey building is expected to be built inside the base of the tower.

DR. H. C. MOOKERJEE T. B. AFTER CARE COLONY

The Governor of West Bengal, Shrimati Padmaja Naidu, has laid the foundation stone of the T.B. After-Care Colony at Digri, Midnapur about a month hence. The colony has been named as Dr. H. C. Mookerjee Memorial T.B. After-Care Colony.

The growing incidence of tuberculosis in the country has necessitated to take suitable measures to remove this evil. The response received from the people for the establishment of the Digri colony was considerable.

NEW CHAIRMAN OF KHARAGPUR MUNICIPA-LITY

Maulana Mumtaz has been elected Chairman of the Kharagpur Municipality. Shri S. L. Mitra has also been elected Vice-Chairman at a meeting of the Commissioners sometime back.

FOOD ADULTERATIONS IN MADRAS

To ensure the purity of ghee marketed by ghee packers and to promote the grading of ghee and oil in general under "Agmark", a testing and grading laboratory has started functioning at Coimbatore.

This is third laboratory of the kind to be started by the State Government, the other two having been set up at Karur and Dharapuram. The cost of erecting the three laboratories is about Rs. 60 thousands and those places are large producing centres for ghee. There are also a number of private laboratories spread all over the State, merchants enjoying facilities in grading their produce at a nominal charge.

HOUSING ACTIVITIES IN BANGALORE

The Bangalore Corporation will construct eight blocks of two storeyed buildings to house 192 families of Kalasipalayam under the Slufin Clearance and Re-Housing Programme.

The Corporation Council, at a special meeting, unanimously approved the recommendations of the Standing Committee on Taxation and Finance to accept the State Government's Loan of Rs. 7.29 lakhs in that connection.

A PLANNING SEMINAR

The Institute of Town Planners, India, will hold its 1958 Autumn Planning Seminar and State Planning Officials Conference in Jaipur, Rajasthan, during the middle of October.

This will be the Seventh Seminar sponsored by the Institute on topical subjects relating to Housing and Town Planning in different cities of India.

Along with the seminar and the conference will be held an Exhibition on "Our Cities and Towns" to serve as a back-ground to the discussion.

The subject for the seminar will be "Re-planning and Re-development of Cities and Towns".

MUNICIPAL SERVICE COMMISSION

(New Appointments)

Sub: Permanent appointment to the post of Head Assistant, Accounts Department, in the grade of Rs. 220–10–260.

In pursuance of the Municipal Service Commission's letter No. 1345 M. S. C. |1P|9|58 dated the 2nd July, 1958, the Standing Finance Committee, dated the 9th August, 1958, passed the following resolution:—

"That accepting the recommendation of the Calcutta Municipal Service Commission, Shri Nani Bhusan Roy be appointed to the permanent post of Head Assistant, Accounts Department, vice Shri Tejendra Nath Bose, deceased, in the grade of Rs. 220–10–260 plus the usual allowances, subject to the Service Regulations of the Corporation."

Sub: Acting appointment of Shri S. K. Ghose as Supdt. (plans) and Shri R. Basu as Supdt. (Buildings).

Following the Municipal Service Commission's letter No. 957 M. S. C. |1P|7|57 dated the 29th March, 1958 the Standing Fiance Committee dated the 13th August, 1958 passed the following:—

"That the approval of the Municipal Service Commission as communicated by the Secretary, Municipal Service Commission, in his letter No. 957 M. S. C. 1P 7 57 dated the 29th March, 1958, approving the appointment of Shri Srimanta Kumar Ghose to act temporarily as Superintendent (Plans), and that of Shri Ramanath Basu to act temporarily as Superintendent (Buildings), pending permanent appointments to posts, be noted."

WEST BENGAL STATE LEGISLATURES

THE West Bengal Legislative Council was adjourned sine die about a month hence, the last day being devoted to few non-official resolutions. The one becoming predominant related to the construction of Farakka Barrage. It urged the Union Government to take immediate steps for its construction, which was essential for the life and prosperity of the State. About a month previous to this the State Assembly also passed a resolution to the similar effect on usual fashion. Prof. Nirmal Bhattacharyya, representing Calcutta Graduates, suggested that after the execution of the scheme a Ganga River Board should be set up with representatives of West Bengal, Bihar and U. P. to ensure equitable distribution of the barrage water. The Government should, if necessary, start negotiations with the East Pakistan Government.

On the day before last the Council passed the Rural Primary Education (Amendment) Bill, the Indian Red Cross Society (Bengal), the Sagore Dutta Hospital Bills. In course of that day's debates, Shri Sasankasekhar Sanyal mentioned that though the State Chief Minister, Dr. B. C. Roy, had pleaded with the military authorities that West Bengal should be given a quota of 15,000 in the composition of the Indian Army the present quota for Bengal was below 4,000. He regretted that steps were being taken to abolish four units of the Army which were once manned by educated Bengalis.

After debating for six days, the Council passed the Calcutta Slum Clearance and Rehabilitation of Slum Dwellers' Bill. The Bill was opposed by a group of members in both the Houses almost in a similar manner. Arguments and counter-arguments were the features of the debate in all the days. The principle of the Bill was, however, supported by Prof. Bhattacharyya.

The Bill was passed Clause by Clause at an carlier stage.

In his reply, Shri I. D. Jalan, Minister in charge of the Bill, made two points clear. First, the Government had come forward with such a huge enterprise because no piecemeal approach would have proved effective in improving slum conditions. Secondly, the Government would be the last to destroy a bustee if improvement could be carried without destruction. The scope for such improvement without substantial destruction was very limited.

Shri Jalan concluded with an appeal for co-operation. He was sure that the measures, brought forward, would improve the conditions of bustee dwellers. He assured the House that the Government had no political motive behind it.

The West Bengal State Legislative Assembly was also adjourned sine dic a few days earlier to the Council. On the last day it discussed two non-official resolutions—one on the question of setting up an Administrative Reforms Committee, standing in the name of Shri Ganesh Ghosh, a Calcutta M.L.A. Several other members, suggested that a Committee be set up with members of the Legislature and a High Court Judge as Chairman to inquire into the present administration and recommend measures to root out corruption and dilatoriness, prevent wastage and extravagance and enlist popular support at all levels.

Moving the resolution, Shri Ghosh said that the National Plans had opened up possibilities of great progress. Impeded by the outmoded administrative machinery which seemed to have changed very little since the days of British rule, the people were not feeling sufficiently enthusiastic about the aims and objectives of the Development Plans. Officers and other staff did not feel their part of the responsibility, he added.

On a plea of achievements made and which was possible only through trial and error, the Chief Minister said that it was not always possible to avoid waste and extravagance. If the Government employed for over six months about 14,000 Food Department employees after the abolition of rationing, was it a case of extravagance, he asked.

In course of answering a question, in one occasion, the State Irrigation Minister said that the Damodar Valley Corporation was supplying Electricity to the Calcutta Electric Supply Corporation at the rate of 0.459 annas per unit on an average. It also supplied power to the West Bengal State Electricity Board at the rate of 0.859 annas per unit. The rate charged by the D. V. C. depended on the quantity supplied. The Electric Supply Corporation took a larger quantity of electricity than the Electricity Board.

In reply to a supplementary question put up by Dr. Ranen Sen, a Member representing the north-eastern part of the city, the Minister said that there was no proposal from the Government to the Corporation to reduce the rate charged by the Company for electricity supplied to consumers in this city.

In one day, while discussing on Calcutta's water supply, Councillor Dhiren Dhar pointed out the existing defects of the system. He said that scarcity was a long standing grievance of the citizens. Due to the Corporation's inability to meet the situation, he thought, that the Government should come forward to share the responsibility of supplying adequate quantity of water. It is a tragedy that even after twelve years none of the recommendations of the 1945 Expert Committee was given effect to: added Councillor Dhar.

Improvement of Pulta Intake Station by installing new machinery along with a set of Rapid Gravity Filters; was stressed by him. Sinking of a number of three-inches dia. tube-wells spreading over the city as well as lending of expert knowledge and experienced personnel to the Corporation in implementing the development programmes were further stressed by Shri Dhar.

Councillor Dhar also urged for setting up a Metropolitan Water Board as well as an Expert Committee in fulfilling many of the grievances of the suburban Municipalities including the Corporation.

During discussion on 'Budget Grants' the Irrigation Minister said, another day, that the State Government had decided to take over the outfall channel from Bantala to Kulti belonging to Corporation.

Councillor Dhiren Dhar also inquired why the Government was deferring the scheme for reclamation of the Sult Lakes which made Calcutta unhealthy. He urged resuscitation of the Kulti and its tributaries which carried away city's sewer water. Unless this was done, the flooding of the city following rain could not be prevented, Councillor Dhar emphasized.

In course of discussion on 'Transport' head, Dr. B. C. Roy hoped that the citizens should accept a revision of the existing State Bus fare structure to enable the authorities to meet their obligations to passengers by relieving over-crowding in buses and to the employees by improving their service conditions. Some increase in fares had been recommended by a commission which inquired into the question. The Government had so far taken over 14 bus routes and planned to take three more this year in this city and suburbs, the Chief Minister also said. He denied the charge that the State Transport Directorate was top-heavy. The Commission had expressed the opinion that so far as eco-

OBITUARY:—The death of Professor Shyamal Mukherjee, formerly of the Vidyasagar College, occurred at his residence in this city, on Sunday, the 31st August. He was 74. The late Prof. Mukherjee re-organized the Calcutta University Rowing Club into one of the finest University boat clubs in the East. His contributions in the field of education will also be ever remembered.

The death of Shri J. N. Ghosh, occured on Saturday the 30th August last at his residence in Ballygunge. The late Shri Ghosh was the founder-proprietor of Megaphone Company. He was 72.

The death of Shri Chaitanya Chunder Pyne, senior partner of Messrs. G. M. Pyne, a stock and share brokers' firm, occurred at his Barrackpore Trunk Road residence on Monday, the 1st September.

An Ex-Chairman of the Board of Directors and senior partner of the Great Eastern Hotel Ltd., the late Shri Pyne was connected with many industrial establishments. He gave large sums of money to charitable institutions.

The Calcutta Stock Exchange was unofficially closed on Tuesday as a mark of respect to his memory.

The death of Rai Bahadur Rameshchandra Talukdar, the younger brother of Shri Suresh Chandra Talukdar, took place at the P. G. Hospital on Sunday, the 31st August. He was

The late Shri Talukdar, a self-made man, had a distinguished career at the Bar. He was formerly the Government Advocate in Burma. Later on he joined the Calcutta Bar as an Advocate and became one of the leaders. He was well-known for his erudition, ready wit and charity.

The death occurred of Shri Jnan Basu, eminent-public man and educationist at his Park Lane residence on Saturday, the 30th August last.

Born in 1870 at Konnagar in the district of Hooghly, he was educated at the Presidency College, Calcutta. After his graduation in 1889 he actively worked with Dr. Bhagawan Das, the late Dr. Annie Besant and his elder brother, the late Shri Upendranath Basu, to organize and establish the Central Hindu College in Banaras which later on developed into the Hindu University. He was a life member of the Court Council and Syndicate of the University.

Later he joined the Darbhanga haj Services as the Financial Adviser in Calcutta. He was the Chairman of Thacker Spink & Co., Director of many business concerns and was also associated with various other institutions such as Kalighat Sports Association, Calcutta University Institute, Asiatic Society and others.

CALCUTTA WITNESSED A VARIED NATURE OF WEATHER CONDITIONS during the last few days. After a sunny spell the city had a number of sharp showers from passing clouds and gusty wind on Saturday and Sunday both. Total rainfall this year, until Sunday, was 24.59 inches, still about 12.83 inches below normal. The gusty wind experienced during the weekend was stated to be due to the impact of the feeble cyclonic circulation off the Orissa coast moving in an anti-clockwise direction. The gusts came to the city

from the south-east and east at speeds varying between 12 and 18 miles per hour.

Saturday night was cooler than usual and the temperature did not rise much higher on Sunday.

On Monday, the 1st September, the city also experienced a few heavy showers waterlogging the low-lying areas in different parts. During the 24-hour period ended 5-30 P.M. on that day, the Meteorological Office, Alipore, recorded 3.17 inches of rainfall. In some areas buses had to divert their routes.

"Variable sky with a few showers" was the forecast on Tuesday and this was repeated on the following days.

The maximum temperature rose on Monday up to 89 degree fahrenheit (32 degree centigrade). The maximum and the minimum humidity were 92 p.c. and 70 p.c. respectively.

Parts of the northern part of the city experienced heavy rainfall on Friday, the 5th September so much so that streets remained waterlogged for hours, while many other parts of the city remained dry. It rained torrentially for about 45 minutes in North Calcutta but there was no rain in South or South-East Calcutta. Meteorological offices both at Alipore and Dum Dum, recorded no rainfall up to 5-30 p.m. Reports reaching Calcutta, however, suggest that there was rain in a narrow belt from Cossipore to Barrackpore in the north.

88TH BIRTH-DAY ANNIVERSARY OF ABANINDRA-NATH TAGORE was observed in the city by Abanindra Parishad through a number of functions. In this connection a four day-long programme of exhibition was inaugurated at Rabindra-Bharati, Dwarkanath Tagore Lanc. The exhibition, consisted of the art works of Abanindranath and Shrimati Sunayani Devi, was formally opened by Shri Atul Bose, formerly Principal of Government College of Art and Crafts on Friday, the 5th September. On September 7 a symposium has been scheduled to be held at Rabindra-Bharati on "Abanindranath's Contribution to Indian Art and National Movement".

On the first day, Prof. Charu Chandra Bhattacharjee, President of the Parishad, quoted from Abanindranath's writings showing how liberal were his views regarding art. He was a true votary of art and he made no distinction between an artist and an artist in his behaviour.

Shri Probadhendu Nath Tagore, Secretary of the Parishad, re-called how Abanindranath had taught them the way of appreciating paintings. Bengal school of painting was in decadence now is a wrong remark, he added.

Shri Saumyendra Nath Tagore said that Abanindranath had the rare combination in him of a master painter and a theoritician in art. He complained that a sinister propaganda was being carried on through Government-sponsored Centre of Art in Delhi that Abanindranath, Gaganendranath and Nandalal were no artists worth special mention.

The following plays have been scheduled to be staged at Rabindra-Bharati: "Bhupattarir Deshe", "Lambakarna" both from Abanindranath's writings.

The 88th birthday celebration of Abanindranath was also observed by Baitanik at Maharshi Bhawan, Dwarkanath Tagore Lane, with Shri Tara Sankar Bandopadhya presiding.

IANMASTAMI. the Hindu Was festival **cele**brated by the citizens in this city. In that Hindu Dharma connection the Sanskriti Sammelan and an Ideal Education Conference, were also held at 237, Rash Behari Avenue, Ballygunge, under the

auspices of the Bharat Sevasram Sangha. The Sanskriti Sammelan was presided over by Justice Paresh Nath Mookerjee and was addressed by Dr. Makhan Lal Rai Chowdhuri, Swami Vedananda, Swami Jogananda, and others.

The Education Conference was presided over by West Bengal Education Minister, Rai Harendra Nath Chowdhuri and was inaugurated by Union Education Minister, Dr. K. L. Shrimali on Saturday.

The city's Mayor, Dr. Triguna Sen, Shri I. D. Jalan, Minister for Judicial and Local Self-Government, Dr. Radha Kumud Mookerjee, Dr. D. Chakravorty, Register, Calcutta University, Prof. A. C. Banerji, former Vice-Chancellor of Allahabad University, Swami Adwaitananda and others were the speakers at the conference.

The members of the non-ministerial establishment of the Calcutta High Court also celebrated Janmastami festival on Friday, the 5th September at 5-30 P.M. at the Court premises.

ANNIVERSARY DR. BIRTHDAY 79TH BHUPENDRA NATH DUTTA, one of the arch-revolutionaries of Bengal, was celebrated on Friday, the 5th September, by his admirers and friends. In the morning they assembled at his residence, Simla Street, northern part of the city, to offer their felicitations. In the evening at a meeting at Girish Park, a large number of his followers, friends and admirers offered their tributes to this great leader who joined the struggle movement when he was only 22. The function was held under the auspices of the Friends' United Club. The speakers, which included Shri Bankim Mukherjee, M.L.A., Shri Amar Basu, M.L.A., Dr. Narayan Roy, M.L.A., Dr. Mahadev Prasad Saha, and others, all described Dr. Dutta as the leader who introduced the the study of Socialism and Marxism on scientific lines leaving apart their practical aspects. Holding him in high esteem they recalled his contributions for the cause of country's independence. They also, at the same time, desired that the country should gratefully remember these fighters who once fought the country's cause in the past.

Replying on the occasion, Dr. Dutta regretted that the country's true history had not been written correctly. During the British rule, particularly during the period when country fought for independence, the history had been distorted by the present rulers. He drew an analogy to this with the history of India in pre-British days, as reported by alien rulers. He also felt that proper recognition should be given to those who once fought for the country's independence in the revolutionary field.

Youngest brother of Swami Vivekananda, Dr. Dutta can claim the authorship of a large number of volumes in different branches of knowledge. At present he is compiling an authoritative volume a Social History of Bengal specially incorporating the period of her struggle against the British rule.

A PORTRAIT UNVEILED

In presence of a large number of lawyers, the portrait of the late Shri Pashupati Bhattacharyya, an Advocate, was unveiled in the Calcutta Police Court Bar Association Hall by Shri K. C. Gupta, President of the Association, recently.

Eulogizing the achievements of the deceased as an Advocate, Shri Gupta expressed the gratitude of the Association. Shri Gupta further acknowledged to the widow, Shrimati Sumati Devi, for her presentation of the entire Law Library with its almirahs of the late Shri Bhattacharyya to the Bar Association.

-WEST BENGAL STATE LEGISLATURES (Continued from page 474)

nomy in the administration was concerned, the State Transport could be compared favourably with Bombay and Hyderabad. About 7,000 Bengali youngmen, employed under the Directorate, had proved that they were capable of any work requiring a high standard of discipline, stressed Dr. Roy.

While the subject on 'Fisheries' came up for discussion, Shri Bankim Mukherjee, a senior member, said that though fish formed a major item of food in Bengal, the soaring prices had caused the citizens to go without that essential food-stuff. He also thought that it was not difficult to increase the production of fish if there was planning behind it.

High salinity, a Government spokesman said, had also aggravated the difficulty of producing more fish in the State. The Fisheries Department had over 180 experts who directed their energies towards the solution of the fish problem.

The R. G. Kar Medical College and Hospital Bill was passed during this session.

Replying on the occasion, the Chief Minister said that the Government was prepared to spend almost the same amount of money for the institute's maintenance as it was for the Medical College Hospital. The idea of taking it over for a limited period was to improve conditions before restoring it to the public so that people might be associated with the running of the institution which had a glorious tradition. Again the institute might be taken over permanently by the Government if people did not come forward to run it.

The Ex-Mayor, Shri Sudhir Chandra Ray Chaudhuri said that they wanted the Government to take over Hospitals but at the same time they were worried over the conditions of Government-run hospitals, which were deplorable.

During discussion on grants, the Minister for Works and Buildings, said that the rate of expenditure originally fixed by the Centre for construction of houses had been low in the past. Since the rate had been increased the work progressed satisfactorily. The Government has undertaken construction of 4,876 tenements for the present, addded the Minister.

While speaking on his demands under the head "Civil Works" the Minister, Shri Khagendra Nath Das Gupta, said that the work of construction of the City Civil and Sessions Court at an estimated cost of Rs. 49 lakhs was expected to be completed this year.

In another day, while the grants on 'Judicial' head was passed, one of the Members pleaded for extension of the City Civil Court's jurisdiction and abolition of the Small Causes Court.

In his explanation to the House, Dr. Roy, who moved the Grant on 'General Administration' said that the Government had dealt with the question of lower grade employees' emoluments carefully. The cost of living index had increased to 396.9 compared with 100 in 1939. The employees' emoluments had also gone up to the same extent. About 97 per cent. of the employees drew salaries up to Rs. 300]-a month showing thereby the policy for employment. Those high paid employees drawing salaries above Rs. 2,000]- or above per month comprised of .01 per cent, and this included the High Court judges, said the State Chief Minister.

ORPORATION NOTICES

To All Registered Petty Improvement Contractors

District No. IV Engineering Department.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD. CALCUTTA **KANPUR BOMBAY** 2 2

MARKET NOTICES

L. It is recommended that coolies should be paid at following rates:—15 minutes—Two annas. A Hour-coar annas 1 Hour-cight annas. Every succeeding hour or part of an hour-four annas.

R. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that early coolies bearing number badges are engaged. For the earrent half-year. "A" class coolies have been allowed Khaki arm badges with Green numbers from Nos. 1 to 400.

A Any complaints about coolies should be made at the caperintendent's Office giving the number of the cooly.

4 All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of cocurrence.

5. To avoid conflicts of statements both as regards the ds purchased and the nature of the sales, customers are sested to insist on getting a voucher, as far as sticable

6. If goods are taken "on approval" customers are memended to obtain a voucher to that effect stating the

paid.

Any articles lost or found in the market should be d at the Superintendent's Office.

a. No dogs, bicycles, trecycles, or perumbulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lesses thereof on payment of a fer of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 a.m. to 7 p.m.; between 7 p.m. to 12 a.m. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Onstomers are requested.

py retraining are market.

12. Oustomers are requested to examine the coins tained in the course of transaction, before they leave shop. Ordinarily no action can be taken against the skeeper if any spurious coin is alleged to have been deterated they leave the shop.

TRAMWAY TRACKS NEED IMMEDIATE REPAIRS

STEPS would be taken immediately to repair the existing condition of tramway tracks on city streets in order to remove the inconveniences of the citizens, was the decision taken at a Conference held in the Mayor's room, Central Municipal Office Buildings, S. N. Banerjee Road, on Thursday, the 4th September. The conference was presided over by the Mayor, Dr. Triguna Sen, and Director General of State Transport, Shri J. N. Talukdar, attended. It was also attended, among others by Councillors A. Maitra, U. N. Sen, and J. L. Saha, the Agent, Calcutta Tramways Company, Mr. A. C. T. Blease, Shri P. K. Sen, the Deputy Inspector-General of Police, Traffic, Shri P. C. Mazumdar, the Chief Executive Officer, the Chief Engineers of the Tramways, the Government, and the Improvement Trust, and Shri A. K. Sen, Corporation's Chief Engineer. All of them can be seen in the above picture.

The Chief Executive Officer was advised to contact the Chief Engineers of Calcutta Improvement Trust, Works and Buildings Department, West Bengal, and the Tramways to prepare an estimate for repair of the damaged portions of tram tracks. It should also be determined how the repair work could be distributed among the agencies and how quick it could be done.

It is stated that the Tramway's Agent have assured the conference that immediate work would be started by the Company for the improvement of the pot-holes through the contractors. The District Engineers of the Corporation have also undertaken the work for filling up the pot-holes

with rubbish and other wastes so that chances for accidents could be reduced.

The conference requested the Chief Executive Officer to contact the Joint Secretary, Local Self-Government, West Bengal, to find whether the Government or the Corporation was responsible for the protection and maintenance of train tracks.

The Agent of the Tramways' Company stated that the Company did not provide any fund for repair of tram tracks due to lack of finances. The meeting further decided to approach the Chief Minister, Dr. B. C. Roy, so that he should take up the question of allotment of funds with the Chairman of the Board of Directors of the Company during the proposed meeting between them. If the Company agreed to allot funds, it should take the help of the Corporation, the C. I. T. and the Government to see that all tracks in the city were repaired immediately. The above stated meeting of the Chief Executive Officer and the Joint Secretary, Local Self-Government, should take up then the question of repair work at the cost of the Tramways Company.

It may be recalled here that the Corporation's concern to repair the damaged tramway tracks in city streets was roused at an earlier date. Probably, Councillor Samar Rudra was the first to raise the question in one of the Corporation meetings some time back. Recently when Councillor Mihirlal Ganguly raised the issue the Mayor, Dr. Sen, from the Chair, informed the House about this conference. There was also long negotiations on this issue between the Corporation and the Tramways Company.

FREE EYE OPERATION

DR. P. D. GIRIDHAR, the well-known opthalmic surgeon, is stitching up his first eye operation this year, the 20th August, in presence of distinguished citizens including the Mayor, Dr. Triguna Sen, the West Bengal Minister, Shri Prafulla Chandra Sen (picture above) inside a temporary hospital raised for the purpose in the Burrabazar area, under the auspices of the Nagarik Shasthya Sangha, an organization for humanitarian services.

Last year the surgeon operated upon nearly 350 patients and treated a considerble number, all suffering from eye troubles. This year the number of treated or operated is comparatively less. And thus the visit of the eminent surgeon has become an annual feature.

SIXTY-NINTH BIRTH-DAY ANNIVERSARY OBSERVED

'Large munificence, big charities, immense sacrifices, and towering personality and above all vast learning, imbibed within him these qualities, the late Shri Sarat Chandra Bose built his position as an architect of the country's destiny. This was

TRIBUTES TO SARAT CHANDRA

Photo: S. B.

stressed by Shri Hemendra Prasad Ghosh, the octogenerian journalist, while presiding over the Sixtyninth Birthday Anniversary of the late Shri Sarat Bose, at Netaji Bhawan, Elgin Road, southern part of the city, on Saturday, the 6th September last. Shri Ghosh emphasized more upon Sarat Chandra as a man who knew not how to be vanquished in the field of life. Everywhere he predominated with his superior qualities, rarely found in an ordinary man.

Referring to the leader's sacrifices and charities, the speaker recalled many of the incidents

illustrating the depth of the late Shri Bose's heart and how he shared others' miseries and distress as his own and tried to give them relief through every possible ways and means under his control.

There was a discourse on 'Sarat Chandra as a Journalist' on the occasion initiated by Shri Mohit Maitra, a former Editor of 'The Nation' founded by the late Shri Bose. In course of discussion, Shri Maitra recalled how earnestly Sarat Chandra took up the cause of Indian Newspapers then passing under the repressive measures of an alien rule. As a prolific writer, Sarat Chandra was the author of many signed editorials published in "The Nation" as well as in 'The Forward' another daily with which he was intimately attached. Shri Maitra also referred to Sarat Chandra's activities and achievements as the Managing Director of 'The Forward Publishing Agency' then pledged to propogate national literature. In a word Sarat Chandra's role in the field of Indian journalism was enumerated by the teacher on that subject.

Pointing out many of the events from that speech the President, Shri Ghosh traced the early history of journalism in India. "The freedom of Press in India means the end of an alien rule, should have been the motto of dependent India. And this was fully realized by Sarat Chandra and for this he stood throughout his life as a fighter for country's freedom', stressed the doyen journalism in India.

It was a largely attended gathering including many of the city's important personages and High Court judges.

SHRI SAILEN GANGULY PASSES AWAY

We deeply regret to announce the passing away of Shri Sailendra Nath Ganguly, a former Reporter of the Corporation, after a very brief illness, on Thursday morning, the 11th September.

i di am

The death took place due to heart failure at his Beltala Road residence, South Calcutta. He was 65.

The late Shri Ganguly's remarkable skill as a stenographer was well-known and he earned love and admiration from all whom he came across due to his sweet behaviour and suave manners. Besides, he had intimate knowledge of many Indian

SHRI S. N. GANGULY

languages, and this helped him much to reproduce and transcribe speeches made by speakers in any of the important Indian languages. It was due to this his services were requisitioned during an World Conference on Cultural Affairs at Santiniketan, Viswabharati, a few years back. His superb skill in Reporting was so much that he could go on working on his desk for hours together without any rest and the accuracy of his reporting had never been questioned. Every word spoken at the remote corner of the House would have been noted by him. The Proceedings noted down by him were hardly interrupted by tumultuous and uproarious scenes in the House.

Magnificent were the qualities of the late Shri Ganguly and this was amply witnessed in him by his integrity of character and hard working habits even in such an advanced age when he served the Corporation faithfully.

Serving near about half a century, the late Shri Ganguly severed his connections with this institution finally in November last. Still his love and affection to his old colleagues and to this Corporation as a whole was so deep that he very often used to come here to revive that old acquaintance. And even the other day during the earlier part of this week he was found in the department chatting with one of his old friends. But the inscrutable hand of death snatched him away. Thus the news was a great blow to his friends and admirers as well as to his old colleagues. As soon as the death news reached this office it gave a great shock to them. Many of them rushed to his place to have a last look of one who was so near and dear to them. Wreaths were also placed on the bier. The last

rites were performed at the Sahanagore Burning Ghat, southern part of the city.

The Secretary's Department of the Corporation. to which he was attached, was closed for the day. A meeting was organized by the members of the staff of that department to mourn the death. The Secretary, Shri Benoy Jiban Ghosh, who presided over the meeting, referred to his long accredited services to the Corporation where he entered as an ordinary clerk as early as the 2nd January, 1914. He became the permanent Reporter of the Corporation in the year 1931, when the present Chief Minister, Dr. B. C. Roy, was in the Mayoral Chair. Since then a galaxy of notables adorned this House and he earned appreciation from each and every-one of them for his devoted services. When the new Corporation was set up in 1952, he was pursuaded to take up that onerous task though he was then enjoying a retired life since 1950.

Born in the northern part of the city, 'Garpar' on the 3rd November, 1893, the late Shri Ganguly had spent his boyhood days in Lucknow, Uttar Pradesh, where his father was a promising medical practitioner. After passing the Entrance Examination, in 1909, under the Allahabad University, the late Shri Ganguly took admission in the Lucknow Christian College, with a desire to have himself trained in his father's profession. But his academic career came to a close with his father's sudden death in 1912. Being the eldest son, he had to look after the needs of others in a big family. This brought him to Calcutta in search of a job. In 1913, he was able to secure a temporary appointment under the Government of Bengal. In 1914 he joined Corporation. He lost his mother in 1916.

Unassigning as he was very little is known about the late Shri Ganguly's family life. Still he nursed and maintained that big family with his small income—and by his sincerity and devotion the family grew and prospered. One of his brothers achieved much—Dr. Bhupendra Nath Ganguly, M.A., Ph.D., of the Delhi University. In his mother's side he could claim a high connection like eminent educationists Dr. Radha Kumud Mukherjee, and Dr. Radha Kamal Mukherjee. He has left his widow, two minor sons and three daughters to mourn his loss.

The Corporation's weekly meeting was adjourned on Friday when the death was referred to in the House. Councillor J. L. Saha, M.L.C., moved for the adjournment. Eloquent tributes were paid to his memory by the Deputy Mayor, Shri Keshab Chandra Basu.

Deeply mourning the loss, Shri Basu said that unrivalled as he was in his own sphere the late Shri Ganguly had left a mark in the history of the Corporation-that is a record of his association with the city's civic administration for a period covering long 44 years. Single handed he rendered his services as Stenographer and never hesitated to work hard even the weighty Budget speeches were reported by him. Earlier Shri Basu said, 'No figure had been associated for so many years with the Council Chamber as the late Shri Ganguly was. And the period was marked by his loyal and faithful services and extending every possible help and assistance to each and everybody connected with this House, whenever it was demanded of him'. 'Above everything he was that very rare phenomenon-a good man and a true loving soul,

concluded the Deputy Mayor. Sincere and heartfelt condolences were extended to the members of the bereaved family by the House.

We extend our sincerest condolences to those members also.

AN EX-MAYOR FELICITATED

The Ex-Mayor, Shri Sanat Kumar Roy Chowdhury, has recently completed his fifty years at the Bar and retired from the legal profession. His voluntary retirement was for fear of loss of prestige which he was apprehending due to the passing attacks generally made now-a-days by a section of new blood in the same profession.

Shri Roy Chowdhury along with three other lawyers, Shri Surendra Nath Basu, Shri Sushil Kumar Chattopadhyay and Shri Probodh Chandra Chattopadhyay who have likewise recently completed their fifty years at the Bar, was felicitated by members of the Bar Association, Alipore, at a function held recently at Bina Cinema, North Calcutta.

"Fifty years at the Bar; it's too long an association to be broken so easily. But people do so for various reasons—infirmity of age, indisposition or retirement from active life", expressed on that occasion Shri Sanat Kumar Roy Chowdhury, the Ex-Mayor.

TENSE SITUATION OVER CITY

Tense situation prevails over the city at the present moment. The food supply position is becoming grave day by day and the increasing prices of essential food-stuffs have caused much anxiety to the citizens. The tram strike situation has turned into cold. More than thirty days have passed since the cars are out of the streets putting much hardship in the citizens' transport. The students' movement against the rise of college fees has been agitating the minds of the guardians. Added to these the demonstrations staged by the lower paid employees of different organizations and institutions.

Since the food supply position became worse about a few months back the leaders of the Price Increase and Famine Resistance Committee had aroused consciousness in the minds of the citizens through different meetings and demonstrations. With the steady rise of prices for the last few days the number of demonstrations and meetings are increasing. There were meetings not only in big parks and squares but also even in street corners and open spaces addressed by leaders. A movement is lurking over the city.

Truly speaking, for a single item, the price of rice has soared up as high as more than Rs. 30-per maund at present, while it was below Rs. 28-per maund towards the beginning of this month. Similar fate has been faced by other food articles. And it is unfortunate that the State Government is still contemplating to promulgate an Ordinance to fix up the ceiling for maximum prices of essential food-stuffs in the State as a measure to check the abnormal rise in prices. Some of the items of food-stuffs which have not been included in the Act relating to essential commodities would be covered by the Ordinance.

During this period, there was a conference in the Writers' Buildings in this connection when the

Union Food Minister, Shri A. P. Jain came to study the situation in the State. The conference which was attended by many of the State's Parliamentarians, felt that larger allocations should be made for this State suffering from starvation.

The tram strike situation could not be ended due to various reasons inspite of sincere attempts made by the leaders to reach at a settlement. The subject has embittered both the parties. The latest position stands in the brink of break down. The Company's authorities have conceded to many of the grievances of the employees at the cost of the citizens mainly the tram travellers who would be required to pay one extra Naya Paisa from their pockets for each course of journey. The immediate reaction to these proposals from the workers side has not yet been ascertained.

The Tramways Company has recently announced an increase in the fares by one Naya Paisa for all stages in both the classes. The Dey Commission recommended the following revisions (Both in terms of Naye Paise):—

Existing	g fares	Proposed fares					
	2nd class		2nd class				
5	3	5	3				
8	5	8	5				
10	7	10	8				
11	8	13	10				
13	10	16	13				
14	11	18	15				

Broadly, the fare structure in city's Transport services follows a differential basis. In some cases they are regulated by the length of the stage, but not strictly in all. The structure is not comparable with those in other cities.

According to the Dey Commission in this city before the introduction of Naye Paise buses charged 4 pice up to 2.2 miles, 5 pice, for 3.4 miles, 6 pice for 3.5 miles, 7 pice for 4.3 miles, 8 pice for 5 miles, 9 pice for 5.2 miles, 10 pice for 6.2 miles, 11 pice for 6.8 miles and 12 pice for 7 miles. Trams charged 5 pice for 3.4 miles, 6 pice for 4.5 miles, 7 pice for 5.2 miles, 8 pice for 5.6 miles and 9 pice for 6.9 miles.

After the new coinage was introduced in April, 1957 tickets for 4, 6 and 8 pices were valued at 7, 10 and 13 nP. resulting in a rise in fares in terms of Naye Paise.

After the old coinage is completely withdrawn in 1960-61 the additional revenue anticipated by the Commission from this source is about Rs. 12 lakhs for State Transport and Rs. 13 lakhs for the Tramways Company.

The Dey Commission had further calculated that against an increase of 18 per cent. in accommodation in transport services from 1951 to 1956 the polulation had increased by nearly 28 per cent., showing that the transport facilities had not kept pace with the increase in population. For tramways from 1951 to 1956 passengers increased by 6 per cent. while the number of cars increased by only 0.17 per cent. For buses passenger increase had been 265 per cent. while accommodation provided had increased by about 200 per cent. During peak hours the actual figures of passengers between certain points disclosed an overload of 100 per cent. and more.

The students' demonstration started on Monday, the 8th September. Abandoning their classes they came in procession and squatted in front of the Raj Bhawan at Esplanade East. The police arrested a large number of them in the midnight. Earlier their representatives met the State Chief Minister in course of protesting against the enhancement of the College Tuition Fees in some colleges.

Another group of college students squatted at the same place on Tuesday, the second day of the agitation for the same reason. The police arrested 174 students on that night from Esplanade East, on assembly and causing a charge of unlawful obstruction. Students in colleges did not attend classes on that day. Shouting "Tution fees must not go up", over 1,000 students came to support the squatters' demand. The same procedure was repeated on each day till Friday when 200 college students were arrested. The Steering Committee of the Students' Council of Action has decided to continue the movement in its present form till next week.

Demanding payment of salaries according to the revised pay-scales with effect from April, 1957, a large number of Secondary and Primary School teachers went in procession on Wednesday, the 10th September, towards the Writers Buildings as a Mass Deputation to meet the State Chief Minister. They squatted for about an hour in the Dalhousie Square area and departed. They said that as a result of non-payment of even the old and usual grants-in-aid to school, salaries of about 80 per cent. teachers in aided schools had been in arrears for the last two or three months.

Overburdened with many problems particularly abnormal rise in prices of food-stuffs, the employees of the commercial firms and several other public institutions are staging demonstrations in the city. The lower paid employees of the West Bengal **Government** observed a Demand Week for reasons. On first day of the Monday, of Corepresentatives the ordination Committee of the Employees' Associations explained the demands at meeting in the Indian Association Hall, where some legislators were present.

The employees' demands related to their salary and service conditions. The week's programme includes a mass deputation to the Chief Minister at his house on Saturday, the 13th September.

Thus the position had little improved during these days. Rather a tense situation is gradually developing. And unless all these are checked to or their grievances are fulfilled it appears that it would be difficult to shape the future destiny of this city.

STEEL SUPPLY ASSURED

The Corporation's anxiety for procurement of adequate quantity of steel plates suitable for laying 72 inches water main from Pulta to Tallah relieved to a considerable extent when at the weekly meeting on Friday, the 12th September, the Mayor, Dr. Triguna Sen's message from Delhi was received with applause. The message in the form of a telegram was addressed to the present Chief Executive Officer, Shri P. C. Majumdar, which stated "steel

supply guaranteed now". The Mayor met there some Union Ministers and pressed them among other things for 7,900 tons of steel plates to speed up construction of the main. The Deputy Mayor, Shri Keshab Chandra Basu, who presided the meeting, read it at the outset.

The Mayor, Dr. Sen went to Delhi on Wednesday, the 10th instant to request the Union Government to expedite supply of steel to the Corporation. During his three-day stay, Dr. Sen also pressed for early payment of the service charges of over Rs. one crore due to the Corporation in respect of the Union Government's properties in this city.

The Corporation's Chief Engineer, Shri A. K. Sen, accompanied the Mayor to Delhi.

Recently, the steel supply position became so acute that there were much doubts as to when the work would be undertaken. The quantity so far made available might have enabled the firm entrusted with the task to proceed about a month or more. The foreign exchange problem was found to be mainly responsible for this. Even there were shirking responsibilities between the State and the Union Governments as to under whose quota the steel to be imported. When there was so much emergency of the steel some of the members of the Corporation thought that the difficulties might be avoided if arrangements were made with some other foreign office who would accept Rupee Exchange.

In the circumstances, the Standing Water Supply Committee, in one of its meetings in the earlier part of this month, requested the Mayor 'to pay an early visit to Delhi with a view to impress upon the Ministry of Steel, Mines and Fuel, the urgency of the project and to pursuade it to grant a special quota of steel to the Corporation so that the vital work of laying the main carried on in an orderly manner and be completed by the target date'. Failure to complete this project within the stipulated period of two years, the water supply of the city would be imperilled, the Committee thought.

Of the 7,900 tons of steel plates, Corporation's requirements for the scheme, 3,000 tons will be needed for each of the first and second quarters of 1959 and the balance for the third quarter of the same year. The estimate is in conformity with the Corporation's original plan of steel requirements at the rate of 1,000 tons per month from the beginning of 1959. Out of the total quantity of 13,700 tons of steel required for the scheme Corporation has already procured 4,500 tons and has secured a permit for another quantity of 1,300 tons, which is expected to be made available by the end of 1959.

Messrss. The Structural Engineering Works Ltd. with whom the work order for the execution of the scheme has been placed probably will start work by the end of October next when fabrication work and laying would be carried on simultaneously.

As regards the one-crore arrear payment, the Union Government has been agreed to make an adhoc payment of a portion of it while the balance would be carried over to the next year. The Union Government has further agreed to pay a rate of 15 per cent. as Service Charges of Government properties in the city.

ENCEPHALITIS:

[BY DR. J. N. MAITRA, Ex-Councillor, Calcutta Corporation]

ENCEPHALITE is literally an inflamation of the brain (Latin name—encephalon). When an inflamation there must be fundamental changes of calor, dolar, turgor and rubor (all french terminology) meaning red, swollen and turgid condition consequent on an invasion by an agency, which may be a virus, a bacteria, a spirilla, or a trepanemoid organism and we do not at present know its sure identity. A few bacteriologists have ascribed it to a causal organism, but our Pathologist of the School of Tropical Medicine has not confirmed any as a sure aetiological factor. But, he believes it to be caused by a bacterial or virus body, which still awaits his confirmation.

Sir Ronald Ross proved that female anopheline of some species of mosquitoes carry malaria. But a few research men are incriminating the blessed house fly. Muscae Domestica blue, red, green bottle flies are not rare, nor are Gad flies and those on dogs or in service privies, and these are attracted by chloroform, alchohol, mango and jackfruit at this season, when fruit regime with skins and garbage rot with setting up of the rains after a sultry All-India atmosphere just suitable for fly breeding grounds in the North and North-West India. DIRT, DISEASE, AND DEATH are concommitants. Collection of filth and garbage, rotting in moist and humid surroundings, breed flies and in our Holy East, in words of Windel Wilkie, we make feast of flies with reference to Middle East problems of Public Health. So little we know about vectors.

How to get rid of flies?

Now, how to get rid of flies—domestic cum wild, biting and sipping or voiding eggs and dirt on our food and drink, cut fruits or prepared uncovered dishes. In the local Municipal Markets one can get Fly Trap, Fly Hammers with netted top for killing flies, those we often found on the tables of American soldiers during the War.

Appointment of a team of three specialists by the Bombay's Health authorities was a laudable step in this regard. The team came to some conclusion aptly on examination of cases collected from areas already affected. They believed that a virus must be the cause. From records of 46 children killed in this year's epidemic in Bombay and from study in the Hoffkins' Institute and Kasauli Institute they were sure of virus still in the hide, but they were absolutely certain that files must be the sure vector. It had been most authoritatively stated by the experts and the Director of Health that flies, without doubt, were vectors to carry germs or their viruses or a virus or a toxin that acted directly on an undeveloped or under-developed brain of a child of ten, twelve or fourteen i.e., usually above the diptheria age group. So, it can be associated with a dirt disease e.g., Diphtheria, which is very common in this city with no less alarming death rate. Thus we are inclined to believe that flies are the main carriers of Encephalitis and we must approach our Local Authorities to control and eradicate "flies". how to do this is the function of scavenging staff, house-wives, and our half-educated so called civilized people.

ENCEPHALITIS-ITS RESEARCH ASPECT IN INDIA

From our knowledge of sporadic cases occuring in Calcutta, Bacteriologists of our Laboratories and specially the most laborious workers under the Director of the School of Tropical Medicine incriminated many viruses. Our knowledge in this sphere is still in a fluid state and we must admit that in the absence of any specific agent which may be one or more allied viruses or toxins from germs or any thing else we must be taking all sanitary measures that can ward off flies, mosquitoes, dirts, nuisance of the nature of elliminable refuse matter and shun bad habits of committing nuisance in the public places and throwing all matters ofno-use through windows including spitting anywhere.

In Calcutta all diseases are present in a sporadic form and research teams may be appointed all through the year under the School of Tropical Medicine. In Delhi a physician claims that she has isolated a special virus in Delhi epidemic cases. The cultural characteristics of the virus have also been found. A similar finding in Calcutta sporadics might be achieved. At any rate any clue for an aetiological factor must be honoured. Varieties of curved bacillus, but cholera vibrio is one among salmonella group that shows a variety of cultural complications and we do not know when a non-agglutinable vibrio turns pathogenic and agglutinable on culture. All 35 deaths in U. P. have gone without a research finding of any nature. The age group of affected is between 2 and 12 among 1,189 cases admitted into Hospitals in Lucknow alone. In Madhya Pradesh eight children were in Hospital. An all-out war against Encephalitis has been waged there.

WHAT IS TO BE DONE?

My friend's exhortation and inspiration for this thesis will not pardon me if he finds it all smoke and no fire, all sparks of lightening without rain and a shower. Among the many directions to be followed the first one is Notification. Every medical practitioner must have a reply postcard sent to notify early when signs and symptoms appear of the disease. They are children within teens or may be of the Diphtheria group (above 6-months or still at the breast). Fever, dullness, vomitting, photophobia, refusal to respond, diarrhoea or constipation or any abnormality in a child must be notified to the Ministry of Health. The Corporation Laboratory is poorly equipped and no personnel are appointed for even day-to-day clinical examinations, nor are there a medical team in the Corporation to respond immediately. And, this disease must be included under the Infectious Diseases Notification Act. Reporting doctor will be rewarded and penalization for non-compliance.

The second directive is isolation in a special hospital like the P. G. Hospital or in a Special Block in the School of Tropical Diseases Hospital with immediate investigation. Disinfection and cleansing by a special squad under the Hospital research team, for materials to be collected and flies and vermins caught and sent for aetiological and carrier finding

(Continued on page 498)

Children's Library—A Need Of The Day

[By Shri Ananta Lal Mitra, B.T., Hendmaster, Sashi Bhusan Model School].

THE Corporation of Calcutta once contemplated to spend a sum of Rs. 50,000 only, for the establishment of a Central Library worth its name located in some important place in order to fit the citizens as well as for upaising the literacy level of this city. The utility and need of such a big library in a vastly extended city like Calcutta would hardly satisfy all. In each and every locality i.e., if the city is divided into 80 Constituencies there should exist at least one library of fair and reasonable dimension in each Ward, if not more. On the other hand, the Corporation may extend their help to each and every library with a larger sum than before, if possible. In order to keep a vigilant eye upon the workings of these libraries receiving grants-in-aid with regard to their stock of books and periodicals, management, social service and the like, a few trained officers might be appointed for the purpose. It is, however, a well-known fact that the Corporation has for a long-time been sanctioning grants-in-aid to many of these libraries. And I think it is no use to spend a further big sum for the purpose of catering citizens with a new set of books and thus helping to foster a reading habit among the people, younger and old. Because, we cannot ignore the existence of a number of big libraries in the heart of this city whose collections and treasures are in no way inferior to their counterparts in other cities. Although at the present moment many of them suffer from want of space and accommodation still they command a respect as to the quality of their rare collections as well as to their preservations. No doubt their contribution for the advancement of knowledge and upliftment of literacy have been much evalued in these days.

The National Library, located in Belvedre, has claimed to be one of the biggest and the best one among those in India. The splendour and grandeur of the Viceregal Lodge has been fully maintained with its establishment there. Recently a few more libraries have been established by the foreign Governments. Out of them the one at USIS, Chowringhee, and that of a British Council are worth-mentioning.

Leaving aside the question of a Central Municipal Library let me take up my subject matter, Chilrdren's Library. The necessity of establishing such a library in the heart of this city needs no introduction. And my humble suggestion in this connection is to revive the said sum of Rs. 50,000 in the next year's Budget Estimates and for spending it in starting Juvenile Libraries in Corporation Schools which could house them. This would be, no doubt, a new path to be trodden by the Corporation as the institution did in other matters during the past. In these days when children's literature is fast developing as well as interesting books for earning knowledge by the children are being published day to day, the Corporation's Education Department has responsibility and obligation to further its progress particularly when the Primary Schools are being up-graded. Probably, the Mudalier Commission has directed in a similar fashion. And if these are given proper shapes then these libraries would sure to grow in their usual courses. The authorities might derive inspiration from the

Children's Section of the big USIS Library located in this city which has already attained a stage of popularity and interest.

We boast of ourselves for having amongst us a number of litterateurs whose talents have been recognised not only in Bengal but also in the world as a whole. It is difficult to date the name of the premier who first espoused the cause but the name of Rabindranath should be written in golden letters in this section of literature. Up to the present day innumerable authors have made valuable contributions and to name a few of them the late Sukumar Roy, the late Jogindra Nath Basu, the late Dakhina Ranjan Mitra Mazumdar, Moumachi, Swapan Buro and others—all have contributed largely to enrich our children's literature which stands to-day shoulder to shoulder with those of other forcign lands.

Considering all these, it is high time to start Juvenile Libraries in our Corporation Primary Schools so that future citizens may grow up as true sons of the soil. As the noblest creation of God, man should make the best contribution for the advancement of knowledge.

The divisible pool of the Corporation grants-in-aid should be spent for books and furniture, maps and charts, as well as for audo-visual education not fully concentrating on books and periodicals. A detailed scheme may tentatively be drawn up by the Department concerned if the Corporation desires to provide the city's little children with books for the advancement of their knowledge.

Library movement in our country has so long mainly devoted on the popularization of libraries among the masses. It had hardly looked into the proper channelization of knowledge among the different stages. This, was, however, emphasized by one of its recent Annual Conferences and if Calcutta Corporation can throw light in this matter others would sure to follow.

-ENCEPHALITIS:

(Continued from page 497)

purpose before thorough de-flying and disinfection. Special rewards to be offered to children for killing flies and mosquitoes and these to be sent to the Laboratory for investigation by experts, are the third one. The last one is Propaganda. Big size placards and festoons are to be made. Late Dr. Bently, Director of Health and our Professor of Hygiene in the Medical College, frightened even the Governor by his Hook Worms and Thread Worms as sole agents to devitalise Bengal (undivided) and causing anemia along with KalaAzar and Malaria. Cinema shows must exhibit slides with flies and dirt as causes of diseases and specially Encephalitis. Regular lectures on hygiene and health are to be organised by both the Corporation and Government to bring home to student community about the dangers of unclean hotels and restaurants. Police propaganda for destroying cut fruits and insanitary eating houses, uncleaned Khatals and other fly-breeders are to be tackled and legally removed.

OBITUARY: The death of Shri Pashupati Ghosh, a senior Advocate of the Calcutta High Court, occurred at his residence in Kumartuli, northern part of the city, on Friday, the 5th September last. He was 63.

The late Shri Ghosh was actively connected with Sham-bazar A. V. School and many other institutions. As a professional lawyer he was attached to the Corporation.

The Corporation at its weekly meeting on Friday, the 12th September, mourned his death.

SARAL MEMORIAL SCHOOL MEAL SERVICE at 2, Auckland Place, Calcutta, was recently visited by the State Governor, Shrimati Padmaja Naidu. The centre, which receives Government aid, generally supplies tiffin to about 1,800 students of four Government schools. A motorvan to carry the tiffin from the centre to the schools, was promised by the Governor on that occasion.

Shrimati Naidu said that unless children were provided free and compulsory tiffin, they would not get the full benefit of their education. She hoped that some day it would be possible to supply such tiffin to all city children.

Shrimati Anjali Sen, the founder-organizer of the centre, took the Governor round the place where tiffin was being packed for distribution to the schools. Every student of the four Government institutions pays Rs. 2 - as monthly tiffin fee. The Government donates the centre's house rent, price of cardboard boxes and wages to workers, she added.

The centre's tiffin generally consists of fruits, sweets and bread and butter.

AN EXHIBITION OF 400 BOOKS for University study was organized by the British Council, Theatre Road, for a week from the 11th September. Admission was free.

The Exhibition contained a selection of books published in Great Britain for the study of Commonwealth History, Public Administration, English Language Teaching and Organic Chemistry at Intermediate and post-Intermediate levels. The organisers hoped that it gave an opportunity to University and College staff and students and others to examine books in these subjects which they might not otherwise have a chance of seeing.

AANAPURNA CAFETERIA'S BRANCH was opened at Medical College, Calcutta, on Sunday, the 7th September by the State Governor, Shrimati Padmaja Naidu. Dr. A. B. Ray, Health Minister, was the Chief Guest.

The Governor praised the efforts of the West Bengal Women's Food Council which organized the cafeteria. She said such canteens should be opened in all schools and colleges to serve cheap and wholesome food.

Dr. Ray said planning of food through well-organized canteens had been taken up in advanced countries and was long overdue in India.

Dr. Sudhir Bose, Principal, Medical College, said that the want of a canteen had been keenly felt for a long time by the staff and patients' relations.

Shrimati Subhadra Haksar, the Council's Secretary, explained the accommodation problem of the Cafeteria which was situated at the basement floor of the Eden Hospital. The Council had five other canteens working in the city. She urged for the Government's co-operation to help the Council to open such canteens in schools and colleges.

VARIABLE WEATHER IN THE CITY was the feature for the last few days. There was a sharp shower in the Dalhousie Square area on Saturday, the 6th September last. It flooded parts of Straid Road and Auckland Road areas, while other parts of the city remained dry. During a 24-hour period on Saturday 11.7 mm .46 inch. of rain was recorded at Alipore Meteorological Office. It was 1 degree C cooler on Saturday than on the previous day.

The passage of two low pressure waves from the east in quick succession across the north Bay of Bengal helped increased incursion of monsoon air over the city and Gangetic West Bengal. This resulted in fairly widespread thunderstorm activities in these areas followed by showers.

It rained heavily in the two extremes of Calcutta—Ballygunge and Dum Dum—on Sunday, the 7th September. The rainfall was most unevenly distributed. The Aliporo Meteorological Office area had the smallest quota—only .44 in. Ballygunge had about an inch of rain. The Manicktolla Pumping Station recorded 1.27 in. of rainfall. It was Dum Dum which received the maximum for the day—about 3 in. The intensity of rain increased as clouds over the Alipore area moved North-East wards.

"Variable sky with a shower or two possibly accompanied with thunder", was the forecast for the city in remaining days.

The maximum temperature on Wednesday rose up to 92 degree farenheit, 33 degree centigrade, 1 degree centigrade above normal. The maximum and the minimum humidity were 90 p.c. and 65 p.c. respectively.

Rainfall recorded on Wednesday was 0.03 inch or 0.8 mm.

BENGAL CHEMISTS & DRUGGISTS' ASSOCIATION at its annual meeting on Saturday, the 6th September, elected Shri B. N. Dey and Shri T. K. Ghosh as President and Secretary respectively of the Association. In a resolution the association requested the West Bengal Government to open a pharmacist training centre in the city. The training centres at Burdwan and Jalpaiguri had failed to meet the requirements, it was stated.

AN EXHIBITION OF PAINTINGS by several notable artists including Abanindra Nath Tagore and Gaganendra

Nath Tagore, was organized by the Indian Society of Oriental Art, at the Artistry House, 15, Park Street, Calcutta, recently. It continued till the 8th of September.

The paintings on view were not for sale. They were lent for the occasion by private collectors. In recent months several exhibitions of paintings by the Tagores had been arranged. But most of the pieces on view at this exhibition were shown for the first time. Besides the Tagores, the other artists contributing to the Exhibition were Shri Nandalal Bose, Shri Debiprasad Roy Choudhury, Shri Asit Haldar, Shri Iswariprasad, Shri Durga Sankar, Shri O. C. Ganguly, Shri Suren Ganguly, and Shri Khitindra Nath Majumdar.

Of all the paintings those by Gaganendra Nath Tagore seemed to possess, a special significance. They were dramatic in character, and they gave evidence of a true sense of humour. A luminous centre in a pitch dark atmosphere appeared again and again in his pictures.

Paintings of Abanindranath were found to give sufficient hints and suggestions in Persian miniatures, Chinese painting and in the traditional art of India which developed his genius. His characteristic quality, as had so often been pointed out, was the lyricism of his appeal. His usual atmosphere was a dim twilight—there was a sense of yearning in this world.

Shri Nandalal Bose was represented by a large number of paintings. Many of them belonged to his 'Ramayana series'. He seemed to have a peculiar flair for mythological subjects and his conception of the different characters of the Indian epic possessed great value.

ACHARYA VINOBA BHAVE'S, sponsor of Bhoodan-Gramdan Movement, sixty-fourth Birthday was celebrated at a public meeting on Thursday in the Students' Hall, College Square, Calcutta, under the auspices of Sarvodaya Prakashan Samity. Dr. Gourinath Shastri Principal, Calcutta Sanskrit College, presided. The meeting was preceded by congregational spinning for one hour.

Among those who eulogized the vow and mission undertaken by Vinobaji were Shri Charu Chandra Bhandari, Ratanmoni Chatterjee and others.

Sarvodaya Press Service paid homage to the Acharya in its office premises, C—52, College Street Market. The All-India Radio, Calcutta Station, also broadcasted a special programme on the occasion.

GO-HATYA NIRODH SAMITY, an organization for prohibition of cow-slaughter in the country, organized a big meeting, on the auspicious Janmastami Day, the 5th September last, at the Subodh Mullick Square under the presidentship of the Ex-Mayor, Shri Debendra Nath Mukherjee. Lala Hardeo Sahay, Secretary, All-India Samity, was the Chief Guest.

Prof. Haripada Bharati, Shri B. D. Jhunjhunwala, Prof. Purna Chandra Ghosh, Shri Sohanlal Dugar and many other leaders spoke on the occasion.

DR. SISIR BOSE

Dr. Sisir Bose, Associate Professor of Paediatrics in the Institute of Child Health, Calcutta, has been awarded a Rockfeller Foundation Scholarship for this year. Accompanied by his wife and a child, Dr. Bose has left for America by air on Saturday, the 6th September last to join the Child Hospital in Boston. Later he proposes to visit some of the institutes of Child Health in the U.S.A. and Europe.

The meeting emphasized the need for the protection of cows in a secular country like India. They also urged the people to voice their protest against cow-slaughter.

A SPEECH ON DENTAL DISEASES was delivered by Dr. R. N. Ghosh, Dental Surgeon, to the teachers and students of the Victoria Institution on the 4th September last. Major H. K. Indra, Principal, R. G. Kar Medical College, was present as the Chief Guest. Dwelling at length about diseases of the teeth amongst school and college students, Dr. Ghosh continued his talk on "Pyorrhoea in young adults". Citing many examples of other countries of Europe and America and also of Japan, Dr. Ghosh narrated how their authorities had improved the health of the students there. 58 per cent. of the students, said Dr. Ghosh was suffering from Pyorrhoea. The statistics, he said, had been prepared after examining 14,000 students of the schools and colleges in the city.

Being requested by Principal Chaudhuri, Major Indra spoke on 'Care of Eyes' also.

BAGHA JATIN DAY OR BALASORE DAY was observed in the city on Tuesday, the 9th September. In the morning. The marble statue of Bagha Jatin, the great revolutionary leader, was garlanded and a "guard of honour" was presented by the "Santi Sena" in the Azad Hind Bag. Wreaths were also offered by different other organizations including the 'India To-morrow' Club.

A public meeting under the presidentship of Shri Atul Krishna Ghose, was held in the Bag towards the evening. After completion of functions in the morning a batch of about 60 started for Balasore to attend a ceremonial function held at the old Hospital of Balasore, at the battle spot of Chaskhand and at the secret work centre at Koptipoda in Mayurbhanj.

The Day was also observed by the Central Santi Sena Committee to honour the memory of the revolutionary heroes—Bagha Jatin—Chitta Priya—Niren—Monoranjan and Jyotish, who sacrificed their lives on the soil of Chaskhand near Balasore while fighting for country's liberation.

Under the auspices of Entally Youth League, the death anniversary of Martyr Bagha Jatin and his comrade-in-arms, was observed at Dehi Serampur Road, central part of the city in the evening.

SHRI ASOKE SEN ENTERS FOREIGN AFFAIRS BODY

The Union Law Minister, Shri Asoke Kumar Sen, and a representative to the Lok Sabha from this city, has been made a member of the Foreign Affairs Sub-committee of the Central Cabinet.

CALCUTTA UNIVERSITY'S KHAIRA PROFESSOR

Prof. S. R. Khastgir has joined the Calcutta University as Khaira Professor and Head of the Department of Physics. The Khaira Chair of Physics was previously held by the renowned Physicist Prof. Satyendra Nath Bose.

Previous to joining the Chair of Physics, Dr. Khastgir was Professor and Head of the Physics Department of Banaras Hindu University. He had been a close associate of Prof. S. N. Bose in the University of Dacca. Prof. Khastgir is distinguished for his researches on X-Rays and Radio Physics. He is one of the foremost workers in India on Atmospherics and Ionospheric problems.

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

District No. III Engineering Department.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for" on 17th September, 1958, up to 2 p.m.

The abstract of the estimate can be seen at the District Engineer's Office (Estimating Section). The Corporation Standard Specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 p.c. of the total value of the accepted tender, as security deposit within 1 week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allot-ment of any further work or contract for any period in future as may be determined by the Authority and the security deposit for Petty Improvement works may at the discretion of the Commissioner be forfeit-Agreement and security deposit are necessary for works valued below Rs. 2.500i-.

144. Construction of a fountain in Macpherson Square—Rs. 1,600|-, dated 10th September, 1958 (1 month).
145. Construction of Public Latrines and urinals oposite 12, Gobinda Khatic Road—Rs. 4,369|-, dated 12th August, 1958 (2 months).
146. Repairs to D.A.L.

146. Repairs to Bathing Platform at Marquise Street—Rs. 359|-, dated 10th September, 1958 (2 months).

September, 1958 (2 months).

147. Conversion of roadside surface drain by kerbing and channeling at Bechu Lal Road from west end (portion) in Ward No. 47-Rs. 4,717|- dated 10th September, 1958 (2 months).

148. Repairs to sewerditch in front of Childrens' Park at 32 Doctor Lane-Rs. 689|-, dated 10th September, 1958 (3 weeks).

149. Improvement of Nikashi No. 10

(3 weeks).

149. Improvement of Nikashi No. 10 running along north of Bustee No. 157, Ananda Palit Road to Railway culvert in Ward No. 47–Rs. 4,756]-, dated 10th September, 1958 (2 months).

150. Repairs to the Bathing Platform at Market Street—Rs. 894]-, dated 10th September, 1958 (1 month).

151. Maintenance to drainage adjuncts by providing Gullynit opposite 19. Canto-

151. Maintenance to drainage adjuncts by providing Gullypit opposite 19, Cantopher Lane in Ward No. 20—Rs. 585|-, dated 10th September, 1958 (2 weeks).

152. Providing 6 in. S. W. Pipe Sewer at Palm Avenue in front of premises No. 77—Rs. 2,650|-, dated 10th September, 1958 (1½ months).

153. Repairs to Superintendent's quar-

ber, 1958 (1½ months).

153. Repairs to Superintendent's quarter, Durwan's quarter including Latrines & Urinals of Live Stock Yard—Rs. 2,480], dated 10th September, 1958 (2 months).

154. Construction of Bathing Platform at Raicharan Pal Lane in Const. No. 56—Rs. 2,282]-, dated 10th September, 1958 (1½ months).

155. Repairs to plaster of ceiling of west & south Block & pavement of passages & yard at Entally Market—Rs.1,461;-, dated 10th September, 1958 (1 month).

Please note that the words "two months" as printed in italics in Clause 8 of the tender form, are to be read as '3 months' and may be scored and noted accordingly and initialled in case of works valued above Rs. 1,000|-.

C. SINHA District Engineer III

District III Eng'g. Office: The 10th September, 1958.

District No. IV Engineering Department.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on Tuesday, the 23rd September, 1958, up to 2 p.m.

Raja Rammohun Roy

Scholars and common men have agreed to date the Indian Renaissance with Raja Rammohun Roy. Reformer and educationist, theologian and man of affair, the Raja was ever large and majestic, betokening a steady soil—in him. He was a man of the Enlightenment, and saw history without provincialism. In his view of India he did not find a symbol of a society that put its humanity above other humanity. He worked for fellowship, and could never be insensitive to the intrinsic values of the East.

In the resulting major revolution in the balance of world cultures he emphatically gave the East parity with the West. He dashed down all superiority complexes. We bow to the Father of the New India. In these shaping years of India's destiny, we have need to remember and look back to the great Evangel who was the first and most articulate representative of India's Progress and share with him the deepest sense of our humanity—and freedom.

Gallery Of Martyrs' Portraits Unveiled President Dr. Prasad Recalls Their Gallant Deeds

An Unique opportunity was presented to the citizens when 92 portraits of India's adored sons and daughters, many of them sacrificed their lives either by mounting on Gallows dauntlessly or being killed in the field of action, were opened in the Central Hall, adjacent verandahs and rooms of the Mahajati Sadan, Chittaranjan Avenue, northern part of the city, on Thursday, the 25th September. The President of the Indian Union, Dr. Rajendra Prasad, performed the function by pressing a button through a brief but solemn ceremony initiated with the chanting of the Bande Mataram. National and patriotic songs of Rabindranath and Nazrul Islam, interspersed the ceremony. The Satin Sen Memorial Committee, pledged to perpetuate the memory of these fighters of India's freedom, was responsible for the installation of portraits. These were oil paintings brushed by artists of repute in appreciable sizes. The dais was decorated by a full-size portrait of Netaji Subhas Chandra Bose. On the side boards hung up impressive portraits of Mahatma Gandhi, Kaviguru Rabindranath and other leaders.

The gallery included Shri Kshudiram Bose, first revolutionary of Bengal, sent to Gallows in 1908, Shri Jatindranath Mukherjee, the revolutionary leader, killed in action against Police Force in 1915 at Balasore, Major Jatindra Nath Das, the 'Macswiny' of India, died in 1929 in Lahore Jail after fasting 63 days, many fighters who were killed at Jalalabad fight after the Chittagong Armoury Raid incident, heroes of Writers' Buildings' gallant fight and in many other places during 1930's revolutionary movement and the others, who courted death during the 1942 'Quit India' and post-war national movements, and even more others who were killed while on a peace mission of communal disturbances in India. Thus the gallery includes revolutionary leaders like Shri Surya Sen or 'Masterda', Shrimati Pritilata Waddadar, organizers of Chittagong Raids, Rajen Lahiry of Kakori case, young revolutionaries of Midnapur who launched an anarchist movement there, a number of heroes who were hanged after short military trials during the Second World War and other young gallant fighters who were killed on the streets by police firing. Portraits of those who died of unnatural death within the prison bars or otherwise like Shri Satin Sen, Shri Purna Chandra Das, Shri Anil Das and others, were there. The Committee also installed portraits of Shri Bepin Behari Ganguly, and other revolutionary leaders, though died of natural death still their contributions for the cause of India's struggle for freedom were no less than those martyrs in any respect. There were portraits of Shri Aurabindo, Deshabandhu, Deshapriya, Surendranath, Annie Besant and many other patriots, much prominent in public eye. The Memorial Committee hoped to instal still larger number of martyrs' portraits 'unhonoured and unsung' even now. An album containing pictures of national leaders was presented to the President on behalf of the Memorial Committee, by Shri Monoranjan Gupta, a Joint Secretary of the Comittee.

The inside hall and the upper auditorium was packed to its capacity. People who once participated in country's struggle for freedom gathered in large numbers. A galaxy of old revolutionary leaders who once inspired and led many of these martyrs, were also on the dais. These were Dr. Bhupendra Nath Dutta, Shri Hem Chandra Ghosh, Shri Hari Kumar Chakraverty, Shri Bhupati Mazumdar, Minister, West Bengal, and others. On the dais, the Chief Minister, Dr. B. C. Roy, Shri Khagendra Nath Das Gupta, Shri Bimal Chandra Sinha and other ministers, the Mayor, Dr. Triguna Sen, Shri Lokenath Bal of Chittagong Armoury Raid, Shri Hemendra Prasad Ghosh, Shri Deva Prasad Ghosh and many other elders who had a chance to watch these martyrs' activities also took their seats.

Shri Prafulla Chandra Sen, Minister and President of the Memorial Committee, presided while Shri Atulya Ghosh, M.P., Pradesh Congress chief, extended a vote of thanks.

Besides, a few memebrs of the Foreign Consular Corps, a number of Legislators and Corporation Councillors, and a section of the elite of the city were present.

The President, who spoke in Bengali, took pride to unveil the portraits of those who had suffered and sacrificed themselves in the national cause. 'As long as India would remember them its freedom would be secured, he added. Shri Sankar Prasad Mitra, Joint Secretary of the Committee, appealed for public help to build a 'Martyrs' House" in this city and a Memorial Column in the small triangular park opposite

PATRIOTS ARE SYMBOLS OF NATIONAL UNITY

Paying his homage to those martyrs, the President said that there were among those who gave their lives in the freedom's struggle, some who had mounted the gallows with the Geeta in their hands, shouting 'Bande Mataram', and others who showed unequalled chivalrous spirits. The President firmly believed that the more they remembered the work of these patriots, martyrs and leaders of thought the stronger would be their national unity. There are men in the Gallery, many of them were my colleagues, while with other group I grew up my acquaintance and to the rest' I watched them from a distance', said Dr. Prasad.

India, the President said, had never submitted to the British rule. 'Again and again people of our country had voiced their strongest disapproval of the alien domination and given the call for independence. Many brave sons, whose pictures we see had sacrificed their lives in their endeavour to achieve freedom of the country. And the country's best homage should go to them', he also said.

Stressing the need for preserving the memories of such men and women who figured in the nation's history in its different phases and at different times the President added that enough had not been done to refresh them in the nation's heart for ever and ever. Such galleries are needed most to future generations than the present in order to inspire them for nobler deeds and self-sacrifice in the country's cause. They were the true symbols of national unity in the past and to be so in the future, emphasized the Head of the Union Government.

Congratulating the members of the Committee on this laudable move, President Dr. Prasad said that the selection of Mahajati Sadan, which was started by Netaji Subhas Chandra Bose and constructed on the foundation stone nobly laid by Kaviguru Rabindranath, was most appropriate for display of those precious portraits.

After unveiling the portraits Dr. Rajendra Prasad went round the halls and inspected the Gallery from a closer range.

Shri Asutosh Mukhopadhyaya, writer, presented to Dr. Rajendra Prasad a volume of the biography of Shri Satin Sen.

This was the only function participated in by the President Dr. Prasad during his overnight stop over the city.

BENGAL'S SACRIFICE RE-CALLED

Shri Sankar Prasad Mitra, Joint Secretary, traced the origin of the Memorial Committee. While explaining the programme, he said that they were endeavouring to compile from various sources the activities of all political workers. The Committee, he stated, had already obtained necessary permission for studying the documents preserved by the Home Department of this State and the police reports for this purpose.

In that connection, Shri Mitra also put up a six-fold programme which included building up of a Martyr's House within this city on a land leased out by the Corporation. Many others have been partly fulfilled, announced the Joint Secretary.

Regarding the proposed 'House' the Committee desired that it would be an ideal one to the rest of India as Bengal's contributions in the struggle for freedom had far exceeded others.

PRESIDENT LEAVES FOR JAPAN

The President, Dr. Rajendra Prasad, left for Japan by a special Air-India International Super Constellation on Thursday, night, the 25th September on a nine-day State Visit to that country. Dr. Prasad was given a hearty send-off at Dum Dum airport by the Governor, Shrimati Padmaja Naidu, the Chief Justice of Calcutta, Shri P. B. Chakravarti, the Mayor, Dr. Triguna Sen, the Union Rehabilitation Minister, Shri Mehar Chand Khanna, State Cabinet Ministers and civil and military officials.

The President was introduced to the members of the Diplomatic Corps at the airport by the Chief Secretary to the West Bengal Government.

Dr. Prasad acknowledged the good wishes of all by smiling and fold in a namaskar while on the gangway of the plane. The President was accompanied by Shri Nityananda Kanungo, the Union Commerce Minister, a group of journalists and his personal staff.

The President, Dr. Rajendra Prasad, had reached city on a day's visit on his way to Japan on the 24th

instant. As President's special train arrived at Howrah station at 11-15 a.m., he was received by the Governor and the Chief Minister who introduced members of the Cabinet to the President. A Gurkha Battalion of 150 men, accompanied by a Gurkha band, presented a Guard of Honour. The President then drove to Raj Bhavan.

Among those present to receive the President were the Mayor. Dr. Triguna Sen, the Speaker of the West Bengal Assembly, Shri Sankardas Banerjee, the Pradesh Congress President, Shri Atulya Ghosh, M.P., and the Union Rehabilitation Minister, Shri Khanna.

A CORRIGENDUM

In the Gazette's issue dated the 6th September, the name of 'Dr. Surendra Nath Sen has wrongly been printed as Dr. Satyendra Nath Sen' under the caption 'CALCUTTA CITIZENS HONOURED', (Page 471).

We regret for the inadvertence.

Tiems & Reviews

*DHUTI AND PUNJABI'

The Corporation at its weekly meeting on Friday, the 26th September, unanimously passed a resolution requesting the Government of West Bengal to declare 'Dhuti and Punjabi' as formal dress throughout the State. It added that the Government should immediately notify the same amongst all the public clubs, restaurants lying in this city and also should ask those establishments to advise their staff accordingly.

The resolution passed in this connection, moved by Councillor Mihirlal Ganguly, reads as follows:—

This House requests the Government of West Bengal to declare Dhuti and Punjabi as a formal dress throughout the State and immediately notify the same amongst all the public clubs, restaurants, etc., in the city of Calcutta also asking those establishments to advice their staff accordingly.

This House further request the Government of West Bengal to prevail upon the Government of India to issue notification on similar lines as above.

The House suggests that the Government concerned should take drastic steps against any establishments if disrespect is shown to the age-old Indian costume of Dhuti & Punjabi.

The motion was seconded by Councillor Nripendra Nath Banerjee.

Councillor Mihir Lal Ganguly said that recently one person, with formal dress on, was insulted at a well-known hotel in Delhi. He said that similar incidents had also happened in several big hotels in Calcutta.

The incident referred to by Councillor Ganguly was a newspaper report, published some time ago, given as follows:—

NEW DELHI, SEPT. 16.—One may dine but not dance in a dhoti in Delhi's posh, Statemanaged Ashoka Hotel.

This was the gist of the reply given by Shri A. K. Chanda, Deputy Minister for Works, Housing and Supply, to angry questions in the Lok Sabha on the entry refused to a dhoti-clad Bengali gentleman.

Shri Chanda disclosed that the gentleman concerned had written directly to his senior, Shri K. G. Reddy and read out the text of the Minister's reply expressing regret for the "misunderstanding".

"There is no ban on wearing a dhoti in the dining hall...." Shri Reddy wrote. "It is possible that what the attendants tried to convey to you was the desirability of wearing a formal or semi-formal attire in case you wished to dance."

Shri Chanda also read out the note over stringent conditions prescribed on a notice put up in the Ashoka's dining hall. It announced:

"Residents and guests are requested not to enter the dining room in informal costume such as beach wear. Ladies are requested to wear dresses and gentlemen at least long trousers and tie with their shirt or a modest coloured bush-shirt, preferably with long sleeves.

"In the evening, formal or semi-formal dress should be worn. Gentlemen are requested to wear jackets at dinner."

Many members were not satisfied at the reply, though the Deputy Minister went on to explain that the restrictions were, by implication, on people wearing western style clothes and that complaints had been received from Indian customers.

Raja Mahendra Pratap loudly demanded a division on "this un-Indian thing in India".

Pandit Pant ended the exchange by promising that the Government would look into the matter and clear up any ambiguity. He was cheered as he declared: "Indian dress will be allowed".

The country has long experiences about dress controversy and if it is solved then there will be an end of our national problem in one respect or otherwise.

GAS SUPPLY IMPROVES

At the weekly meeting of the Corporation on Friday, the 26th September, the Deputy Mayor, Shri Keshab Chandra Basu announced that 'all the street gas lights in the city would be lighted in the same evening as the Oriental Gas Company has resumed supply of gas for the purpose'.

Shri Basu read a note from the Corporation's Lighting Superintendent in which it was stated that at about 3 P.M. on Thursday, the 25th September the General Manager of the Gas Company rang him up intimating that they could resume lighting of gas lights from that evening. A letter to that effect was also received by the Corporation's Lighting Department at about 5-30 P.M. on that day. As the intimation was received late it could not be conveyed to all lighters in the same evening and as such all street gas lights could not be put into commission immediately. All such gas lamps would, however, be put into commission from Friday evening.

On Friday most of the gas lights were found to be burning although in many of the places, they were very dim.

Since last week's set-back, production at the Oriental Gas Company's plant at Narkeldanga, has shown steady improvement during the last few days. On Saturday, the 27th over one million cu.ft. of gas was produced during the first shift and the total for the day was expected to be about the normal three million cu.ft.

According to a Corporation official the gas was again being supplied to street lamps but he was not in a position to say whether there had been an appreciable improvement in illumination or not?

A Gas Company spokesman denied that the plant was so old that production was affected. This was proved by the way in which production

was returning to normalcy. Although the plant as a whole was 100 years old, the furnaces were rebuilt after their normal span of life. Machine parts were also replaced when found necessary.

According to the spokesman a further improvement in the supply position would be made by them in future compared to previous days. Accordingly 9.4 lakhs cu.ft. of gas was produced by the Company out of 29 settings in the first two shifts and during the next two shifts they expected to produce 20 lakhs more bringing the total supply to 29 lakhs cu.ft. on Friday. During the first shift on Thursday, the production was 8.7 lakhs and the total production during the whole day was 27.44 lakhs cu.ft.

In the meantime there was a cry for nationalization of the gas supply in the city. The State Government could not sit idle but appointed experts for the examination of the plant.

Old and defective machinery in the gas supply system was mainly responsible for the low pressure and fall in supply although the "go slow" tactics of the workers was an additional factor. This was the opinion of the Government experts who inspected the Retort House of the Oriental Cas Company and studied the working for about an hour in one day during this week. The official report is still awaited.

The experts had also a discussion with the State Chief Minister with regard to the question as how to ensure an adequate supply of gas in the city for various types of consumption. The question of foreign exchange requirements for the replacements of parts and rectifications of the defects in the machinery were also taken up. It appeared from the discussion with senior officials of the Government that although the State Government were making all arrangements complete for the nationalization of the Gas Company, till such a step was taken, the question of rendering possible assistance for repair and replacement of the existing plants by the State Government to ensure an improved supply of gas in the city, would now receive the prior attention.

WEST BENGAL MUNICIPAL EMPLOYEES

There had been growing resentments for the last few months among the employees of 86 municipalities in the State, because of their poor service as well as of a lower conditions grievances emoluments. The employees' ventilated on several occasions both through the Press and the platform. It is learnt that Minimum Wages Committee, appointed under the purview of the Minimum Wages Act, has been able to prescribe a minimum standard of wages for the employees but this has reached in a stalemate condition. Probably the acute scarcity of funds from which almost every municipality suffers to-day, has put a log on its implementation. Even two Corporations within the State suffer from similar handicaps.

There had been an increased number of demonstrations and agitations for an enhanced rate of Dearness Allowances for the employees. This had dveloped into strikes in many of the municipalities. It was amply witnessed in case of the Chandernagore Corporation where the lower paid employees of the conservancy staff went on a day's strike some time ago demanding fulfilment of many of their grievances of which payment of an addi-

tional Dearness Allowance of Rupees Five was the foremost. It was settled when the Deputy Mayor of Chandernagore announced that the question of payment of additional Dearness Allowances of Rs. 5|-, as agreed upon some time ago between the West Bengal Municipal Workers' Federation and the Government of West Bengal, would be considered sympathetically.

Sometime during this period a Press Note issued by the West Bengal Government said:—

The Government of India have agreed to render financial assistance to the local bodies, viz., the Municipalities, excluding the Calcutta Corporation but including the Chandernagore Municipal Corporation, the District Boards and the Town Committees with effect from 1st April, 1958, to the extent of two-thirds of the additional cost on account of the payment of an extra Dearness Allowance upto five rupees per head per month to their employees whose total emoluments including the said Dearness Allowance do not exceed Rs. 100|- per month. The remaining one-third of the extra cost will, however, be borne by local bodies concerned.

The Department of the Local Self-Government and Panchayat, West Bengal, has, accordingly, directed the District Officers to make necessary proments to the participating local bodies in their areas.

Strengthened with the above Press Note the employees demands became forceful. But the wretched pecuniary conditions of the Municipalities stood in the way of payment for the additional emoluments to their employees.

Thus the growing resentment caused over 20,000 employees in municipalities all over the State, to take the decision for going on strike from the 22nd September, unless the authorities agreed to pay an ad hoc Dearness Allowance of Rs. 5- per month.

The decision was taken at the Municipal Employees Federation's plenary session at Ranaghat about two months back. Over 200 delegates from all over the State attended the session. Accordingly, all the units served strike notices on their respective authorities on this issue. The issue of granting an ad hoc Dearness Allowance was agreed upon between the representatives of the State Government and the Municipal Associations' Federation some time ago.

The conference, among other things, urged the Government not to introduce the model service rules which were then under consideration.

Happily, the Employees' Federation Council decided to defer the strike till the 17th November next at the intervention of the State Labour Officials at its meeting on the 19th September last. An assurance that the Government would try to obtain payment of additional Dearness Allowance with all arrears before the Pujahs to employees drawing salary up to Rs. 300|- a month probably pursuaded them to withhold the strike.

The employees of the Howrah Municipality, the foremost civic body within the State except the Calcutta Corporation, were staging demonstrations on the same issue. They joined with the Council of Action on this occasion and took the decision for postponement of the strike. The decision was taken on the basis of an assurance from Shri Rabindra Lal Sinha, M.L.C., Chairman, Howrah Municipality, with regard to payment of arrear Dearness Allowances of Rs. 45- and ad hoc dearness allowance.

It be recalled here the may that Howrah Municipality at a Special Meeting. held some time ago, proposed to implement the award of the Industrial Judge, over the dispute between the workers and the Municipal authorities. The award, among other things, directed the Municipality to pay increased Dearness Allowance of Rs. 3 with retrospective effect from 1st April, 1957.

The authorities have agreed to pay from July this year, and, to pay the dues of previous 15 months. They have decided to approach the State Government to make an advance of Rs. Two Lakhs.

A clarification with regard to the payment of ad hoc Dearness Allowance was also sought for which was agreed upon among the representatives of the State Government, Municipal Association and Employees' Federation in view of the reference made in the Tribunal's award.

Thus the present position of the municipal employees has been summed up above. But the story of the Corporation employees is almost identical. Hardly a weel, meeting of the Corporation passes without any demonstration outside being staged by the employees. Besides the big demonstrations organized by the Employees' Association jointly demonstrations are not rare when a section of employees put up their individual grievances.

In spite of its strained financial conditions the Corporation has recently been able to fulfil a few demands particularly an increased emoluments to its all categories of employees. A considerable portion still remains unfulfilled. And we hope that these would be looked into at the earliest opportunity.

TRAMS ON STREETS AGAIN

After a 42-day old suspension of work as a result of the employees' strike, tram services were resumed in the city on Tuesday, the 23rd September. There were partial resumption of services on that day, and normalcy fully restored on Wednesday. On Tuesday evening about 120 cars plied against the total strength of about 400. The first car carrying passengers left Kiderpore depot in that morning. This gave much relief to the travelling public who were put into much inconvenience when the trams were off from the streets,

After prolonged negotiations with the State Chief Minister, Dr. B. C. Roy, both the parties reached at a settlement on Monday, the September. The strike started on the 12th August last. This was announced at a largely attended meeting at Subodh Mullick Square, on Monday evening. A resolution withdrawing the strike, drafted by the Joint Committee of the workers, was voted unanimously.

Shri Nepal Roy, M.L.A., who presided over the meeting, moved the resolution from the Chair. Shri Somenath Lahiri, M.L.A., Shri Baliraj Singh, Shri Ram Kewal Singh, Janab Mohammed Ismail, and Shri J. P. Sukul spoke explaining the phases through which the strike had passed and the gains achieved by the workers.

The meeting expressed gratitude for the support the strikers had received from various quarters and thanked the citizens for the patience with which they had borne transport difficulties during the period.

It hoped that "the unity, solidarity and comradeship developed during the strike under the leadership of the Joint Committee will be nurtured and increased."

Immediately after the meeting overhead, permanent way and sub-station employees reported for duty.

SARAT CHATTERJEE'S 82ND BIRTH-DAY OBSERVED

рното: s. в

The creative genius of Sarat Chandra Chatterjee, the well-known literateur of Bengal was largely stressed by Shri Saumyendra Nath Tagore, while he spoke as Chief Guest on the Eighty-Second Birth-Day celebration of the well-known novelist, in the Municipal Museum Hall, College Street Market on the 20th September last. The function was held under the auspices of the Jatiya Sanskriti-Sansad, a cultural organization with Shri Upendra Nath Gangopadhya in the chair (on the mike above, Shri Tagore sitting left). A beautiful portrait of Sarat Chandra bedecked with flowers was also there.

'Sarat Chandra's genius was coually displayed as a literary talent as well as a novelist of high order, said Shri Tagore, while eulogizing many of the typical characters from Sarat Chandra's famous works. He also regretted that people had misunderstood him as a teacher and preacher against social evils. This had not been rightly done, according to Shri Tagore.

Recalling his long association with Sarat Chandra, Shri Gangopadhya narrated an incident which was the turning point in Sarat Chandra's literary life. Those were the days when Sarat Chandra made his appearance in that field as a story writer under a disguised name. Still he aspired to make his way as an well-known fiction writer and suddenly attained such through his famous book 'Charitra-Heena', added Shri Gangopadhya while narrating a story from Sarat Chandra's life.

Shri Apurba Ratan Bhadury also read out a written essay emphasizing many sided aspects of Sarat Chandra's works which moulded Bengali literature on a new model.

Besides, several functions were arranged by different organizations throughout last week when the citizens celebrated the occasion including one at Triangular Park, Rash Behari Avenue, South Calcutta.

The All India Radio, Calcutta Station, broadcast a programme on the appointed day in that connection.

VICTORIA MEMORIAL

The amount of income from the sale of tickets to visitors to Victoria Memorial Hall, during 1957-58 was Rs. 71,854 only. This was stated by Janab Humayun Kabir, Minister for Scientific Research and Cultural Affairs, in a written reply to Shri Pangarkar in the Lok Sabharecently.

THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE TWENTY-FIRST ORDINARY MEETING OF THE CORPORATION HELD ON FRIDAY, THE 19TH SEPTEMBER, 1958.

NEW ALIGNMENTS

The House, on the recommendation of the Standing Town Planning & Improvement Committee, prescribed a 25 ft. alignment on Ram Kanto Bose Street, under Section 356 of the Calcutta Municipal Act.

Based on the same recommendation, the House sanctioned anothere 40 ft. wide alignment on Masjid Bari Street (portion between Upper Chitpore Road and Jatindra Mohan Avenue) in the northern part of the city under the same provisions.

PRIVATE STREET TAKEN

Based on a reecommendation of the Standing Town Planning & Improvement Committee, the House took over a private street at premises Nos. 79, 79|1 to 79|19, Palm Avenue, under Section 375 of the Calcutta Municipal Act, 1951.

The House also took over a splayed corner at 24, College Row under Section 361 of the Act as no vehicle could enter Nabin Kundu Lane, central part of the city, under Borough No. 7.

By another recommendation of the Town Planning & Improvement Committee, the Corporation decided to take over two passages 30 ft. and 20 ft. wide in Halder Bagan Bustee under Section 375 of the Act.

LAND FOR ANDHRA SCHOOL

The House, on the recommendation of the Standing Town Planning & Improvement Committee, leased out three kottahs of Corporation land at Dr. Sudhir Basu Road, Kidderpore, to the Andhra School, for 30 years at a nominal rent on condition that the school would be a free primary school, and that Bengali should also be taught as a compulsory language there. Among other conditions laid down in this connection were that the Managing Committee should include three representatives from the Corporation and a Corporation Primary School should be allowed to be held there, if possible, at convenient hours.

TRANSPORT OF LANDS RESENTED

Requesting the State Chief Minister to record a strong protest against giving effect to the terms of the agreement, as published, between the Prime Ministers of India and Pakistan, a public meeting was held under the auspices of Hindu Mahasabha on Monday, the 22nd September. It demanded of Chief Minister, Dr. B. C. Roy, to issue a statement informing the public whether the Nehru-Noon agreement, involving transfer of certain territories of West Bengal, was made with his "knowledge and consent".

Shri Sudhir Kumar Chosh presided. Those who spoke included Shri Mahendra Kumar Chosh, Shri Nihar Ranjan Das and Shri Prasanta Das Gupta.

A resolution, passed on the occasion, criticized the India Government's policy of appeasement as a denial of Democracy by ignoring the Constitution and the Lok Sabha.

LAND FOR A PRIMARY SCHOOL

The House, on the recommendation of the Standing Town Planning and Improvement Committee, leased out to the Trustees of the Adi Ballygunge Primary School, eight kottahs of land situated at the junction of Tiljala Lane and Rifle Range Road, Ward No. 60, for a period of 30 years on a nominal rent under certain conditions. One of the conditions stated that the Managing Committee of the School should include at least three representatives from the Corporation.

The House further decided to convert the adjacent open land belonging to the Corporation, measuring about one bigha, into a Park.

ANOTHER ALIGNMENT

The House based on the recommendation of the Standing Town Planning & Improvement Committee, prescribed mother 20 ft. wide alignment on Beniatola Lane and Nabin Pal Lane, within Ward No. 30, under Section 358 of the Calcutta Municipal Act. 1951.

CONTINUANCE OF 'NIRMAL HRIDAY'

The House on the recommendation of the Standing Health Committee, allowed continuance of the treatment centre known as 'Nirmal Hriday', located in the Rest House, Kalighat Road, South Calcutta, for a further period of six months with effect from 1st October, 1958. This was granted in view of the fact that no other suitable house was made available for the purpose.

REPAIRS TO WATER BOATS

The House, on the recommendation of the Standing Water Supply Committee, entrusted annual repairs of two mobile water boats, namely W. B. Charles Payne and M. V. Jalabahi, to the Manager, Entally Workshops, under certain conditions. The work is to be completed within the stipulated dates.

DEATHS AND DISEASES IN THE CITY

Attacks and deaths from cholera in the city during the week ended the 20th September were 10 and four against seven and one in the previous week. In the corresponding weeks last year there were nine and 16 attacks and two and six deaths respectively.

There were two attacks and two deaths from small-pox against three attacks and three deaths the week before. In the corresponding fortnight last year there were four attacks and four deaths from the same disease.

Tuberculosis claimed 31 lives against 34 in the previous week and 39 and 47 in the corresponding weeks last year.

Deaths from all causes totalled 660 against 608 the week before and 667 and 692 in the corresponding weeks last year.

CITY NEWS PARADE

SAFETY FIRST ASSOCIATION OF INDIA'S Annual Meeting was held on Thursday, the 18th September last. Shri P. K. Sen, D. I. G., Traffic, who attended the meeting as a representative of the State Government, said that time had come when the Association must be put on a sound financial footing. He suggested some measures to increase the organization's income.

Dr. A. C. Ukil, Vice-President, said that steps should be taken to enrol members of the Association from the Rotary Club of Calcutta which had taken an interest in traffic problems in the city.

Shri D. N. Sen, was re-elected President and Shri K. K. Das, Secretary for 1958-59. The Vice-Presidents were: Dr. A. C. Ukil, Shri N. C. Laharry and Shri R. M. Sen Gupta.

The Association's annual report for 1956-57 stated that in 1956 three 16 m.m. films were added to the organization's film library. These films deal with safety instructions to road users. The films have become popular so far.

VARIABLE WEATHER WITH RAIN AND SUN was witnessed during the last few days in the city. There was a fairly heavy shower on Friday, the 19th September last, particularly in the northern section of the city when many streets were water-logged and traffic was dislocated at several points. The total rainfall recorded by the Alipore Metereological Office being 0.9 mm, 0.03 inch.

The maximum temperature in the city on that day was 43 degrees C (92 degrees F), the minimum temperature was 26 degrees C (79 degrees F), the maximum humidity was 92 per cent. and the minimum humidity was 66 per cent. The wet bulb temperature was 28 degrees C (83 degrees F).

The weather forecast for the city and its neighbour-hood for the next few days were: "Cloudy weather with a few showers accompanied by thunder". This was fulfilled partly with autumn showers. On Sudnay, the 21st September, the rainfall recorded was .01 inch. On Monday it was recorded .39 inch. The two sharp showers on Wednesday, the 24th September, recorded .10 inch rainfall. There were temporary water-loggings in few places due to an uneven distribution of rainfall.

CALCUTTA CHARITABLE SOCIETY'S annual meeting was held on Tuesday, the 23rd September, with Shri S. C. Roy, Sheriff, in the Chair.

The most disturbing feature in this city at present is the appearance of "bhadralok beggars". Old and infirm people and children appear voluntarily before courts to be declared as vagrants and to be committed to vagrants' homes. There are also cases of mothers appealing to orphanages and children's homes for admission of their children as they are unable to feed and educate them. This was disclosed by the Sheriff in his address.

Shri Roy further said that the U.K. and the U.S. Governments had taken larger responsibilities than those in India for the relief of needy persons. In addition, many public organizations dependent on private contributions rendered service to poor and deserving people. In India the need for such organisations was greater because the old joint-family system was disappearing, high taxation had dried up the resources of the rich and the abolition of zamindari had an adverse effect on the collection of funds for institutions serving the poor and disabled.

In 1957, the Society distributed about Rs. 55,000 f_0 the relief of the old, disabled and helpless.

SOUTH CALCUTTA GIRLS' COLLEGE, Lansdown Road, celebrated its annual Founder's Day on the 12th September last with Shri Sankardas Banerji, Speaker, West Bengal Legislative Assembly, in the chair. Dr. Atul Chandra Gupta was the Chief Guest.

Shrimati Monisha Sinha, President of the Governing Body of the College, narrated the gradual progress of the institution.

The Chief Guest emphasized on the need of higher education among women.

The students of the College gave a neat performance of Rabindranath's "Ritu Utsab".

Justice D. N. Sinha, Justice Binayak Banerjee, Shri Bibhuti Bhusan Mookerjee and other important citizens were present.

DEMONSTRATIONS: Loaded with garbage, several conservancy lorries of the Corporation demonstrated for an hour in the Central Municipal Office Building's courtyard and around it early on Friday the 19th September. The lorries had earlier gone to Chingrihata to take the garbage to the railway wagons for depositing it at Dhappa, but found the road to the station blocked by a railway engine which had developed trouble.

* * * *

While the weekly Corporation meeting was in progress employees of the Corporation's Food Supply Department demonstrated outside. They demanded that the Department be declared permanent from 1st August, 1948 so that they might get the benefits allowed to temporary employees of the Corporation made permanent in accordance with the Corporation's resolution of December 14, 1956.

Over 150 retrenched workers of the Damodar Valley Corporation demonstrated at Anderson House, Alipore, on Saturday, the 20th September last, for about two hours being organized by the D.V.C. Staff Association.

Eight representatives of the demonstrators met the D.V.C. Chairman to place before him their demands, the main one being no retrenchment without alternative employment. The talks were inconclusive.

From March 1, 1956, till August, 31 this year about 4,154 D.V.C. employees have been retrenched. The authorities have so far secured 3,510 offers for employment for the retrenched workers from different employers. About 3,223 employees accepted the offers. There are about 301 retrenched workers now for whom employment has to be secured.

About 12,000 West Bengal Government Settlement Department workers demand alternative employment in case they were retrenched through a statement which stated that about 1,000 men had been newly recruited for copying records in the Government's Land Records and Survey Directorate in preference to already retrenched hands. It said that there was enough work in the Land and Land Revenue Department to absorb the men.

FOOD ADULTERATION: Samples of atta taken from a chakki shop in Tollygunge area by the Corporation's staff was focussed on analysis to be adulterated and below standard. The shop was raided by the staff with the help of the Enforcement Branch police on an information that soapstone powder was being mixed with atta there.

Auction Sale

NOTICE.

It is hereby notified for information of intending buyers that carts seized under Section 227(1) of the Calcutta Municipal Act, 1951 and not claimed within ten days of such seizure, will continue to be sold by public auction, as heretobefore everyday after 3 p.m., excepting holidays by the Cart Registration Officer at his office at 185/1, Lower Circular Road Calcutta, until further orders. It is hereby notified for information of

A. K. DUTT.

CENTRAL MUNICIPAL OFFICE: The 20th September, 1958.

Notice

Re: Allotment of south-west corner of Tallah Park for a Swimming Centre,

It is hereby notified for public information that the North Suburban Sporting Centre has applied for allotment to them of the south-west corner of the Tallah Park for the purpose of opening a Swimming Centre for swimming and aquatic sports by the members of that club. Any person having any objection to this may send the same to the Assistant Engineer (Cossipore), 10, B. T. Road, Calcutta, by the 10th October, 1958.

B. GHOSH,

Secretary.

Central Municipal Office:

The 23rd September, 1958.

Sir Stuart Hogg Market

OLD MILK RANGE ALLOTMENT

S. Hogg Market, for carrying on such business and on payment of such monthly rent as will be fixed by the Public Utilities and Markets Committee, subject to the usual terms and conditions of license of vendors in Municipal Markets. Applications with offers of initial rent

S. M. MURSHED, Asstt. Superintendent.

S. S. Hogg Market:

The 20th September, 1958.

Sir Charles Allen Market

NOTICE.

"Applications with offers of initial rent for the privilege of occupying Stall No. 36B, (meat-shop) at the prescribed daily rent of 0.63 nP. are invited and will be received in the Market Office between 7 A.M. to 10 A.M. in the morning and 3 P.M. to 5 P.M. in the evening, except Saturday evening.

Allotment of the stall will be settled by the appropriate Committee, 25 per cent of the sanctioned initial rent as would be fixed by the authority at the time of allotment, will have to be deposited immediately by the allottee and the balance within 7 days."

A. K. DAS GUPTA,

Supervisor.

S. C. Allen Market .

The 20th September, 1958:

FOOD DEMONSTRATION CONTINUES

Continued demonstrations in city focussing food crisis have resulted in larger number of arrests. This included a few Legislators hailing from moffussil.

On Thursday, the 25th September demonstration was marked by the participation of women in overwhelming numbers. Led by Shrimati Renu Chakravorty, M.P., over 250 women, mostly from the districts, were arrested on

Esplanade East when they tried to break through a police cordon. They had 83 children with them.

The West Bengal Praja Socialist Party observed Price Control Day on Thursday. A meeting presided over by Dr. P. C. Ghosh, M.L.A., at Subodh Square, adopted a resolution strongly criticizing the State Government's failure to check rising prices of foodgrains and other essential commodities.

SHOPS TO LET

SIR STUART HOGG MARKET

Applications with offers of initial rent for the privilege of occupying the undermentioned stalls on rents noted against each see invited and will be received by the Superintendent in the Market Office daily between the hours of 11 a.r., and 1 p.m. It should be noted that 25% of the offer of initial rent would have to be deposited immediately on the acceptance of same by the Committee, the balance to be paid within 7 days.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD. CALCUTTA :: **BOMBAY** KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. A Hour—four annas.

1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that saly coolies bearing number badges are engaged. For the correct half-year. "A" class coolies have been allowed Khaki arm badges with Green numbers from Nos. 1 to 400.

Any complaints about coolies should be made at the apperintendent's Office giving the number of the cooly.

All complaints relating to the conduct of vanders should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the

rice paid.

7. Any articles lest or found in the market should be reported at the Superintendent's Office.

4. As days, becycles, trecycles, or perumbulators are allowed inside the markets.

4. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 a.m. to 7 p.m.; between 7 p.m. to 12 a.m. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection

in this connection
10 Customers are requested that 10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Oustomers are requested to examine the roles of the market.

12. Oustomers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

VIEWS AND REVIEWS

POPE'S DEATH MOURNED

Calcutta was greatly shocked to receive the death news of His Holiness Pope Pius XII, Supreme Pontiff of the Catholic Church. He was the 262nd to reign from the Throne of Saint Peter from 1939 onward. As a man and priest he was always a voice of moderation. His Holiness was the most esteemed and venerated man in the world and greatest Pope of the century. Thus his death is widely mourned to-day not only by the Roman Catholic community alone but also throughout the world as a man of superior qualities.

The end came on the 9th October when the Catholic Church said prayers. At an auto-chamber of the Pope's sickroom at Castel Gandles, South Rome, the body lay in a simple brass bed. The body would be burried on Monday.

Messages of condolence poured from different corners of the world. The President of the Indian Union, Dr. Rajendra Prasad, the U.S. President, Mr. Eisenhower, and others sent messages of condolences. They said that 'humanity has lost an outstanding benefaction and a man of peace and courage, in the world of culture a brilliant linguist and a learned scholar. The Catholic Church has a noble pastor, a wise and experienced guide and an intrepid leader.'

The Corporation also mourned the death at its weekly meeting on Friday, the 10th October and adjourned its sitting for ten minutes bowing heads in adoration and extreme reverence to His most sacred memory. The death was referred to in the House by the Mayor, Dr. Triguna Sen, who recorded the Corporation's profound sense of sorrow at the irreparable loss to mankind at the death of His Holiness, who dedicated himself in rousing the consciousness of the people for the cause of world peace. In his death the world has jost a noble

friend of mankind and such a void is hardly to be filled up in near future', said the Mayor.

Dr. Sen also said while paying eloquent tributes to his memory 'that being a strong believer in Ahimsa and world peace, India is particularly grieved in his death in as much as the Pope showed a keen interest in Indian affairs and was a warm well-wisher of the Indian Republic since its inception'.

Living a life dedicated to the cause of world peace His Holiness made frantic appeals to the belligerent countries to avoid war. Extremely strong in doctrine, yet he was quite liberal in practice in order to keep pace with the rapidly changing universe, the Mayor added.

ONLY OBJECT IS TO SERVE THE CITIZENS'

Speaking at a Reception accorded to the Mayor. Dr. Triguna Sen, by the Shillong Municipality, he emphasized that Municipalities should have only one object and that was to serve the inhabitants of the city without any consideration of self and party. He urged that hearts should be cleansed and one should prepare to take up work that was expected of him to do. The problems of the Municipalities were enormous in proportion to the revenue, they earned. But what was more important was the confidence and co-operation of the public without which no self-governing institution can work.

Speaking about Calcutta, the Mayor, said that the great 'City of the East' had really become a problem city. She was planned for catering to the needs of ten lakes of people and there were 40 to 55 lakes of people at the present moment. Hence the difficulty to gear up the essential services in order to meet the needs of this vast population could easily be understood. He thanked the exployees of the Corporation that they had not yet

collapsed. Like an optimist, the Mayor was rather happy to say that 'if we were motivated to work with one objective, we would be able to solve all the problems.'

Presenting the Welcome Address to the Mayor of Calcutta, Mr. A. Pariat, Vice-Chairman of the Shillong Municipal Board, referred to the activities of Dr. Sen as a constructive leader and as an educationist.

Replying to those sentiments, the Mayor also said that it was gratifying for him to note that the people there still had love and affection for him. Dr. Sen said that his sphere of activities was confined to students. Circumstances compelled him to gather some experience in civic affairs. He felt that in the true interest of these Municipalities as well as in the interest of the inhabitants of a city, it was necessary to unequivocally declare that all employees and commissioners of the Board, individually and severally, had only one object which was to serve the inhabitants of the city without any consideration of self and party.

Referring to the duties of the Commissioners, the Mayor of Calcutta said that when the well-being and the civic interest were concerned party politics should be eschewed. Party politics should play at the time of elections and the real issue should not be jeopardized.

Thus on one hand we must bring public into close and intimate relationship with the Municipality and stimulate a sense of civic pride in the citizens and on other hand instil a sense of public service into the minds of the employees.

Before conclusion, the Mayor regretted that the Municipal employees did not think themselves as servants of the public but were more bent on pleasing the Commissioners. This attitude has got to be changed and that could be done by creating circumstances and proper atmosphere in which the employees would clearly realize that they are public servants and must work in co-operation with the public and for the benefit of the public, added the Mayor.

A Tea Party was also arranged in honour of the Mayor of Calcutta and with this the well-attended function concluded.

NEW ATTRACTIONS IN NETAJI BHAVAN

A week-long exhibition, containing specimen copies of a large number of periodicals and journals, published in Indian languages mainly in Bengali, was kept on view in the Netaji Bhavan, Elgin Road, South Calcutta, about a month hence. Thus it presented an opportunity to the citizens to witness as many as nearly four hundred such journals published both in this city as well as in the remotest corner of this country. They were arranged on district-wise basis of which Calcutta no doubt took the prominent place.

Possessing some amount of educative value are the journals these which served the the country's interest most at the same time these are the vehicles which help much in raising the standard of literacy in this country. Considering all these, the exhibition was organized by the Sarat Bose Academy Exhibition Sub-Committee. synchronizing with the Birthday Anniversary of the late Shri Sarat Chandra Bose. The Academy also derived inspiration in this regard from the activities of both the Bose brothers Sarat Chandra and Subhas Chandra who had once pioneered the cause

of newspapers in India. Both of them were responsible for inaugurating a number of periodicals and daily newspapers which once occupied conspicuous positions in imparting the doctrine of nationalism. They had also helped much in moulding public opinion through these vehicles in a period when the struggle against an alien rule was afoot.

Inspired by that end in view the authorities of the Academy have decided to hold another exhibition of books pertaining to nationalism, politics, economics and other allied subjects in which the two great leaders took much interest, on the occasion of Netaji Subhas Chandra's forthcoming Birthday Anniversary.

The decision was disclosed before the Pressmen and eminent Bengali litterateurs including Shri Monoj Basu, Dr. Srikumar Banerjee, Shri Narendra Deb and others whose advice and instructions were sought for in this regard.

Shri Hemendra Prasad Ghosh, the octogenarian journalist, assured the Organizing Committee all possible help in holding the exhibition at least by furnishing available references and information. Shri Ghosh also inaugurated the exhibition of periodicals.

Shri Amiya Nath Bosc, Bar-at-law, extended a vote of thanks on behalf of the Academy.

A separate section will be attached to exhibit books and picture albums published from time to time about the life and activities of Netaji Subhas. Books of all the Indian languages would be accommodated there.

If the exhibition proves a success it would no doubt upgrade the Bengali language which was once enriched by the writings of great architects of nation like Rabindranath, Bankim Chandra and many others.

The Netaji Research Bureau, another organization within the Academy has already advanced much with the acquisition of several authoritative books as well as documents which would also be opened to the public on this occasion. The recent acquisition is a car riding on which Netaji left his Elgin Road residence while escaping from Calcutta in 1941.

BRIGHTER CALCUTTA DURING PUJAHS

Better illumination of city streets and the Bathing Ghats on the river Hooghly particularly on the Immersion Day was emphasized by Councillor Mihirlal Ganguly, the Chairman of the Public Utilities and Markets Committee, while discussing on matters of public importance, at the weekly meeting of the Corporation on Friday, the 10th October.

Councillor Ganguly said that it was at the initiative of that Standing Committee as well as of the Boroughs and local Councillors, the Corporation was able to illuminate the in a better way during the last year Pujah. The Standing Committee has similarly suggested to make a still better illumination this year and he hoped that co-operation would not be wanting from the citizens, Aldermen and Councillors and officials, in this regard. He requested the Mayor and the Deputy Mayor to attend meeting Sub-Committee, of the that appointed in connection by the Standing Committee, scheduled to be held on Saturday, the 11th and Monday, the 13th instants. The Chairman invited suggestions from other members. He also suggested for distribution of work among the Councillors who would look after the emergency steps in case of need in district-wise basis.

It may be noted here that the Standing Finance Committee, in consultation with the Standing Public Utilities and Markets Committee, has sanctioned Rs. 20,000|- for the purpose. During last year it was Rs. 16,000|- only.

In the meantime, arrangements are being made to switch over to the electric lights instead of gas lights as the city had experienced a temporary suspension of gas supply resulting in darker streets and lanes. The need for speedy conversion work from gas lamps into electric lights in phases in different parts of the city, has also been recommended by a Special Committee appointed by the Corporation to study various implications arising out of the uncertain condition of the supply of gas for the lighting purpose as well as to guard against any such contingency in future.

The three-member Special Committee, consisting of Deputy Mayor, Shri K. C. Basu, Councillors Usha Nath Sen and Anil Moitra, was of opinion that though the state of emergency created by the stoppage of gas supply might not be there just at that moment still there was no guarantee for the future.

The Special Committee met on the 1st October last and thought of various ways and means in this regard. That day's meeting was also attended by the Chief Executive Officer, Shri P. C. Majumdar, Shri A. K. Sen, Chief Engineer, Shri P. Mitra, Finance Officer and Chief Accountant, Engineer, Calcutta Traffic Police, the Deputy Commissioner of Police, Traffic and other officials. The Special Committee went into the pros and cons and other complications of the conversion programme.

The Special Committee opined that it was not possible to convert the existing 8,000 gas lamps into electric lamps in a short period. It, therefore, recommended that to start with the scheme, gas lamps should be replaced by the electric lamps at the strategic points, as pointed out by the Lighting Department, as quickly as possible. This, was essential at least on the issue that traffic conditions might not be hampered and the areas might not be in complete darkness. The Lighting Department under the direction of the Committee and in consultation with the Traffic Department of the Calcutta Police has prepared a list of the strategic points where electric lamps would replace gas lamps. The total cost for the work was estimated to be about Rs. 4 1|2 lakhs. A provision of Rs. one lakh for the purpose has been made in the budget. As regards the balance of rupees three and half lakhs, it recommended that the Standing Finance Committee should arrange for the provision of funds and this should be given top priority. The Committee appealed to all the Boroughs to release some of their funds for financing the scheme.

The Special Committee emphasized that the Lighting Department should take immediate measures for using tramway poles for street lighting purposes. A comparative study showed that the annual recurring cost for an ordinary gas lamp amounts to Rs. 76|- while that of an electric lamp is Rs. 54|- in Calcutta proper and Rs. 43|- in Tollygunge area.

The Committee further stressed the need of immediate utilization of 722 poles of the Calcutta Electric Supply Corporation for lighting purpose. It also requested the Electric Supply Corporation to get in touch with the authorities of the Port Commissioners to impress upon them the urgency of conversion of gas lamps into electric lamps on the streets in Port Commissioners' area.

With regard to the question of issuing legal notices to Oriental Gas Company for their failure to supply gas for properly lighting gas lamps the Special Committee felt that as the supply of gas was not quite according to proper schedule, a notice should be served on the Company. Such notice should be on the lines that as the Company had failed to comply with the contractual agreement and obligations with the Corporation in having a short supply of gas for lighting the streets in the city and suburbs properly, the Corporation has to make other arrangements to meet the situation arising thereof. All possible expenses to be incurred by the Corporation should be charged on the Company. In this regard the opinion of the Chief Law Officer was sought for.

However, the Special Committee could not sit idle and directions were given to issue work orders to the approved contractors. We are to watch and see how the recommendations, now placed before the Standing 1 mance Committee, take shape.

'NO STADIUM NO FOOTBALL'

Expressing anxiety over the increased number of accidents that occurred recently while an important football game was played in the Maidan, Councillor Dr. P. K. Roy Choudhury urged the House that Corporation should lose no time in installing a stadium for the football fans in the city. He found no reason why Calcutta should be left behind in this regard while other cities in India had been able to do so. Councillor Dr. Roy Choudhury narrated in this connection the role of this city in the sporting world,—both in the past and at the present.

The difficulties might come from the State Government due to the fact that the existing Sports Act had fully empowered the Government in this matter, he apprehended. The Deputy Chairman of the Standing Finance Committee, also thought of financial difficulties. He, however, suggested that this might be tided over by raising Debenture Loan for this specific purpose from among the lending public.

As regards the Government objection, Councillor Dr. Roy Choudhury also thought that a five-man Special Committee might be appointed with the object of obtaining necessary permission from the State Government as well as selection of site for the purpose. Originally the Congress Exhibition Park, in the Park Circus area, was selected as a site for the purpose by a Special Committee appointed by the Corporation. Dr. Roy Choudhury also approved the same site. The Special Committee was to include the Mayor and the Deputy Mayor, two leaders and the mover himself.

The incident referred to by Councillor Dr. Roy Choudhury, is given herewith. Citizens' enthusiasm went high when crying "No stadium, no football", a batch of soccer fans, led by ace footballers, Shri Anil De and Shri Gosto Pal, staged a demonstration before the I. F. A. Shield Final on Friday, the 20th September last. The fans echoed the views

expressed by several writers and football organisers in the State.

The demonstrators appeared to raise the hopes of the number of enthusiasts who formed a long queue in front of the joint Mohun Bagan-East Bengal ground, the venue of the match. There were no gate crashes but several spectators on tree tops and the statues round about the Maidan fell down receiving injuries. They were there to witness the final play. Many of them could not get tickets for entry into the field.

It may be noted here that against a few thousands fortunate who succeeded in securing tickets to get into the enclosure, at least thrice that number crowded outside. Hence the demonstration of the sporting fans demanding an all-embracing Stadium

RECEPTION TO MIHIR SEN

Calcutta Corporation should shortly arrange a Civic Reception to Shri Mihir Sen, the Calcutta Lawyer, who is believed to be the first man with a beard ever to complete the swim in the England-to-France direction. This was suggested by Councillor Mukur Sarbadhikary at the Special Meeting of the Corporation on Tuesday, the 30th September. A motion to that effect has also been tabled by Councillor Sarbadhikary at the weekly meeting of the Corporation describing Shri Sen 'as the first Indian to cross the English Channel and for his unique feat.'

Shri Sen landed in France on the 27th September last after swimming the English Channel. His time was 14 hours 45 minutes. He entered water at about noon the day before.

The Reuter's message added that he reached the French coast at dawn. But he had to wait on the beach because the sea was too choppy for his escort boat to be launched to bring him back to Dover.

In earlier years he had made three other vain attempts. He had already made two unsuccessful attempts to swim the Channel during this summer.

for the city where the out-door games could be played with an appreciable number of visitors in proportion to the increased number of population in this city. The demand is not a new one. Football fans had made demands for long for the same. The Corporation took an earlier move but difficulties cropped up.

A Sports Bill was passed a few years back under the auspices of the State Government who took up the initiative in erecting a Stadium in the city. A site was also selected then in the Eden Gardens where a private concern was already in possession and a stadium-like structure was built by them. Litigation and counter-litigation stood in the way in the implementation of the plan.

Since then a long gap came up. But the thirst of the football fans for the same did not fade away, rather occasional demands were not totally absent. A Stadium Demand Committee with popular representatives were also set up to keep the light burning. Many of the Councillors also raised the issue in the Council Chamber but little effect produced in it since then.

Happily taking a special initiative in it the Calcutta Improvement Trust has recently submitted a detailed scheme for development of the Dhakuria Lake by way of providing more amenities of modern life there, to the West Bengal Government. The total cost is estimated at Rs. 30 lakhs.

The scheme includes construction of a stadium for football and other out-door games, a gymnasium, three swimming pools of which one will be exclusively reserved for ladies, a cafetaria, a picnic island and tennis courts.

The stadium will involve an expenditure of about Rs. 18 lakhs and have an accommodation for about 9,000 spectators. It will be an open stadium which will be meant for football, hockey and some more games other than cricket. There will also be tracks for cycle races and so on. It will not be very big and will cater to the needs of the organizers of zonal games and sports.

The scheme has received the general approval of the State Government but the final sanction is still awaited.

The second swimming pool will be built on international standard for the purpose of holding competitions. The third one will be a composite pool both for ladies and gents.

Provision has also been made in the scheme for purchase of a number of boats to be let out to the people wanting them for rowing and visiting the picnic island.

The Trust has approached the Centre for a grant for the construction of the same as Dr. K. L. Shrimali, the Union Deputy Minister informed some time ago in the Lok Sabha.

Now the citizens are to wait and see how the scheme is being implemented and Calcutta's stadium is built up. Still doubts are there.

DEATHS AND DISEASES IN CITY

During the week ended the 4th October last five people died of cholera in the city against two the week before. The number of attacks increased from the previous week's four to twelve.

There was no attack or death from small-pox in the city during last week. There were 37 deaths from T.B., against 36 the week before.

Enteric took six lives against seven during the last week.

Deaths from all causes totalled 634 last week, the previous week's figure being 647.

RED FEATHER DAY

The Day was observed in the city when street collections in aid of the Chesire Foundation Homes were made on Saturday, the 4th October last. About 250 volunteers were out with boxes.

In aid of the organization's Serampore Home where there are 20 patients, considered "incurable" the collection was made. The Home has 40 beds. The Foundation runs Homes also in New Delhi, Dehra Dun, Bombay, Jamshedpur and Katpaddi (Madras).

Personalia

DR. J. P. NARAIN IN CITY

DR. JAYA PRAKASH NARAIN, the Sarvodaya movement leader, had recently visited this city. For a three-day stay, he had arrived in Calcutta by air from Bombay, on Saturday, the 4th October last. He was accompanied by his wife Shrimati Satyabati Devi. At Dum Dum he was given a great ovation by the citizens including the members of the Jaya Prakash Narain Reception Committee, under the Chairmanship of Prof. N. K. Siddhanta, Vice-Chancellor, Calcutta University.

On Sunday, the 5th October, Shri Narain addressed a largely attended public meeting on the Maidan. He held that 'cold war' or 'small war' between power blocs would continue. But even then that could be effectively countered by firm neutrality and solidarity between the Afro-Asian countries. He also ruled out the possibility of another world war except by accident. No country would dare start, deliberately, a world coffagaration in disregard of a world conscience opposed to it, he said.

The meeting, which was organised by the Reception Committee, was presided over by Shri Sankardas Banerjee, Speaker, West Bengal Assembly.

At a Press Conference on that day, Shri Narain also gave his "tentative impressions" of his recent tour to West Europe, and Poland, Yugoslavia, Israel and other West Asian countries.

The surrender of proprietary rights in business by about half a dozen people in the U.K. to their employees or to society seemed to him to be the application of the trusteeship concept and India could benefit by the practical methods applied there. But the values of a capitalistic society still remained. Socialist leaders were conscious that the ideas and methods of the *sarvodaya* movement

BANGA BHASA PRASAR SAMITY'S ACTIVITIES PRAISED

Both Indians and foreigners, about sixty-five persons were awarded prizes and vested with Certificates of Merits for their proficiency shown in learning Bengali at the Twenty-first Annual Convocation of the Nikhil Bharat Banga Bhasa Prasar Samity. The function was held at Ballygunge Government High School, southern part of the city recently, with Shri P. B. Chakravarti, retired Chief Justice, Calcutta High Court, in the Chair. Mrs. Takeuchi, wife of the Japanese Consul-General in Calcutta gave away the prizes

Shri Chakravarti said that the Samity was trying to create a greater Bengal in the field of language by imparting knowledge of Bengali among the non-Bengalees and foreigners.

Welcoming the guests, Dr. Atul Chandra Gupta, President of the Samity, said that for the achievement of national unity the people of different States in India should try to learn as many languages as possible. The dissemination of Bengali language, he said, would establish friendly relations among the Bengalees and the people of other States.

The General Secretary said in his Report that arrangement had been made in fourteen Indian Universities to teach Bengali and soon a Bengali class would be opened in the Ernakulam University.

were very relevant in their task for realisation of spiritual and cultural goals. How these could be applied, Shri Narain could not say, but believed that "out of this quest something of value will emerge."

Speaking at a reception given him by Sarvodaya Karyalaya at the Calcutta University Institute Hall on Tuesday, Shri Jaya Prakash Narain said that in India industries should be set up in villages so that people in the rural areas could find employment. If an agro-industrial community were developed it would certainly go a long way to stop migration from villages, he asserted.

Prof. N. K. Siddhanta presided.

LOK SABHA SPEAKER HALTS IN THIS CITY

Shri Anantasayanam Ayyangar, Speaker of the Lok Sabha, had arrived in the city on the same day on his way to Darjeeling to preside over the Speakers' Conference there from Delhi. Sardar Hukum Singh, Deputy Speaker, also arrived in the city the previous day.

The only function, the Speaker participated was a symposium on 'Parliamentary Democracy' organized by the University students in the Senate Hall, Calcutta University, on Monday, the 6th October.

'India', he said, had rightly chosen parliamentary democracy instead of one-party rule followed in Soviet Russia and China. Democracy had certain weaknesses but, taken as a whole, it was definitely better than other forms of Government.'

In that regard he requested the young people of the country to understand the form of Government which India had accepted, because he said that sovereignty was in the hands of the people. If they did not like the Government they could throw it out in the next election. Because of the country's strict adherence to the democratic form of Government political parties had been allowed to grow as they like, added the Speaker of the Indian Parliament.

While giving an indifferent look towards the governments of China and the U.S.S.R., Shri Ayyangar said that there was another form of democracy which was practised in the U.S.A. But this form, under which the President was not responsible to the legislature, presupposed greater political consciousness. In India, where a large number of people were yet to be literate, the U.S. system might lead to Dictatorship, he boldly said.

EXHIBITION OF PAINTINGS

Under several institutions exhibitions arranged in the city in different corners. An exhibition of over 70 paintings and drawings by Shrimati Gouri Das Gupta was opened to the public, at Artistry House, Calcutta recently. The paintings revealed influences of the Indian School of Acharyya Abanindranath and Acharyya Nandalal Bose. As a young painter of brief experience she could follow the styles of old masters. The tendency to copy Rajpur paintings was also deplorable. She showed interest in illustrating stories and her treatment of tempera in large decorative canvases is hard and unattractive, full of awkward and laboured designs of uncertain proportions.

Another exhibition of handiworks of students of industrial centres run by the All-India Women's Conference was opened at Palit Street, on Thursday, the 2nd October last. Specimens of needlework, painting, modelling, weaving and leathercraft were displayed at the exhibition.

THE CORPORATION at WORK

A GIST OF PROCEEDINGS OF THE TWENTY-THIRD ORDINAY MEETING OF THE CORPORATION HELD ON FRIDAY, THE 3RD OCTOBER, 1958.

COUNCILLOR DHIREN GHOSH

The House granted leave to Councillor Dhirendra Nath Ghosh, a senior member, for a further period of three months from 1st October, 1958 on grounds of ill-health. Councillor Ghosh was granted leave of absence from attending Corporation meetings previously on the same reason and it started since 30th October, 1957. The last leave granted to Shri Ghosh was from the 2nd May till 30th September.

According to the Municipal Act, if a Councillor or Alderman fails continuously for a period of six consecutive months to attend the Corporation meetings, "except when failure is due to reasons considered sufficient by the Corporation to justify such failure"... the Councillor or Alderman ceases to be so with effect from the date on which the State Government declares the seat to be vacant.

A section of the House could not at first identify themselves with the idea of granting long leave and to deprive the rate-payers from their representation in the Corporation. But this was granted when Councillor J. L. Saha, M.L.C., said that the members would ask Councillor Ghosh to resign, if after the expiry of the period of the leave asked for he was found unfit to shoulder a Councillor's responsibility. At the request of the Mayor, the House eventually granted the leave.

A THREATENED STRIKE

About 400 workers of the Corporation, mostly sweepers and drainage labourers, working in the Tollygunge area, have threatened to strike from the 16th October next if their demands are not conceded in the meantime. This was referred to in the weekly meeting by Councillor Prasanta Kumar Sur, who wanted that the Corporation authorities would try to meet their grievances as far as practicable.

One of the spokesmen of the Corporation Workers' Union said that since the merger in 1953 of the Tollygunge Municipal area with the Corporation the workers there had made repeated representations to the authorities for the pay and other service conditions which other Corporation workers get. A Corporation sweeper or another worker of a similar category usually gets Rs. 64|- as the minimum total emolument a month but a worker of that category in the Tollygunge area gets between Rs. 20|- and Rs. 44|- only. Women workers in Tollygunge did not get equal pay with men as they did in all other areas of the Corporation. Tollygunge workers had no leave or provident fund benefits, he added.

A CASE OF QUALIFICATION RELAXATION

The House, on the recommendation of the Standing Finance Committee, resolved that prescribed qualifications might be relaxed at the discretion of the appointing authority in favour of the confirmed

employees for appointment in the posts of officers referred to under Section 76 of the Calcutta Municipal Act, 1951, and also to those officers whose maximum salary exceeded Rs. 1,500-per month.

This rule would be applicable in all cases of acting appointments for a short period not exceeding six months in temporary vacancies due to leave, deputation, or against permanent vacancies pending substantive appointments.

NEW MARKET PLACES

The House on the recommendation of the Standing Public Utilities & Markets Committee, declared the following sites as market places within the meaning of certain sections of the Calcutta Municipal Act, 1951, and by virtue of the Rules framed in this connection. These sites contain more than 30 shops and satisfy other conditions also.

- (1) No. 5, Circular Garden Reach Road,
- (2) No. 13, Nirmall Lohia Lane, and
- (3) No. 159|1B, Rash Behari Avenue.

RETENTION OF VACCINATORS' SERVICES

The House, on the recommendation of the Standing Health Committee, finally decided that the temporary vaccinators would be given one more chance to appear at the examination to be arranged shortly by the Health Officer. It was also agreed that permanent vaccinators who failed to appear at the examination were expected to sit for it.

The Standing Health Committee also thought of issuing separate certificates to the vaccinators who had passed the Inoculation Examination and requested the Health Officer to look into the matter.

ASSISTANT TEACHERS

The House, on the recommendation of the Standing Finance Committee, retained the services of the Assistant Teachers appointed during the period from July, 1956 to March, 1957. It also resolved that these teachers should be allowed to continue on a temporary basis till they successfully completed the Teachers' Training Course. The time-limit for completing the training should not exceed five years.

Councillor Tulsi Pal alleged that corruption and mal-practices might have acted behind those appointments. He requested the Mayor to discover how many appointments had been made by the authorities on the insistence of individual Councillors.

The Corporation further authorized the Standing Finance Committee to make a thorough probe into all the appointments made during a specified period and to submit a report before the House.

A section of the House alleged that 44 candidates who did not possess the required qualifications had been apointed as teachers in the Corporation Free Primary Schools by the authorities.

Problem-Ridden Calcutta Is Yet Destined To Make Good

[By Dr. Tricuna Sen, Mayor of Calcutta]

West Bengal has been described as a problem-State, and Calcutta decried as a night-mare city by some of her own countrymen, as well as by some foreigners. Some people think that West Bengal has not wholly adopted the all-India approach to politics.

But, in maligning West Bengal, it is not fair to her to forget or overlook the historical facts through which West Bengal had to wade, during the last few years.

West Bengal has, many problems to face, not the least being the smallness of her area and the density of her population, second only to Kerala in both, in the entire Indian Union. Think of Calcutta alone-a city which has to accommodate nearly a fifth of the entire population of the State, with the magnetic attractions of ever-demanding industry and commerce. Calcutta's advantages have an all-India basis, but her liabilities, it appears, are all her own.

And Calcutta, even in her happier days, was no better than an unplanned city, imposed on a narrow strip of land as the result of an accident in history. It does not help anyone to be told, now and then, by some foreigners and many of our own leaders, that Calcutta is a derelict anomaly of a city. To this original sin of Calcutta has been added the evils of decades, of varied interests, of ignorance and callousness, selfish greed and incompetence, and all this has been heightened by the sudden and overwhelming calamities brought about by the Partition of Bengal.

Perhaps no other city in India, or elsewhere, except Stalingrad or some of the German cities during the War has suffered so much, and laboured so much for recovery from these maladjustments as Calcutta has done. We must remember the demoralisation of the years of the War, the first influx of refugees from Burma, the terrible devastation of the Famine of 1943, the cruel inhumanly the Great Killing of 1946, and then following in its wake, an almost eternal inflow of homeless persons from East Pakistan-all these have contributed in making Calcutta's always-precarious stability, basically uncertain.

LIFE-STREAM AT LOW EBB

Now, Calcutta's life-stream, the Hooghly, is dying, and we do not know who is the new Bhagirath, who is going to have this riverine city and the lower reaches of the delta from the clutches of the invading salt-swamp. The misery of West Bengal with an ever-increasing mass of jobless and homeless people is like that of England in the hungry 'forties' of the last century. And the moral helplessness can be compared to that of the Reign of George III in England. These little historical parallels may help in bringing about a spirit of understanding and sense of kindly tolerance in those who are too ready to accuse and damn West Bengal. With more than 12 lakhs of unemployed and at least 30 lakhs of homeless persons, politics in the State is bound to be perpetually restless and high-pitched.

The common man in Bengal has, since the early Swedeshi days, a real and urgent zest for

polities. If the intellectually and politically conscious, and perhaps a little dis-illusioned Bengalee, finds that life in his motherland become seriously upset, and disturbed since Independence and the Partition, and he cannot find peace and stability in his home, can he, in all justice and fairness, be blamed as an incorrigible malcontent? Nostalgia for the past, when life had seemed to be full of promise, now troubles the life of West Bengal, and this possibly cannot be felt anywhere else, to this acute degree.

FRUSTRATION

The comparative increase in prices of the essential commodities in Calcutta, and the physical and psychological effect of lack of space, only serve to aggravate the bitter sense of frustration and disappointment of the people in their suffocating and almost helpless existence at present. In every sphere of life, West Bengal, which had been in the vanguard of the cultural and revolutionary movements of the county, looked forward to the expected changes promind by the national leadership, which are yet unfulfilled and now have little chance, the people feel, of ever being fulfilled. This is the core of the problem of West Bengal's sickness, and it needs knowledge, sympathy, patience and resources to bring about a cure.

That is my sincere feeling, for my State and my City. And I hope that in giving expression to it, I have not offended anyone purposely. And, I have hopes that if we, the servants of our country and our society, are allowed, with some time in hand, to have the right kind of opportunities and resources, we can solve many of the immediate problems that are staring us in the face-watersupply, drainage, conservancy service, sanitation, salinity of water, roads and lighting; and I feel we shall be able, in the near future, to make our city and our country worth-living in for the average human being.

We are not altogether a bad people!

CITY · NEWS · PARADE

SPANISH NATIONAL DAY was celebrated in the city with a film show of that country and Reception to the Spanish nationals in the city on 1st October last, at the residence of the Vice-Consul of Spain, Mr. P. N. Ray Chowdhury in Alipore.

Shrimati Padmaja Naidu, the Governor of West Bengal, sent her good wishes to the Spanish nationals in this city on this occasion.

A BENGALI POETS & WRITERS' CONFERENCE was inaugurated by Janab Humayun Kabir, Union Minister for Scientific and Cultural Affairs, on Saturday, the 4th October last. The conference, was organized by the Sahitya Tirtha. An exhibition of about 200 books of poems by over 100 poets of the post-Tagore period was opened at Manmathanath Mallick Smriti Mandir on Pathuriaghat Street in that connection. Shri Upendra Nath Ganguly, well-known fiction writer, presided.

Janab Kabir deprecated the idea of levelling literature as progressive or conservative, right-wing or left-wing, old or modern. He feared that insistence on labels would curtail that freedom of expression which was essential for precative literature. Even with a conviction in a certain way of life a poet or a writer might create literature of permanent value provided this freedom was guaranteed.

Shri Ramendra Nath Mallick, Secretary, said that the Tirtha was a centre for promotion of Bengal literature.

A Reception to Shri Rajsekhar Basu was given on behalf of the Tirtha. Shri Bhawani Mukhopadhya, spoke on Modern Bengali Short Stories. Literary participants were Shri Sailajananda Mukherjee, Shri Dhakshina Ranjan Basu, Shri Susil Roy, Shri Saroj Kumar Roy Chowdhury, Shrimati Ashapurna Debi, Shri Manoj Basu, and others.

R. G. KAR MEDICAL COLLEGE EX-STUDENTS' ASSOCIATION'S SILVER JUBILEE CELEBRATION was inaugurated on Saturday, the 4th October last by the State Chief Minister, Dr. B. C. Roy. Dr. Roy advised the members to remember the great sacrifice and service behind the growth of the institution. They should not miss any opportunity for doing constructive work.

"Be worthy of the trust your patients have in you", the Chief Minister said. Earning a livelihood was not everything that mattered in life. If they could devote themselves to the cause of service, theirs would be a fruitful and glorious life. This would also glorify the college, Dr. Roy said.

Dr. A. B. Roy, State Health Minister, said that he was sure that the institution would continue to flourish and be a fitting memorial to its illustrious founders.

Dr. R. Dutta Choudhuri, President of the Association, suggested that admission in three Government Medical Colleges in Calcutta be made from a common pool, a single Committee interviewing and selecting students for all the colleges. He pleaded that service in all three Government Medical Hospitals should be made uniform.

Dr. H. K. Indra, Principal of the College, said that although diet and certain other things in the hospital had recently been improved, a lot remained to be done. Immediate steps should be taken to supply essential equipment, and to pay adequate remuneration to the staff.

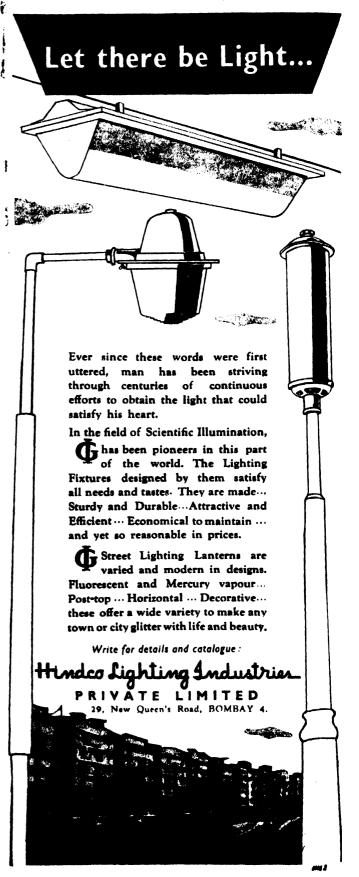

HOUSE COLLAPSES & ACCIDENTS: A 60-year old woman was seriously injured and admitted to hospital when a double-storeyed mud hut in Hari Bose Lane, in North Calcutta, collapsed on Friday, the 3rd October last. The Fire Brigade extricated her from the debris.

The owner of a pan-shop on Chittaranjan Avenue, and his companion were seriously injured when brick and mortar from the roof of a five-storeyed building in which the shop is housed fell on their heads on the aforesaid day.

A woman fell from the second floor of her house in Raja Rajballabh Street, North Calcutta, on Thursday, and was admitted to hospital with several injuries.

Four people, including two women, sustained burns when some inflammable liquid caught fire in an electrical repairing shop on Princep Street, Central Calcutta, on Saturday, the 4th October last. Three of the injured were taken to hospital.

A five-year old girl was drowned while bathing in a tank in the Entally area, Calcutta, on Thursday, the 2nd October last.

VIEWS AND REVIEWS

PUJAH APPROACHES IN CITY

The greatest religious festival of Bengal, THE Maha Pujah will be celebrated in this city with due pomp and grandeur forthwith. The festivities have already on the start on this very day, the Maha Sasthi. In other words this is the greatest national festival and the beginning of the autumnal festivities with bright sunshine and other accompaniments. People's heart fill with special attractions for the near and dear ones and this they express through substantial presents from the seniors to the juniors. It is the occasion for the annual re-union not only among family members but also among kith and kins as well as the friends and distant relations. Even the poor people of the locality are not exempted from those enjoyments and merriments.

Besides, the Mahapuja has a special significance from the religious point of view. The Goddess Durga, the source and support of strength, manifests herself before us in innumerable forms. Offerings are made before Her in different ways which are not easy to perform for common men. The Goddess is worshipped by thousands irrespective of their personal religious fervers.

Similar to previous years the Goddess Durga will be worshipped in this city with due solemnity. Along with the four of Her children, she would be in this mortal world according to the Scriptures. As this being the image worship, there is an opportunity of playing one's imagination as well as to present an object of art to be appreciated by all. Modellers and painters are working round the clock on those images to give the last minute touches. These would be a few ideal images attracting thousands of visitors.

The state of the s

In addition to the individual worship of dieties there will be nearly 500 Sarbojanin Durga Pujah celebrations all over the city this year, according to an estimate of the city Police. With a view to perform those celebrations in a smooth and peace ful manner, Puja Co-ordination Committees' have been set up in different localities at the initiative of

NOTICE.

"THE CALCUTTA MUNICIPAL GAZETTE" will not be published for the next two consecutive scheduled dates, the 25th October, and the 1st November, 1958, on account of the Pujah Holidays.

The Market Prices Current will, however, be issued on those dates.

The next issue of the 'Gazette' will appear on the 8th November, 1958.

the Police. City's Legislators and important citizens have requested all to abide those decisions of the local Committees. In the meantime, the Police has set up temporary Public Relations' Camps in many of the city's parks for better co-ordination work.

Better and brighter lighting of the city's streets' is the motto of the Corporation's Standing Public Utilities & Markets Committee. A special Sub-Committee has also been appointed for the purpose. The Special Committee met on Monday, the 13th instant to formulate a comprehensive plans for better illumination during the Pujahs. All Pujah pandals will be illuminated and fire protective measures would also be taken. Bathing Chats on the river bank would be better lighted on the

immersion day, the 22nd instant. The Municipal markets are now decaded with more powerful electric lamps so that shops there might attract a larger number of prospective Pujah purchasers. Arrangements have already been made to supply an increased quantity of filtered water spreading over longer periods. Temporary water connections would be given to many of the Puja pandals erected in city's parks, squares and open spaces. Conservancy services are expected to be more prompt. Officials in different essential services under the Corporation have been detailed for coordination work in extending civic amenities during the ensuing holidays.

On the other side of the picture, long queues of people waiting at midnight before the Eastern Railway Booking Office at Fairlie Place indicate that the Pujah exodus from the city is already heavy. The rush has been increased from the 17th October, two days before the Pujahs and would continue for about 10 days.

DR. B. C. ROY LEAVES FOR THE WEST

The State Chief Minister, Dr. B. C. Roy, left for New Delhi on Monday, the 13th October evening on way to Europe and America. He was seen off at Dum Dum Airport by some of his colleagues in the State Cabinet and high officials. Others, who were present at the airport to bid him goodbye. included the city's Mayor, Dr. Triguna Sen, the Sheriff, Shri S. C. Roy and the Ex-Mayor, Shri Satis Chandra Ghosh.

Dr. Roy is expected to return to Calcutta by the end of November. In the meantime there has been a re-distribution of his portfolios among his colleagues.

But the most formidable thing in the merryments is the hard pecuniary circumstances which compels one to have purchases within limited scopes. Prices of essential commodities are already on the increase. The price of rice of all kinds has gone up further. Dals too are more expensive. Arhar, musur, and mug seem to be more dearer.

Predicting bazar prices is as risky as predicting the weather, and although some prices have been moderated since last week, most items still hover near the high and very high mark.

In the circumstances, it is difficult for the common people to buy on his own liking within limited pockets.

NEW CHIEF JUSTICE OF CALCUTTA

Mr. Justice Kulada Charan Das Gupta, I.C.S. of the Calcutta High Court, has been sworn in as Chief Justice on Sunday, the 12th October. The ceremony was held in the court room of the Chief Justice. Mr. Justice S. Lahiri, next seniormost Judge administered the Oath.

Mr. Justice Das Gupta, who is 58, is the first member of the Indian Civil Service to become the Chief Justice of Calcutta High Court.

Mr. Justice Das Gupta had a brilliant academic career both in India and in England. He stood first in the Matriculation Examination of Calcutta

University in 1916 and graduated from the same, securing a First Class and standing First in Economics. In 1921, he joined Cambridge University and obtained a First Class in Economics.

He joined the I.C.S. in 1923 and served as a judge in several districts in Bengal. He was called to the Bar in 1938. He was Registrar, Calcutta High Court, in 1942 and held that post again from 1944 to 1948. In May, 1948, he was appointed a Judge.

Chief Justice Chakraverty The retiring attained the age of 60 on the 11th October. Born of a very well known pundit family in his ancestral home at Jaymangal, Dacca, now East Pakistan, he was a brilliant student of Calcutta University. He passed the M.A. examination in Class I and thereafter acted as a Professor in Ripon College, Calcutta and Jagannath College, Dacca. In 1924 he became a Bachelor in Law. He was for 18 years, in charge of the law reports known as Calcutta Weekly Notes. As an Advocate he appeared in many notable cases, among them the Bhowal Sannyasi case and the Bijni Raj Estate case are worth mentioning.

In 1945 he was raised to the Bench. In 1949 he became a member of the Income-Tax Inquiry Commission appointed by the Central Government.

On May 1952, Shri Chakraverti was appointed acting Chief Justice of Calcutta High Court in which post he was confirmed on June 13 that year.

In the sudden death of Dr. Harendra Coomar Mookerjee, 1956, Mr. Justice Chakraverti was appointed to act in his place as the Governor of West Bengal.

Besides being learned in law, he has the reputation of being an erudite scholar in both English and Bengali.

We extend our felicitations to both of them on this occasion.

SERVICE CHARGES

The question of payment of service charges in respect of Union Government buildings and properties in the city was discussed on Monday, the 13th October, as scheduled, at the office of the Director General of Disposal and Supply, Calcutta Branch. The triparty conference being attended by the representatives of the Union and State Governments as well as those of the Corporation, could not reach at an agreement as to the proper rate percentage to be determined for the purpose of assessing those buildings and properties. The Corporation representatives including Councillor K. L. Dhandhania, Chairman, Standing Finance Committee, Shri P. C. Majumdar, I.A.S., Chief Executive Officer and other officials wanted that payment should be made at the basis of 20 per cent. of the rateable valuation of buildings as originally suggested by the State Government. The Union Government representatives, however, persisted on to fix the rate not more than 18 per cent. According to the Corporation's calculation its dues has amounted to more than One Crore of Rupees, out of which an ad hoc payment has already been made.

The matter of fixation of rates has been hanging for a long time since as early as 1935 and the Union Government had in an earlier communication informed the Corporation agreeing to fix the rate at 15 per cent. of the rateable valuation of all their buildings and properties lying

within the chands of the city. On different occasions the superation had estimated the arrest dues on various terms. Even there were inflated incomes in the Budget Estimates due to this. Occasionally the Mayor, Dr. Triguna Sen had to intervene in this whenever he had the chance to meet the Union Finance Ministers.

The information of holding the conference was apprised to the members of the House by Councillor Dhandhania at the weekly meeting of the Corporation on Friday, the 10th October last.

SHAMSUL HUQUE IS DEAD

We deeply regret to announce the death of Janab Shamsul Huque, a former Deputy Mayor of Calcutta, at his city residence on Tuesday, the 14th October, after a protracted illness. The late Huque was also elected to the West Bengal Legislative Assembly at the General Election of 1952, as a Congress nominee. At the time of his death he was over 80 years.

Elected to the Corporation as an independent candidate, the late Janab Huque was a Corporation Councillor for long years even more than quarter of a century from Ward No. 14 without a break. He also represented from the same area in the Legislature. He was elected Deputy Mayor in 1945. Before that he was member of many important Standing Committees. On the last General Election in 1957, the late Janab Huque fought as an independent candidate but lost.

A close associate of Sir Surendra Nath Banerjee and Deshbandhu Chittaranjan Das, the late Janab Huque had been interested in politics since 1905 and never changed his political faith. He was a member of the Calcutta Minority Board, the Evacuee Property Management Committee, the Regional Transport Authority, and was connected with various social service organizations.

He was a well-known business man and landholder in the city. He had a humble beginning in his life. He hailed from Kanderpara, District Khulna, now under the East Pakistan.

The Corporation offices were closed for the rest of the day as a mark of respect to his memory on Wednesday, the 15th instant. The meetings of the Standing Committees were also adjourned on Tuesday and on the next few days.

We extend our sincerest condolences to the members of the bereaved family.

METROPOLITAN WATER AND SEWAGE BOARD

To-day the prime need of the world health is how to get rid of epidemic diseases particularly from the South East Asiatic countries. This was intensely discussed at a recent conference of the World Health Organization of South Eastern countries in New Delhi. In that connection a discussion on the Memorandum submitted by the West Bengal Government as regards supply of potable water and improvement of other environmental hygiene took the foremost position. It was discussed up to the lowest level and the concerted opinion was that substantial help would be extended to West Bengal for the execution of Rs. 100 crore scheme for the formation of a Metropolitan Water and Sewage Board for Greater

Calcutta areas covering the jurisdiction of 30 Municipalities and Local Bodies including the Conservation of Calcutta for the supply of potable water for nearly 72 lakhs people including 14 lakhs refugees.

In order to examine the long-range plan for the "safe" water supply and disposal of sewage in the Greater Calcutta area, the W.H.O. sent a Team of experts to survey the whole area. A team of technical experts of the T.C.M. also visited the Greater Calcutta areas to study the course of the Hooghly from where water would be drawn for distribution.

The Report of the Regional Director of the World Health Organization for South East Asia showed that there were 56,252 cholera cases in these countries, during the 12 months from August, 1957 to July, 1958, and of these cases all excepting 11 occurred in India and more than 60 per cent. in the Indo-Gangetic valley.

For over two years, the State Health Directorate had been considering the problem of cholera in West Bengal and in its unanimous opinion it said that until environmental sanitation in the area of Greater Calcutta was improved, there would be no solution to it.

Except for the Calcutta Corporation there is no organized system for sewage disposal in any of the Municipalities. Even in Calcutta, there is over 42,000 service privies and 'pocket' latrines. The Government of India, has also assured help for the execution of such a scheme.

After inspection of the existing conditions of water supply and sanitation in the city, the T.C.M. experts have given the opinion that large scale sinking of tube-wells, which is now being done in the State for drawing drinking water from the river was ultimately responsible for the silting up of river. They have suggested that in the interest of the river this practice should be discouraged.

It may be noted here that Mr. Dempster Meintosh, Managing Director of the United States Development Loan Fund, visited the Pulta Waterworks recently to acquaint himself with Corporation's project for augmentation of the city's water supply. He was accompanied by the Chief Engineer of the Corporation, Shri A. K. Sen. A member of the American Consulate General's staff was in the party in that connection.

Now, we are to watch over the future shape of things to happen in this country and to look forward for help and advice. . . .

-THE CORPORATION AT WORK

(Continued from Page 28)

SPECIAL OFFICER, VACCINE INSTITUTE

The House, on the recommendation of the Standing Finance Committee, decided to appoint Dr. J. M. Das Gupta, the present Superintendent, Vaccine Institute, Ballygunge, as Special Officer attached to the Institute temporarily on the present emoluments on his superannuation with effect from the 16th December, 1958, on the post created for the purpose.

concerted opinion was that substantial help would

Based on the same recommendation, the House
be extended to West Bengal for the execution of revised the present grade of the post of the
Rs. 100 crore scheme for the formation of a Superintendent, Vaccine lastitute, in order to attract
Metropolitan Water and Sewage Board for Greater right type of personnel required for the post.

THE CORPORATION at WORK

A GIST OF PROCEEDINGS OF THE TWENTY-FOURTH ORDINARY MEETING OF THE CORPORATION HELD ON FRIDAY, THE 10TH OCTOBER, 1958.

CONSERVANCY DETERIORATES

Rising on a matter of public importance, Councillor Dr. Kanailal Sarkar pointed out about the deteriorated conservancy service in the city. He said that out of 133 trucks allotted for the District IV, the southern part of the city, a good number went out of commission causing a partial dislocation of the service for the last few days. 'Garbage removal has thus become a difficult problem to-day inspite of other steps taken by the Corporation. Even the appointment of a Special Officer for the purpose would not help much, added the member representing the Chetla area.

Councillor Sarkar implored the Mayor that certain urgent measures would be necessary to have those conservancy lorries in perfect condition. Otherwise there would be a collapsing stage during the ensuing Pujahs when the service would have to bear an increased burden. According to Councillor Sarkar these could be mended at least by repairing a few trucks.

The Mayor, Dr. Triguna Sen, assured the House that necessary steps would be taken by the officials in this regard.

PUBLIC HEALTH ENGINEERS' CONFERENCE

The House selected the Corporation's Chief Engineer, Shri A. K. Sen, B.Sc. (Glas), C.P.E. (Glas), M.A.E., A.M.I.E., to represent the Corporation at the Third Conference of Public Health Engineers proposed to be held in New Delhi towards the end of October, this year. The provisional agenda of the Conference concentrate on important subjects bearing on the present and future status of Public Health Engineering Works in the States and within the areas of Corporations and so on, as well as on the future of the Public Health Engineering profession in the country.' Among other things to be discussed in the Conference are the Water Supply and Sanitation Schemes prepared during the Second Five Year Plan and the Corporation would derive much interest in it particularly at this stage when many of its schemes are going to be implemented.

The name of Shri Sen was suggested by the Chief Executive Officer, Shri P. C. Majumdar, I.A.S., who felt that 'it would be very useful if our Chief Engineer attends this conference on behalf of the Corporation'.

NEW MACHINERY AT PULTA

The House, on the recommendation of the Standing Water Supply Committee, sanctioned a revised estimate amounting to Rs. 7.6 lakhs for the supply and installation of two m.g.h. electrically driven pumping sets for the Intake Station at Pulta.

A NEW MARKET IN CITY

The House, on the recommendation of the Standing Public Utilities and Markets Committee, permitted Shri Hem Chandra Naskar, Minister,

West Bengal and Shri Jogendra Nath Naskar to establish jointly a private market at premises No. 99, Beliaghata Main Road. The sanction is provided under Section 450 of the Calcutta Municipal Act, 1951.

SINKING OF TUBE-WELLS

The House, on the joint recommendations of the Standing Health Committee and the Standing Water Supply Committee, approached the Government of West Bengal for sinking 50 three-inch dia. tubewells in different scarcity areas of the city as an anti-epidemic measure, within six months. It was further requested to the Government that the expenditure to be incurred, be borne by the Government and the Corporation equally to which the former had already agreed to. The task was entrusted to the Government as an alternative suggestion of the Chief Engineer as it could not be done within the stipulated period.

PECUNIARY STRINGENCIES

The Corporation has been facing difficulties as regards available cash balances to meet up its needs for some time past. This was due to non-fulfilment of certain commitments as well as a low rate of realization of revenue. In order to tide over difficulties the Standing Finance Committee tried its best to find out ways and means to meet the emergency, and at last suggested to divert funds from other budget heads. The Corporation accepted the recommendation of the Standing Finance Committee in the way of temporarily diverting a total sum of Rs. 30 lakhs to the Revenue Fund from the Replacement Fund, Rs. 25 lakhs and from Building Repairs Fund, Rs. 5 lakhs.

It may be recalled here that the Corporation, some time ago, wanted to discuss the issue but could not do so for want of some technical difficulties.

LAMPS FOR PRIVATE STREETS

The Corporation finally delegated to the Standing Public Utilities & Markets Committee, the powers in regard to lighting of private streets under Section 418 of the Calcutta Municipal Act, 1951.

LAND FOR MATERNITY HOME

The House, on the joint recommendations of the Standing Health Committee and the Standing Town Planning & Improvement Committee, decided to make available a plot of land measuring about two bighas and five kottahs in Dilkhusa Street, for exchange with the Government land at Hastings House, Alipore, for the purpose of housing a Corporation Maternity Home adjacent to the Urban Practice Field of the All-India Institute of Hygiene and Public Health. The date of completion of the construction of the Maternity Home has also been fixed up to the 3ist December, 1960.

(Continued on Previous Page 27).

A City's Municipal Health Administration

IM. S. BACCHI, M.B., D.P.H., DEPARTMENT OF HEALTH, CALOUTTA CORPORATION.

Prime Minister Shri Nehru said—"The object of Municipality is not merely to build fine buildings, but to build fine men and women, to build up a healthy and progressive community with co-operation and public service as ideals.

So long as poverty prevails, the community cannot be healthy. There will be disease and crime, and social upheavals. It should not seek to alleviate but root it out. The best service of the poor is to abolish them."

This opinion of our Prime Minister not only holds good for all the Municipalities in this country alone but it is applicable everywhere and for all times to come.

The scope of the Health Department in the matter of city's civic administration is limited to reach near to the objective as outlined by the Prime Minister but when the question of collective responsibility arises, this department cannot isolate itself from the rest of other agencies or departments engaged for the purpose. Of course, the task of building or converting an under-developed community into a healthy and progressive one is a tremendous job. Municipalities either big or small are unable to go ahead with this ambitious schemes under the existing system of financial arrangements. So, it is better to leave this matter to the experts to decide.

The main activities of the present Health Department are confined to the domain of Medical Relief, Maternity & Child Welfare and Public Health. The former two sections spend about 33 p.c. and 14 p.c. respectively of the total Health Budget.

Medical relief to the people is a responsibility of the State and it is perhaps one of the most important duties of an Welfare State. If this amount could be saved it might conveniently be spent for construction and maintenance of Municipal Epidemic Diseases Hospitals which are badly effective control of epidemics of all infectious and Child Welfare For Maternity service, we have 4 Maternity Homes with 158 beds. The total admission of cases in these Homes in the year 1955-56 was 13,759. On the other hand 10 maternity units that we have also are exclusively meant for domiciliary service and these units treated only 4,872 cases during the year 1955-56. During the same year total births in the city were little over 71,000. Thus, we find that the municipal institutions may only tackle about 7 p.c. of maternity cases in the city. From the above statistics it can easily be concluded that domiciliary maternity service is gradually losing its popularity among the poorer sections of the community for whom this service was originally introduced. The reasons are not far to seek. Dearth of space for confinement and the incidential expenses connected thereto have now become blems to the majority of the city dwellers. Thus it would be wise to replace these units with a number of fully equipped "Homes" with outdoor facilities.

"Public Health" Comprises the following:

- (1) Improvement of General Sanitation—which includes sanitation in private premises which may be pucca houses, bustees including huts, open lands, khatals, markets, tanks and marshy lands belonging to private owners including State and Central Governments.
 - (2) Control of offensive trades.
- (3) Control of epidemics of all infectious diseases.
 - (4) Maintenance of Vital Statistics.
 - (5) Preservation of Food Sanitation.
 - (6) Keeping up of School Hygiene.

Out of total expenditure of Rs. 6.5 crores for the year 1957-58 "Health measures" claim only 5.81 p.c. of the total expenditure which comes to Rs. 41.37 lakhs. Now, we are to find out the "Per capita expenditure" under health measures and it is obviously difficult because we do not know the exact figure of the population of the city nor it is possible to estimate the same by applying any one of the statistical methods like "A. P. "G. P. method" or "Natural increase method," method." Leaving these controversies if population in Calcutta is estimated to Rs. 45 lakhs as per the statement of our former Mayor, Shri S. C. Ghosh, the per capita expenditure on health measures comes to less than a rupee per annum. Compare this sum with that of West Bengal Government. The State budget has provided Rs. 8/6/- per capits expenditure on public health measures. On the other hand medical relief and M.C.H. Services under Municipal health measures consume about 50 p.c. of the provision of this Department leaving other important statutory services on meagre sum.

Magnitude of problem of sanitation in Calcutta is colossal. This problem is becoming more acute everyday by continuous influx of refugees from East Pakistan. (Consequently, density of population in the city is on the increase and it has already reached the figure of \$70 persons per acre or even more in the bustee areas. Density of London, the second biggest city in the World, is only 60. The City Health Authority has been asked to tackle this vast problem with 21 medical men in the service cadre and a little over one lakh of rupees annually.

As a result responsibility of maintaining general sanitation of the city lies with rate-payers and the Health Department has only to take legal action against the offenders for their failure to carry out requisitions of legal notices issued by the authorities. Effectiveness of legal provisions in the matter of improvement of sanitation depends on knowledge influencing health habit and health attitude of the people. Gradually economic condition of the people also plays an important part.

HEALTH KNOWLEDGE AND ATTITUDE

This needs a special study but there is no denying the fact that we have to go a long way to achieve a desirable standard. Ours is an undeveloped country. Percentage of literacy is too

low and the knowledge of the masses at in a sub-standard state. Congenial health attitude is yet to be developed among masses. Human attitude being partly dependant on knowledge follows a peculiar pattern of its own. Before the enactment of Law prohibit smoking in public places, the educated citizens irrespective of used to indulge treely in their status the smoking inside ill-venulated rooms without any rational consideration for the health of the others as well of their own. During mass inoculation campaign against cholera, the inoculating staff often nave to encounter a great opposition from obstinate groups of people, even he has to suffer physical assaults reward for the humanitarian service he renders. The value of vaccination in the prevention of the small-pox is known to the remotest village. But if a house to house search in the city is conducted, we find a large number of babies go unprotected beyond the primary vaccination stage. General medical practitioners knowing fully well the significance of 'Notification' hardly cooperate with the City Health Authority by notifying the cases of dangerous diseases in time.

People living in the cholera infected areas of the city do not hesitate to use the water of an affected tank even after much warning and publicity. Indiscriminate spitting is a dangerous habit and this lesson is being taught in all T. B. clinics but how many patients follow this provided at Refuse-bins have been convenient places but we often find that the area around the bin has been littered with refuse leaving the bin empty. The city has a large number of public urinals but many prefer road side drains. Places marked with notices "Please Commit No Nuisance' are favourite sites for some people for commission of nuisance. stamped meat is prohibited for sale in the city but many purchasers induce butchers to supply meat of freshly slaughtered animals. Roadside ovens and eating houses are considered by the City Authority as menace to public safety, but the people do not feel happy unless they watch preparation of the stuff before service. Cattle nuisance is serious problem in the city whereas the satisfaction of some consumers lies in purchasing the milk just extracted from the udders of the animals in their presence. Several hundred mounds of exposed food stuff are destroyed every year in the city as an anti-cholera measure but the dealers do not find difficulty in getting active support from the public for running their business.

LOWER LIVING STANDARD

Country's economic condition is known to all. Our per capita income is Rs. 284 per head per annum whereas the corresponding figure in Europe is Rs. 1,550 and in U.S.A. Rs. 5,000. According to a recent statistical survey of the United Nations, India's population is the famished in the world. So the existence of slums in the city is not because of the inherited desire of the slum dwellers to live in the particular places but because of their poverty.

Many of the city's insanitary conditions have originated from poverty of the people. Yet the Health Department of the city has to depend

on the difficultate of visitods substory provisions of the Calcutte Municipal Act for improvement of sanitation against house owners who can not and in most of the cases do not carry out the swill requisitions of our improvement hotices. Consequently, the Health Department has been left with no other alternative but to institute cases against them in Municipal Magistrates' The result and punishment caunot Courts. attain the desired effect. In some cases the party could not comply with the notices for want of proper guidance and technical help. For all such cases, a social approach is necessary for determining and assessing the financial position of the party and for collecting other technical data.

Legal action against any person for noncompliance of statutory notices should only follow after careful study of the cases. Provisions of the Act should be enforced against those persons only who are able financially to bear the cost, want to avoid the lawful requisition of improvement notices on some pretext. The absence of rational consideration on the merit of individual case followed by indiscriminate application of penal sections of the Act has yielded no good result Unfortunately, our municipal health organisation has no special set up for collection of field data regarding socio-economic condition of the people. Lack of these essential data has made the provisions of the law instrument for oppression against helpless people.

The resultant effect is the loss of reputation of the Health Department whatever it earned through the laborious services in the field of M.C.H., control of epidemics, school health and medical relief. People who lodged complaints for insanitary condition with the health department finding no relief become aggrieved and start abusing the department for negligence and corrupt practices.

SUGGESTIONS FOR IMPROVEMENT

City's municipal administration is very old and it needs a change. The recent move to revive and gear up the administration is very wise. It appears that the present administrative machinery lacks some basic essentials and their replenishment is an immediate necessity:—

- (1) To ensure people's participation in the programme decentralization of administration is required.
- (2) For intensification of supervision of Municipal services at all levels Heads of the Department should be made free from excessive desk work.
- (3) For removal of discontentment in regard to salary and other emoluments of all workers a change in scales of pay is a necessity and for this purpose Central or State Government standards should always be the guide.
- (4) Immediate abolition of watertight compartment, system like Engineering, Health, and Water-Works etc., by appointing an administrator on all administrative levels.
- (5) Introduction of social approach and social outlook in all matters related to day to day administration.
- (6) Arrangement for study and research regarding socio-economic condition and other related problems of the city population.

ie in general has no hand in the direction as well as mobilisamatter of icipal services. Corruption and malpractices there because of lack of supervision. Of course supervision alone cannot root out the evils unless the employees are properly fed and An administration can never attain a clothed. desirable standard with disgruntled workers. An administrator is put to test when he is asked to run a machinery with dissatisfied personnel.

Municipal work depends on human factor which is governed by certain biological, physiological and social laws. A man can work only for a certain limited period in a day. For his work he needs food, rest and recreation. Yet this is not all. A man is a social creature and he has to follow social laws. Procreation is a biological need to a lower animal but to a man it means more than that. Every father is responsible to bring up his children up to the standard of the society he belongs to. Need of a man extends beyond his own and covers a group of persons comprising family unit and neighbours. These are the basic considerations of an administration dealing with the human labour.

A FEW SUGGESTIONS

80 MUNICIPAL COMMUNITY HOUSES

NUMBER 80.

One for each Ward. Municipal services as a whole will be distributed from this house to the ward uniformly.

FUNCTIONS:

- (a) Service (General).
- (b) Public Relations.
- (c) Public Amenities.
- (Socio-economic (d) Study and research problems).

ADMINISTRATIVE SET UP:

Advisory Council.

Community House Administrator -- 1.

Dy. Administrator (Health)-1 Assistants-3 Sanitary General Sanitation Inspector Food Sanitation Epidemic control do Vital Statistics Social service Health education public relation study & research Ex-officio Secretary Social workers community advisory council Juniors (Peon) Clerks-4

Dy. Administrator-1 (Engineering)

Assistants-4

Conservancy Sanitary Inspector Engineering including Lighting

Supply including Tube-Water

Including development

Engineering

Overseer

ADVISORY COUNCIL Ward Councillor Ex-officio Chairman.

Members—9 to be recruited locally from different walks of life like Doctor, Engineer, Social Worker, Business man etc.

Weekly meetings.

QUALIFICATION OF PERSONNELS:

Community House Administrator: - He should be the seniormost Deputy Administrator to be selected by promotion. He may be a doctor or engineer. Scale of pay being the same like Deputy Administrator excepting additional charge allowance of Rs. 100/- per month.

Deputy Administrators:—He must be M.B., B.S., D.P.H. for Health and B.E., M.E.P.H. for

Engineering.

Pay of scale—same Rs. 800-25-600 (basic). Assistants: -Qualification already given.

Scale of pay being same for every body-Rs. 150-10-800 (basic).

Juniors—qualification must be upto Standard

2 Jeeps and 7 Bi-cycles are to be maintained in the office for common use.

Boroughs :-5 Wards will constitute Borough. There will be 2 Borough Officers in each Borough to supervise the work of constituent community boases under the borough.

Boroughs: -2 borough officers (Deputy Dis-Administrators, one Doctor and Engineer). A small office will be maintained in District Office with 2 clerks.

Borough Committee-Fortnightly meeting.

Function:—1. Supervision over community houses.

> 2. Co-ordination and compilation of activities of the borough as a whole.

District Office: -For practical purposes this will be the head quarter for local administration.

DISTRICT ADMINISTRATOR:

Deputy Administrator (Health).

Deputy Administrator (Engineering)

Other staff as per requirement.

One Deputy will supervise office work in each section. For each borough there will be 2 Deputies -one health and the other engineering.

DISTRICT COUNCIL:

(a) All Ward Councillors.

(b) 9 members from the public.

Monthly Meeting.

Pay of scale:—Administrator—Rs. 800-50-1,000 (basic).

Deputy Administrator-Rs. 600-30-800 (basic).

HEAD OFFICE:

Corporation Standing Committees. Policy making and other statutory duties. Statutory officers and Departmental heads.

Function:

- Supervision; (1)
- Co-ordination; **(2)**
- **(8)** Compilation;
- Guidance; (4)
- (5) Dissemination of informations and policy.

The World of Books

PUJAH ANNUALS FOR 1958

We have come across a few copies of Pujah Numbers, 1958, published by different contemporaries including daily newspapers as well as periodicals, published both in English and in Bengali of which mention may be made first of all 'THE AMRITA BAZAR PATRIKA' which contains essays, short stories, humorous sketches and a few art plates brushed by men in that field. Some basic problems, faced by the country, have also been put up before the readers through a number of essays written by persons so eminent as Shri Sri Prakasha, Governor of Bombay, Dr. Jaya Prakash Narayan, an eminent leader of the people, Dr. Harekrishna Mahatab, Chief Minister of Orissa and many others equally prominent in public eye. Short stories written by Shri Tara Sankar Bandopadhya, Shri Sudhansu Mohan Banerjee, Shri Manoj Basu, and others also provided a good food to the readers in general. The Number has not ignored the growing consciousness of Indian women who are required to stand in equal footing with men and this has been aptly illustrated by a section of women writers. Arts and Culture Section have also enriched the volume.

The Autumn Number of THE JUGABANI,' for 1365 B.S., a weekly periodical, has maintained its old traditions. The Number contains a few articles pertaining to economic development in the under-developed countries of the world. Problems of Indian economy have also been included. The Number under the able editorship of Prof. Debajyoti Burman, has received appreciation from the section interested in economic upliftment of the country.

Another contemporary in this sphere, 'ARTHIC PRASANGA,' has published its bi-annual duly enriched by articles from the pen of teachers specialized in this subject. Mention may be made of the writers who have earned a name in this field as Prof. Alak Ghosh, Prof. Priyatosh Maitra, Prof. Aditya Prasad Sen Gupta, Prof. Kasturchand Lalwani, Prof. Lalit Kumar Mitra and many others.

BINSA SATABDI, another contemporary, has published a number of articles mostly short stories of important writers in its Special Number. It contains two small fictions from popular writers of these days. They are Shri Samaresh Basu and Abadhut. And thus the volume has become more bulky. Still it attracted a larger number of

Introduced by a short poem composed by Shri Vivekananda Mukherjee, its Editor, the Annual Number of THE 'JUGANTAR' contains innumerable short stories. And thus it is difficult to describe it as a special number befitting the occasion than a collection of stories. It further includes a number of thoughtful articles and a few humourous sketches.

SOCIAL CRIMES IN CITY

Shri Mangiram Gupta, a grocer of Gobindapur Road, has been fined Rs. 250 -, in default months' rigorous imprisonment by a Magistrate of Alipore, for having in his shop 17 maunds of rice for sale without any licence as required under the West Bengal Rice and Paddy Control Order, 1957. The Magistrate ordered confiscation of the entire stock of rice.

Following the find of nearly 9,000 pounds of milk powder in a godown in Jorasanko area a few days ago, the Detective Police raided another place at Beniatola Lane and covered about 4,500 maunds of such milk, packed in 75 ses. The entire quantity is believed to have been stolen.

Continued the Featuring almost in a similar manner as the above-THE LOR SERAR has published its annual Puja Number for this year. There has been a balance maintained in it in having an equal number of essays along with short stories. But it cannot be denied that those essays do not hold any definite conviction to induce the readers to accept the writers' views.

Deviated from the usual features THE CHOWRINGHI AUTUMN NUMBER, 1958, contains a series of discussions on the present political and economic problems. Criticisms rather than useful suggestions have become more prominent in them.

However, these timely publications should be welcomed

CITY-NEWS-PARADE

OBITUARY: The death of Shri Birendra Nath Mitra occurred in his city residence on Tuesday, the 14th October. The late Shri Mitra was the former Auditor-General of India. He was 75.

The late Shri Mitra had joined the Indian Finance Service in 1904 as an Assistant Accountant-General and retired in 1939.

The death of Janab Murtaza Raza Choudhury, former Deputy High Commissioner for Pakistan in Calcutta, occurred on Friday, the 10th October last due to heart stroke. He was 49. He came here about a month ago for medical treatment.

The late Janab Choudhury was in Calcutta from September, 1955 to March, 1957 as a representative of the Pakistan Government. Still he spent many years in this city.

Earlier, in his life he was elected unopposed to the Bengal Legislative Assembly in 1937 as an independent candidate. Soon he joined the Muslim League. He was again elected to the Assembly in 1946 and to the Pakistan Constituent Assembly later. In 1952 he went to Moscow to attend the International Economic Conference as a delegate. He also served on several Government Committees.

ACCIDENTS & FIRES: A 12-year-old boy, Khalil, fell from the roof of a house in British Indian Street, Central Calcutta, on Sunday, the 12th October, while flying a kite. He died shortly after admission into the hospital.

A boy aged about three had a fatal fall from the roof of a five-storeyed building in Mango Lane on Friday, the 10th October last. The boy, Ramesh Kumar Gupta, while playing on the roof, accidentally fell down.

Five fire engines rushed to Great Eastern Hotel where a fire broke out in its Bakery Section, situated on Waterloo Street, on Tuesday, the 14th October. The fire was brought under control in an hour.

Another fire broke out in the West Bengal Government's Training Steamer, Bhadra, at the Kidderpore dry dock, on Wednesday, the 15th October. Three fire engines extinguished the blaze within an hour. Some textile goods were damages.

MASS PRAYER FOR HIS HOLINESS: Against a background of glowing candles, funeral drapings and traditional solemnity, His Grace the Right Rev. Dr. F. Freier, S. J. Archbishop of Calcutta, offered a Pontifical Requiem Mass for the late Pope Pius XII on Monday, the 13th October at the Roman Catholic Metropolitan Cathedral. Robed in black, he was assisted by twelve priests in vestments of black and gold, including the Rt. Rev. Mgr H. E. Barber, Vicar-General of the Archdiocese, and the Rev. Fr M. Timmermans, S. J. Provincial of the Jesuits. Before the high altar stood the great catafalque, surrounded by candles and masses of white flowers, with the Papal Arms emblazoned on its black and gold pall.

The panegyric by the Rev. Fr A. Lallemand, S. J., Director of the Indian Social Institute, paid fitting tributes to the Great Pope. He dwelt on the magnetism of Pius XII's personality, which drew to him an intimate manner not only of Catholics but people of all nationalities and creeds.

There had been a steady flow of Chiloffes to the Church. Among the distinguished members in the congregation were Lt. Col. Jegender Singh and Mrs. Singh,

Maj-Gen. W. H. A. Bishap, Deputy High Commissioner for the U.K., and Mrs. Bishop, Consul or Vice-Consul for the U.S.A., France, Belgium, Italy, Denmark, Spain and Austria, the Trade Commissioner for Australia, and the President of the Catholic Association of Bengal. All the relgious orders of the city were represented.

FREE MILK DISTRIBUTIONS: A quantity of milk powder for distribution among distressed children was received by Swami Lokeswarananda of Ramkrishna Asram, at Nanda Mullick Lane, on Wednesday, the 15th October. The Mayor, Dr. Triguna Sen, was present.

The quantity forms part of over 600,000 lbs of milk powder the Canadian Government had made available to distribution in India.

Another free milk distribution centre was inaugurated in Tollygunge area by Shri S. C. Roy, Sheriff of Calcutta. The centre will be run by the Friendship Unit, a philanthropic organization of that locality. Shri Dakshina Ranjan Bose, News Editor, *Jugantar*, presided. The milk powder is a gift from the people of America.

BENGAL DEAF & DUMB ASSOCIATION'S annual meeting was held at Congress Bhavan, Chowringhee Road, on Saturday, the 11th October last. Shri Atulya Ghosh, M.P., President, West Bengal Pradesh Congress Committee, was re-elected President of the Association, and Shri Dilip Kumar Nandy, as its Secretary.

Shri Ghosh said that he would take steps to arrange tours for the members of the Association in the D.V.C. and other development areas.

INDIAN RED CROSS SOCIETY: West Bengal Branch's Budget Estimates for 1958 showed a deficit of over Rs. 2.45 lakhs. The estimates were adopted at an extraordinary general meeting of the Society at Raj Bhavan, Calcutta, on Friday, the 10th October last. It also showed that the anticipated receipts would be Rs. 9.37 lakhs and the expenses about Rs. 1.182 lakhs.

After the meeting an ambulance van was presented to the Chairman of 24-Parganas District Branch by Shri P. C. Sen, the Food Minister and Chairman of the State Branch of the Society.

FIRST MOBILE DENTAL UNIT IN WEST BENGAL was inaugurated by the State Chief Minister, Dr. B. C. Roy on Monday, the 13th October at Writers' Building. Named as the "Debendra Lal Khan Dental Unit", this is the first unit of its kind to be commissioned by any State Covernment in India for serving the patients in rural areas.

Welcoming the Chief Minister to inaugurate it, Dr. A. B. Ray, Minister of State for Health, said that housed in a motor van, the Unit would shortly embark on its mission.

A SPECIMEN OF RARE ART COLLECTION

At present preserved in Municipal Museum, College Street, the above is the picture of the image worshipped by the Entally Hatibagan-Bish-Pally Sarbojanin Durgotsav Committee, East Calcutta, this year. The image earned wide admiration from all sections of art lovers.

'BIJOYA SAMMILAN' IN CORPORATION

Through a pleasant function, the Corporation Clerks' Union celebrated the 'Annual Bijoya Sammilan' on Friday, the 31st October last. Interspersed by solo songs, rendered by many of the important artistes in the city, the long drawn programme regaled a large number of Corporation employees assembled at the Market Square, southern part of the Central Municipal Office Buildings, S. N. Banerjee Road.

The function was addressed by the Mayor, Dr. Triguna Sen, (sitting above, second from right) and others.

Shri Achintya Kumar Sen Gupta, (on the mike), the celebrated litterateur, who presided, spoke on the manifestation of human soul here in this universe. In this connection, he referred to the preachings of the Great Savant, Sri Sri Ramkrishna, who showed the way to spiritual upliftment of man.

In the picture are also seen, Councillors B. K. Banerjee, and M. Sanyal, Shri B. Ghosh, Secretary to the Corporation, Shri A. K. Mitra, Treasurer, Shri D. N. Sen, President, Clerks' Union and others.

VIEWS AND REVIEWS

BIJOYA GREETINGS

We extend our most cordial Bijoya Greetings to all the citizens as well as the countrymen, irrespective of their castes and creed, to all human beings without any difference in religion or faith. Our religious sentiments inspire us to look upon the Pujahs not as one of the greatest Hindu festivals but as the most important event in the nation's life that comes year after year. It is the greatest of all national and social festivals that Indians still observe in the midst of so many turmoils and so much ill-feelings. So, when the frenzied world is moving towards an unknown future India's living soul still aspires peace and happiness in the world through observances of such festivities.

Thus the Pujahs in the city as experienced the religious moods of a section of the citizens, equally it aimed to embrace all shades of faiths under the banner of universal love and fellowship. The Pujahs also surrounded the social and cultural environments through which life grows and ends particularly in India. So the very soul of India was manifested through it in order to liquidate the differences between man and man, the differences between one State to another and lastly the differences among the nations living in this city.

Without reference to any mythological incidents, the Pujahs in the city refer to the seasonal changes in the Great Life of the human beings. On this sacred occasion we once again extend our sincerest cordial greetings to all and forget the past in order to rejuvinate ourselves with love and amity among all transcending hatred and enmity.

Let there be peace and happiness for all.

L. S. G. CONFERENCE IN DELHI

An appeal to undertake certain measures for the decentralization of the administrative machinery, was made by the Indian Prime Minister, Shri Jawharlal Nehra, while he stressed the need to build a Socialist Co-operative State in course of his inaugural speech at the fourth meeting of the Central Council of Local Self-Government in New Delhi recently.

The most outstanding feature of the two-day conference, presided over by the Union Health Minister, Shri D. P. Karmarkar, was that it resolved to set up a Sub-Committee to discuss with the Planning Commission various aspects of the national water supply and sanitation scheme to ensure that the amounts provided for it in the Second Plan were fully utilized.

The Sub-Committee consisted of the Ministers of Local Self-Government of some States including Shri I. D. Jalan (West Bengal), Shri Maneklal C. Shah (Bombay), Shri Mohan Lal (Punjab), Mr. V. Narain Sharma (U.P.), Shri B. A. Mandloi (Madhya Pradesh), and Shrimati L. Simon (Madras).

The President also emphasized in his speech about the town planning activities of the modern urbanities with reference to the Development Board of Delhi.

Referring to the urban aspect of the water supply and sanitation programme, Shri Karmarkar also said that this had received greater prominence in the report than the rural side. Admittedly the States had made "fairly satisfactory progress' in regard to their urban schemes and it was being found increasingly difficult to meet their rising demand for funds.

Due to the rapid industrialization, being attempted under the Plan, Mr. Karmarkar said, urban areas were receiving a sudden influx of population. The gap between the minimum sanitary facilities essential for the urban citizen and the actual facilities available to him was getting wider and wider and local bodies in charge of these areas were on their trial.

In view of that "hand reality" of financial limita-tions, the Minister added that it behaved public health engineers to get the "maximum utility for the money made available". They could design at least major urban schemes for developments by stages so that the money invested from time to time would give immediate returns. Some practical solution should also be found to make such schemes financially self-sufficient. Referring to the development of Delhi, Shri Karmarkar said that the old Development Board in 1955 had been replaced by an interim new Board in 1956 embracing all the surrounding areas including the military cantonment and the old sites. At first they aimed to develop in piecemeal basis but with the inauguration of the Delhi Corporation the development schemes have taken a different shape in a permanent way. Money would come forth from the Ford Foundation Aid, he added.

What concerned him most was that the Slum Clearance Scheme which had not been implemented in a right way so long. He also referred to the previous reports submitted, mainly by the Asoke Sen Committee, S. K. Patil Committee and another. He admitted that these Bustees as plague spots in Indian cities should be wiped out from the urban areas along with the building of sanitary and well-ventilated tenements. He however, assured the conference that money for the purpose would not be wanting at all.

Referring to administrative difficulties at the Centre and in the States resulting from long references and notes Shri Nehru said at that conference that they were assuming dangerous proportions. There was nothing more harmful than administrative delays, which ultimately led not only to waste but also to corruption, he said.

The Prime Minister said the only way to get a response from the people was to shed the official approach and talk to them and work with them on an equal level. The reason why he was able to get a response from the masses was because "I love them, I respect them and I respect their wisdom", he said.

He suggested that all officers, high or low, should work with the lower level for short periods. Disciplined social services, too, should be made compulsory for all, he added.

"If a nation is to progress, there must be faith in the people and they must be given responsibility. They might perhaps make mistakes but they will learn by those mistakes. The administration need not interfere at every stage. It could retain checks to stop panchayats from making dangerous mistakes. Their constitution should be such that members could show initiative and have freedom", he also said.

Shri Nehru further said that anything forced from above would not succeed. For the country to progress it was necessary to impart correct training to people in administrative posts through panchayats and co-operatives. These should be formed at village level, so that they could function as big families.

In line with above the Central Council resolved that the central, regional and urban planning organization should convene a conference of State Town Planning organizations and other recognized associations at an early date to examine the problem in all its aspects and make recommendations.

The Council discussed the proposal of the Central Statistical Organization and the Planning Commission that State Governments should furnish information on building construction activity and statistics on Local Bodies expeditiously so that the data collected was not out of date.

It also recommended that the establishment of an Institute for Training Officers of Local Bodies holding supervisory posts would be desirable and would go a long way to meet a long-felt need.

It may be recalled here that the Report of the Ashoke Sen Committee, referred to above, examined thoroughly the Government of India's Slum Clearance Scheme at present operating in the country and made some practical suggestions in order to make it more effective. The Committee had also suggested priority in clearing the big slums in six big cities of India by allotting extra funds to those States concerned. At the same time it stressed the minimum basic amenities to the existing ones.

Speaking of Calcutta's position we can add that slums and plague spots have little been improved here during the Second Plan Period. The only help from the Union Health Ministry was in the shape of approval of the first phase of the Water Supply and Sanitation Scheme, by advancing a loan of Rs. 2.25 crores.

FOOD PRICES SPIRAL

At last the long awaited price control measures came into force in the Calcutta Industrial area immediately on the 24th October last in the shape of West Bengal Anti-Profiteering Ordinance through which the State Government fixed maximum prices for wheat, flour, atta and suji, mostly wheat products. A Government Press Note, issued in this connection, stated that measures have been taken for fixing retail prices of wheat products imported into this industrial area and distributed through fair price shops. Besides, the movement of such food-stuffs from outside are prohibited under the Calcutta Wheat (Movement Central) Order, 1956.

The West Bengal Government played a long muddle in this matter. Since the increase of prices of essential food-stuffs with the advent of monsoon there were general demand for the promulgation of the Ordinance. It was about more than two months ago that the State Government expressed its intention to do so. At the same time the Government gave a long rope to profiteers and hoarders to corner these food-stuffs whose demands were non-elastic. And thus they had been allowed to reap the harvest in their own way.

Even before that the leaders of the country tried to belittle the crisis situation. They talked about changing the food habits of the people; they referred vaguely to "substitute foods" even they asked men to go without food for some days in the month posing a gesture of preaching "grow more food" campaign in cities and towns.

Cereals are still in short supply and they form the shaple diet of our people. Hence came the Ordinance for fixing the price. This was followed by the fixed of the maximum prices of different kinds of baby food by the West Bengal Government on the 28th October last. This was the fifth essential commodity covered by the Ordinance.

The Press Note fixing the price adds that in order to ensure fair distribution of baby foods among all retailers dealing in these schedule articles, it is expected that the distributors and or wholesalers will continue to sell the available stock in reasonable quantities to their approved—dealers. The retailers, in turn, are also expected to sell their stock in such a manner that the largest possible number of consumers may be benefitted.

The important items still left behind were pulses, rice, paper, edible oils, drugs and medicines. As regards non-fixation of the maximum price of sugar the Government's decision was justified on the ground that the Union Government had already prescribed the ex-factory prices of different varieties of sugar, and its prices were oscillating within reasonable limits in the city and the industrial area. Rather there has been chances of the fall of prices with the import of fresh stocks.

Since the fixation of the maximum prices for flour and suji, the commodities have begun to disappear from open markets in the city. They were available only in a few out of about large number of grocer shops in Calcutta on following days. A few shops stopped selling after distributing a negligible quantity under controlled prices. Many retail shopkeepers complained that they had not received any supplies from wholesalers. Wholesalers explained their position with the cryptic phrase, "no stock". Whatever quantity was available it was through payment of higher prices than those of the controlled ones.

The Enforcement Branch police, which was entrusted with the enforcement of the anti-profiteering measure, collected figures about the stock position of the essential commodities with mills and wholesalers then. On receipt of complaints of refusal to sell essential commodities, the police visited certain shops and warned their proprietors. The mystery was that the police could not ascertain whether any stocks had gone underground or not? And thus it was heard that the Ordinance was nothing but a gesture of the Government allowing the profiteers to move in their own ways.

Reports of arrests against Anti-profiteering Ordinance are not at all absent since then. Rather there have been spontaneous offences against the order. Many persons were alleged to be found guilty against the crime. Shop-keepers and grocers were mainly found to make a farce of this Ordinance and they were arrested whenever complaints were made against them. Cases of such offences were occurred in Park Street, where a grocer refused to sell flour on the scheduled price, an Atta dealer in Kashi Mitter Ghat Street selling in an increased price and in many other corners of the city.

The Enforcement Branch police arrested the owner of a shop in Cornwallis Street, Calcutta, at the same time on a charge of selling a 2-lb tin of Glaxo for Rs. 8.88 which was 81 nP more than the maximum price fixed.

from two sees to see a see of Contral Calcutta. Three can see a see a see and the godowas sealed.

The drive has been continuing uptill now and the shopkeepers have been asked to display the available stocks and also to announce their prices.

Whatever teeth there might be in the Ordinance, the re-actions of its promulgation had not been in the proper way. Giving his personal opinion to the Ordinance, the Leader of the Opposition in the State Assembly, said "Due to dilatory tactics of the Government and the more than adequate notice given to dishonest big traders and profiteers the people do not yet feel optimistic about the likely effects of the Ordinance."

He also hoped that the Government would seek advice of the State Food Advisory Committee in order to tide over the issue.

Consumers of baby food in the city regretted at the poor relief that the Government-controlled price sought to give them in respect of certain types of this commodity. Ceiling prices laid down by the Government hardly had much difference from that prevailing in the market. Even in certain cases like that of Ostermilk the relief actually worked out to be only a few naye paise while the price had shot up by 50 per cent. since the import restriction raised the cry of shortage. A 2 lb. tin of Ostermilk was sold immediately before the import cut at Rs. 6]-and a few days ago it fetched Rs. 8.12. The ceiling price for Ostermilk has been fixed at Rs. 8.07 for 2 lb. tin.

Dealers who received about 25 per cent. discount often sold the product at a competitive price even though it might mean foregoing a portion of their discount. But as the ceiling prices laid down by the Government are inclusive of the discount offered, the dealers may now insist on getting the maximum and refuse to undersell by losing a portion of their discount.

Fish, meat, milk and fruit also are not in good supply and are sold in prohibitively high prices which are not easily accessible to common man. Recently the supply position has been worsened when it is generally expected to improve during this part of the year. This appeares to be mainly because of the complete stoppage of supplies from East Pakistan for over two months through sources authorized and unauthorized. The supplies from the other side of the border began to decline over six months ago, and have now been completely ceased.

Consequently, the prices of commodities, considerable quantities of which were imported into West Bengal from East Pakistan, have risen sharply. The increasing price of fish has led more and more people to go without that essential food.

Fish is not only dear, but is becoming distressingly scarce. The big Rohi and Katla, extremely popular with Bengalis, have not made their appearance in the markets for months now. Hilsa has not been sold for many years at such high prices. The prices of all commodities generally remain high in all markets. Still Calcutta, with its overwhelming population and widely varying economic conditions there seems to be no dearth of people to buy at higher prices.

PUJAH SHOPPING ROLLS ON

PUJAHS IN THE CITY

Fraucht with pain and laughter Calcutta citizens celebrated the five-day long DURGOTSAV, the worship of the Goddess Durga, as the Great Mother of the Universe. It was an unique occasion when the citizens not only the Hindus but also others went in gay mood and temper, when normal working life was rather suspended to enable all to participate in that universal rejoicings and merriments.

Participated in by all sections of people including citizens of other faiths the city wore a gay look on all the days of the Pujahs. In spite of belated monsoon roads and streets were crowded with the visiting parties on all the days who went from one pandal to another. Illuminated streets, market places and shopping centres reflected the gaiety of the Pujah season. Different multi-coloured lamps in many of the pandals were also of special attraction.

Equally distributed in all parts of the city record rushes were witnessed in many of the specific Pujah Mandaps, the fames of those images had then spread over the city and its suburbs. The Fire Brigade Image in Chittaranjan Avenue, Central Calcutta, the Image worshipped by Sanghashri group in Kalighat, South Calcutta, and the Images of the Baghbazar Sarbojanin Pujah Committee and that of Kumertuli area, drew the highest crowds.

In many places exhibitions and fairs were arranged to draw larger number of visitors. The one arranged at the Sussex Model School, Kidderpore, western part of the city, bore some peculiarities, while others were of monotonous types and work of clay modellers depicting different mythological incidents.

One striking feature of the Pujah celebration this year was the electrical decorations which had not only maintained the standard but registered improvement in quality in many places by reflecting the progress of aesthetic mind of the people.

Another feature was that the old types of images, modelled according to Scriptures, were also worshipped in a few houses. Designed by a student of the College of Arts and Crafts, Calcutta, the image, worshipped in Hatibagan area, eastern part of the city, specially attracted a section acquainted with the intricacies of fine arts. It was modelled on pieces of wood cuts, plastered with clay and plastics and paintings thereon. As a specimen of rare art collection the image has been preserved temporarily in the Municipal Museum, College Street. The Mayor, Dr. Triguna Sen, took a special interest for its preservation.

As usual, there was the Sixteenth Annual Puja Celebrations in the Hazra Park, South Calcutta, under the auspices of the Calcutta Corporation Employees' Association.

Lastly, in order to cope with the city's increased burden there were mutual cooperation and co-ordination among all sections of citizens during those days. The Corporation activities were intensified in extending better civic amenities. The Public Relations' Department installed stalls in many of the exhibitions and fairs of the Pujab pandals in order to rouse the citizens' consciousness in health and hygiene and in other civic matters.

FIVE-DAY LONG FESTIVITIES

almost all the Pujah pandals, on Saturday,

Final touches were given to the decorations images were installed as it was an MAHA-SASTHE DAY Citizens were out also in completing their Pujah the 18th October last. In many of the pandals shopping. Shops were crowded to capacity. The

most implicative feature was the annual exodus to heliday reserves on other places of interest.

Opening ceremonies of Pujahs had aiready started than. The Deputy Mayor, Shri Keshab Chandra Basu, inaugurated the Puja of the Ahiritola Sarbojanin Durgotsav on the previous evening. The opening ceremony of the Baghbazar Sarbojanin Durgotsav was also performed on that day. The Union Law Minister, Shri Ashoke Sen, was present in many of such functions. The other guests included the High Court Judges, the Speaker of the State Legislative Assembly and State Cabinet Ministers. The Deputy Mayor was also present in a few other Puja inauguration ceremonies.

The Puja rites started on the Maha Saptami Day, the 19th October, when the pandals were thronged with visitors as well as the organizers. The overcast sky and intermittent showers towards the morning somewhat spoiled the celebrations. But a clear sky at evening gave more mirth and enjoyment to those visitors.

After the priests had offered Pujas in the morning, people made floral offerings. The day ended with "Arati"—a dance before the images with burning incense and multi-tongued lamps—to the strains of drums, cymbals and bells. This evening feature was repeated the other two days also.

THE MAHA-ASTAMI, the second and the most significant day of the Durga Pujah, was celebrated on Monday, the 20th October. The wet weather which prevailed over the city for the past two days brightened in the afternoon and enabled people to come out wearing their new clothes.

The main worship of the day, the Sondhi Pujah, was held in the morning amidst chanting of mantras and burning of incense. People bathed in the Ganga and fasted until they had made their floral offerings to the Goddess during that auspicious Sondhi Pujah moments.

The Pujah had a special significance because it is taken to symbolize the victory of divine power over demon forces. People prayed to the Goddess to bless them with powers to rise above the woes and worries of this world.

HEAVIEST CROWD RECORDED

Festive Calcutta bubbled with enthusiasm, gaiety and carefree abandon on the last day of the Durga Pujah celebration, the Maha-Navami day.

The crowd beat all records and was one of the heaviest that was ever turned out on the road in its history. With endless stream of people stirring around the Pujah places they were on the roads throughout the night. From Baghbazar to Fire Brigade Station, Chittaranjan Avenue presented the spectacle of a sea of human heads until midnight. Visits were made from one end of the city to the other at Pujah pandals, particularly by women and children. The city's places of interest also attracted large crowds. Thousands of people visited the Alipore Zoological Garden. The cinemas had full houses, restaurants and eating stalls did good business.

In spite of increased crowd and interminable processions of visitors to the pandals, traffic arrangements in the evening were maintained satisfactorily, Hundreds of people waited patiently near pedestrian crossings for the policemen's signal. Volunteers conducted them to Pujah pandals. They also communicated through loudspeakers news about the whereabouts of missing children.

e who were a speciment DAY

On Wednesday, the 22nd October, came off the Bijoya-Dasami when the immersion rites were arranged in every pandal towards the morning with sprinkling of water (Santi-Jal).

Earlier in the afternoon, before preparations began to take out the images for immersion women performed the "baran" (bidding the goddess farewell) and offered sweets and pan to the images. Entire localities gathered in the pandals of their respective Pujahs. Many elderly women, wearing red-bordered saris, shed tears during the farewell ceremony and prayed the goddess to return.

The images were then removed from the platforms and placed on decorated lorries and hand carts. Many of the community Pujah processions were accompanied by bands. A number of household images were carried on people's shoulders and were followed by drummers. Some images were taken on boats and immersed midstream while others were sunk at shallow depth. After each immersion, amidst joyous shouts of "Durga Mai Ki Jai," people sprinkled water on one another.

The procession of images continued till well past midnight.

Special lighting arrangements were made along the river front and on approach roads of 42 ghats on the river bank. Life Savers and divers wearing red turbans were posted at important ghats. Many sightseers hired boats to gain a better view of the immersion.

LAKSMI PUJAH & NAVARATRI FESTIVAL

On Monday, the 27th October, the day of the full moon, Lakshmi, the Goddess of Wealth, was worshipped in Hindu homes and in Sarbojanin Pujah pandals in the city. The immersion took place on the next day.

After the Pujah was over many listened to the Bengali folklore on the Goddess told by elderly women. Many homes were tastefully decorated with Alpana.

Many of the Sarbojanin Pujah pandals, were dismantled after Lakshmi Pujah. Variety entertainments, including musical soirces and historical plays continued in many of them.

The day was a holiday and the weather was pleasant with dry and comparatively cooler air. Thousands of people visited the Alipore Zoological Garden.

Members of the South Indian community observed on Maha-Navami Day, their Vijaya Dasami, marking the end of the Navarathri festival. Many children were initiated in their studies as it is considered the most auspicious day for the purpose. Saraswati (Goddess of Learning) Pujah was performed in South Indian homes on Monday.

A feature of the celebrations is the "Kolu"-display of dolls of variegated hues and sizes arranged in attractive pattern-installed in many homes for the nine days. During the festival women of the community, wearing new clothes, visited friends and relatives and invited them to the "Kolu" in their homes.

CORPORATION ACTIVITIES

Since Saturday night the 18th October last, there was a general increase in the candle power of all the electric lamps in the main streets and the Pujah pandal approaches from 100 to 150 watts or 200 watts. In the areas which were served by

gas lights, over 700 new and temporary installations were made by the Lighting Department of the Corporation. Out of the fund of Rs. 5,000 which was allotted for the illumination, the six big Municipal Markets were brilliantly illuminated during these days and it is expected to continue till the Kali Pujahs.

In order to cope with the situation that might be created due to supply failure the Corporation adopted a new system this year by posting electric mistries and mazdoors at each of the 25

Police Stations of the city, so that, they might be able to attend to any emergency call within the jurisdiction of the area concerned. About 85 workers were sent up for duty in this connection. This was due to a large number of breakdown cases last year. The special lighting arrangements continued till the Dashami Day.

Arrangements were also made for increased supply of filtered water in the city from the above date. There were extended conservancy services in the city also.

SARBAJANIN DURGOTSAV

It reminds us of Gandhiji's "Harizon Movement". In the late twenties, people collected from remote corners to see how an age-old tradition was defied by the 'Harizons' through active participation in the festival. The pandel was richly decorated, and a giant poster displayed to reveal the character of the worship. Upon her miriad aspect, the Goddess Durga was manifested in as many forms; classically erene, or magnificiently virile-and all was about the vicinity seethed with excitement and colour. Goatsacrifice was not permitted. Although this was true of many worships, the 'Sarbajanin Pujah' had a special appeal from 'Ahimsa' point of view. Congressites, particularly the staunch followers of Gandhiji, took the lead. The object was to attack untouchability. At a time, when caste-distinction impeded the way of nation renaissance, this order of 'Durga Worship' had a popular appreciation, particularly in basic aim of liberating untouchables. No resistance was forthcoming, not to speak of any hostile repercussion. The orthodox looked at it with suspicion. The Purohits, against a handsome dividend, refrained from criticism some even going up so far as to discover immense virtues and possibilities of the programme. That was no mean achievement in a land, which is full of prejudice and superstition, duly supported by Dharma-Tantra, Veda Purana, etc.

At time 'Sarbajanin Durgotsav' was split into different groups. Muchi, Methor, Kamar, Kumar, Hari, Dom, and all other untouchables felt need for putting up separate 'Pujah' exactly alike of what happens in our political plane. Leadership was transferred to local 'Babus', who had a very strong influence over the 'Pujah Programme'. Although contributions were generally made by the lower castes, the expenditure was made replying the taste of the Organisers. Slowly ancillary functions came into prominence. 'Hari-Sabha' was replaced by 'theatre' and 'modern songs.'

So, 'Sarbajanin Durgotsav' took the shape of 'Baroari Pujah' or 'Community Worship.' Babus were supplemented by 'dadas' and the 'harizons' fell into the back-ground, because by then, already a subtly-blended mesh had been cast between the two as distinctive barrier. 'Durgotsav' is after all an expensive affair. Its progressive decentralisation was hailed as grand opportunity by every middle-class families. The advent of 'Sarat' created an impact in every quarter. But the 'Puja' was by all means indigenous. Adolescents went in search of flowers. They decorated the pandel with gay artistry. There was no 'Kathak-dance' as of to-day. The near-by talents came with their rare stock of reserves. The tiny 'Sandows' of local Gymnasium graced the 'Birjajna' on the 'Astami Day'. They lifted together the image of their Goddess, and under profuse throbbing of drums, immersed it into the river. The entire horizon echoed to the 'jhap-tal' of the 'Dhaki'. Then it was all over. Across the smoke of incense seeping through the evening mist, people saw their wards come back again along the wide stretch of the strand with intermittent 'hurrah'.

And another puja they had passed by.

Modern 'Sarbajanin Durgotsav' is undergoing revolutionary changes. It is a synthesis of many tastes. There is 'Opening Ceremony', 'Concluding Ceremony' or 'Bijoya-Sammelani', reception of President and Chief Guests and so on. 'Unveiling of the image is a pretty heavy function nowa-days, which is done by noted personalities, who assure at least three qualities, literary, administrative, and a little bit of initiative in the Social-welfare programme. These, combined together, exclusively qualifies a News-paper Editor. A Namabali-drapped Purohit is hardly cared for now-a-days. Trade-Union Leaders are not seen. But it is affirmed, they are the legal heirs of original sponsorship. 'Puja' is divided into many sections; cultural and literary section, puja and image section, amusement, and last but not the least, the 'Siddhi' or 'Drug' section. Members of this section are formidable in character. They control the whole show, and make budgetary provisions. On the 'Bijoya' day, they come out with sari on, and resort to their wild acrobatics, regardless of what people tell about them. Surprisingly, this primitive art is retained yet. These are days of economic depression and 'bonafide dancers' may be available at easy cost. The best success of the 'Puja' lies in how much money one has spent for hiring artistes.

To-day 'Sarbajanin Durgotsav' is a must. Nay, it is multiplied and multiplied. Not a single street or lane is excepted to be spared by its sweep. But the 'harizons' have long gone out of the scene. The 'Utsav' has forfeited its moral right to be called as 'Sarbajanin'. As best it is a 'Community Worship', aimed at Co-operative waste. But the trend confirms that it has come to stay, though not known if a 'Community-Project' has come to stay in our midst. There lies the supreme defeat of the Bengalies.—"CHOWRINGHEE".

CITY-NEWS-PARADE

OBITUARY: The death of Dr. Sudhindra Nath Banerjee, second son of the late Prof. Jay Gopal Banerjee, at Motilal Nehru Road. South Calcutta, occurred on Monday, the 20th October last, after a brief illness. He was 57.

The late Dr. Banerjee had his schooling at Cooch Behar, Banaras and in this city and graduated in medicine from the R. G. Kar Medical College, Calcutta in 1927. After serving the Nepal Government for a short period he set up practice in the southern part of the city and soon built up a good practice and reputation for human understanding.

The death occurred after a brief illness of Shri Sudhir Chunder Dutt, Bar-at-Law, at his residence in Romesh Dutt Street, North Calcutta, on Wednesday, the 22nd October last. The late Shri Dutt, was a son of the late Shri J. C. Dutt, one of the leading Attorneys of his time in Calcutta Bar. He was 64.

HMS ALERT flying the flag of Admiral Sir Gerald Gladstone, Commander-in-Chief of the Royal Navy's Far East Station, touched the city's shores for a few days recently. She was berthed along the Man-Of-War Jetty.

A frigate, HMS Alert is the ninth vessel of her name to serve in the Royal Navy. Her keel was laid in 1944 but she was launched after World War II. She now serves as despatch vessel of the C-in-C, Far East Station.

One of her saluting guns was used on August 26, 1902, at the siege on Ladysmith during the Boer War. The ship at one time was engaged in the British atomic tests in the Monte Bello Islands, and the H-bomb tests in the vicinity of the Christmas Islands.

Admiral Gladstone, accompanied by his family reached the city later on and after a short stay in this city lead the vessel towards the Port of Chittagong.

AZAD HIND GOVERNMENT'S FOUNDATION DAY was celebrated in this city through different functions on the 21st October last. In the morning the National Flag was hojsted in Netaji Bhawan, Elgin Road, South Calcutta, and men of the Azad Hind Ambulance Corps and members of the public placed wreaths at the martyr's memorial. In the evening Netaji's rooms, where the furniture and garments he used are preserved, drew a large number of visitors. The building was illuminated at night. The exhibition continued for two more days.

Under the auspices of Calcutta District Forward Bloc, the Foundation Day was observed at Azad Hind Bag. Shri Nalini Guha presided. Comrades Ajit Biswas, Sanat Chatterjee, Arun Ghosh and Nalini Guha dwelt on the history of I. N. A. and Azad Hind Government and also appealed to people to fight for the economic freedom which was enunciated by Netaji Subhas Bose.

The day was also observed in the morning at Cornwallis Street. Shri Ajit Biswas hoisted the Flag and presided over the function.

Under the auspices of Burrabazar District P. S. P., another function was arranged at Debendra Dutt Lane on the same day wherein Shri Biswanath Roy, a P. S. P. member of Burrabazar area, presided, and among others, Shri Dhiren Bhowmick, Shri Ajit Dirgangi and Shri Narayan Roy addressed the function.

The car which carried Netaji Subhas Chandra Bose from Calcutta to Gomah between January 16 and January 16, 1941, when he escaped from India, was shown to the public at Netaji Bhawan, in that connection.

AN EXHIBITION & A TWELVE-DAY SEMINAR to emphasize the importance of Home Science were inaugurated at the Viharilal College of Home Science, Alipore, South Calcutta, on Thursday, the 30th October last. Dr. Nihar Ranjan Roy, M.P., presided. Shrimati Ila Pal Chowdhury, M.P., who inaugurated the seminar said that a balanced and trained outlook rather than money could add grace to a home and harmony to life. It was important that the home should be beautiful. This required the training of the woman's instinctive sense of beauty.

Dr. Roy said although it was over 15 years ago that Home Science was included in Calcutta University's carriculum, the main task of evolving the basic principles of the Science to suit the requirements of the country was yet to be achieved. It was not enough to quote statistics showing the output of the Home Science College.

Srejukta Monorama Bose, the Chief Inspectress for Cirls Education, West Bengal, opened the Exhibition. The symposia included lectures by educationists and experts on this line including Sm. Jyotirmoyee Das Gupta.

MR. P. NORTON-JONES, O.B.E., formerly of the Indian Police, left Colcutta for Britain after about 35 years active service in india. Joining the Indian Police in 1922, he served in Calcutta, in various capacities. After working for a period as Deputy Commissioner, Detective Department, Lalbazar, he took charge of Civil Services in 1940 and organized the Civic Guards. In 1944, he was appointed Deputy Commissioner, Headquarters, and it was during his tenure of the service that the Calcutta Police was greatly modernized. In 1947 he was made Additional Commissioner of Police and was given the task of restoring law and order in this city. After a short while in Pakistan as Deputy Inspector-General of Police, in February, 1949, he joined Balmer Lawrie & Co. as Chief Personnel Officer in Calcutta.

He is one of the few Commonwealth Police Officers who had been awarded the King's Police Medal for Gallantry and Bar to that medal.

UNITED NATIONS' DAY was observed by the Calcutta Association for U.N. at a meeting in the Indian Association Hall on the 24th October last Prof. A. B. Dutt opened the function with an introductory speech.

Presiding over the function, Mr. Justice P. K. Saccar pointed out the necessity of reflecting the ideals of the U.N. in the national policies of different states.

Shri K. M. Purkayastha, Chief Guest, said that the success of the United Nations was impeded greatly due to the existing differences between the great Powers.

Shri Radhika Proasad Banerji, Vice-President of the Association said that the U.N. had become a part of the texture of our political lives both national and international.

Presiding at a meeting held in the same connection, on the same day at Mahajati Sadan, Shri Asoke Sen, Union Law Minister, referred to the "threat of dictatorship in Asia" and said that India, from the beginning of her freedom's struggle, fought for the larger freedom of all oppressed nations. That was the secret of success of Indian democracy. That was what would sustain democracy in India in the face of the approaching danger of dictatorship. He believed that eradication of poverty, exploitation and social injustice would lead to lasting world peace.

Speeches were followed by Japanese and Indian dances performed by children.

CO-OPERATIVE DAY INTER-NATIONAL inaugurated on Saturday, the 1st November last, through a conference at Park Circus Maldin, East Calcutta, by Shri P. C. Sen, West Bengal's Food, Relief and Supplies Minister, who said that the State's economic malaise called for vigorous and unceasing effort to expand the co-operative movement.

Shri Sen also opened the Co-operative Agricultural and Industrial Fair, organized on the occasion by the West Bengal Co-operative Union. The programme of the All-India Co-operative Week, also commenced on that day. This included symposia for six days continuously on the

There had been for long, the Minister said, widespread complaints of corruption among dealers and adulteration in food articles. Police action alone was no solution to these problems. The people must assert themselves through forming co-operatives initially to cover distribution of essential articles. Expansion of the co-operative movement would also ensure true political democracy because it was said that the political structure of a country depended much on its pattern of economy.

Although the co-operative movement had made some advance in the State the progress was far from satisfactory, he added.

The Minister further emphasized that if the people of West Bengal desired any improvement of the present state of affairs, it could be done only through effective expansion of co-operative efforts. He suggested that ration shops which had over 2,000 cards registered with them should be turned into Co-operative Stores.

ONE OF THE BIGGEST RAIDS SINCE GAMBLING ACT CAME INTO FORCE DURING LAST APRIL-The Calcutta Police raided a silver fatka market in Cotton Street, Burrabazar, on Wednesday, the 29th October last, and arrested about 400 people under the West Bengal Public Gambling and Price Competition Act. The men were trapped in the market, known as Katni Bazar, during one of its busiest hours. In a search of a number of offices, all on the ground floor of a three-storeyed building, the police found and seized over Rs. one lakh in cash.

In the building they raided, the police also found about a dozen unauthorized telephone connexions, alleged to have been set up to tap regular lines. In the verandah, just below the ceiling on a narrow plank, wooden boxes were placed from which hung a number of telephone receivers.

Katni is a type of gambling which involves speculation in prices of imaginary stocks of commodities. The gamblers gain or lose according to fluctuations in the market on the basis of the final fixation of prices by a so-called "Board of Directors".

Getting a clue from an alleged illegal speculation over prices of about 2,200 silver bars at Katni Bazar, the police made the raid. All payments in this market are made in cash on a particular day, usually by the end of the month, after the price is fixed by the Board. Such price fixation is called Kat, from which the word Katni is derived. Wednesday was payment day in the Cotton Street Katni Bazar.

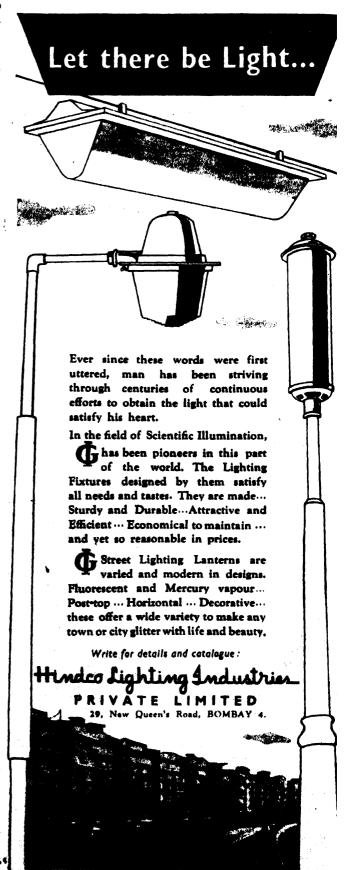

All the arrested persons were produced before the Presidency Magistrate on Thursday.

A Daily paper reports, that six accused-Muralidhar Jalan, Gangadhar Bazaz, Benarashi Lal Sarogi, Bansdeo Singhania, Hiralal Audhika and Jagadish, the Directors of the Calcutta Ready and Forward Market Association Ltd., were charged under the West Bengal Cambling and Price Competition Act, 1957, for using their offices common gaming house, on that day.

The same MAHAKAVI VALMIKI DAY was observed in the city when a procession was taken out on Monday, the 27th October last to celebrate the birthday of Maharshi, the author of the Ramayana. Organized by the United Harijan Sangstha, the procession started from Eden Hospital Road and passed through several important thoroughfares in the city before it reached the Maidan, where a meeting was

A tableau representing Valmiki with Laba and Kusha. sons of Sri Ramchandra, was arranged on a decorated lorry. which formed part of the procession.

-CITY-NEWS-PARADE (Continued from page 56)

A HOUSE COLLAPSE INCIDENT: The second floor verandah part of a large four-storeyed house at 374, Upper Chitpore Road, northern part of the city, collapsed on Tuesday, the 28th October last. The falling debris caused no casualties.

As a precautionary measure, the Corporation's Insecure Building Demolition Squad dismantled the corresponding first floor and third floor verandahs. During demolition, a wooden rafter flew across the road and hit a Corporation Building Surveyor on the head. Families occupying this part of the house have been advised to leave as has been reported.

The house is very old and it appeared that it was built in sections over a long period of years. It gives the impression that it has lacked proper maintenance for decades. Several banyan trees have grown on the building. The ground floor is occupied almost solely by shops or small factories some of which use electric motors which add to the vibration caused by heavy traffic on the road. The top floor of the affected postion consists of tiny rooms made of timber and corrugated iron.

MONSOON RETREATED FINALLY FROM CAL-CUTTA on the 25th October last, according to an announcement from the Alipore Meteorological Office. This year there had been a weak monsoon and caused a total rainfall of 38.2 inches, about 13.2 inches below normal, in this city.

Delay in the arrival of monsoon by a fortnight on the 23rd June last caused unusually prolonged summer. This had also been described as the worst summer in three decades starting a continued weak current at the initial stages.

Meteorologists stated on the 24th October last that dry and cooler air had begun to blow over the Calcutta region from northerly and north-westerly directions. Indications of withdrawal of the monsoon from Gangetic West Bengal and Orissa were thus made on the previous day. Before that a storm of moderate intensity, which centred about 130 miles sast south-east of Calcutta crossed the Noekhali-Berisal poest

Even earlier to that the depression in the Bay of Bengal was responsible for the wet weather in the city for s few days and stationary with its centre about 200 miles.

Among articles destroyed were some original pointings storth-oast of Madras. The rainfall on that day was the last The Black Princes of Ajanta, meant for re113 inch. This depression intensified within a day and the last Union Government publication, was among under its influence, Calcutts had moderate and at that

heavy rain causing much inconvenience to the citizens. The Pujah shopping was marred in that evening and there was disappointment in the faces of impoverised shopkeckers. The rainfall was 1.18 inches on the 18th October last. Nearly 350 telephone subscribers in Kidderpore area had to go without phones when heavy rains caused damage to one of the main underground telephone cable connected to "45" exchange. Remedial measures were taken to bring order to the damaged lines.

ANTENATAL CARE CENTRE has been opened keeping with its programme of widening its network of social services by the Paschim Banga Samaj Seva Samity at Ramkanto Bose Street, northern part of the city, on the 16th October last, by Major H. K. Indra, Principal, R. G. Kar Medical College. The Union Law Minister, Shri Ashoke Sen attended the ceremony.

Lt.-General D. N. Chakravarty, Director of Health Services, who presided, emphasized particularly the need of family planning in the context of the improved health services and steadily declining rate of mortality. The Samity, he said, should organize clinics for family planning for which the Government would readily give it assistance.

The Union Law Minister, Shri Sen hoped the ideal of service that inspired the organization would spread gradually among different sections of the population.

Explaining the objectives of the Samity, Dr. P. K. Ghosh said that they proposed to set up a cheap X-Ray Clinic shortly and to follow up their programme with other social service activities. Already the Samity had set up 76 social service centres. Besides that it had organised domiciliary treatment for patients and text book libraries.

The Antenatal Centre will receive the services of many eminent physicians in the city and also valuable assistance from the North Calcutta Nursing Home.

A FIRE ACCIDENT: Fire destroyed four rooms of Shri Saraswaty Press on Upper Circular Road, Calcutta, recently. The work of the offset department was carried on there. The loss is approximately Rs. 2.5 lakhs.

Four engines brought the flames under control within an hour, although the fire was smouldering till the morning. The fire is believed to have been caused by a short circuit in the electric wiring.

Corporation of Calcutta

Publication of the Preliminary Electoral Rolls for Constituencies Nos. 76, 77, 78, 79 and 80 of the Corporation of Calcutta.

NOTICE.

The public are hereby informed that the Preliminary Electoral Rolls for Constituencies Nos. 76, 77, 78, 79 and 80 of the Corporation of Calcutta have been prepared and are published this day, the 15th November, 1958, at the places specified in the sub-joined list and that Shri Bishnurat Sen has been appointed as the Revising Authority for Constituencies Nos. 76, 77 and 78 and Shri J. K. Bakshi as the Revising Authority for Constituencies Nos. 79 and 80.

Any person having the qualifications of an elector for a constituency specified in Section 48 of the Calcutta Municipal Act, 1951, and not being subject to any of the disqualifications specified in Section 49 of the Act, may file a claim for being included in the electoral roll of a constituency if he is not already included in the electoral roll of any constituency: Provided that a person who is already included in the electoral roll of a constituency may file a claim for his name being included in the electoral roll of a different constituency.

No person shall prefer an objection to the inclusion of any name in the electoral roll of a constituency unless his name is already included in the electoral roll of that constituency or unless he has filed a claim for being included in the said electoral roll.

Claims for inclusion of names in the roll shall be made in Form III and objection to any name included therein in Form IV, annexed to the Calcutta Municipal Electoral (Preparation and Publication and Revision and Republication of Electoral Rolls) Rules, 1952, made under the Calcutta Municipal Act, 1951. Copies of such forms will be supplied free by the Registering Authority on application at the Central Municipal Office or the Tollygunge Municipal Office.

Claims and objections shall be addressed to the Revising Authority and shall either be handed or sent by post to the Revising Authority or the Registering Authority so as to reach him at the Election Department, Central Municipal Office, 5, Surendra Nath Banerjee Road, Calcutta—13, or the Tollygunge Municipal Office, at 28, Prince Anwar Shah Road, Calcutta—33, not later than 5 P.M. of the 6th December, 1958. The Revising Authority shall not entertain any claim or objection received by him or the Registering Authority after 5 P.M. of the 6th December, 1958.

Every claim and objection shall be in writing and shall state the grounds on which it is based and when it relates to an entry in the preliminary roll shall contain a reference to or the particulars of that entry.

A claim shall be signed either by the person desiring his name to be included in the electoral roll or by an agent authorised in writing by such person.

When a company, body-corporate, firm, joint family or other association of individuals desires to have the name of its representative included in the electoral roll, the claim shall be preferred by such company, body-corporate, firm, joint family or other association of individuals, and shall on its behalf be signed by or marker with the thumb impression of, in the case of a company, body-corporate or firm, one of the persons who are qualified to be nominated by it as its representative, and in the case of a joint family or other association of individuals, all the members thereof unless the Revising Authority for reasons considered sufficient by him exempts any such members from joining in the claim.

A complete copy of the roll for each of the Constituencies can be inspected at the Election Department, Central Municipal Office, Calcutta or the Tollygunge Municipal Office at 28, Prince Anwar Shah Road, Tollygunge, during office hours, and copies of such roll are available for purchase from the Records Department at the Central Municipal Office. The price of the Electoral Roll for a Constituency is As. 2 only per page subject to a maximum price of Rs. 5 per roll.

Further particulars may be obtained from the Registering Authority, Election Department, Central Municipal Office (Telephone No. 24-1495).

BIPIN CHANDRA PAL

Born: 7th November, 1858. Died: 20th May, 1932.

CIVIC IDEALISM

"The law of civic life was summed up in the early ages by what is called the "golden rule" "Do unto others as you would be done by", or, in the law of Christ......"Leave thy neighbours as thyself". Long before Christ, in our books, we find the injunction that the individual must try to realize the In-dweller within himself as abiding equally in all other beings, and realizing this he must treat brotherman as the revelation and the temple of his God. This universal Godconsciousness is the highest and strongest foundation of all social ethics and social service. The development of this consciousness is the ideal-end as much in Politics as in Civics. When I realize my God in the members of my family my home becomes to me my temple. When I realize in rare moments of beatitude, through His grace, my God in my neighbour, their homes equally become to me holy temples. To help to keep my home clean, and their homes clean and free from all sorts of impurities, becomes then as much a religious duty as to sweep, scrab and brush and the temple of the Lord is regarded by every devotee. This is the highest and the soundest basis of the civic sense and civic idealism".

[Extracts from an article, contributed to this Gazette on "Guess and Givic Idealism" by the late Bipin Chandra Pal.]

REPRODUCED FROM A SPECIAL SUPPLEMENT ISSUED ON 28th May, 1932.

BIPIN PAL BIRTH CENTENARY SUPPLEMENT
THE CALCUTTA MUNICIPAL GAZETTE

THE

CALCUTTA MUNICIPAL GAZETTE

BIPIN CHANDRA PAL

A grateful nation in the hour of its distraction has remembered Bipin Chandra Pal and observed the centenary of his birth. It is said, "fame in time to come canonizes us". Nobody however seems to feel that Bipin Chandra Pal has truly been resurrected or canonized. That is no "matter" for the great dead. It certainly is a matter for India of to-day and to-morrow. In 1920-21 Bipin Chandra Pal differed from Gandhi and Gandhi-ism, and since then he has been put aside. The lone struggle, for over a decade, for life and expression has a tragic beauty that reveals hitherto unsuspected treasure — new meanings and values. Through all the ebb and flow of thought in these years, in the dim ways of doubt and suffering, rich in knowledge yet rich in faith, he grasped in new forms and proclaimed to us in new words "the mighty hopes which make us men."

"Thou hast a voice, great Mountain, to repeal Large codes of fraud and woe".

Already in 1920 he could be counted as a great patriarch of our national renaissance who for well-nigh half a century assailed the heavens with the thunders of his splendid oratory in indignation at the burning violage of his people. He was for the Indian Renaissance what the Encyclopaedists were to the French Revolution. He summed up in himself the great Enlightenment. British Commentators saw in him only the agitator. But he unleashed new forces. In theology and literature, in criticism, sociology, and politics, he was the mighty Protestant who stood as the Evangel of the new freedom. And he asserted his empire over the hearts and convictions of the Indian people. He made of the Swadeshi episode of 1905--1912 into a new gospel of nationalism, in which the nation was not a socio-political complex but a faith which embodies aspirations and demands worship. We must approach it with adoration if we are not to profane it, and with poetry if we are to understand it. Lal- Bal- and Pal passed into a ligend. The story of that life, with its dominant political emphasis, is not "the repristination" of Indian life and history, or its redemption. It is emphatically its acceptance, the clear recognition of its mystery and magnificence, its myriad beauty, its fear and its dream, the human face divine. He infused a new life into us, and made the national pulse throb quicker. He brought us all into the spell of a common inspiration-Bande Mataram. New ideas were springing up, new aspirations were being called forth, which marked the spirit of a new initiation. Renovated India saw her image in a vision and sought to rebuild her destiny. That was in essence the nationalism of Bipin Chandra Pal, the Swadeshism of the Indian National Movement, this nationalism is a primal sympathy, and a vital experience. His association with Sri Aurobindo Ghosh and C. R. Das deepened and widened these trends, and we recognise in the words of Bipin Chandra Pal, their alliance to great ends, the depth of the note of revolt, and the largeness of hope.

Judge not lest we should be judged! W. B. Yeats once wrote that there was that in life which could not be called before any mortal judgment seat, even though a leader or a priest sat upon it. To have lost an illusion and retained romance is to be no mean artist in the studio of life. Bipin Chandra Pal was such an artist. His was a realism inebriated with rectar. His nationalism, with its caresses and its raptures, brought myrrh and incense into all the hedges of our life, but it always rushed beyond the object and lost itself in the sense of a divine mystery. It never confined its gaze to its ledgers.

On the tide of life and history, and against the tide, Bipin Chandra Pal thought and lived heroically, even dangerously. He never cared to vote for compromise and success. He could not "foot it featly here and there." But he lived, thought and worked intensely, justly, nobly. Let us cherish that massive intellect and its epic grandeur. Let us cherish the depth of the note of revolt, and the largeness of hope. He was the Enlightenment. All subsequent history is, and must be, suffused with that light.

1 S. B. 1

Chief Events Of Bipin Pal's Life

Born in Sylhet, 7th November, 1858. Son of the late Babu Ram Chandra Pal. Passed the Entrance Examination from the Sylhet High School, 1874 and entered the Presidency College, Calcutta,

ONE OF INDIA'S GREATEST MEN

Bipin Chandra Pal was described as one of India's greatest men by the Indian Prime Minister, Shri Jawaharlal Nehru, at a meeting in celebration of the Birth Centenary of the leader at Sapru House, New Delhi, on the first day.

Presiding over the function organized by the Bengali Association of Delhi, the Prime Minister said that Bipin Chandra was both a great religious and political leader; he had influenced the minds of people. It was sometimes felt that Bipin Chandra was a queer combination of modernism and revivalism, religion and secularism—but it should be realized that India itself was then a strange, though admirable, mixture of all kinds of things, Shri Nehru said.

The Prime Minister also emphasized that the work of a person should be judged only in the context of his age. Many heard or sang Bande Mataram now. 'How many remember that a large number of people suffered for this battle cry?" The early presidential addresses and resolutions of the Congress pledged loyalty to the British regime; yet in the environment in which those addresses were delivered, these were revolutionary.

Janab Humayun Kabir said Bipin Chandra was one of those who shaped India's history. Dr. Gokul Chand Narang and Dr. B. N. Ganguli also spoke at that meeting.

1875. Joined the Brahmo Samaj, 1877. Left College, 1878 and served as Headmaster, Cuttack Academy, 1879, Sylhet High School, 1880, and Rai Bahadur Aroot Narain Swami's High School,

Bangalore, 1881-82. Sub-Editor, "Bengal Public Opinion, Calcutta", 1883-84. Joined the Indian National Congress, 1886. First appeared on the Congress platform, 3rd Indian National Congress at Madras, 1887. Assistant Editor, "Tribune", Lahore, 1887-88. Secretary and Librarian, Calcutta Public Library, 1890-92. License Inspector, Calcutta Corporation, 1892-93. Proceeded to England in 1898 as a scholarship-holder of the Sadharan Brahmo Samaj to study Comparative Theology in the Manchester College, Oxford. Visited America 1900 at the invitation of the National Temperance Federation, New York. Returned to India in 1901. Started the weekly "New India" which built up a new school of political thought in Bengal and was the first Editor of the Nationalist English Daily "Bande Mataram", 1906. Lecturing tour in Madras, spring, 1907 and in the U. P. in January of the same year. Convicted in October, 1907 to simple imprisonment for six months for 'Contempt of Court' in refusing to give evidence in the case against Aurobindo Ghosh for sedition in "Bande Mataram". Left India for England, August, 1908. English Started from London the "Swaraj" 1909. Upon landing in Bombay in 1911 was convicted to one month's simple imprisonment on a charge of sedition. Started English monthly, "The Hindu Review", January, 1912. Re-joined the Indian National Congress, after ten years in 1916. Went to England with Lokmanya Tilak on the Home Rule Deputation-1919. Edited "Demoerat" and "Independent" organs of the late Pandit Motilal Nehru at Allahabad-1920. Resigned on the Non-Co-operation issue. Began contributing to the "Englishman". Entered the Indian Legislative Assembly as a representative of Calcutta-1924. Edited "Bengalee" 1925-26. Devoted to the study of vaishnaba philosophy and literature. Elected Chairman, Reception Committee of the Bengal Literary Conference in Lucknow 1929. Undertook extensive tours to different parts of the country lecturing on Indian Renaissance in connection with the Bramho Samaj Centenary, 1930. Died on the 20th May, 1932.

NEW INDIA

"This New India is neither Hindu—though the Hindu unquestionably forms the original stock and staple of it—nor Mohammedan—though they have made very material contributions to it—nor even British—though they are politically the masters of the country now, but is made up of the varied and valuable materials supplied in successive stages of its evolution by the three great world-civilizations which the three great sections of the present Indian community represent."

BIPIN CHANDRA PAL In the first issue of his weekly 'New India' 1901.

'GANANAYAK' BIPIN CHANDRA (1858-1958)

joined thousands of my countrymen, Bengalis and non-Bengalis, in offering our profound homage to the High Priest of Indian Nationalism, born out of the awful sufferings of Mother India. In 1857-58, tactically defeated but morally unconquered people of India declared the War of Independence and against tremendous odds fought the ruthless British arms for nearly three years. In those fateful years were born three illustrious sons of Bengal. Dr. Sundarimohan Das (1857), the great social reformer, Bipin Chandra Pal (7th November, 1858), the political prophet, and Acharyva Jagadish Chandra Bose, the seer scientist (30th November, 1858). Sylhet, now lost to Pakistan, gave two of them and one of whom lived to see India Free and the other knew that Freedom was coming. Sundari Mohan had the satisfaction of building up the present National Medical College. Dr. Bose dedicated to the nation the memorable Bose Institute. But Bopin Chaudra gave the invisible citadal of Freedom built on the souls of martyrs. The magnetic touch of his voice, diction and personality which went to make him the greatest orator of his time, roused thousands of men and women to sacrifice everything for the cause not only of India's Freedom but also of the liberation of man from bondage.

Starting his early life as a teacher, Bipin Chandra travelled as far as Bangalore, as arrested by Dr. C. P. Ramaswamy Aiver. Inspired by another God-intoxicated Soul, Brahmananda Keshab Chandra Sen, and his colleague, Shri Bijoy Krishna Goswami, Bipin Chandra started his public career as a social reformer and Brahmo Missionary. He was awarded the Manchester's Scholarship of the Oxford University and visited England during the last decade of the nineteenth century. The British Unitarians soon discovered that he was much more than a scholar, he was a thinker and philosopher who can rule over thousands both in the East as well as in the West. Thus the American Unitarians took him on a Cultural-cum-Spiritual Mission to their own country where he lectured on the 'Philosophy of India', Social Reform, and Temperance. I contacted many venerable Unitarians of the United States who remembered Bipin Chandra, Vivekananda and Protap Chandra Mazumdar. Unfortunately no one has so far could copy out the extracts printed in the American Newspapers, reporting then. Another Great Bengali Vaisnaba like Bipin Chandra, Shrimat Baba Bharati also visited America and built up a Vaishnaba Temple in California.

Bipin Chandra returned from the West just before the great Swami Vivekananda quitted this world (1902). Lord Curzon was then sharpening his knife for vivisecting Bengal in two pieces. Bipin Chandra knew that the operation would be most painful but not fatal. But unshakable faith in God and the inspiration from the Motherland prompted Bipin Chandra to plunge into volcanic erruption of Swadeshism which within 40 years defeated British Imperialism. Few remember to-day that Bipin Chandra was not simply a political orator but a profound philosopher who prepared himself while acting

as the Librarian of the Imperial Library now the National Library, Calcutta. The range of his study and knowledge in India and abroad would only be clarified if and when his complete works in Bengali and English be published with an exhaustive index.

Journalists have jumped naturally to claim him as their propagandist, who edited *The Swaraj* from the U.K. (while he was in exile) and "*Bandæ Mataram*" from Bengal which led to his first imprisonment in the case of Shri Aurobindo. I was lucky to be adopted to his family in Bhowanipore and I saw there Bipin Chandra in his prison-paraphernalia.

Rabindranath left for Europe in 1912, after delivering to the Nation his messages of Swadeshism in plays, poems and immortal songs bringing the Nobel Prize for the first time to the continent of Asia (1913) and that was the time when Bipin Chandra had started editing the memorable "The Hindu Review". Three years of exile in Europe enlarged his political vision so much that Bipin Chandra, the Great Nationalist, began to preach Inter-Nationalism of the Federal type. His 'Nationality and Empire' and other scritings of pre-war period has not yet been fully utilized.

In the momentous year of the Soviet Revolution, Calcutta had the proud privilege of holding the Annual Congress Session where we watched the silent yet potent procession of personalities like Dr. Annie Besant (President) and Shrimati Sarojini Naidu conducting the veiled mother of the Ali Brothers. We saw also the immortal bard of Indian Nationalism, Rabindranath, Surendranath, Deshabandhu Chittaranjan, Bipin Chandra, Motilal Nehro, Mahatma Gandhi and others. All these celebrities were invited by Kaviguru Rabindranath in his 'Vichitra Bhawan', Jorasanko, where 'Dak Ghar' (Post Office) was staged under the poet's personal direction. When the poet himself in the role of 'Baul' sang প্রায় ছাড়া ঐ রাস্থা মাটির পথ Bipin Chandra, Sarojini Naidu as well as Gandhiji profoundly moved to tears on the dead scene. Alas! the philosopher and litterateur, Bipio Chandra, is seldom remembered by our countrymen.

A new turn came to his life with the foundation of the celebrated journal 'The Narayan' financed by poet Chittaranjan of Sagar Sangeet fame but really edited by Bipin Chandra. This was a very creative period in the life of Bipin Chandra who joined issues of Rabindranath then inspiring 'Sabuj-Patra' and criticizing his famous story

With the advent of Mahatma Gandhi, however, both Dr. Annie Besant and Bipin Chandra felt that they could not reconcile themselves to the cult of Nov-Co-operation. So Bipin Chandra plunged deeper and deeper into liberation and the philosophy of Vaisnaba which would form an important line of research for the present scholars. He delivered innumerable speeches in meetings some

The Politician, Orator, Journalist And The Man

(BY SHRI AMAL HOME)

(Foundation Editor, Calcutta Municipal Gazette)

As a politician, Bipin Chandra Pal must always remain one of the foremost in modern India. He was not the leader of a political party with its inevitable intrigues and fight for place and power. Bipin Chandra Pal was a political thinker first and everything else afterwards. The thoughtelement in his politics placed him head and shoulders above all his contemporaries colleagues. He was undoubtedly the philosopher of the new Nationalism that Bengal gave to India, and Bipin Chandra Pal's philosophy of Nationalism was not conceived—as many in those days so often mistook or misinterpreted it in the hatred of the alien amidst us; it had nothing narrow or exclusive about it; it meant neither selfish conflict with nor proud isolation from the other nations of the world; it was not a patriotism seeking isolation in the name of independence; it took its stand on the inviolable right of the composite Indian people to fully and freely live its own special life in its own way, following its own peculiar genius, and developing its specific culture to its highest perfection and thus to contribute what is highest and best to the Universal Life of Humanity.

COMMONWEALTH IDEAL

It is not my interpretation of his political credo; I am using almost his own words. And that had been Bipin Chandra Pal's creed even at the very height of the raging passions of the Swadeshi and Boycott agitation in 1905-6. He never subscribed to a narrow isolationist Nationalism separating India from the rest of the world. That is why the Commonwealth ideal appealed to him when it was almost anathema to his colleagues. But those among his erstwhile following in Bengal who thought that they saw in him a 'lost leader' when, after return from his exile in England in 1911, he preached in the pages of his new periodical, the Review", the federation of India in the British Commonwealth, and those who scoffed at him at Barisal in 1921 when he spoke of Swaraj through non-violent non-co-operation being only possible by way of negotiations and compromise with England-they all came to pray at Faridpur in 1925! If there was ever a political thinker completely vindicated, it was Bipin Chandra Pal. Almost everything he had said came true, for he always took his stand on logic, and if you accepted his premise, he was sure to lead you to his irresistible conclusion. There was no getting away from it.

SUPREME ORATOR

As an orator, Bipin Chandra Pal was not only one of the greatest India has known among his compeers, but he must be considered as a supreme orator of his time. There was no resource of oratory—intellectual or emotional—that was not at his command. Master of all the arts of public speech—clarity and precision, passion and pathos, invective and ridicule, relentless reasoning, a copious

vocabulary and an extraordinary and effortless command of the right word and, above all, a voice of thunder-equally at home with the subtlest metaphysical analysis or the loftiest or broadest generalisations-he held his audience, sometimes numbering thirty to forty thousands, spellbound for hours. Another of our great orators, Srinivasa Sastri, describing his speeches in Madras in 1907 wrote: "Oratory had never dreamt of such triumphs in India; the power of the spoken word had never been demonstrated on such a scale". As I think of Bipin Chandra Pal's speeches, their words, arguments, points appear before my vision like a serried phalanx, marching in rhythmical order, the sunlight on their glinting bayonets, with drums beating and flag flying!

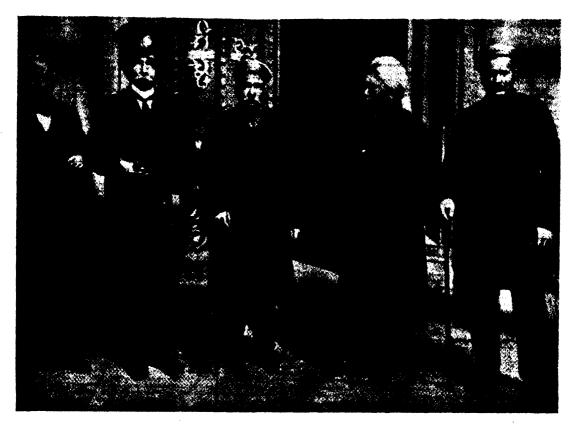

As A JOURNALIST

As a journalist Bipin Chandra Pal was as great a master of the written word as of the spoken. Wielding a wonderfully facile pen, he displayed in his writings-marked by vigorous thinking, chaste and powerful diction, scorehing sareasm and refined wittieism-the same grasp of the fundamentals of the subjects he dealt with and the same command of dialectics that made him such a great speaker. As an editor of more than one Indian daily of the first rank, Bipin Chandra set before him a very high standard of journalistic conduct, and those who, like me. had the great privilege of working with him on the staff of a paper knew with what undeviating exactitude he performed his own duties and also saw to their performance by his colleagues whom he infected with his enthusiasm and love of work. Journalism to him was a sacred vocation to which he dedicated himself with his instinctive idealism.

THE MAN

To my mind the Man Bipin Chandra was greater than the politician, orator and journalist. He was great in his strength and weaknesses as well. Lavish in his hospitality, never sending a hungry mouth unfed from his open table, always with his purse-strings open to help a needy friend, going even to the extent of borrowing to help others, he was generous to a fault. If ever there was a man who lived without a thought for the morrow, it was Bipin Chandra Pal. Coming to a patrimony-not an inconsiderable fortune in those days-he ran through it in no time, spending it mostly on the establishment of a school in his native place. Had he cared to invest the money he had inherited, he would have never known at least what want was. But that was not Bipin Chandra Pal. He could very well say of himself in the beautiful words of the New Testament, that birds had their nests and foxes had their holes, but he had no resting place for his head. He was

Impressive Birth Centenary Celebrations

Born amid the final stages of India's first struggle for freedom that began in 1857, and earning an international renown as a prince among the Indian patriots in the early Twenties, Bipin Chandra Pal defined 'Swaraj' as "discrimination in political and civic matters between the national self and that which is not the national self.....". He dismissed the moderates ideal of Self-Government with the words, "This ideal of Self-Government under British paramountey is an impossible ideal!... Either British paramountey would mean nothing, or Self-Government would mean nothing."

Even before Bipinchandra had developed association with Lokmanya Tilak and Lala Lajpat Rai, the two others among the 'Extremist Trinity' he wrote in the 'Bande Mataram' in 1905, 'We desire to make the Government of India autonomous. absolutely free from the British control'.

All these were amply discussed and re-iterated by different speakers throughout the three-day celebrations of Bipin Chandra Pal Birth Centenary (1858-1958), from the 7th to the 9th November. The celebrations were held under an erected pandal in an open land on the Chowringhee Road at the crossing of Harrington Street, the southern part of the city.

Inaugurated under the auspices of the Birth Centenary Celebration Committee, consisting of many of the important personages in the city, the Mayor, Dr. Triguna Sen, hoisted the National Flag of India, amidst shouts, of Bande Mataram on the first-day morning. He then garlanded a bust of Bipin Chandra Pal placed there. Wreaths were then placed on the bust on behalf of the State Governor and on behalf of over seventy other political, social and cultural organizations including the Corporation. A large gathering with an elite of the city watched the function. The President elect also placed a wreath on the bust.

It is unfortunate that although Bipin Chandra has passed into history no permanent statue could be creeted in this city in the shape of a eternal monument of that great patriot except naming of a street after him in the southern part of the city.

With the singing of 'Bande Mataram', the actual functions started in the afternoon. Dr. C. P. Ramaswami Aiyer, once a devout follower of Bipin Chandra, presided over the three-day functions. His address is being printed elsewhere.

A large gathering watched the function. Among those present were the Mayor, Dr. T. Sen, the Ex-Mayor, Shri S. K. Basu, M.P., Dr. P. N. Banerjee, Prof. D. P. Ghosh and others.

On that occasion, messages were read before that largely attended meeting from important citizens of India. The President of the Indian Union, Dr. Rajendra Prasad, in his message described Bipin Chandra as one of the builders of modern India. He was one of those pioneers, the President said, whose lifelong efforts created the climate in which the freedom struggle could be waged.

Bipin Chandra Pal's dedicated life, the staunchness of his faith and unbending adherence to truth were recalled in those Messages which also wished the celebrations' success. Among others were the Indian Prime Minister, Shri Jawaharlal Nehru, the Vice-President, Dr. Radhakrishnan, Shri S. R. Das, Chief Justice of India, Shri C. Rajagopalachari, a veteran leader, Shri U. N. Dhebar and Shri Ajoy Ghose and many other political leaders of different faiths. The senders also included Union Ministers, State Governors, prominent litterateurs, University Professors and people from all walks of life.

A GENUINE PATRIOTIC TEACHER

Through a long written speech Dr. Radhabinod Pal, Chairman of the Reception Committee, said that a genuine patriotic teacher and leader such as Bipin Chandra was needed then. Young men should develop that capacity which could translate empty words into reality.

The main reason of Bipin Chandra's hold on popular imagination was his sincere patriotism. His prear'ings were in harmony with the facts of life.

Bipin Chandra was a plain combination of patriot and politician. There was nothing mystical about him. He never wanted to utilize the terrible struggle involving the fate of Indian people as a means to gain personal eminence.

Bipin Chandra belonged to that group of national leaders under whose guidance Indian Nationalism acquired a dynamic character which was needed to offer a positive challenge to British ruler, said Dr. Pal before he concluded his speech.

A genuinely patriotic teacher and leader like Bipin Chandra is needed to replenish the reserve of the Nation with a race of youngmen provided against the coming age of revolutionary possibility, the Chairman ended.

Swadeshi Days & Bipin Chandra

Speaking on "Swades! i Movement and Bipin-chandra Pal" on the second day, Shri Soumendra Nath Tagore said that Bipin Chandra carried on the rich tradition of the movement started by Raja Ram Mohan Roy and Dwarakanath Tagore. It was a movement of enlightenment and the nationalism championed by its architects was never parochial.

Shri Tagore said that the Swadeshi movement organized boycott of British goods tried to reform the educational system and re-organize life in villages.

According to Shri Tagore, Bipin Chandra applied the word *boycott* as a political weapon to induce the British to quit India. He also dreamt of a parallel Government for India.

Gandhiji propagated the ideas that had inspired the Swadeshi movement among the masses—but in this expansion they had been diluted—and their

original depth lost, said Shri Tagore on concluding his speech.

The 'Baitanick' group presented national songs on that day being introduced by Shri Tagore himself.

BIPIN CHANDRA AS A POLITICAL PROPHET

On Sunday, Prof. Nirmal Kumar Bose said that democracy as the leader Bipin Chandra had conceived, meant greater participation of the people in Government. The initiative should come from the people. There should also be provision for referendum.

Professor Bose explained the qualities which had distinguished Bipin Chandra. The leader foresaw what would be the result of the provision for special treatment of Muslims during British rule. And that befitted Bipin Chandra as one of the political prophets in India.

Prof. Bose pointed out that Bipin Chandra had repeatedly warned the country of the evils which a separate and favoured treatment to Muslims would give rise to. The country, however, had not listened to his warning at that time.

The present trouble might have resulted from its ignorance.

The West Bengal State Governor, Shrimati Padmaja Naidu, also watched the day's function for some time.

A DEBATE

A debate organized by the Birthday Celebration Committee, was held on that day on the subject: "In the opinion of the House India's foreign policy is essentially effective." It was participated in by Shri Sadhan Gupta, M.P., Shrimati Ila

-'GANANAYAK' BIPIN CHANDRA (1858-1958)

(Continued from Page Three)

were presided over by another great Bengali philosopher, Shri Hirendra Nath Dutta who was a great admirer of Bipin Chandra. But alas! though invited to serve the British Raj for a while in the Indian Legislative Assembly, New Delhi, and from that time onwards appeared his searching criticism of Gandhism in the pages of now defunct of 'Bengali' and the 'Englishman' and also the 'Statesman'.

Bipin Chandra, the author of the 'Soul or India' has found his eternal rest in the hearth of Mother India. The fittest monument of him would be to remember him as the first leader of the common man of India who ever reminded of the uncommon cultural heritage of India. Our gratitude should take a concrete shape by raising a fund to bring out a complete and comprehensive edition of all his writings and speeches for generations to come.

DR. KALIDAS NAG.

The 7th November, 1958.

Pal Chowdhury, M.P., Prof. Nirmal Ch. Bhatta-charyya, M.L.C., Prof. Goutam Chatterjee and many others, while Shri J. C. Gupta, Bar-at-Law, presided. The Indian Peoples' Theatre presented "Nildarpan" at the concluding function. Composed by late Shri Dinabandhu Mitra, its performance most befitted the occasion, which pointed out the inhuman atrocities made on Indians by the foreign rulers against whom Bipin Chandra also wielded his pen.

A resolution passed at the meeting on the concluding day deplored "the apparent indifference of the West Bengal Government" to the centenary celebration. It urged the Government to declare the 7th November, Bipinchandra's Birthday, an annual holiday in the State under the Negotiable Instruments Act.

Many people in Calcutta went to the General Post Office on the 7th November, to buy special postage stamps in 10 naye paise denominations issued to commemorate Birth Centenary. The stamps were sold at all post offices in the city.

The All-India Radio, Calcutta broadcast a special programme on the occasion on the first day. A feature in Bengali based on Bipin Chandra Pal's life, written by Shri Sajani Kanta Das, was broadcast. Later a symposium in English in which Pandit Govind Ballabh Pant, the Union Minister, Shri M. S. Aney, Dr. C. P. Ramaswamy Aiyer and Dr. Suniti Kumar Chatterjee participated, was relayed from Delhi.

-THE POLITICAL ORATOR, JOURNALIST AND THE MAN

(Continued from Page Four)

proud of his poverty, and not even penury starting him in the face could disturb the peace of his mind.

HIS LONELY FURROW

I can never forget the pathetic spectacle of Bipin Chandra Pal in the later days of his life, ploughing a lonely furrow—isolated from his lifelong colleagues and friends, but it was a splendid isolation. For he stood undaunted and stuck with unflinching devotion to the ideals he held to be right and for which, to his mind, no sacrifice was too great. The gods of to-day in politics, he knew and often said, were not the gods of the morrow, and though he was a great and strenuous fighter, taking delight in warfare, he had no resentments and enmity. If there was ever any bitterness of feeling in his mind towards his erstwhile colleagues or adversaries, that had, before his death, mellowed into kind remembrances of their love and worth.

Bipin Chandra Pal has left behind him a memory of the matchless powers and an unstinted measure of devotion with which he served his country and countrymen. And I bow to that memory once again.—"The Amrita Bazar Patrika."

A Product And An Exponent Of Bengal Renaissance

By Dr. C. P. Ramaswami Aiyar

On this occasion of Bipin Chandra Pal Centenary celebrations, my mind travels back to the days in 1907 when, surrounded by the halo of an already achieved reputation, Bipin Chandra Pal spoke in Madras on successive days not only in assembly halls but also on the sea shore. At a time when no loud-speakers were—available, his voice drowned the roar of the breakers and he literally overpowered his audiences with his resonant and vibrant voice, his rhetorical expertise, his invocations of the past and his aspirations for the future. 1 was then a young lawyer and had been regularly attending the sessions of the Indian National Congress from 1903. Acquainted with the exuberant oratory of Surendranath Banerjea and Lalmohan Ghosh and the closely-reasoned persuasiveness of Pherozeshah Mehta, Gokhale, Wacha and Sankaran Nair, as well as the scholarly and meticulously finished periods of Srinivasa Sastri still the people had greater regard for those of Bipin Chandra Pal which were in a class by themselves, were packed with facts and, at the same time, suffused with emotion, with indignation and hope. The only person who approached him in Madras in the matter of oratory was V. Krishnaswami Aiyer, but the popular appeal of Bipin Chandra Pal was both unique and unprecedented and the memory still clings to me of his hold on the masses and his special influence over the vouth of the country.

SIGNIFICANCE OF BIPIN CHANDRA'S LIFE

Before dealing in detail with the life and work of Bipin Chandra Pal and his aims and objectives as well as his accomplishments, it may not be irrelevant to remind ourselves that "each age is", in the language of the Irish poet, "a dream that is dving or one that is coming to birth". Bipin Chandra Pal was a child of the transitional period and he embodied in his own person the ideals of the past and the gropings towards the future. When speaking of great men, we should always remember that Nature bases itself on the law of rotation. The Soul, as Emerson observes is impatient of masters and eager for change. The heroes of the hour, as he insists, are such in whom, at the moment of success, a quality is ripe which is then in request and it is perennially true that great men exist in order that there may be greater men. The life and work of Bipin Chandra Pal is an illustration of these truths which are so often ignored or forgotten. His life also illustrates the endeavour, in many ways and several spheres of activity, of an essentially individualistic personage

In a book published not many months ago, it is emphasized by Howard Fast, the American author who formerly was one of the leaders of the Communist Movement, that "to-morrow belongs to those who break down the prison walls that enclose the minds of men, not to those who support such walls. The promise of to-morrow always has been, and always will be, the widening of intellect and horizon in ever greater measure of individual freedom which is the antithesis

of control in the name of King or Church or Party or State".

BENGAL'S LEADING ROLE IN FREEDOM MOVEMENT

In a book entitled "Memories of My Life and Times," Bipin Chandra Pal, describing the culture and civilization which the British brought to us, pointed out that many of the English administrators were steeped in the ideals of the French illumination. He added that Bengal, owing to her original spirit of personal liberty and social freedom, readily accepted the imported gospel of liberty, equality and fraternity. He further pointed out that though English education was simultaneously introdaced in several parts of India, Bengal was specially affected by the spirit of nationalism and individualism originating in the 19th century; and he ascribed to this circumstance the fact that Bengal practically led the freedom movement in modern India. That Movement was not strictly nor entirely political in character. Individual and social democracy had been preached by the Brahmo Samai and the Indian Association (the earliest effective political organization in Calcutta) owed its impetus to many leaders of the Brahmo Samaj.

FIFTY YEARS IN THE VAN OF INDIAN PUBLIC LIFE

The outer life of Bipin Chandra Pal is easily recounted. Like many leaders in India, he started life as a teacher and worked as such in many places including Bangalore. He was in the van of Indian public life for nearly fifty years. He visited the United Kingdom and America and lectured in those countries on religion and temperance as well as polities. Along with Rabindranath Tagore and Aurobindo Ghosh, he has been claimed as amongst the first apostles of the Nationalist Movement and he inevitably came into conflict with the British authorities. In 1907 Bipinchandra Pal was sentenced to imprisonment for refusing to testify against Sri Aurobindo who was accused of sedition. He accepted voluntary exile thereafter and spent nearly four years abroad. When in England, his outlook was profoundly affected by the new political time spirit which included in its ambit the federal idea and international outlook. When Mahatma Gandhi undertook his Non-Co-Operation movement, Bipin Chandra Pal took a different line but undeterred by opposition or hostility, he stood alone.

He was a product as well as an exponent of the renaissance in Bengal that began with Raja Rammohan Roy and culminated in the many-sided literary, artistic and philosophic work of Rabindranath Tagore. Indian Nationalism really began with Bankim Chandra Chatterji and with the fight for freedom and self-expression waged, consciously and unconsciously, in religious, social and educational fields by Raja Rammohan Roy, Sri Ramkrishna Paramahamsa, Swami Vivekananda and Keshubchandra Sen and his group as well as by the leaders of the Arya Samaj movement.

A True Prophet Of Nationalism

Bipin Chandra Pal was, no doubt, a product of the Bengal renaissance; but in conjunction with Tilak and Lajpat Rai, he was one of those who claimed complete independence for an integrated India. He started life as an earnest and eloquent preacher in the Brahmo Samaj and as the successor of Keshubchandra Sen. Lord Ronaldshay has stated that "his pen played not an inconsiderable part in the social and political ferment that has stirred the waters of Indian Life". Sri Aurobindo regarded him as a true prophet of Nationalism. Amongst the politicians who did their work in the first decade of the 20th century, Bipinchandra Pal was universally regarded as the father of revolutionary thought. But he also had the consummate art of expressing the most advanced and extreme views in language which was not susceptible to legal attack. Indeed the Advocate-General of Madras, dealing with his Madras speeches, stated that his utterances, though highly inflammable were not seditious. It has been said of him that, however incompatible with the maintenance of British rule may be the propositions set forth by Bipin Chandra Pal, they contained no incitement to violence and no personal attacks. In an article published in the 'Bande Mataram', he has thus summarised his opinion:

The time has come when, in the interest of truth and civic advancement and the freedom of the people, our British friends should be distinctly told that while we are thankful for all the kind things they have done for us already, the sacrifices they have made to make our lot easy and their yoke light, we cannot any longer suffer ourselves to be guided by them in our attempts at political progress and emancipation. Their point of view is not ours. They desire to make the Government of India popular without ceasing in any sense to be essentially British; we desire to make it autonomous and absolutely free of British control.

A JOURNALIST ALL HIS LIFE

Bipin Chandra Pal was a student and comprehensive exponent of many aspects of Indian culture as will be evident from such books as his "Soul of India", "Study of Hinduism" and "Bengal Vaishnavism". He was a constant contributor to Bengali periodicals and was a journalist all his life, connected, as he was, with the 'Tribune', the 'New India,' the 'Bande Mataram' and the journal 'Swaraj" which he started in England. He was also connected with the 'Independent', the 'Democrat and the Bengali'. But it was as an incomparably fluent and persuasive speaker that he made his great reputation. Sri Aurobindo, in the 'Bande Mataram', referred to the beauty of expression and the passion of sustenance and pathos which animated his talks. Srinivasa Sastri said adverting to his Madras speeches in 1907. "Oratory had never dreamed of such triumphs in India. The power of the spoken word had never been demonstrated on such a scale."

AN EXPONENT OF INDIAN CULTURE

In a brochure entitled "The Beginning of Freedom Movement in Modern India", Bipin Chandra Pal, while paying a generous tribute to the East India Company for establishing a centralized and settled Government, emphasized the handicaps of alien Government. He attributed to the Brahmo

Samaj the enunciation of the message of personal liberty, social equality and emancipation. conflict between the rights and aspirations of educated Indians and the privileges of the ruling class came out into the open when Surendranath, Bancrjea was expelled in 1874 from the Indian Civil Service. Although this incident was essentially based on the disfavour with which the admission of Indians into higher services was viewed, yet, men who were outside the political struggle like Keshub Chandra Sen, took part in an all-Bengal demonstration of protest and the seed was sown for that political efflorescence which helped start the Indian National Congress. It must be conceded that the precursors that political movement were leaders like Raja Rammohan Roy, Keshub Chandra Sen, Swami Dayanaud Saraswathi, the pre-Congress Surendranath Banerjea and the founders of the Theosophical movement finally represented by Dr. Annie Besant who stressed that India inherited an ancient and unique wisdom and who helped to rouse national consciousness in matters of social reform and the formulation of new educational ideals before adumbrating the programme of Home Rule for India.

A Conscientious Literary Artist

The controversies arising out of the Ilbert Bill brought about a strong reaction in India as the result of offensive attacks on Hindu Society and religion by some spokesmen of the European community. But at the back of this reaction and the revival of self-expression there was an emerging all-India consciousness and a new racial pride which, ironically, checked many religious and social reform movements. Many Indians declined to accept foreign ideas or impulses.

Bipin Chandra Pal was a conscientious literary artist and one who was able to see all sides of a particular problem or situation. In a series of character-sketches, he has, for instance, analysed Dr. Annie Besant as a psychological study describing her physical features and her Brahma charya and paying a tribute to one who was both a realist and an idealist. In Bipin Chandra Pal's words, she first pointed out that educated India had lost faith in itself and that the Hindus had no faith not only in their ancient and mediaeval doc trines but also in their own powers and possibilities Bipin Chandra Pal was one of those who realised the full import of Dr. Besant's labours, both educationa and political. In his own language, dealing with Dr. Besant's political principles and methods and with the principle of Passive Resistance, he says "Passive Resistance may be individual or collective and organized. It is permissible in all ethics and civilised policy and is perfectly constitutional. Mrs Besant learnt from her political activities and expe rience, obedience to law and respect for the consti tution". He deplores that Dr. Besant did not fully understand the significance of Bengal Nationalisn in that she opposed what she called the de nationalised spirit of Bengal; but it is symptomatic of Bipin Chandra Pal, in spite of his criti cisms of many aspects of her life and policy that he recognized the statesmanship of this grea fighter for truth and freedom and especially he attempts to bring about a united Congress.

A LEADER IN PUBLIC LIFE

In Surendranath Banerjea, Bipinchandra Pal saw not only the founder of the Indian Association but the guiding genius of all political organizations in India. He described him as one who, from the very first, tried to correlate our political sentiments to the history and achievements of all parts of India. Tilak, whose character also was sketched. knew, as Bipinchandra Pal asserts, that every historic movement of our time must depend upon the consciousness of India as a whole and a federated whole. In his acute survey, Bipinchandra Pal stated that Tilak saw that the real danger in India was the inertia and listlessness, the Tamasa quality which threatened the peace and the future of the country. In another sketch dealing with Aswini Kumar Datta, he insisted that leadership in public life will and should be based upon a close and personal relation between the leader and the followers. Such a massage is never out of date and has been recently reiterated both by Shri Jawaharlal Nehru and Shri Jai Prakash Narain. Bipinchandra Pal deals with the passion of Aurobindo for national development and with Sister Nivedita's illuminating exposition of Indian thought and aspiration. He describes Tagore as the poet of the modern man who, nevertheless, built on the old foundations of Bengal Vaishnavism and Saktism; and in all that he wrote, he insisted on universalising what was special and particular. Like a true critic, he appreciates greatness even in those from whom he differs in many matters like Ashutosh Mukerjea, Taraknath Palit and Svamsundar Chakrabarti.

'Swadeshi & Swaraj'

In a volume entitled "Swadeshi and Swaraj" with a sub-title "The Rise of New Patriotism", Bipinchandra Pal insists that a protest is always demoralising unless it is followed by action and remarks that the time has come when all lies must be eschewed from our political platforms. Repeating one of his assertions in the paper 'New India' which he edited for some time, he, for the first time and on a memorable occasion, declared that Indians are not loval in any sense excepting in the original and radical sense of obedience to law. We are law abiding, he says, by heredity, by temperament, by training and by culture. Violence in any shape or form is not in our nature. He nevertheless appreciated Sivaji's contribution to national, religious, and social upheaval as one which was based upon the work of the people and for the people, the masses and not the classes.

Throughout Bipinchandra Pal's work there is the constant identification of the spirit of the race with ancient religious symbols and rituals. Speaking of Swaraj and National Education and Economic Boycott in a series of thrilling utterances in Madras in 1907, he constantly insisted upon spiritual emancipation and sublimation as a contributory influence in all political, social and economic endeavour.

A DEDICATED LIFE

Bipinchandra Pal led a dedicated life and what specially signalised him was the staunchness of his faith and his un-bending adherence to truth as he saw it. When he differed in 1921 from Gandhiji's Non-Co-operation programme speaking of it as an attempt to take the country back to stagnation. he

was, like Dr. Annie Besant, segregated from his political friends and former followers and adherents and he had to give up the editorship of Motilal Nehru's newspaper, "The Independent". But he preferred to stand alone and live in the light of truth as it was revealed to him. He was elected President of the Provincial Conference in 1921 and encountered great opposition but his spirit never quailed.

In Bipinchandra Pal we find embodied many diverse and rare qualities. He was a stern realist although his realism was accompanied by deep religious convictions and yearnings. He was a born rebel but nevertheless preached adherence to the law and the Constitution. He started as a nationalist and ended as an advocate of federation and internationalism. But in all his writings and speeches, he revealed himself as one who lived in the light of ancient racial traditions and yet was willing to adjust them to newer needs and evolving world movements. He was a strong man who could stand alone and yet fought for unity and toleration. Such men are the salt of the earth and we do well to cherish and perpetuate his memory.*

-CIVIC SERVICE

(Continued from page Twelve)

These concerns are not exhausted by any means by schools or even libraries. The schools must be multiplied and libraries, adequately equipped must be gradually established in every locality so that they may be accessible to the great bulk of the citizens. These schools and libraries should be placed in charge of local committees appointed by the residents of the different localities themselves, the officers of the Corporation confining their duties more as helpers and friendly instructors than as superior controlling or directing agencies. Side by side with these libraries that must have provision for a lending department, we must have art-galaries. We have at present only one art-gallery in Calcutta. It is owned and managed by the Government. But in the more advanced modern cities they have artgallaries owned and managed by the city-corporations themselves. In some places, if my memory fails me not-in the States.-there is provision. I think, even for the periodical lending out of the great waste-pieces of art to private households which are utilized to decorate their own homes for a specified period, offering thereby an effective practical education of the artistic sense the members, particularly the children those families. It may sound just now a too ambitious an ideal for us, but the organization of civic life and civic service on the cultural side can never be complete without these.

As the more advanced city-administrations have libraries and art-gallaries to help the education of their people, so I think they also have public theatres and cinemas. At present these institutions are run by city-administrations practically on bureaucratic lines. But the universal tendency towards decentralization cannot take long to assert itself here also. In any case, our ideal should be to have theatres and cinemas organised and run on the same co-operative principles by the people themselves, of course with the help of paid expert guidance and direction.

CIVIC SERVICE

[By SRI BIPIN CHANDRA PAL]

(Reproduced from the Fourth Anniversary Number of the "The Calcutta Municipal Gazette," November 17, 1928).

CIVIC SERVICE, is a difficult subject in view, particularly, of the confused and immature conceptions of Civics and the prevailing systems of all the world over of modern city-government.

Civic Service or the service of the city to which we belong must, if it is to be real, be built upon a developed civic consciousness. This civic consciousness is a cultivated and acquired consciousness. In our village-life the social sense grows naturally upon long associations covering oftentimes the life of unremembered generations of our people. There is homogeniety in rural life, which is more or less inevitably absent in the city. The village-life is built upon agriculture and village associations are formed around the land upon which the different families in the village have lived and grown from long centuries. The village society is composed of people owning oftentimes a common ancestry, and where this common origin is absent, there even generations of neighbourly life and sometimes of martial relations help to create and develop without any conscious effort a natural sense of ownness in the common life of the village and an inherited, and therefore, generally unconscious or, more correctly, subconscious sense of community of social interests among the people.

In a city, however, there is a more or less complete absence of the conditions that unconsciously help the individual to develop his consciousness of identity with the life of the village to which he belongs. Cities from of old have grown by attracting people from the villages. These people, generally come and settle in cities as isolated individuals or families. They have no normal or inherited affections for their neighbours. They leave their rural surroundings as a rule, in search of fortune; and the very conditions of their new life in the city inevitably weaken the old social sense which they had acquired in their original rural home. The business of fortune-hunting is itself not helpful to the development of social virtues. The absorbing call of their trade or vocation that has to be carried on in keen competition with strangers, who make no appeal to their social affections, leave them little or no time for the cultivation of the larger social sense. The tendency of city-life is everywhere to make the individual citizens more and more self-centered, if not selfish and less and less social or altruistic. In the city the social sense grows where it at all does grow from the need of the recreations and enjoyments of social life that cannot be ignored by the normal man even if he be most self-centered and selfish in regard to his economic interests. Sometimes, the unnatural conditions of the city-life drive individuals to combine with their clans or castes into narrow cliques, which, without finding any effective antidote to man's selfishness, simply create new instruments and organizations for the pursuit of this very selfishness, instead of within the narrow limits of the individual life, in the somewhat larger arena of clan-life or caste-life. In Madras, for instance the city-life has been cut up into competitive groups through

organization and consolidation of the different castes. The Brahmin has, for years past, stood by the Brahmin, and Brahmin clannishness has in its turn provoked gradually a similar clannishness in the non-Brahmin residents of the city. The result has been the inevitable subordination of considerations for the general good in the pursuit of the administration of the city to considerations of particular caste-groups. Though in a lesser degree, the same thing is observed in other cities also. In Allahabad, the Cashmere Brahmins, forming a comparatively smaller group have not altogether been free from this clannishness, all their liberal culture and wide outlook of life notwithstanding. In Calcutta, it may be said without offence, it is or has been a general feeling in the community that the Kayasthas have, for years past, formed a predominant group in the city-life. This groupconsciousness in our current city-life inevitably creates and fosters a conceit of separatist group interest which must be cured before any healthy and vigorous civic consciousness can be developed.

And this consciousness will have to be cultivated by systematic civic education, both the theoratical and practical. iOn the theoretical side, the fundamental inter-dependence of all the vital interests of individual householder residing in the city must be demonstrated to them by a systematic course of training in Civics. On the practical side we must have organized civic activities for the cultivation of this consciousness of the absolute impossibility of securing any vital interests for the individual householder without simultaneously securing it for all his neighbours.

In considering this problem we must frankly examine existing methods of city-government and see how far they are helpful to offer this training to the modern citizen. As in the organization and administration of the State, the prevailing method even in our so-called advanced democracies has been the delegation by the many of their ultimate authority in the government and administration of their country to a selected few, who are charged with the responsibilities of the direction and control of the political life of their people so also in all our city-administrations the same method of delegation has hitherto prevailed. The inevitable result of this representative or delegated government has been practically to weaken the direct interests of the general body of voters in their public affairs. Kept out of direct participation in the week of government the individual voter, if he is not inspired by large political ambitions of entering the ruling class. loses all vital concern in questions affecting the community as a whole, not to mention the larger problems of international co-operation or fellowships The idividual voter, as a rule, is guided in the periodical exercise of his vote not by consideration: of the common good, but practically, always and only, by regard for his narrow personal interest of the interests of his class. This system of delegated or representative government, or so-called parlia mentary government, has, therefore, failed so far as

a real educative agency. There is only one country in modern civilization of which we know, that has sought seriously to realise the highest educative value of representative or parliamentary government. It is Switzerland. In every other country this current system of delegated or representative government has not been able to fulfil its educative object and develop a living political consciousness in individual votors.

Similarly, our modern city-government, that have imitated the parliamentary system, have not as yet been able to create and develop a living and powerful civic sense. As in our State-life, those who are in theory the servants of the people become practically their masters, so also in our modern citylife, those who profess to be the servants of the citizens inevitably become, owing to the very constitutions of the city-governments, their masters. And the inevitable result of all bureaucratic administrations follows here also. The very efficiency of the city-administrations by expert agencies tends to weaken and ultimately destroy all living interests in the affairs of the city of individual citizens. Kept out of participation in and absolved from direct responsibilities for the pursuit of the common good, the ordinary citizens, who has enough to do to look after his narrow private concerns, grows naturally indifferent to the common life of the city and gradually loses all vital civic consciousness. It is only in the face of some special danger or when drawn into particular conflicts of municipal parties that the ordinary citizen throws himself into the civic activities about But these periodical or spasmodic participations in conflicts of narrow municipal interests never help him to acquire any strong civic consciousness. If we are to develop a living civic consciousness, we shall have to reconstruct more or less radically, the whole system of modern city-administrations.

This, however, need not frighten anybody as revolutionary receipe; because we cannot entirely ignore our past karma.. The modern city-administration in India has been in existence for more than half a century. During these long years interest have been created, new rights have been acquired, and new habits of thinking have been formed. We have not a clean slate to write upon. No practical reformer, however, revolutionary may be his ideals, can antagonise existing ideas and interests or even ignore current passions and prejudices with a view to building a new heaven and a new earth. Whatever the defects of the existing system of city-administration, it cannot be changed, lock stock and barrel, all at once. The immediate problem is to create a living civic sense in the great bulk of rate-payers. The City Corporation has been spending a good sum already for the promotion of primary education. It seems to me that our City Fathers may well and profitably consider plans and estimates for imparting civic education to the entire adult population of the city. In doing this, they may well adopt the method of extension lectures, which has become a universal feature of modern university activities. By means of these extension lectures we may help our rate-payers first to a knowledge of their own city, illuminated by a comparative presentation of the life and activities of other great cities of the modern

world. In the next place, the syllabus of these lectures must include a course of social ethics which will bring home to the audience the absolute impossibility of realising their private and personal interests in all vital affairs of life, whether sanitary or economic, without, at the same time, advancing the same interests of their neighbours. We have already got Ward Health Associations, which are trying to help the sanitary education of the rate-payers. But it is not enough. The activities of those health organisations must be supplemented by systematic lectures on Civics.

But the most effective method for the creation and development of a real civic sense must be sought: and found in practical civic work. At present we have only larger civic works that are carried on by the paid agencies of the Corporation. These agencies must be retained. But small and supplementary organisations must be formed which shall undertake essential civic duties in their own localities. The present rate-payers' associations are much too big to serve this practical educative purpose. I would have a civic organisation for every street or lane and, where the streets are too long to be handled efficiently as a single unit. I would cut them up into smaller and more manageable sections. I would enrol every householder in these localities as active reembers of our civic associations. They will be sharged with the supervision of the work of the paid agency of the Corporation in their own jurisdiction. Every householder will thus be invited and offered an opportunity and an agency for active and personal participation in the administration of his own locality and for realising the ideal of citylife and government in co-operation with his neighbours.

In suggesting these I am not indulging in vain fancies. Because, it is well-known to many people, particularly in the neighbourhood of Bosepara Lane, in Baghbazar, how Sister Nivedita tried to organise with the help of voluntary service of the residents of that place, a municipality of its own within the larger City Munic pality. Sister Nivedita went about from house to house, specially among the women, instructing them in real Civics, and indicating practical lines along which not only the men but even the women of every house could materially contribute to the cleanliness, the orderliness, the health and beauty of their own lanes or localities. Here we have a practical example to follow in building up a healthy civic life in our midst.

The call to civic service comes naturally to those who are moved by the sight of want or suffering or disease. People who are ordinarily selfcentered are oftentimes found to go out of their way to help their neighbours. The natural idealism of youth and the spirit of adventure and self-sacrifice usually associated with it, move young people to voluntarily undertake the service of their neighbours. We have had for many years past numerous organisations of young men in various parts of the city who try to help the needy, nurse the sick and otherwise make themselves useful in assisting their neighbours during special occasions, as the different bathing and other festivals which attract immense crowds of men, women, and children from the country to this City. Organisations readily grow up to offer all manner of assistance to these pilgrims, providing medical and other help to those who stand in need of these, and co-operate with the city agencies in the management of these crowds. All these have been slowly educating our people in organised civic service.

The call, however, to this service not and, in the very nature of it, can never be a permanent call. The inspiration here comes from the universal sympathy of man for brother man. This class of service cannot, however, directly help the development of that abiding civic consciousness which is and must be the soul of all true civic service. The motive power behind this specific civic service must be, as I have already said, a keen and abiding consciousness of the fundamental unity of all the vital interests of life of the residents of a city.

The primary need of city-life is sanitation. Cities are inevitably far more crowded than rural areas, and this very fact demands organisation of special measures of sanitation. The city-government may plan these measures, but no city-government can carry out effective measures of public hygiene in a large and crowded city unless and until individual householders of it actively and religiously co-operate with the agencies of the Corporation in the execution of these plans This co-operation can never be forced. It must, to be effective, be voluntary. And it will never become voluntary unless and until every householder is made to realise and perpetually remember that the measure of his freedom from preventible diseases and epidemics must always be determined by the measure which he strives to secure for his neighbour also. 'Love thy neighbour as thyself is not merely a high moral injunction or spiritual appeal; it is also the foundation of all social or civic service. It has also what may be called a very vulgar practical reference. Because, no man can realise his own interests or his own good unless he tries to reconcile these with the interests and the good of his neighbours. And it is upon a cultivated consciousness of the organic interdependence of the good of every individual upon the good of every other individual belonging to his city that all real civic service can and must be built

At present we have in every modern cityadministration organisations for sanitary service. There is, so far as I know, no department in any city corporation for the special education of the citizens in civics and self-organised civic service. On the contrary, the tendency of modern municipal administration has been for the Corporation to do practically everything for the individual regard to his civic requirements. State-Socialism has for nearly a century past been the cry of modern democratic politics in matters of State-life of every larger people, municipalisation of all the services that the residents of a city require has been the tendency of modern city-administrations. It has certainly its advantages, but these are not without their counter-poise of evils. The inevitable result of State-Socialism is to weaken and gradually destroy individual initiative in regard to the affairs of a people. Similarly, municipalisation of all civic services has the same tendency of weakening individual incentive and the call for self-organised activities among the residents of a city for the general advancement of the collective interests of their city. This evil must be countered. And it can be countered only by the organisation of civic service among the people by

themselves. And it is the duty of every modern Corporation to help this non-official civic service by appointing a Special Director of Civic Service whose duty will be not to work himself or through his assistants any department of civic service but to help the initiation of various civic services by different groups of citizens themselves and educate them simultaneously in both civic sense and civic service. We have now in every advanced cityadministration a Health Officer who is the head of the department of public sanitation of the municipality. But we want also another officer whose function will be to educate the citizens in civic duties so far as the promotion of sanitation and the prevention of diseases are concerned, and assist them in organising among themselves necessary measures for the advancement of sanitation within their own

But sanitation, though certainly the most important concern of every city, does not exhaust all its vital interests. In fact, sanitation is intimately bound up with vital economic problems. Prevention of diseases and promotion of health are impossible of attainment among a people who cannot command the resources to provide themselves with healthy habitation and pure food in adequate quantity. Sanitation, therefore, runs into economics, or raises fundamental among the populations of the city. Increasing attention, no doubt, is being paid to sanitary housing and provision for pure and cheap food by all the advanced city-administrations of our time. We cannot afford to lag behind in this matter. Our difficulty is finance. And the solution of this diffi-culty will have to be sought and found not in occasional doles from the State or in public loans on the security of the city's finances only, but mainly. in the organisation of co-operative credit, co-operative housing and co-operative stores in our cityadministrations. As the very nature of this idea suggests, here the principal duty, if indeed not the exclusive function, of the department of co-operation of the city-administration must be to do as little as possible itself but help by instruction and guidance the organisation of co-operative civic service by the people themselves. There is no reason why provision for cheap, pure, and fresh food-products should not be made through co-operative municipal stores in every locality. These stores, though they may be called municipal stores, will neither be owned or managed by the municipality itself, but local corporation formed in accordance with the Cooperative Societies Act, the membership of which shall be confined to the locality served by these stores. If and where initial pecuniary help is needed for the organisation of these stores, it may be provided, should fund permit, by the Corporation itself, or by the Government under the usual condi-It will be the aim of these municipal co-operative stores to enrol every rate-payer in the locality as member. This will find comparatively cheap necessaries of life to those who will join these stores on the one hand, and on the other, provide an excellent agency of civic education civic service to them.

Man, however, liveth not by bread alone. Modern city-administrations cannot ignore with impunity the cultural concerns of the citizens.

VIEWS AND REVIEWS

DESHABANDHU'S BIRTHDAY OBSERVED

Through different functions the city observed the Eighty-Eighth Birthday Anniversary of Deshabandhu Chittaranjan Das, the First Mayor of Calcutta, on the 5th November last.

In one such function arranged by the Deshabandhu Pathagar, Sarat Bose Road, South Calcutta, the Mayor, Dr. Triguna Sen, as Chief Guest, discussed the life-story and achievements of the

The Mayor, Dr. T. Sen (on the mike) speaks and Shri Sudhangshu Basu sitting on extreme left at Deshabandhu Pathagar's function.

great patriot. He also wished continued prosperity of the Pathagar which was then celebrating its forty-flifth foundation day synchronizing with the event. An equal number of lamps with the years outlived by the institution was lit on the occasion and the building was decorated.

Shri Sudhangshu Kumar Basu, Editor, Hindusthan Standard, who presided, urged the youth to emulate the noble examples of service and sacrifice of Deshabandhu which also inspired thousands others in this land.

The All-India Radio, Calcutta Station, broadcast a special programme that evening. It was divided into two parts, and one was devoted to Deshabandhu's activities during the fateful years of his life and the other gave tributes to his memory

There were other functions arranged by different organizations in the city.

MORE ABOUT ANTI-PROFITEERING ORDINANCE

Since the fixation of ceiling prices of few essential foodstuffs including a number of baby foods under the State Anti-Profiteering Ordinance, the West Bengal Government has also fixed the maximum prices of drugs and medicines to be enforced throughout the State. A Notification fixing the prices of such was issued in the Calcutta Gazette on Tuesday, the 11th November. The prices cover about 451 items which have been divided into Antibiotics, Sulpha Drugs, Horomones, Insulins, Serums and Vitamines. The maximum prices chargeable by importer, producer and wholesaler excluded Sales Tax, while those chargeable by retailers included that Tax also.

The list showed that the State Government has ommitted a few more essential items which need price fixation most. Besides, prices so fixed, do not always tally with the prices in which the drugs are available in the open market. Prices have been fixed in a few other cases by allowing it to rise from 20 to 40 per cents more than the existing available prices. Thus there have been some confusion and disillusionment in the city on the present move of the Government. It may be noted here that the majority number of items were available in the open market and the prices had not been prohibitive at all. While a few imported drugs, ommitted from the purview of the order, were not easily available even on a higher price.

With the fixation of prices of essential foodstuffs, reports about the violation of the orders began to pour in. These were cases wherein small shop-keepers were arrested on their refusal to sell goods under controlled prices in spite of the fact that they possessed stocks of the same and others for selling foodstuffs on prices higher than the controlled ones. Persons were also arrested for selling quantities of rice from Government approved Ration Shops to customers coming without Ration Cards.

Huge quantities of flour, Suji, atta, rice and other controlled goods were seized from different shops scattered throughout the city by the Police on information received or gathered from local sources, in the meantime. These food-stuffs were held by them without covering the necessary permits for the same.

The State Minister for Food, Relief and Supplies, West Bengal, discussed the Anti-profiteering Ordinance with representatives of the Bengal Trades' Association recently. He assured them that there would be no harassment of small retail traders. He would see that the normal distributive trade was not disturbed by a section of wholesale distributors.

The West Bengal Food and Relief Advisory Board, at its first meeting on Wednesday, the 12th November, discussed the workings of the Ordinance. Some of the members expressed their resentment at the Government's refusal to consult the Board in the matter of fixation of prices of commodities covered by the Anti-Profiteering Ordinance. Dealing with other points, the Minister also told them that there had been no profiteering in dal and mustard oil. Fish, being a perishable commodity, he thought, it was not possible to include it under the Ordinance. He agreed, however, to investigate the fish supply position which was most unsatisfactory then in co-operation with the big traders.

END OF AUTUMNAL FESTIVITIES

With the celebrations of innumerable number of Kali Pujahs in the city on Monday night, the 10th November, there has virtually been an end of autumnal festivities. A thin link to this was, however, reopen to the Brothers' Day or Bhratriditiya, which occurred on Wednesday, the 12th November.

Calcutta wore a fairyland appearance on Monday, when thousands of houses, tall buildings, shops and market places were illuminated. Candles, electric bulbs and traditional earthen lamps were largely used for the purpose.

Along with the Diwali, the most important festival observed by the people of northern and southern India, the worship of the Goddess Kali had an added significance for the citizens. The Goddess of Destruction as described through the image, had inspired saints and devotees in Bengal since the mediaeval period. Whenever people were in distress they invoked the blessings of the Goddess to triumph over evil forces. The images were of different types and coloured. There were a few which were attractive and drew larger number of crowds at that night.

At 11-30 P.M., the Pujah began. Thousands of devotees gathered at Puja pandals and Kali temples at Kalighat and Thanthania. Drums were beaten and goats sacrificed. The Pujah lasted till next early

morning and the enthusiasm went on as usual throughout the night. The evening and the night were also full of noise. There were occasionally loud reports of the bursting of bombs, the police regulations regarding which did not seem to have been seriously followed.

In the Burrabazar area Marwari shops were richly decorated with coloured lights, flowers, paper bunting and foliage. New images of Ganesh and Lakshmi were installed in shops after priests had chanted appropriate hymns. The old images were assigned to the Ganga.

The fireworks which had started rather haltingly in the afternoon intensified after the illumination. In some of the parks and open places *tubris*, trees of fire, went up, some rising over 30 ft. On balconies and doorsteps the eager children watched multicoloured sparks coming out of *phulihuris*.

Despite the precautionary measures taken and vigilance maintained by the police, nearly 100 cases of burns from fireworks were attended to in city's different hospitals. A dozen were admitted for treatment. The West Bengal Fire Service also attended 26 cases of fire in the city all caused by fireworks. The places involved were mostly bustee huts, pujah pandals and trees.

A truck-load of unlicensed fireworks were seized by the Calcutta Police in Canning Street on Saturday, the 8th November last. During these days a huge quantity of dangerous fireworks, including 1,000 throw-down crackers, and over 20 maunds of chemicals were seized. Arrests totalled 87 in this connection during pre-Pujah days. Fire also broke out in a godown stacked with sulphur in Chetla area a few days back.

About 350 persons, arrested for gambling, selling fireworks without authority and displaying fireworks in public streets and places on the Diwali night, were tried on Tuesday. Among them, about 200 persons were convicted for Diwali gambling. They were fined different sums ranging from Rs. 8|- to Rs. 20|-each in default simple imprisonment for a few days each. A shop-keeper was fined and sentenced under the Explosive Act for selling crackers of dangerous type. Twelve others were fined of various sums for selling unauthorized fireworks. A same number of boys were warned and discharged for displaying fireworks on open streets at that night.

Quoting figures of fires and injuries caused by manufacture and display of fireworks about Kali Puja time every year, the city's police chief earlier sought help and co-operation from each and every citizen. earlier.

The police tried this year to stop these in two ways by banning the manufacture of prohibited fireworks and creating public opinion against it. The Commissioner said one day that manufacture, possession and sale of crackers, commonly known as "atom bombs", were banned. Purchase and sale of potassium chlorate were prohibited except under a license. Display of any sort of fireworks on the streets was banned. Any person violating these regulations would be promptly arrested, it was warned.

Sale of fireworks without a licence was declared illegal; there were only 189 licensed shops in the city.

Many of the Pujah celebrations were inaugurated by important citizens. A few were graced with

BEATING THE HEAT

[By Shri B. V. Roy, M.A.]

THE hot season in Calcutta during the year 1958 was characterised by excessive heat, almost unrelieved by the welcome nor'westers with their accompanying storm and rain. The number of nor'westers was only 5 or 6, a truly low number, which hardly affected the heat-wave passing over West Bengal, Behar and Orissa. Calcutta people sweltered in the heat, which rose one day to 111 degree F, a record for two decades. April and May are the hot months in Calcutta, sometimes running into June (as in the present year) when the monsoon bursts and gives welcome rain, cooling the temperature. Calcutta people have all along tried means and devices to beat the heat, and except in the case of those whose work takes them out of doors during the heat of the day, have succeeded in beating the heat as far as office people are concerned, i.e., those who spend the day inside office rooms. The three objectives of all devices for beating the heat were: (1) to maintain a current of air inside the room, (2) to cool the atmosphere inside the room by extraneous means, and (3) to cool the drinking water as also other drinks.

The earliest device for beating the heat was the punkha, said to have been invented in 1780, and in use upto the end of the 19th century. It consisted of an oblong piece of wood several feet long, and two feet or so wide, to which was attached a deep and wide fringe of heavy cloth. This was suspended from the ceiling, and by means of attached ropes, was swang to and fro, the swishing of the cloth-fringe producing a current of air for those sitting or lying beneath it. The pulling rope was sometimes passed over a small wheel affixed to the wall to facilitate pulling, and sometimes the rope was carried outside the room, where the punkha-puller could sit and pull. This was specially for the night-time, when the puller sat outside the bed-room and pulled the punkha-rope from there, causing a breeze in the room. Manpower was cheap in those days, and a punkha-puller cost only 2 annas per night, from 9 p.m. to 6 a.m. Gradually, at the end of the 19th century, when the use of electricity became common, the electric fan came into use and replaced the punkha. The palm-leaf hand fan was also much in use for individual purposes, being swung by hand to cool oneself. There was another larger variety of palmleaf fan, wielded by a servant, in use on ceremonial occasions, to serve groups of five or six people sitting together. These have disappeared with the advent of the electric fan, but some may still be used where electric fans are not available. The price of electric fans has also increased more than two-fold in the vears. At the beginning of the present century (about 1910) I could purchase an Oslers' table fan for Rs. 50;- whereas the price now is nearer Rs. 150|- for a table fan and nearly Rs. 200 - for a ceiling fan.

As regards the 2nd point i.e., cooling the atmospher inside the room, the khuskhus purdahs or tattis were the chief means of doing this. The twigs of the khuskhus plant bound together and waven into purdahs, placed before doors and win-

dows and wetted thoroughly, cooled the air inside the room, and also exhaled a sweet scent. These purdahs were commonly in use in all offices, having to be wetted at intervals to keep them moist and cool. The door (in some cases) was provided with a tatti of khuskhus in a split bamboo frame, so that immediately on entering the room, one was conscious of the cooler atmosphere. This has now been replaced by air-conditioning of rooms. There are available small room air-conditioners, which cool the air inside a room, keeping the temperature constantly at about 80 degree F, which occupy very little space along the wales to which they are attached, and plugged to an electrical circuit, being only about 3 inches in depth. Larger airconditioners are used in cooling an entire house, but they are costly affairs.

As regards the 3rd point, viz., cooling of drinking water, it may be mentioned that during the 18th and 19th centuries, every (European) household numbered among its huge staff servants an abdar, whose doty was to maintain a supply of cool drinking water. European residents of Calcutta used the water of the Dalhousie Square tank for drinking purposes. They had a horror of using Ganges water (used by all Indians) because of the numerous dead bodies floating in it. The abdar used to cool the water in the following manner, as described by a "Young Civilian" in 1805.

"The abdar is squatted on his rump, cooling the drinking water. Before him is a round vessel, flat, with a very large mouth, called a tass, in this is the saltpetre and water. In his right hand he holds a sooroy (ic., a surahi or long-necked earthen or metal flagon) which he rubs to and fro in the tass, and by this means the water contained in the sooroy becomes almost as cold as ice".

As for ice itself, it was during the administration of Lord William Bentinck—that arrangements were made to import ice from America, which was kept stored in an ice-house built specially for the purpose in Hare Street—a squat, dome-shaped building which has disappeared long ago, its site is now covered by the small causes court buildings. Stocqueler, the proprietor of the "Englishman" newspaper, in his "memories of a journalist" gives the following account of the importation of ice.

"In their wildest dreams the luxurious people of India never went the length of supposing that American ice could be sent out 15,000 miles under any conditions. Judge then of the surprise which was created by the arrival of a cargo. Mr. Tudor of Boston could scarcely bring himself to believe that it would be possible to preserve the ice on board a ship in a warm climate for four months. An accident resolved his doubts. One of his ships bound to the West Indies had gone ashore. Four months elapsed before she was got off and the cargo removed. It was then discovered that there had been very little wastage indeed. Tudor at once determined to send ice to India. Linning the lower deck and hold of the ship with tar and cork, excluding the air, and providing means of drawing

off the water from the melted ice, he contrived to send out his experimental cargo.

It was an hour after dawn one morning in spring . . . that a faithful domestic came to my bedside with the strange intimation that a ship (the Tuscany) was off the town laden with baraf Engaging a paunch way-a small native wherry, I pulled on board the Yankee Clipper and verified the assertions of my servant. I was allowed to peep into the abyss which contained the treasure. There it lay in square masses of the purest crystal, packed carefully and scientifically. To add to its beauty, a quantity of rosy American apples reposed upon the surface of the glacier. I hurried off, giving my khansama a wicker basket and a piece of green baize, and sent him off with a rupee for a pound of ice How many Calcutta tables glittered that morning with lumps of ice! The butter dishes were filled, the goblets of water were converted to miniature arctic seas with icebergs floating on the surface. All business was suspended until noon, that people might rush about paying each other congratulatory visits and devise means for perpetuating the ice supply. Everybody invited everybody to dinner to taste of claret and beer cooled by the American importation. And never was the editorial pen employed upon a more delightful theme.... Every man who could afford it, had a box made for the reception of his wine, his butter and his meat, with a capacious zink-lined well in the centre. A public meeting was called to inaugurate a subscription for the erection of an ice-godown. Captain Rogers got a gold cup as guerdon his merit.'

The gold cup mentioned was presented to Captain Rogers with a letter from the Governor-General, Lord William Bentinck, dated the 22nd November, 1833, congratulating him for the "spirit and skill by which this novel and beneficial enterprise has been planned and executed" and mentioning "the accompanying small token of the gratification which I have derived from the success of this extra-ordinary undertaking."

As regards the price of ice in those early days, Dr. Walford tells us that ice in Calcutta was a shilling a pound, while we see from Stocqueler's account above that it was a rupee a pound, *i.e.*, two rupees per seer. Later, from an advertisement in the "Englishman" in 1839, we see that American ice was being sold at 3 annas per seer.

This continued for several years, and much later factories for the manufacture of artificial ice were established in Calcutta. The ice was widely sold throughout the city through panwala shops, and was sold at a price between 2 and 3 annas a seer. This is still continuing.

The invention of the electrically operated Refrigerator did much to mitigate the rigour of the heat, but their cost was excessive, so that they found their way only into the households of wealthy people. Water kept in bottles, as well as anything bottled like champagne, or bear or other wines kept inside would turn icy-cold, while water kept in a special receptacle would freeze into ice-cubes. Fruits, vegetables, and even meat or fish would keep fresh in a refrigerator for several days. So it has done much to beat the heat, but unless it is made savailable widely and cheaply, it will give comfort to only a selected few persons who can afford to buy it.

THE WORLD OF BOOKS

SAMHATI-PUJA (KARTIC) NUMBER-1365—The Special Number edited by Shri Surendra Nath Neogy, contained a number of articles receiving appreciation. These were from the pen of Dr. Srikumar Banerjee, Dr. Jatindra Bimal Choudhury, Prof. Khagendra Nath Mitra, Shri Bhupendra Kishore Rakshit Roy, Dr. Arun Kumar Mukherjee and many others. A few stories have also adorned it. The Number abounds in shorter poems, though not uncommon still they provide little food to the reading public in these days. Containing a few art plates the Number has maintained its old tradition and thus should be welcomed on all hands.

DEATHS AND DISEASES IN THE CITY

The city was not quite free from the incidence of epidemic diseases during weeks when the Pujahs went on, and the weeks following. Attacks and deaths from cholera totalled 19 and eight respectively during the three weeks ended the 11th, 18th and the 25th October. During the two weeks the 1st and the 8th November, there were 13 attacks and six deaths from the same disease. During a similar corresponding period of the last year there were an increased number of attacks and deaths from the same.

Attacks and deaths from Small-pox during the said three weeks of October last were four each while the member was four and three respectively during the first two weeks of November. The city was almost free from small-pox during the corresponding period last year.

Ninety persons died of Tuberculosis during the said period in October and 81 from the same during November's first two weeks. Tuberculosis took more than 150 lives during a similar period last year.

Malaria was able to toll a negligible number of lives during the last three weeks of October while the city recorded no deaths from the disease during the said period of November. Typhoid was responsible for nearly 25 lives during the above five stated weeks.

Deaths from all causes totalled 1669 during three weeks of Ootober and 1260 during November's first two weeks. Nearly 3,000 people lost their lives due to several causes during a similar period in 1957.

-VIEWS & REVIEWS (Continued from Page 74)

the presence of Cabinet Ministers. The Corporation Employees' Association also celebrated the Pujah at Hazra Park, South Calcutta. It was followed by presentation of classical music on the next day. The immersion of those images which was arranged on Tuesday, the 11th November, was rather peaceful. People lined the streets leading to the Ganges to have views of the innumerable images drowned on that day.

Brothers' Day or Bhratridwitya, was observed in most Hindu homes on Wednesday, the 12th November in a festive spirit. Women carried bags full of presents and sweets to their brothers and many men bore sandal marks on their foreheads put there by their sisters, wishing them immortality.

REMEMBRANCE DAY was observed in the city with two minutes' silence at 11 A.M. on Sunday, the 9th November, for those who fell in the two World Wars. Wreaths were placed at the Cenotaph on the Maidan and at the College Square Memorial on behalf of the State Governor, the West Bengal Government, the different Chambers of Commerce, the Corporation and other organizations.

Guns were fired to mark the beginning and the end of the silence. In College Square members of the West Bengal National Volunteer Force presented arms and stood in silence with reversed arms.

WEST BENGAL FIRE SERVICE observed FIRE PREVENTION WEEK for attaining a better and superior quality of service. The men gave an impressive display in the compound of their headquarters on Free School Street, central part of the city, on Tuesday, the 4th November last. The show was repeated at the same place later on.

Nine events covered different aspects of the Services' work. The very realistic fire scene in which about 60 people were engaged to fight the "outbreak" with modern equipment, with which the programme ended, will be long remembered.

An attractive display of powerful pumps which, operated by fire vehicles, threw water jets up very high in the air caused much interest to the visitors. Water sprinklers were also demonstrated. To show how firemen enter blazing buildings to rescue trapped people, a demonstration was given by a fireman wearing a fire-proof asbestos suit. The use of various types of fire extinguishers was also demonstrated.

Such displays by the Fire Services becoming popular was proved by the large crowd present.

It has been stated in that connection that the value of properties lost by fire was about Rs. 35 lakhs in 1957 and Rs. 66 lakhs in 1956, according to statistics maintained by the Fire Service. Fire damages amounted to nearly Rs. 90 lakhs in 1952-53 and about Rs. 69 lakhs next year. Fire calls registered in different fire stations in the State in 1957 numbered 1,791 against 1,740 in the preceding year.

Investigation made by the Service indicated that most of the fires broke out due to carelessness, electrical short circuit, spontaneous combustion, naked light and petrol fumes.

There are 28 fire stations in West Bengal including nine in this city.

A CONVENTION of representatives of different Leftist Parties and democratic organizations, was held at the Indian Association Hall, on Saturday, the 8th November last. It expressed the view that it would be inconsiderate to send refugees from West Bengal unwillingly, without exploring methods of developing the background economy of the state.

The convention was of the opinion that there was ample scope for development of land and expansion of industries in the State. It further expressed surprise that the Government was unwilling to spend within West Bengal the amount that was being diverted for land and other developments outside the State.

Shri Kapil Bhattacharjee presided at the convention which was addressed, among others, by Shri Mohit Mottra and Shri Bhupesh Gupta, M.P.

CALCUTTA WAS LINKED WITH LONDON by a direct radiophoto service on Thursday, the 6th November last. This is the second overseas link with this city, the first being established last month with Hamburg.

The latest type of transmitting and receiving equipment, at a cost of Rs. Ten lakhs has been installed at the Central Telegraph Office and photos, company statements and engineering drawing plans can now be transmitted to London in about 15 minutes.

The service can also be extended via U.K. to U.S.A., Finland, Sweden, Belgium, Norway, Denmark, Greece, Italy, Portugal, Switzerland, South Africa, Egypt, Australia and Canada.

SHRI JYOTISH GHOSH, a veteran to propagate Bengali literature both among the non-Bengalis and non-Indians, was given a Reception on the occasion of his Seventy-Second Birthday Anniversary, in Maharastra Nivas Hall, Hazra Road, South Calcutta, on Monday, the 10th November. The function was arranged by his students who have learnt to read and write Bengali scripts. It was presided over by Shri Narendra Deva, a poet. Addresses were read praying for his long life and wishing other achievements. Presents were also made by those students as a recognition to his services. Among those present were Dr. P. N. Panerjee, D.Sc., a former Minto Professor of Economi. Calcutta University, Shri Upendra Nath Ganguly, Shri Suren Neogy, Shri Gopal Bhoumick, and many other litterateures.

INDIA-SOVIET CULTURAL ASSOCIATION met at a convention on Sunday, the 9th November in Students' Hall, College Square, in connection with the November Revolution Day. The Consul-General of U.S.S.R. in Calcutta, Mr. V. B. Cosilov acted as Chief Guest, while Prof. Nirmal Chandra Bhattacharyya, M.L.C., presided.

Through a long speech, Mr. Cosilov euogized the significance of observing the November Day in the context of the present world. He also said that the capitalistic world was advancing towards a crisis due to its own help-lessness to further the progress of humanity.

Mr. Cosilov emphasized that the union of three big countries like India, China and U.S.S.R. would lead to an unprecedented event ever to be remembered.

The speakers included Prof. Bhattacharyya, Shri Satyendra Narayan Mazumelar, M.L.A., Enri P. C. Chatterjee.

A Soviet girl rendered a few songs from Rabindranath stressing the need for the foundation of a Federal World.

CORPORATION NOTICES

To Contractors

Tenders are invited in duplicate for the following and will be received by the 2nd Deputy Commissioner on the date noted for each, upto 12 Noon. Each tender in duplicate must be enclosed in a sealed cover and superscribed "Tender for.... For specifications and tender forms apply to the Keeper of Records. Price Rs. 4|- per set.

1. Supply and delivery of Alum Cake at the Pulta Pumping Station during the year 1959-60. (Earnest money Rs. 2,500).
2. Supply and delivery of Liquid Chlorine during the year 1959-60. (Earnest money Rs. 1,000).
3. Improvement of permanent way of the Corporation Railway. (Earnest money Rs. 2,807). (Estimate—Rs.

2,807). Rs. money

4,94,829).

4,94,829).

4. Supply and delivery of metals other than iron and steel during the year 1959-60. (Earnest money Rs. 500).

5. Supply and delivery of Canvas Hose required for Water Supply to Shipping, markets and for Street Watering etc., during the year 1959-60. (Earnest money Rs. 1,500).

6. Thorough repairs to the floors, drains, tables, gutters in Fish Range in S. S. Hogg Market. (Earnest money Rs. 177).

7. Supply and delivery of Sodium Aluminate to Pulta Pumping Station during the year 1959-60. (Earnest money the year Rs. 1,000).

Rates quoted in the tenders will hold good for three months. The tenders for 1, 2 & 3 will open on 24th November, 1958 and 4, 5, 6 & 7 on 25th November,

B. CHOSH, Secretary.

Central Municipal Office: The 8th November, 1958.

To All Registered Petty Improvement Lighting Contractors

District No. II.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 20th November, 1958, up to 2 p.m.

The abstract of the estimate can be seen at the Lighting Superintendent's Office. Petry tender forms of the Corporation are to be used in submission of tenders. The Corporation standard specification will apply on the work.

The successful tenderer for all works exceeding the value of Rs. 2,500/- shall have to deposit 5 per cent of the total value of the accepted tender, as security deposit, within a week from the date of intimation of the acceptance of tender and shall have to execute an of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or acceptants the agreement within the to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S. D. for P. I. works may at the discretion of the Chief Executive Officer be forfeited.

Installation of 6 Nos. electric lamps 2 by 150 watt each at middle portion of Charakdanga Road in Const. No. 35, D-II, L-115-Rs. 2,970.00, dated 26th July, 1958 (90 days).

-do-8 Nos. electric lamps 2 by 150 watt each at middle portion of Barwaritola Road in Const. No. 35, D-II, L-117-Rs. 4,013.00, dated 26th July, 1958 (90 days).

-Rs. 4,013.00, dated 26th July, 1958 (90 days).

Installation of 8 Nos. electric lamps 2 by 150 watt each at the western portion of Barwaritola Road in Const. No. 35, D-II, L-116-Rs. 3,983.80, dated 26th July, 1958 (90 days).

Installation of 6 Nos. electric lamps 2 by 150 watt each at southern portion of Charakdanga Road in Const. No. 35, D-II, L-114-Rs. 3,114.48, dated 26th July, 1958 (90 days).

Drains, Cess-pools, Hospitals, Sick-rooms, Lavatories and every place where Dirt and Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD. CALCUTTA **BOMBAY KANPUR** 11 11

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annar. A Hour—four annas. I Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that anly coolies bearing number badges are engaged. For the surrent half-year. "A" class coolies have been allowed Khald arm badges with Green numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the

price paid.

7. Any articles lost or found in the market should be eported at the Superintendent's Office.

b. No dogs, bicycles, allowed inside the marbets. tricycles, or

allowed inside the markets.

8. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fer of 0.1-6 for a Bicycle and 0.3-0 for a Motor Cycle, between 6 a.m. to 7 p.m.; between 7 p.m. to 12 a.m. Bicycle 0.3-0, Motor Cycle 0.6-0 and after midnight Bicycle 0.12-0, Motor Cycle Ite. 1.3-0. The Corporation does not take any liability in this manection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the motion of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12.

12. Customers are requested to examine the coins tained in the course of transaction, before they leave shop. Ordinarily no action can be taken against the skeeper if any spurious coin is alleged to have been detected they leave the shop.

CHINESE GIRLS PARTICIPATING IN THE CELEBRATIONS AT RAJ BHAWAN

Calcutta Celebrates Shri Jawaharlal Nehru's Birthday

On Friday, the 14th November, 1958

THE CALCUTTA MUNICIPAL GAZETTE

INDIAN TERRITORIAL ARMY DAY IN CITY

Theorem an impressive ceremonial parade in Maidan, Territorial Army Unit in Calcutta observed the LT.A. Day on Saturday, the 15th November last. Air Marshall S. Mukherjee, Chief of the Air Staff, India, took the salute. Earlier, accompanied by the Parade Commander, Lt.-Col. P. C. Mitter, he inspected the parade (picture above).

Thirty-six members of the Army including a lady, Shrimati Sabita Datta, were awarded silver trophies for various accomplishments.

Divided into two columns the Army men staged a route march over the city's streets on Sunday, the 16th November. One started from Deshabandhu Park, the northern corner of the city and the other from Ballygunge camp, along Ballygunge Circular Road and both finished at the Army Pavillion in the Maidan.

Addressing the men, on the first day, Air Marshal Mukherjee regretted that sufficient number of people were not coming forward to join the Army. He believed that if proper publicity was given to the activities of the T.A., many more people would join. He hoped that the management of business organizations in Calcutta should allow their men to join the T.A. and thus help the country.

Among those present were Maj.-Gen. Henderson Brooks, G.O.C., 20th Division, Shri S. N. Ray, Chief Secretary, and Shri M. M. Bose, Home Secretary, to the West Bengal Government, and Shri U. Mukherji, Commissioner of Police.

VIEWS AND REVIEWS

NEHRU'S BIRTHDAY GREETED

CALCUTTA with the rest of the country offered its heartfelt felicitation and prayed for health, happiness and long life of the Indian Prime Minister, Shri Jawaharlal Nehru, on Friday, the 14th November last, when he entered the seventieth year of his life. People in appreciating the man, Shri Nehru, once again recalled his inestimable services to the country and his great role in shaping India's destiny.

Tributes were thus paid by elder politicians to his statesmanship, ardent patriotism and as an architect of modern India. As a man of sterling integrity, as an exponent bringing peace to the world, and as a statesman of unique calibre the world has known him and recognized the Indian Prime Minister as one among the prominent international figures of these days.

In this city, a number of functions and observations were arranged on that auspicious day, and citizens thronged in large numbers to witness them. The Calcutta Corporation, at its weekly meeting on Friday, offered greetings to Shri Nehru. At the outset the Mayor, Dr. Triguna Sen, extended the felicitations from the Chair on behalf of the House. The House broke into applause in doing so. Dr. Sen also hoped that Shri Nehru would live long and would continue to lead the country to greater prosperity.

The Indian Prime Minister, Shri Jawaharlal Nehru, is not only an idol of masses but also a great lover of children and that is why he is called 'chacha' Nehru, or the uncle of the younger generation. Thus his birthday coincides with children's

mirthday. There were celebrations throughout the country on that day also. Delhi took the lime light on this occasion. Shri Nehru received Birthday Greetings in his residence. New Delhi, throughout the day. It was further graced with the birthday gift of a 'baby' steam locomotive train, about 25 feet long—one-third of the size of a normal one—to the children of Delhi through a formal function at 'Bal Bhavan' children's home, New Delhi. The half-mile circular truck together with the emarald coloured locomotive of the railway system was opened by Shri Nehru, the nation's 'oldest' child, as described, after he had a pleasant ride on it along with fifty children.

Calcutta's celebration was also highlighted with the observance of the Universal Children's Day. Colourful children's processions were taken out in different parts of the city. Band parties accompanied many of those processions. All of them carried big size portraits of Shri Nehru. Slogans were used in others.

Over 1,000 children attended a rally held on the Raj Bhavan lawn in that evening. There was an open air show presenting songs and dances by children. Several Chinese School children took part in the programme. Earlier they assembled at Raja Subodh Mullick Square, wherefrom they went in procession to the Raj Bhavan.

Addressing the gathering, Shri P. C. Sen, West Bengal's Food Minister, said that though Shri Nehru was 69 he was young as a child. He was trying to establish friendship among the nations, so that there could be no war or hostility among them.

The Deputy Mayor, Shri Keshab Chandra Basu, spoke on the Prime Minister's keen interest in children.

This Issue Contains The 33rd Anniversary

Number of the Gazette

There were functions in other cities also on that day. About 4,000 primary school children participated in the mass drill and sports events organized in Nagpur in connexion with Children's Day.

Thousands of children in Madras City participated in Children's Day. All secondary schools remained closed and special children's books were released on the screen to mark the occasion.

C. E. O.'S TERM OF OFFICE EXTENDED

At the outset of the weekly Corporation meeting on Friday, the 14th November last, the House welcomed the news of the extension of services of the present Chief Executive Officer, Shri P. C. Mazum dar, I.A.S. (Retired). The Government order received in this connection was read by the Mayor, Dr. Triguna Sen, in the House. The Government Notification No. 9947 M-1C-44 58, dated the 11th November, 1958, from the Local Self-Government, & Panchayats Department, reads as follows:—

In exercise of the power conferred by Sub-section (1) of Section 22A of the Calcutta Municipal Act, 1951 (West Bengal Act XXXIII of 1951), the Governor is pleased to make the following amendment in Order No. 7451-M.-10-44|58 dated the 14th August, 1958, published in the Calcutta Gazette, Extra-ordinary, dated the 14th August, 1958, relating to the appointment of Shri P. C. Mazumdar, I.A.S. (Retired), as the Chief Executive Officer of the Calcutta Corporation.

AMENDMENT: For the words 'three months' in the said order *substitute* the words 'nine months'.

It may be recalled here that Shri Mazumdar was appointed by the State Government, Local Self-Government Department, as the Chief Executive Officer for a temporary period of three months only. And he took charge of the office on the 19th August last. The appointment was provided under certain Sections of the Calcutta Municipal Act, 1951. The incumbent was then further authorized to exercise the powers and to discharge the functions and duties of the Commissioner.

Announcing the present Notification, an esteemed local daily has made the following observations:

A retired member of the Indian Administrative Service, Shri Mazumdar seems to have a firm grip on the Corporation's complicated affairs. Within two months of his joining the Corporation, Shri Mazumdar was credited with disposing of a large number of files, action on many of which might have been taken two years ago. He said recently that he had disposed of at least 50 files by merely noting on them: "The Mayor to see". How such files remained undisposed for so many months is another story.

We also extend our appreciation on this occasion.

ROAD ACCIDENTS INCREASING

There is a growing concern in the minds of the citizens for an increased number of street accidents all over the city. There were cases when these accidents were of serious nature involving loss of lives to a number of innocent passengers who

were not in any way responsible for this. Sixteen cases of fatal accidents on city's streets have so far been reported during these 22 days of this month.

According to statistical data road accidents in this city from January to September this year numbered 11,323 as against 12,646 in the corresponding period last year—a drop of 1,323. The number of cases involving deaths went up to moving vehicles can be attributed to the increase in the number of vehicles.

Of the 206 fatal cases, pedestrians accounted for 129, tram and bus passengers 41, drivers and other occupants of motor vehicles 16, drivers and occupants of animal or hand-propelled vehicles 12, pedal cyclists 6, and cycle-van drivers 2. The increase this year in the incidence of deaths of drivers and other occupants of motor cars and slow-moving vehicles is attributed to the increase in the number of vehicles.

Of the killed during the period under review, 161 were adults, 45 children and 29 were passengers while boarding or alighting from moving vehicles, against 143, 39 and 26, respectively, in the corresponding period last year. Among those killed this year, 13 were described as "insane", 17 as beggars, and 7 new comers to the city.

During the above stated period 19,425 vehicles were involved in road accidents, and of them 8,101 were private cars, 2,927 taxis, 2,775 lorries, 1,585 State buses, 720 private buses, and the rest other types of vehicles. In the corresponding period last year, 9,115 private cars were involved. Taxis accounted for 3,637 cases, lorris 3,204, State buses 1,538, private buses 988; and other vehicles for the rest of the accidents.

As on the previous years, lorries were the biggest killers during the period under review. The vehicles involved are mentioned below with those during the corresponding period last year in brackets:

Lorries 61 (52); State buses 49 (44); private buses 17 (22); private cars 33 (32); taxis 18 (11); motor cycles 4 (2); police vehicles nil (1); vans 2 (2); tramcars 19 (18); pedal cycles 6 (6); rickshaws 2 (2); handcarts 7 (5); hackney carriage 1 (nil); military vehicles 1 (nil); and un-identified vehicles 9 (8).

Analyzing the statistics of road accidents, some one opined that taking into consideration the fact that the number of vehicles and of people had been steadily on the increase while conditions of roads gradually deteriorating. The position this year might be considered an improvement even if the total number of accidents, instead of decreasing as had happened during the period, had remained the same as in the corresponding period last year.

Increased police vigilence was one of the chief factors accounting for the drop in number of accidents, has been claimed by the city's Police authorities.

From May this year, the Traffic Police Department had been operating a Safety First and Education Section. Safety First and Traffic Education were imparted to nearly 33,000 children with the aid of films in 44 schools. Instructions to pedestrians are being carried out on a campaign basis at street corners.

Calcutta pedestrians themselves are responsible for 50% of the fatal road accidents, opined the city's traffic authorities. The number of collisions between vehicles is negligible.

Thus, the remedy, it appears, is to stop pedestrian traffic as far as practicable. But nowhere in India is fay walking punishable by law. Enforcement of any such measure is considered rather difficult because of the city's population and its mood.

LIFE IN CALCUTTA ZOO

shrouded the Mystery has animal life of the Calcutta Zoological Gardens, lying on the western part of the city. Reports of deaths of animals are pouring in and in every case the cause of death was unknown to the authorities. Some time ago the deaths of a hippopotamus and two giraffs disturbed the authorities who searched far into the causes. The modes of life of the animals have little been disturbed since the establishment of the Zoo. The climatic conditions of a typical tropic region has been changed to create an artificial polar country. And in similar manners others have been brought into practice. Still there are loss of animal lives.

Whatever changes there have been they were mainly too much congestion and decaying condition of many of the old structures. There are also filth and dirt in many places and these have developed into most distressing conditions. Neglect and other reasons are responsible for these to a larger extent. The present deteriorating condition have been described by an esteemed daily newspaper in this city as follows:—

The famous duck house has gone. In its place is an overgrown pool into which *malis* and sweepers are throwing the garden's refuse. This naturally does not help the water in an adjoining lake which is already thick, green and odoriferous.

The lawns on either side of the old duck house and its connected lake were once popular with picnicers and the foot-weary. They are now covered with bricks, sludge, self-sown undergrowth and rolls of abandoned wire meshing.

Where there is no filth there is slush, and where there is neither there is a dump of rubble. Quite obviously repairs are going on in the gardens but repairs can be contained and intelligently handled so that they do not exude an atmosphere of careless neglect. And one wonders who is responsible for the solid jazzmodern buildings which are going up here and there in the garden. While there are so many expert sources which can be approached for advice, it seems that construction and design was left to some contractor submitting the cheapest tender.

There are other reasons also. Many of the tea shops there have been developed into bustee-type shops. Tanks in the famous Reptile House have also been neglected long turning them quite incapable for keeping the acquariums. Even a few fish can hardly survive there.

Added to these, the irresponsible visitors whose annoying conduct do much harm to the animal life. Recently the Zoo has lost two monkeys of rare specimens due to some unknown reasons. One death was followed by another in succession within a fortnight. If the awareness of the responsibilities to the innocent inmates of the Zoo are awakened it will

will of the pro-

greatly help the authorities to carry on their duties. Thousands of people generally try to disturb the poor dumb animals who are unnecessarily dragged from one end to another of their abode and so on.

If these state of affairs are allowed to continue long, we think that it would be prudent not to accept more animals from other lands until the authorities are able to take proper care of the animals they have already collected.

An enquiry into the causes of the present mortality might satisfy the citizens.

CIVIC ADMINISTRATION IN EAST PAKISTAN

The District Magistrate of Dacca has issued orders that all posters and leaflets pasted on the walls of the Dacca city should be removed. The order says that the clean-up should be completed within 48-hours and that failure to remove the posters within the stipulated time will be punishable.

Similar clean up campaigns were under taken earlier in many of the cities in the East Pakistan with the inauguration of military rule there—some

DEATHS AND DISEASES IN THE CITY

Calcutta is gradually freeing itself from the clutches of cholera, an epidemic disease. There were five attacks but no death from the disease in the city during the week ending the 15th November. The figures for the corresponding fortnight last year being 20 attacks and 7 deaths.

There was no attack and no death from Small-pox against two each the week before. During the corresponding fortnight last year there was one attack and one death from the disease.

Tuberculosis was the greatest killer during the week when 55 persons died of the disease against 35 the week before. The figures for the corresponding weeks last year being 674 and 676.

Deaths from all causes totalled 678 against 496 the previous week. The figures for the corresponding weks last year being 674 and 676.

time ago. Earlier, steps were also taken to gear up the administration in many of the municipalities. Chittagong Municipality became the target of the military authorities who took charge of the city's administration soon. The weeds and bushes of maladministration have been up-rooted by them.

Politicians looked upon the imposition of martial law as worse for the country. But when good things could be done only by martial law or some other stricter methods then these are beneficial for the country as a whole. And in civic matters, the East Pakistan has raised its shoulders above others.

We still await when Calcutta will be free from this kind of poster menace now witnessed in walls.

A FORMER DEPUTY MAYOR'S DEATH CONDOLED

Calcutta Corporation at its weekly meeting on Friday, the 14th November, mourned the death of Janab Samsul Huque, a former Deputy Mayor of Calcutta, and adjourned its sitting for the day without transacting any business as a mark of respect to his memory.

Referring the death in the House, the Mayor, Dr. Triguna Sen, said that though Janab Huque died at some ripe old age still 'the death has removed a prominent figure of old days'.

Entering into the re-constituted Corporation with the introduction of a new Municipal Act, under the leadership of Deshabandhu Chittaranjan Das, in 1924, the late Huque continued as an elected Councillor to this Corporation till 1948 without break. He never failed to espouse the cause of the common people during his long public career, and this had enabled him to gain and enjoy an immense measure of popularity in this city. 'A nationalist in and out he did not care for any favour from any quarters he was daunted by any communal frenzy.. He was fondly called 'Bare Mian' and was more known by this name than the real one. Elected for the first time to the State Legislature in 1947, the late Janab Huque also served as Parliamentary Secretary of the West Bengal Government for sometime.' Thus observed the Mayor while paying his tributes to his memory.

CORPORATION EMPLOYEES CELEBRATE KALI PUJA

A section of employees under the Motor Vehicles Department, Calcutta Corporation, celebrated Shama Puja within the compound of the North Garage, Grey Street, on the scheduled day, the 10th November last.

The function was graced with the presence of the Mayor, Dr. Triguna Sen. The Deputy Mayor, Shri Keshab Chandra Basu, who unveiled the image before a large audience, spoke about the significance of the Pujahs. There were other accompaniments also.

Personalia

NAVAL CHIEF IN THE CITY

The Vice-Admiral R. D. Katari, Chief of the Naval Staff, arrived in the city for a short stay on Sunday, the 16th November from Delhi. He was received at Howrah Station by Rear-Admiral Shankar, Director-General of Ordnance Factories, Air Commodore Shiv Dev Singh of the Indian Air Force, Lt.-Col. Surinder Singh and Commander P. Vasudeva, Residant Naval Officer.

Vice-Admiral Katari, reviewed briefly the progress of the Indian Navy in a talk to officers and men of I.N.S. Hooghly, the shore establishment, at Fort William, on Monday. He referred to the recently acquired I.N.S. Bramhaputra, an anti-aircraft frigate, and I.N.S. Kukri, an anti-sub-marine frigate, and said they were of new models. The latter was an all-welded ship with a variable pitch propellor and a complicated fire control unit.

Pleading for a joint effort by all to effect economy, he said that India as a maritime country needed a strong navy. Each man by his personal effort must ensure that the Indian Navy was really efficient. Family accommodation for ratings was being built at a few stations, including Calcutta, he revealed.

On the 18th November, the Vice-Admiral visited the Marine Engineering College at Taratala Road, southern part of the city. He was shown round the college by Mr. T. K. T. Srisailian, Director and Mr. P. Dabneo, the Deputy Director of the Institute.

Besides, Vice-Admiral Katari, fulfilled many other engagements during his stay in the city.

CIVIC NEWS FROM FAR AND NEAR

NEW CHAIRMAN OF SERAMPORE MUNICIPALITY

Shri Gopal Das Nag, a sitting Vice-Chairman, and Shri Kalipado Ghosh were elected Chairman and Vice-Chairman respectively of the Serampore Municipality at meeting of the Commissioners some time ago. The office of the Chairman of fell vacant due to the resignation by Shri Kanailal Goswami, M.L.C.

DEVELOPMENT PLANS OF DUM DUM MUNICIPALITIES

Various municipal problems were discussed in a joint conference of the Commissioners of the three municipalities in the Dum Dum area recently.

The Vice-Chairman of the South Dum Dum Municipality, placed before the conference a comprehensive plan for supply of tap water, development of squatters' colonies, provision for pucca drainage, establishment of a general hospital with hundred beds having arrangements for a maternity home and a chest clinic and such other development work for his Municipality.

The plan involves a sum of about Rs. 91 lakhs for its execution. As the municipality has not adequate funds for the purpose, financial aid has been sought for from the Government.

ENQUIRY INTO AFFAIRS OF SHILLONG MUNICIPALITY

The Government of Assam has ordered a thorough audit of accounts of Shillong Municipality as there had been reports of continued irregularities and inefficiency in the management of its affairs by the Board.

A formal inquiry report submitted by the Deputy Commissioner of Shillong revealed among other things a diversion of considerable sums of money made available by the Government for purposes specifically earmarked and spending them on establishment charges etc. The Report further stated that the Vice-Chairman of the Board drew Rs. 300|- per mensem as car allowance for a long period without maintaining any motor car and many similar instances had been cited. There were other irregularities too.

GENERAL ELECTIONS IN WEST BENGAL MUNICIPALITIES

The general elections of the different West Bengal Municipalities, due to be held during the current financial year, have been delayed in view of the re-fixation of the number of Commissioners of different civic bodies by the State Government.

The West Bengal Government has recently decided that in each of the Municipalities, the number of Commissioners should be fixed in accordance with the extent of population in the area. Previously no such regular system was in force. In view of this the life of a number of Municipalities has also been extended.

The decision of the Government has recently been communicated by a circular letter to all municipalities in the State which stated that all municipal elections will be held on this following

basis and the total number of seats in a municipality has also been fixed on population: 9 seats for population not exceeding 10,000; 10 seats for more than 10,000 but less than 12,500; 11 seats for more than 12,500 but less than 15,000; 12 seats for more than 15,000 but less than 17,500; 13 seats for more than 17,500 but less than 20,000; 14 seats for more than 20,000 but less than 25,000; 15 seats for more than 25,000 but less than 30,000; 16 seats for more than 30,000 but less than 40,000; 17 seats for more than 40,000 but less than 50,000; 18 seats for more than 50,000 but less than 58,000; 19 seats for more than 58,000 but less than 60,000; 20 seats for more than 60,000 but less than 75,000; 21 seats for more than 75,000 but less than 83,000; 22 seats for more than 83,000 but less than 91,000; 23 seats for more than 91,000 but less than one lakh; and 25 seats for more than a lakh (excepting Howrah Municipality).

AHMEDABAD CORPORATION FRENZIED

Twelve of the 64 members of the Janata Party in the Ahmedabad Corporation resigned from membership of the Corporation some time ago.

The resignations were made in protest against the action of the State Government in suspending the execution of the Corporation's resolution permitting the Farishad to erect the "martyrs' memorial" on the traffic circle opposite Congress House.

HOUSE COLLAPSES IN MADURA AREA

Three boys, aged 17, 8 and 6 died in a house collapse caused by heavy rains in November in the town of Bodinayakkanur, within 40 miles from Madura. House collapses in the town have in the last ten days taken a toll of five lives, two persons having been killed when a house toppled early last week.

Bodinayakkanur town and its surrounding areas experienced heavy rains during the past three weeks. Over six inches of rain fell in one day and the Vanji rivulet flowing by the town burst its banks and inundated parts of the town. Some roads were under four feet of water and several houses were damaged.

WATER WORKS AT KRISHNANAGAR

The West Bengal Government has sanctioned a scheme estimated to cost about Rs. 14.83 lakhs for extension of Krishnanagar Municipality Waterworks, Nadia to provide for a total daily supply of Nine lakhs gallons to a population of 72,000. Krishnanagar waterworks was built in 1922 for a daily supply of 15 lakhs gallons of filtered water. The existing pumping plants were replaced with electricity driven sets and some modifications made in 1938 for an increased daily supply of Three lakh gallons. Because of heavy influx of refugees within the township the water supply is considered inadequate and immediate extension of the town's supply and extension of water mains have been considered essential.

LORD MAYOR OF LONDON

Sir Sydney Harold Gillett, Chartered Accountant, was elected Lord Mayor of London some time ago, for the ensuing year. He is 68. The retiring Lord Mayor was Sir Denis Truscott.

IS YOUR HOME "SAFE AS A HOUSE"?

[BY ANNE DORVILLE]

Two small items which recently appeared in the British Press pointed out a serious situation which is arising in every average home—the increasing death-rate from accidents in the home due to sheer carelessness. The first item concerned a 13-year-old girl, Victoria Boden, who lived in Derbyshire. Victoria, liked the smell of the cleaning fluid which impregnated the dusters she used around the house whenever she helped her mother with the household chores. She liked it to such an extent, that she would hold the dusters to her nose and inhale deeply.

One morning, her father found her lying on the floor with one of these dusters clasped to her nose. She had been suffocated by the carbon tetrachloride which was sprinkled on the cloth to give a quicker cleaning action. At the inquest, where a verdict of misadventure was recorded, Victoria's father said he had used the cleaning fluid for a variety of purposes over many years. He had often warned his daughter not to smell it so closely, but didn't realise it had such lethal qualities.

The second story was that of Mrs. Edith Hinde, aged 43, who lived at Ashford, in Middlesex. Mrs. Hinde was a very house-proud woman and kept all the linoleum in her home highly-polished. One day, she slipped on a section that had been over-polished, broke a gas pipe as she fell, and was gassed as she lay unconscious on the floor. "Accidental Death" was recorded at the inquest.

The alarming fact about both these tragic stories is that both deaths could certainly have been avoided if a little more thought had been exercised by the members of the respective households. And this goes for the 19 other people who die every day in Britain as a result of accidents in the home. In the United States, the picture is even more alarming, because that country suffers an average of over 150 daily cases of poisoning in the home, many of which are fatal, plus the deaths which result from falls, burns and suffocation!

Statistics are always alarming, but it is the view of the great majority of people that such statistics should be given full publicity. Take the picture in Britain, for example. The Royal Society for the Prevention of Accidents published a report in the Medical Press which showed that in the year 1955 alone, no less than 7,771 people died as a result of accidents in the home. Falls accounted for 4,670 cases, poisoning, 1,205; suffocation, 759; and burns and scalds, 854. This means that out of the total figure of home accidents, these were the chief causes of death, but there were 283 deaths from various other accidental causes which made up the alarming total of 7,771. The overall number of accidents in the home account for some 2,000,000 serious injuries every year.

These figures should be of vital interest to householders the world over, and the factors which contribute towards them should command attention in every home. People are all-too-prone single "accidents will happen", but this complacency does not excuse the lack of care which predominates everywhere. If everyone would employ just a fraction more thought and care, these figures could quite easily be reduced to reasonable proportions. Let us take a look at the main factors which cause death and serious injuries in the home.

The majority of deaths are undoubtedly caused by falls, and the main factors which cause these fatal accidents are trailing electric cords, steep stairs with loose rods and fraying carpets, shaky ladders and rugs with ragged edges, high beds, and, in the case of child deaths, prams and

chairs without safety harnesses. All of these factors need only a minimum amount of care and attention to be kept in safe order. So, why not take a look at your own now? It might be too late*to-morrow!

Accidental poisoning can also be avoided easily, as in the case of young Victoria Boden. Strong solutions of cleaning fluids should always be treated with care, and gas mains should be periodically checked for leaks. A common mistake which causes the majority of suffocation, is the easily-avoidable one of leaving a gas jet on too low when cooking something very slowly. If this must be done, the thing to do is to make sure that there is no draught of air which will blow the flame out, and leave the gas to escape. Wherever there are children in a house, adults should keep all forms of drugs locked firmly away in a medicine chest that is well out of their reach. Children have an abnormal passion for nibbling at anything they can get their hands on, and will delightedly plunge into any bottle of pills they see lying around, or any tin of floor-polish, kitchen detergents or petrol and paraffin they may be within reach of. Again, it's a simple matter to put such things away as soon as you have finished with them, remembering as you do so that you may be saving the life of a very dear one!

It is the children who figure mostly in the death-roll which results from burns and scalds. Inflammable fabrics, unprotected hot water bottles and saucepans and kettles which easily tip over, and unguarded fires are the main causes here. All are easy to avoid. There is no need for mothers still to cling to the idea that flannelette night-dresses and pyjamas are the best for their children. There are many other fabrics on the market that are equally as warm and not nearly so inflammable as flannelette. And however harassed the housewife might be, there is no excuse to leave pots on cookers with handles that are easily within reach of toddlers and their enquiring hands.

An average of 600 babies of less than one year die every year in Britain as a result of suffocation. Soft pillows and bedclothes are the main cause. But mothers should also see to it that cots and prams have a net over them to prevent the family cat or dog from snuggling up and unwittingly suffocating the sleeping child.

Your home can be "as safe as a house" with just a few moments' care and attention. Why not see to it that it is? After a fatal accident, a death can weigh as heavily on the mind as a murder!—The Hendu.

A HIGH TIDAL BORE played havoc to some vessels in the city Port in the early hours of Friday, the 14th November last.

As the bore swept past the river Hooghly S. S. Span which was lying at anchor at Hastings Moorings broke its anchor chain and the vessel lifted. A country boat collided with the vessel which was later set at right. The boat and the ship suffered minor damage.

Another ship, the "City of New York" which had on its board wheat and general cargo from Canada, was swept by the bore about two miles up, to a place near the Man-of-War jetty and the vessel ran aground. The ship refloated after about 12 hours during the flow-tide.

AN AMERICAN TRADE DEVELOPMENT MISSION, while on a tour round India, visited "Handloom House" at Lindsay Street, central part of the city, during last week, when Mr. Egil Crough the leader and other members of the Mission were taken around the Emporium. A few products evoked keen interest among all the members of the Mission.

A luncheon party at Prince's, Grand Hotel, was arranged recently to entertain the members of the Mission by the All-India Handloom Fabrics Marketing Co-operative Society. The Society has been started to foster inter-State trading as well as to promote export to the inter-national market. Huge quantities of handloom goods were exported throughout the world and permanent foreign emporia were being run by the Society. The leader of the Mission mentioned about the demand of certain types of handloom fabrics in America and emphasized the need of an Indo-American non-official trade organisation to boost up export and to study the American market more closely.

EARL & COUNTESS OF HAREWOOD were given a Reception in presence of many distinguished musicians and music lovers by the Jhankar Music Circle at Lower Circular Road, southern part of Calcutta, a few days back. There was a brief Sarode recital by Shri Radhika Mohan Maitra, the well-known expert in instrumental music. The Harewoods were on a short visit to this city.

Well-known as a connoisseur and patron of music, Lord Harewood said that in England he and the Countess had attended a number of concerts of Indian music, including a delightful Sttar recital given recently by Pandit Ravi Shankar in Leeds. This was the first time that a performance on the powerful instrument, Sarode, had been given before them.

They were deeply appreciative of Shri Maitra's delicate handling of an 'alap' in Bhimpalasri and a 'gat' in Kafi. A third item which he presented at Lord Harewood's request was a 'gat' in Pilu. There were other performances also. At the end of the recital a Tanpura (a secondary string instrument) and some records of Indian classical music were presented to Lord and Lady Harewood on behalf of Jhankar.

The Earl of Harewood gave an interesting and stimulating talk on Western Music at Loreto House on Friday, the 14th November last to a large gathering.

Introduced by the U.K. Deputy High Commissioner, Lt.-Gen. W. H. A. Bishop, Lord Harewood prefaced his lecture by drawing a comparison between Western and Indian music. Western music had melody, texture and harmony, but little rhythmical interest, whereas Indian music had melody, texture and rhythmical interest but no harmony.

English music, sprang from composers of the Elizabethan age, also known as the Golden Age of English music, he

Lord Harewood closed his talk with the closing pages of Walton's "Belschazzar's Feast" with its rich harmonic, choral and percussive effects.

The Earl and Countess of Harewood visited the ancestral home of Rabindranath at Jorasanko and the Academy of Dance, Drama and Music on that day.

A Reception was given to the Harewoods by the Deputy High Commissioner for U.K. in Calcutta, on Thursday, the 13th November last. Representatives of various Consulates, high ranking officers of the Government, industrialists, journalists and prominent citizens were present on the occasion.

WORKING JOURNALISTS' WAGE COMMITTEE started its sitting at the Assembly House in Calcutta, on Friday, the 14th November last.

The Committee recorded the evidence of the General Manager and the Accountant of two Patna newspapers—the 'Searchlight' and 'Pradip'. It also heard the State Association of Press Correspondents of Daltongani, Bihar.

The Management of the 'Eastern Times' and 'Samaj' of Cuttack and 'Sansar', a bi-weekly of Benares appeared before the Committee on the 15th November last.

The Committee headed by Shri K. Y. Bhandarkar, Secretary, Ministry of Law, sat in the city till the 18th November when it recorded the evidence of the Management of the Press Trust of Judia and others.

A CONFERENCE ON OCCUPATIONAL HEALTH IN ASIA was inaugurated in the India Exchange Hall, on Saturaday, the 15th November last, by Dr. A. B. Ray, West Bengal's Health Minister. Organized by the Society for the study of Industrial Medicine in India in collaboration with the India Institute of Personal Management, the conference had been scheduled to continue a week. The programme included scientific session at which papers on the problems of occupational health was read by experts from several countries.

The inaugural function was attended by delegates from China and Japan in addition to India. Delegates from Indonesia and the Philippines arrived later on. Other invited countries also represented in that conference.

The State Health Minister, Dr. Ray said that India was passing through a period of rapid industrialization. The dangers of unplanned and uncontrolled industrialization must be avoided and the physical and mental health of workers carefully looked after. Occupational health should concern itself not merely with the prevention of diseases and 'malignation of hazards' but with the promotion of positive health.

Welcoming the delegates in this city, the Mayor, Dr. Triguna Sen, hoped that the conference would effectively contribute to the cause of occupational health. He said that new problems concerning workers' health were arising in Asian countries as a result of development of industries.

The Chairman of the Reception Committee Sir Jehangir Gandhy described the introduction of the employees health insurance scheme as "a major landmark" in the field of occupational health. The scheme was by no means perfect but there was a record of improvement which warranted confidence in its future. The Government regarded it as the forerunner of a national health scheme.

Speaking of Calcutta, it was stated by the Chairman that in some quarters there were fears about the future of the city because of the problems that afflicted it at present. But these problems were by no means pecualiar to Calcutta, Apart from special factors like post-partition influx of refugees, this city's problems were typical of those arising from rapid growth of industries and the resulting imbalance between civic amenities and the state of the population. Not only in Calcutta but in many other

Asian cities municipal services and environmental hygiene had tended to lag behind the rate at which urban population had expanded. This was a matter of direct concern to those working in the field of occupational health.

Due to Sir Jahangir's absent his speech was read by Dr. C. K. Ramchandar.

'NOVEMBER REVOLUTION' DAY was observed jointly by the Communist Party and the Marxist Forward Bloc through a meeting held at the foot of the Ochterloney Monument Maidan on the Saturday, the 15th November last. Shri Bankim Mukherjee, M.L.A., a communist leader, presided. Shri Bhupesh Gupta, M.P., said that the country's dependence on U.S. economic aid was making the Indian Government's attitude to the U.S.A. softer. But for U.S. military aid and support to its policies, Gen. Ayub would not have dared to threaten India with war. Shri Nehru thought it "unbecoming" to protest once more against U.S. military aid to Pakistan, Shri Gupta added.

The other speaker was Shri Tara Dutta, a leader of the second political party.

Under the auspices of Calcutta District Committee of Socialist Unity Centre, a public meeting was held on the 16th November, to celebrate the anniversary, at Subodh Mullick Square, Central Calcutta. Shri Subodh Banerjee, M.L.A., presided.

Another public meeting in this connection was held under the auspices of the Calcutta District Party of the

Revolutionary Socialist Party at Bagha Jatin School ground on the same day.

The Democratic Vanguard Students' Wing also observed the anniversary.

AN EXHIBITION OF 50 OIL PAINTINGS by Shri. Deb Kumar Roy Chowdhury was opened at Artistry House, Park Street, Calcutta, on Friday the 14th November last.

It was typical of the painter to combine experimental designs with voluptuous paint, rich in variegated colour patterns and texture. In the main section of exhibits simplifications and destortions heightened the inventiveness of the images without departing from natural appearances. Much of his energy directed into the arrangement of form against form, of tonal colour against tonal colour. An attempt is made to organize space both by the actual disposition of forms and directly out of the vibrant flatness of the paint.

An international photographic exhibition was also opened on the 12th November last in the South Room of the Indian Museum, under the auspices of the Academy of Fine Arts. The exhibition was organised by the Photographic Association of Dum Dum.

AN ACCIDENT: With severe burns, two persons including a married woman were removed to R. G. Kar Hospital from North Calcutta recently. The woman, Shrimati Rita Banerjee, later succumbed to her injuries.

VITAL STATISTICS

(I)

For the City of Calcutta for the week ending 25th October, 1958.

City of Calcutta (Town and Added Areas.)

The total number of deaths registered during the week was 618 against 510 and 541 in the two preceding weeks and higher than the corresponding week of the last year by 3. The general death-rate of the week was 10.58 per mille.

Town (Wards 1-27).

The number of deaths registered during the week ending 25th October, 1958, was 503 against 383 and 411 in the two preceding weeks. There was 1 death from cholera against 2 and 4 in the two preceding weeks. There was 1 death from small-pox during the week against 1 in the previous week. There was 1 death from influenza against nil in the previous week. The mortality from fevers and bowel-complaints amounted to 13 and 47 respectively against 7 and 47 in the preceding week. The general death-rate of the week was 11.13 per mille per annum.

There were 57 imported deaths. Excluding these, the death-rate of the Town was 9.87.

There were 76 deaths from respiratory diseases against 63 in the previous week.

There were 30 deaths from tuberculosis against 21 in the previous week.

Added Areas (Wards 28-32 and Tollygunge.)

The number of death registered was 115 against 127 and 130 in the two preceding weeks. Of these, 1 was from cholera, nil from small-pox, nil from influenza, 2 from fevers, 23 from bowel-complaints and 24 from respiratory diseases. The death-rate of the added areas was 8.74 per smille.

There was no imported death. Excluding these, the death-rate was 8.74.

There were 2 deaths from tuberculosis against 1 in the pservious week.

(II)

For the City of Calcutta for the week ending 1st November, 1958.

City of Calcutta (Town and Added Areas.)

The total number of deaths registered during the week was 764 against 618 and 510 in the two preceding weeks and higher than the corresponding week of the last year by 145. The general death-rate of the week was 13.08 per mille.

Town (Wards 1-27).

The number of deaths registered during the week ending 1st November, 1958, was 612 against 503 and 383 in the two preceding weeks. There were 4 deaths from cholera against 1 and 2 in the two preceding weeks. There was 1 death from small-pox during the week against 1 in the previous week. There was nil death from influenza against 1 in the previous week. The mortality from fevers and bowel-complaints amounted to 16 and 52 respectively against 13 and 47 in the preceding week. The general death-rate of the week was 13.54 per mille per annum.

There were 65 imported deaths. Excluding these, the death-rate of the Town was 12.10.

Built on a 13-ft. sandstone pedestal, the 11-ft. high bronze statue of Mahatma Gandhi stands on the crossing of Outram Road and Chowringhee in front of the Calcutta Maidan.

Slightly bent forward, symbolizing his determination, the statue is shown to move with a staff in hand along an uneven hard path regardless of obstacles on the way.

### GANDHIJI'S STATUE UNVEILED

CALCUTTA had an unique privilege of according Civic Receptions to MAHATMA GANDHI, THE FATHER OF INDIAN NATION, on a few occasions. The last one was in 1947, when the city was in the grip of a communal frenzy. On those occasions Gandhiji was characterized as one who, by transcending the limits of time and space, had taken his seat amongst the citizens of the world for all times to come. They also stated that all through his life Gandhiji had served the cause of the country with a devotion that had never wagged.

An apostle of Truth and Non-violence, seer and moulder of Indian independence, Gandhiji had inspired the heart of every citizen of Calcutta to go forth and bloom itself in order to attain the heaven of fulfilment.

Thus the fitting tribute to Gandhiji was erection of his statue at an important street crossing so that citizens might have a look at it. The imposing statue, built under the auspices of the West Bengal Government, thus would encourage people to derive inspiration in Gandhiji's cult of Non-violence, which astonished the world one day when India attained her freedom without bloodshed. It has further prompted people to shake off vacillations, doubt and conflict and to emerge triumphantly over animosity and non-violence.

All these were largely witnessed when on Sunday, the 30th November, Indian Prime Minister, Shri Jawaharlal Nehru, unveiled the eleven feet high statue of Mahatma Gandhi in presence of a large gathering on a most important site of the city, at the crossing of Outram Road and Chowringhee Road. Citizens from all ranks of life including Union Ministers, Cabinet Ministers of the State, Legislators, Aldermen and Councillors, and other notable witnessed the function.

Unveiling Mahatma Gandhi's statue, the Prime Minister described it as "a very very fine, powerful piece of work."

Shri Debi Prasad Roy Choudhury, the well-known Bengali Sculptor, was the architect of this beautiful object of art. He had tried to enliven the statue with a pose which can be followed through the famous song of Rabindranath Tagore with the words—
যৌগ ভার ভার স্থানে কেউ না আনে, ভবে একলা চলরে। (If no one responds to your call, march alone). The function began with the singing of this song by a chorus.

Shri Nehru called on the people to remember the Mahatma's fundamental teachings and to be guided by them in the work that lay ahead in building a prosperous India.

Through an hour's speech, the Prime Minister asserted that there could by no means be any deviation from the goal of socialism and added that, in that perspective, the country's Third Plan had got to be bigger and the public sector wider. "Anything standing in the way shall be swept aside", he also said.

Earlier, the State Chief Minister, Dr. B. C. Roy, requested the Prime Minister to perform the ceremony.

#### PAST RECOLLECTIONS

Beginning his speech, Shri Nehru said that this was the first time that he had agreed to unveil a statue of Mahatma Gandhi. In the past he had declined to attend similar functions elsewhere. He felt distressed by the feeling that the Mahatma's principles were not being followed.

Shri Nehru had the opportunity of learning at the feet of the Mahatma. There were occasions when he differed and argued with him. The Mahatma used to urge him to do what Shri Nehru thought best and after discussion Shri Nehru accepted the Mahatma's viewpoints.

The Prime Minister further said: New times brought new problems and India was changing just as the world was changing. Ways must be found to tackle these problems. Sometimes the country succeeded and sometimes failed. That was inevitable when great things were attempted. But in doing things the Mahatma's fundamental teachings must be borne in mind.

#### 'GANDHIJI—A SYMBOL OF INDIAN PHILOSOPHY'

appreciable number Addressing an gathering, Shri Nehru recalled many of the incidents from Gandhiji's life and stressed the need of discipline among the Indians. He said that for instance, when the call of non-co-operation movement stirred the whole country Gandhiji called it off after the violent incident at Chouri Choura. The decision even struck Shri Nehru and he thought that only because of one violation of the spirit of the movement the rising tempo of the struggle should not have been balked. But later they realized the soundness of Gandhiji's decision, who took this violence as weakness of the people.

Continuing Shri Nehru said that it was Gandhiji who taught the nation to unite and march to its goal in complete harmony. In his life and activities Gandhiji represented the age-old spirit of India and as such he was not a mere political leader of the country but a symbol of Indian philosophy.

#### "THE FUNDAMENTAL PRINCIPLES"

The fundamental principles of Gandhiji's preachings, Shri Nehru believed, would hold good any time however the context might have changed. For instance, science could lead both to construction or destruction. But science, if tempered with the spirit of Indian philosophy, as had been practised by Gandhiji, could deliver immense good to the mankind, added the most ardent follower.

#### GOAL OF SOCIALISM

In course of his speech, Shri Nehru further emphasized: "We shall reach Socialism whatever the difficulty. This means that the public sector will go on expanding. All that will stand in the way will be swept aside."

The Prime Minister ended his fairly long speech in a reminiscent mood. "I have spent my life in the service of the country and not many more years are left to me. Younger people will have to come forward and shoulder the heavy responsibility. But they must beware of wrong paths and keep in mind Mahatma Gandhiji's teachings."

#### To Forget Ganderin Is To Forget History Of India'

Exhorting people to follow Mahatma's principles, Shri Nehru said: "To forget Gandhiji is to forget the history of India and the voice of India". He asked people to follow Mahatma's teachings so as to forge the unity of the nation. In all spheres of life they must rigorously give up trends and tendencies that disrupt national unity, he said, adding: "We must overcome all our internal weakness."

#### "A VERY FINE WORK"

As the Prime Minister unveiled the statue by untying a knot which in its turn let a rectangular curtain drop on the ground, a flock of white pigeons were released. They circled in a body over the statue. And at that time were heard the strains of 'Ramdhun', Mahatma Gandhi's famous postof "Ramdhun", Mahatma Gandhi's famous postoprayer song. Looking at the statue the Prime Minister was much impressed. He remarked 'A very fine work'.

THIS STATUE WOULD INSPIRE THOUSANDS

At the outset, the Chief Minister of West Bengal, Dr. B. C. Roy, said that men and women of the younger generation who had not had the opportunity to see Mahatma Gandhi in person would look at the statue and be inspired in their lives to follow his principles and teachings.

#### GANDHIJI'S STATUE IN DELHI

Very soon Delhi may also have a bronze statue of Mahatma Gandhi installed in a central place. The statue will be of its Calcutta pattern—Gandhiji on move holding the staff tightly in the grip and with a determined step forward—and done by the same sculptor, Shri Debi Prasad Roy Choudhury.

The Indian Prime Minister, Shri Nehru after unveiling the statue in Calcutta was stated to have expressed his desire to this effect to Shri Roy Choudhury. Shri Nehru seemed to have been very much impressed by his work.

#### THE SURGING CROWD

The surging crowd which assembled there to hear the Prime Minister blocked all available spaces in the arena near Chowringhee, Park Street junction. After it was unveiled people moved eagerly to have a glimpse of the statue unmindful of vehicular traffic or police cordon. The whole area south of Chowringhee Road looked like a gigantic semi-circle composed of human heads. Hundreds of men and women crowded verandahs and balconies of buildings nearby on Chowringhee Road.

#### NEHRU'S OTHER ENGAGEMENTS

Besides two main functions, the Indian Prime Minister had to spend a busy day in the city. Carried by an I.A.F. Viscount, Shri Nehru reached Dum Dum airport at the scheduled hour in the morning on Sunday, the 30th November. He was accompanied by the Vice-President of the Indian Union, Dr. Sarvapalli Radhakrishnan, the Union Minister, Shri Asoke Sen, the well-known swimmer, Mihir Sen and others.

The party was received at the airport by the West Bengal Governor, Shrimati Padmaja Naidu, the State Chief Minister, Dr. B. C. Roy, the Sheriff of Calcutta, Shri S. C. Roy, the Mayor, Dr. Triguna Sen, the Union Minister for Rehabilitation, Shri Meher Chand Khanna, Cabinet Ministers and high officials of the Central and State Governments.

Large crowds of people gathered on either side of the route from Dum Dum to the city to have a look at the Prime Minister and the Vice-President. They cheered the leaders as they drove past them.

On the other side of the picture, about 40 persons, believed to be supporters of the Socialist Party of Dr. Rammonohar Lohia, staged a black-flag demonstration at the five-road Shambazar junction in North Calcutta. Some Jan Sangh supporters also held a demonstration near the crossing Cornwallis Street. Thirteen people, believed to Hindu Mahasabha workers, were also arrested at the crossing of Harrison Road and Central Avenue, central part of the city for the same.

Accompained by Dr. S. Radhakrishnan, the Prime Minister left the city on Monday morning. He spent the night at Raj Bhavan.

The Prime Minister visited the Khadi Gramodyog Bhawan, Chittaranjan Avenue, in Central Calcutta on that eveninng. Shri Nehru was shown round various departments of the shop to acquaint him with the best products of ivory, silk and dolls of West Bengal.

In the evening he also met the members of the International Students' Organization at Raj Bhavan. Shri Nehru told them that in Asia and Africa things were on move at present, not in the governmental sense only, but much more in the minds of the people. Therefore, the people of Asia and Africa should understand each other which would pave the way for closer co-operation in future.

The Prime Minister continued then that with plenty of natural resources and immense manpower if they could mobilize the intellectual resources and work in a team spirit, with detachment and with devotion, the countries of Asia and Africa would be made into a paradise.

The Prime Minister first engagement was the opening of an X-Ray Clinic of the Paschim Banga Samaj Seva Samity at the Minar Cinema Hall, Cornwallis Street.

'Indian Institute of Business Management'

The Prime Minister's another important task was the laying of the foundation stone of a new building of the Indian Institute of Business Management and Social Welfare at College Square West, central part of the city, towards the same evening. Housing a museum and statistical and psychological testing laboratories, the proposed four-storied block

would cost Rs. 25 lakhs. To purchase the land for the building the Institute has taken a loan of over Rs. 3 lakhs from the West Bengal Government.

In the modern set of things, said the Indian Prime Minister on that occasion, it was obvious that an Institute of this kind was necessary and desirable and it could do good work. He, however, confessed that the Institute appeared to him something very odd that there could be an association between social welfare and business management. He had not come across such type of marriage before.

India wanted trained personnel with every type of things in the country for in the ultimate analysis success depended on the quality of the person and that quality might be character and such

SHRI NEHRU LAYS THE FOUNDATION STONE
PHOTO: ANIAN GUPTA.

other attainments. Whatever might be the job whether it was a simple or an intricate one the training improved the quality and the person receiving it became a better worker, asserted Shri Nehru.

The Prime Minister also said that the industrial revolution in England was brought about mainly by mechanics and other humble men and not by those who occupied big positions in offices. "I often wonder when our dream comes true, when every child gets good schooling and is healthy, when all doors of opportunities are open to him, how many brilliant people will pass through those doors."

Appreciating the Institute's method of admitting people working in offices and factories as students, he said that additional courses for self-improvement should be organized in all industries. Every body should be given a chance to improve his efficiency.

Earlier, welcoming all, the State Chief Minister, Dr. B. C. Roy, who happened to be the Chairman of the Managing Committee of the Institute, said that during the past 16 years the Institute had trained 1,016 labour officers. Of these, 254 were nominated by the Central Government, 179 by the State Governments and 583 were sponsored by different industries. In 1954, the Institute started a Diploma course in Business Management for junior executives and 180 of them had taken this course. In the proposed building there would be a market research division and a works study laboratory.

Earlier, the Prime Minister handed over to the Institute a portrait of Dr. Roy, its founder and president, which was presented to him by the students.

SHRI NEHRU INAUGURATES THE WEEK-LONG CELEBRATION

The State Governor Shrimati Padmaja Naidu, the State Chief Minister, Dr. B. C. Roy, Union Minister, Janab H. Kabir, Dr. M. Bose, Director, Bose Institute, and a few foreign representatives are seen in the picture.

# Jagadis Chandra Bose Birth Centenary Celebrations

ACHARYA JAGADIS CHANDRA Bose, stands to-day in the galaxy of great personalities illuminating the period, which has brought India to its present position. Inevitably his Birth Centenary Celebrations take one's mind to the golden age of the renaissance period of Bengal during the nineteenth century starting with Raja Ram Mohan Roy.

Jagadis Chandra was also one of the first Indians of modern times who marched into the unknown regions of science and unveiled new vistas in different branches of knowledge. It is not difficult now to evaluate the methodology and results that made Jagadis Chandra, a scientist out of the ordinary. Later discoveries in the world of science were possible only because of him. And the Birth Centenary Celebrations holding over the world amply witnessed the vastness and greatness of that noble soul who unfolded the mystery of this universe.

The story of Jagadis Chandra's early struggle to find out truth out of the mists has not been forgotten fully. The Centenary Celebrations provided an opportunity to remember and recall them in people's minds in a more clear and distinct way. The depressing conditions and petty jealousies abroad, under which he fought and came out successful, have once again become vivid in citizens' minds when they looked into the exhibition. The stories of the later period told them of his iron-will and rock-like patience which ultimately led him to a field of appreciation and success. The Centenary Celebrations, depicting all these incidents, have usually left to the later generations to realize and appreciate the pioneering work of that master mind.

Jagadis Chandra did not lack social qualities also. Young and old, philosopher and scientists, all gathered around him. Poets and artists discussed art and literature with Jagadis Chandra, who himself was a fine writer and designer of beautiful things of art and sculpture. The celebrations holding over this city of Calcutta, gave picturesque descriptions of all these.

The celebrations were mainly held on the Bose Institute, Upper Circular Road, adjoining to the residence of that great savant and seer. The week-long function attracted a large number of visitors as well as men of learning keen to gather stones on the sea-shore of scientific world.

It was graced with the presence of a large number of scientists, scholars and politicians. The Indian Prime Minister, Shri Jawaharlal Nehru, himself inaugurated the functions, on the 30th November, the very day of his birth hundred years ago. It was followed by an illuminated speech from the Vice-President of the Indian Union, Dr. Sarvapalli Radhakrisnan. The participants in the symposia were Prof. Satyendra Nath Basu, Prof. P. Pariza, Dr. Sisir Kumar Mitra, Prof. Nirmal Kumar Basu, Shri Saumyendra Nath Tagore, Prof. Pramatha Nath Bishi. Members from many of the foreign Scientific Institutions also attended the function.

#### A PIONEER IN MANY WAYS

Horante the function under an erected pandal, decorated in the Indian traditional style, within the quadrangle of the Bose Institute, there were speeches and symposia, exhibition, screening of Acharya's life history and other accompaniments throughout the week beginning from Sunday, the 30th November.

The celebrations began with the singing of the song Rabindranath had composed 41 years ago on the occasion of the foundation of the Institute. In front of the dais, a beautifully ornamented altar was set up where one hundred earthen lamps were lit. The auditorium was packed to the capacity.

Inaugurating the function, Shri Nehru said that Acharya Jagadis Chandra was not only a great scientist, a great man and a pioneer in science in India, but was also a pioneer in a bigger way. He tried to bridge the gap between matter and spirit, a thing, "I believe, essential for the world at present."

Acharya Jagadis Chandra, the Prime Minister said, was really a great man. The particular line in which he showed his greatness was rather typical, in one way, of the modern age and, in another, of India. It was a kind of marriage of ancient Indian philosophy with modern scientific knowledge, he also said.

#### 'MARCH OF SCIENCE'

Taking his audience to the realm of science the Indian Prime Minister said that the problem of age, was that, in spite of its spectacular achievements, science had brought the world to the brink of disaster. It would be even more disastrous if the march of science was restrained. The problem could be solved only if scientific approach was linked with spiritual approach. He suggested that the approach might be made on a somewhat different line. "Something else has to come in in order to disentangle this knot", added Shri Nehru.

He also said that science, which had developed in the Western world, achieved its capacity for search for truth in a somewhat different way and brought heavy rewards in its train.

In the early years of the century, the Prime Minister said, the whole concept of the physical world was changed by a series of discoveries of great scientists such as Einstein. That fixity had disappeared and ultimately the atomic and hydrogen bomb age emerged.

Shri Nehru said that there was a spiritual quality in Einstein's work. He had been a great deal frightened at the result of his own work which led to the building up of the atom bomb. This showed his spiritual sensitiveness. Every real scientist should have that sensitiveness, he added.

"Science, if it is to live, must advance. We should not put a barrier to science and inquiry. That should not be allowed to happen even though science goes to the brink of hell. On the other hand, we have arrived at the brink of hell and scientists have to think about this problem", the Indian Prmie Minister concluded.

The West Bengal State Governor, Shrimati Padmaja Naidu, paid tributes to the memory of Lady Abala Bose, whom she described as a "matchless comrade" of Acharya Jagadis Chandra, "a poet and scientist."

#### 'ACHARYA BOSE'S WARNING'

The Chairman of the Celebrations Committee, Dr. B. C. Roy, recalled Acharya Bose's warning against the "mad rush" for exploitation of science for destruction. He said that Acharya Jagadis Chandra had wanted to develop the Bose Research Institute as a centre of work for and exchange of views between people from different places. To fulfil his wish the Committee had drawn up a programme, and Dr. Roy appealed for contributions towards its successful implementation.

Dr. D. M. Bose, Director of the Bose Institute outlined the researches of Acharya Jagadis Chandra.

#### 'A PATRIOT CONCERNED WITH HUMANITY'

The Vice-President, Dr. Radhakrishnan, delivering the Acharya Jagadis Chandra Bose Memorial Lecture, struck a note similar to the Prime Minister's. He pleaded for union of science and religion.

Throughout the cosmic process, he said, there was continuity a progress; and it was Acharya Bose's ambition to carry on investigation and research to enrich the world by their results and reach the goal of enduring brotherhood.

Dr. Radhakrishnan said that the two streams of life were said to flow side by side, governed by laws which were altogether different. Jagadis Chandra held that the nervous impulse in the plant and the animal was identical. He demonstrated his views by means of delicately constructed instruments. The transitions from matter to life, from life to mind might be represented by a "slope rather than a staircase". Throughout the cosmos there was continuity and progress. There were gulfs that separated and bonds that united. Jagadis Chandra was interested in the bonds that united, not that he was unaware of the discontinuity.

Dwelling on the progress of science in modern times, the Vice-President referred to the institution to the late Dr. Mahendralal Serkar, known

as the Indian Institute for the Cultivation of Science. But Mahendralal had been interested mainly in medical research. Jagadis Chandra was a pioneer in natural sciences. Some of the profound insights of the Indian seers received empirical scientific verification in the researches of Jagadis Chandra.

Continuing his speech, the eminent philosopher said that the Indian seers looked upon the world as a whole and not an aggregate. "In our country we feel that the world is a universe and not a multiverse. It is not a dead expanse but a living universe. Nature made no leaps and there was a continuity between the inorganic and the organic. This idea of the unity of all existence has been with us from the beginning of our metaphysical reflections", added the exponent of Indian philosophy.

"The process of evolution, the stream of creative activity, rolled on, never resting. This perpetual procession of events was not self-sufficient or self-maintaining. From nebula, a cloud of gas drifting about in space, the human race had slowly emerged into a Valmiki or a Kalidasa, a Shakespeare or a Goethe, a Newton or an Einstein. Could it have happened without the inspiration of a higher power working through and directing the process?" he continued.

(Continued on page 144)

#### **VIEWS AND REVIEWS**

#### NETAJI'S STATUE IN MAIDAN

The West Bengal Government is considering the question of erecting a full-size bronze statue of Netaji Subhas Chandra Bose, erected some where in the Maidan area. The estimated cost of the statue would be about Rs. one lakh.

It has been learnt that the Chief Minister, Dr. B. C. Roy, wanted some suggestions with regard to the proposal for contribution of Netaji's statue from Shri Hemanta Kumar Basu, M.L.A., an important citizen and a follower of Subhas Chandra when he was in India. Shri Basu met him at the Writers' Buildings recently.

Although, the details for the construction have not yet been finalized, still according to the official circle Netaji should not be portrayed in a military uniform but in the dress of a civilian.

Some discussion with regard to the proposal for erection was supposed to be held earlier between the State Chief Minister and Shri K. N. Das Gupta, Minister for Works and Buildings.

The news has further been given afoot when requesting the Indian Prime Minister, Shri Jawaharlal Nehru, on Sunday, the 30th November, to unveil Mahatma's statue Dr. Roy said that while deciding to instal the statue the Government had not forgotten Netaji Subhas Chandra Bose. Bengal's and his personal relations with Netaji Bose were too deep to be forgotten. A number of statues would be installed in this city. From the Mahatma's statue people would remember his legacy and be inspired by his ideals, said Dr. Roy.

In the weekly meeting of the Corporation held on Friday, the 28th November last, Councillor Mukur Sarbadhikari pointed out that an equestrian statue of Netaji Subhas Chandra Bose be installed in place of King George V statue in the Maidan.

It may be recalled here that the citizens' anxiety for erecting a statue of Netaji Bose in some prominent site in this city is a long standing grievance. Even there were demonstrations to instal the statue at the very site where Mahatmaji's Statue had been installed at the crossing of Chowringhee Road and Outram Road. More than 500 volunteers courted arrest for demonstrating the same object. And now the citizens' demand could not be dismissed so lightly as it was thought earlier.

Netaji Subhas Chandra was deeply linked with this city throughout his stay in India and would be so ere long. And it is the people's earnest desire to have an equestrian statue somewhere in Maidan and unless that is being installed nothing could satisfy them.

It is further to be recalled that the Corporation has already decided to erect one such statue at the five-point crossing of Shambazar, northern part of the city. And the matter is in progress, so far it has been gathered.

#### SUDDEN OUTBREAK OF SMALL-POX CASES

A sudden increase in the number of small-pox cases has caused much concern in the minds of the citizens. The weekly Vital Statistics Report stated that attacks and deaths from the disease in the city, during the week ended the 22nd November last, were 20 and two respectively. Out of them, 19 were reported from the Belgachia area, northern part of the city. Not a single case of

attack was reported from any part of the city in the week preceding to this. According to another report of the Corporation Health Department deaths numbered three from small-pox during the same week. All these were children below nine who had not been vaccinated.

Perturbed by the outbreak and the concentration on the majority of last week's cases in a bustee the Corporation Health Department investigated the contributory factors.

The Deputy Health Officer, in charge of controlling the epidemic, said, that the outbreak was severe because the bustee-dwellers, mostly factory workers, had concealed a case imported from outside the city.

They still then suspected that there were some more "concealed" cases in the area and unless those people were isolated, grave risk of further spread of the disease was involved. A eareful watch was maintained over the area by the Department for a few days more. Appeals were also made by them to the people of areas concerned to disclose the cases of attacks at once to the civic authorities.

Since Monday, the Department has started an intensive campaign in the area mainly within the bustee concerned and its nearby places for vaccination. The Deputy Health Officer referred to the strong hostility among residents of the Belgachia bustee against vaccination. Police had to be called for to help ambulance staff in removing patients from there to the Infectious Diseases' Hospital in Beliaghata.

The Standing Health Committee also met for nearly three hours on Thursday, the 27th November last, to discuss questions in relation to the sudden outbreak of the disease in that area and measures thought of to control the menace. The Mayor, Dr. Triguna Sen was present at the meeting.

The Health Committee directed the Department to intensify the programme for vaccination and extend the publicity campaign so that people in large number came forward to get themselves vaccinated.

In view of the lack of adequate information, it was decided by the Standing Health Committee that daily reports about the small-pox attacks should be collected and investigation should be made immediately, about the reported cases.

Among the other measures the Public Relations Department has taken an intensive publicity campaign for mass vaccination. Arrangements have also been made to hold mass meetings in different parks, squares and open places.

At the weekly Corporation meeting on Friday, the 28th November last, Alderman Dr. A. K. Bose, Chairman, Standing Health Committee, said that the cause of the sudden outbreak of that disease in this area was due to an imported case which was kept concealed and this caused the spread of the disease. As soon as it was detected steps were taken.

Dr. Bose himself took a round in that area. He was then accompanied by the Health Officer and other officials. He also warned Corporation authorities that before the Cholera season, steps should be taken to sink deep tube-wells as suggested before so that water scarcity might not occur this time also.

The Chairman of the Standing Health Committee also felt that if there had been improved standard of vigilance through Bustee Health Centres there would not have been such occurrence. Alderman Dr. Bose also stressed the need of forming

Ward Committees through Councillors to have larger co-operation in this regard.

In the meantime the West Bengal Government's Health Directorate have deputed an Assistant Director (Communicable Diseases) to investigate the out-of-season small-pox outbreak and to inspect preventive and precautionary measures in the affected area.

At the Infectious Diseases Hospital, Beliaghata, the only hospital at present admitting small-pox cases, there had been no new admission in that ward nor any death from the disease till the end of the week before last.

The situation had definitely improved during last week ended the 29th November, when attacks and deaths from small-pox were eight and one respectively.

According to the Health Officer, the smallpox situation in the Belgatchia bustee, from where most of the cases were reported, had appreciably improved. During last week four small-pox patients were taken to hospital from the same bustee although their transfer to hospital had been resisted.

#### ALDERMAN AJIT DUTTA RESIGNS

At the weekly Corporation meeting on Friday, the 28th November last, the Mayor, Dr. Triguna Sen, informed the House that Alderman Ajit Kumar

Dutta, has tendered resignation from the Aldermanship of the Corporation. His resignation, became effective as soon it had reached the Mayor a few days ago. Alderman Dutta was elected to the Corporation at a meeting of the Councillors, held on the 12th April, 1957. He was also the Chairman of

Shini Dutta He was also the Chairman of the Standing Education Committee, first time elected in 1957 and re-elected in 1958. He was also connected with other Special Committees. In his letter of resignation he said that he was resigning for personal reasons.

The Corporation recorded its appreciation for the useful services rendered by one of its important members in the deliberations of the House and guiding the House on many occasions by extending his legal acumen. His good services as the Chairman of the Standing Education Committee in piloting the Corporation's important task of imparting primary education was also recognized.

One of the leading Advocates of the Calcutta High Court and Supreme Court of India, Alderman Ajit Kumar Dutta is weil-known in his own profession for his expert legal knowledge, diligence, dexterity and other qualities of head and heart. This has helped him much in building up his career. Connected with a varied number of social and philanthropic organizations and institutions. Alderman Dutta's activities in this sphere enabled him to earn a name even before he was elected as an Alderman.

Son of Shri Kamini Kumar Dutta, an well-known figure in the political arena of Bengal, staged back to the days of Deshabandhu Chittaranjan Das, Alderman Dutta acquired many of the qualities of his great lineage. This prompted him to plunge into the struggle for country's freedom. Once he was one of the pioneers of student movement in

The whole the first

Bengal as the Founder-member of the A.B.S.A. He also joined the Non-co-operation Movement and Salt Satyagraha campaign initiated by Mahatma Gandhi. He had to suffer for his political views and activities.

#### DESHAPRAN SHASMAL'S DEATH ANNIVERSARY

The Twenty-Fourth Death Anniversary of Deshapran Birendra Nath Shasmal came off on the 24th November last. It was started with due solemnity in the morning when a memorial service was held at the foot of the bust of Deshapran situated within the compound of the Sahanagoro Burning Chat, southern part of the city. The bust was garlanded on the occasion and wreaths were placed on its foot on behalf of different organizations as well as of individuals.

Shri Prafulla Chandra Sen, Minister, West Bengal, who presided, paid eloquent tributes to the memory of Deshapran describing him as one of the leaders of the country in her fight to regain independence. He also appealed to

DESHAPRAN SHABMAL

all for adequate help in building up a students' hostel in this city to be named after the late Birendra Nath.

Principal Khagendra Nath Sen, who acted as Chief Guest, felt that biographies of great men like Deshapran should be read by all including students.

Others to speak on the occasion were Councillor Shyamal Kumar Dutta, Shri Biswanath Mukherjee, M.L.C., Shri Bhupal Chandra Panda, M.L.A.

In an evening function it was felt that an all-pervading life-story of Deshapran Shasmal had to be written in order to inspire his countrymen. Shri Vivekananda Mukherjee, Editor, 'Jugantar' presided, and Dr. Hemendra Nath Das Gupta was the Guest-in-Chief.

Dr. Das Gupta referred to the boldness and other qualities of the late Deshapran. He also recalled many of the incidents from the life of the late Shasmal. He was not sure that if any of his advices had been followed by his countrymen for the upliftment of the country after independence had been achieved.

Resolutions were passed in that meeting to take adequate measures in order to perpetuate his memory in this city in a belitting manner.

#### **OORPORATION AT-WORK**

A GIST OF PROCEEDINGS OF THE TWENTY-SIXTH ADJOURNED MEETING OF THE CORPORATION, HELD ON FRIDAY, THE 28TH NOVEMBER, 1958.

#### KHATAL REMOVAL

Councillor Biman Mitra felt that Corporation had not undertaken the task of removing khatals earnestly as a measure of Cleaner Calcutta Campaign. He apprised the House the amount of nuisance created by those insanitary khatals in the city. The khatal owners have taken full advantage of the Corporation resources by using hydrant water and snatching away other amenities. He went far to say that even a Corporation land had been utilized in building up an unauthorized khatal-shed in the southern part of the city.

The recent water shortage experienced by the State Fire Service while fighting fires in the Tangra area, was a glaring example of such misuse of Corporation amenities by those khatal owners.

# DIFFICULTIES IN USING PUBLIC TELEPHONES

Rising on a matter of urgent public importance Councillor S. K. Khanna described the difficulties experienced by citizens in using public telephones located in different corners of the city. With the introduction of the new coinage system the difficulties had been added. He felt that the machinery would be adjusted in such a way so that it might suit the new coinage once fit for the old two-anna coins.

#### MANICKTALA PEOPLE INCONVENIENCED

Councillor Narendra Nath Sen pointed out many of the difficulties of the people residing in Manicktala area. He said that the service privies so long prevalent in this city as injurious to public health had not been done away with. The water supply problem remained as before, the situation had not been improved satisfactorily. The condition of other amenities, mentioned by Councillor Sen, had not been changed.

The Mayor, Dr. Triguna Sen, however, assured the House that all these would be looked into by the Departments concerned.

#### UN-HYGIENIC MENACE

Councillor Pannalal Das, complained against the deteriorated Conservancy Services in the city particularly in the northern part of the city. He said that the procedure for cleansing Bustees had not been strictly followed, nor was there any method of applying dis-infectants. Councillor Das also apprehended that such kind of negligence would sure to cause outbreak of epidemics in the city.

Referring to another such menace, Councillor Dr. K. P. Ghosh informed that cases of contamination of filtered water were not still absent and the reports of examination, so far available, were not satisfactory.

All these were, however, assured to for implementation by the Mayor, Dr. Sen.

#### -JAGADIS CHANDRA BOSE BIRTH CENTENARY CELEBRATIONS

(Continued from page 141)

'Jagadis Chandra was perpetually aware that this world was a manifestation of something more profound. He would have been a patriot, not in the narrow sense of the term, but a patriot who was concerned with humanity, and who worked for the good of the world, for the glory of God, thus the present seer paid his personal tributes.

# 'Bengali Is Much Developed To Hold Scientific Discourses'

Professor Satyen Bose, F.R.S. and the National Professor of India, spoke on "Discussion of scientific subjects in the Bengali language", and Prof. P. Parija, Vice-Chancellor of Utkal University, on "Plant Physiological Investigations of Sir J. C. Bose", on Monday, the 1st December. This was followed by the exhibition of a documentary film on the life and work of Acharya Jagadis Chandra. The screening was repeated on other days also.

Shri Bose said that Acharya Jagadis Chandra was the first Indian who discussed in Bengali his fundamental and pioneering researches in the field of micro-electro-magnetic wave and plant physiology.

Continuing his speech, Prof. Bose said that the first noted Bengali writer on science was Akshoy Kumar Dutta who wrote on a wide variety on scientific subjects with a degree of simplicity and lucidity that stood in sharp contrast to the stilted Sanskrit-ridden Bengali prose in vogue before his time. Prof. Bose was happy to find the present development of the language.

On the third day, Dr. S. K. Mitra, the well-known scientist, recalled Acharya Bose's pioneering researches on micro-waves, radio waves of wavelength in the centimetre range. A demonstration was also made by Dr. Mitra on the apparatus invented by Acharya Bose.

Earlier in the day, a symposium on ultra-short and micro-waves was held at the Institute under Chairmanship of Prof. S. R. Khastagir. Delegates from abroad presented interesting papers and participated in the discussion. The symposium continued till Wednesday, the 3rd December.

Prof. Pramatha N. Bishi spoke in Bengali on "Jagadis Chandra and Bengali Literature" and Prof. Nirmal Kumar Bose gave a lecture in Bengali on "Jagadis Chandra's Travels in India" on the 3rd December.

#### AN EXHIBITION

An exhibition was opened at Bose Institute, by Janab Humayun Kabir, Union Minister for Cultural Affairs, in connexion with the Birth Centenary Celebrations on Saturday, the 29th November last.

Attractions at the exhibition were the facsimiles of personal letters written to Acharya Bose by Rabindra Nath Tagore, Mahatma Gandhi, George Bernard Shaw, Lord Kelvin, Lord Rayleigh, John Galsworthy, Will Durant, Sydney Webb, Earl Baldwin, Ramsay Macdonald, Arthur Balfour and Lord Ronaldshay among others. It also exhibited many of the inventions made by Jagadis Chandra and apparatus used by him in his research work.

#### POLISH AMBASSADOR IN CITY

DR. JULIUSZ KATZ-SUCHY, the Ambassador of Poland to India, paid his first official visit recently to this city since he joined his office in New Delhi during June last. He reached the city on the 26th November last from Patna and had undergone a heavy programme during his stay.

On Friday, the 28th November last he met the City's Mayor, Dr. Triguna Sen, in his office, Central Municipal Office Buildings, Surendranath Banerjee Road. He was then accompanied by a few members of the staff of the

DR. SEN GIVES A WAHM HAND-SHAKE TO DR. KATZ-SUCHY

PHOTOS: 5. BOSE.

Polish Trade Representative's Office in Calcutta. He was received by the Mayor. Dr. Sen with a warm hand-shake. Both of them had long conversation and their range of topic was varied. They had tea also. During conversation the Deputy Mayor, Shri Keshab Chandra Basu, Councillor Anil Maitra, Shri P. C. Mazumdar, the Chief Executive Officer, Shri L. N. Bal, Deputy Commissioner, Shri B. Ghosh, Secretary and others (picture above), were present.

Dr. Katz-Suchy also met the representatives of the Calcutta Press on the same evening at the office of the Trade Representative of the Polish People's Republic in the city and made himself an adorable friend to them.

Questions, plethora of them, were heaped upon the Ambassador but they did not either tire or irritate him. "It is my job," said he once, "to come to a new place and to mix with the people and the Press". He also expressed that it was his anxiety to learn as he was to enlighten people interested in his country and its affairs.

Born in 1912 Dr. Katz-Suchy was educated at the Universities of Cracow, Prague and Warsaw in Law and Economics. Later he entered into journalism and worked as editor of many socialist publications in Poland. In the year 1938 he was exiled from Poland for his political activities. He had to remain in exile again in England during the Second World War when he earned his livelihood by working in a factory. In 1945 Dr. Katz-Suchy again joined his journalistic profession and became the Deputy Director of the Polish Press Agency in London. Some time later he took to diplomatic career as the Press Attache of the Polish Embassy in London. And since then he has been in that service.

It may be noted here that our Mayor, Dr. Sen, who had been scheduled to make an itinerary in many of the cities, as published in the previous Number of the 'Gazette', cancelled all his engagements and was in the city throughout the week fulfilling many of the engagements here.

OBITUARY: The death occurred at his residence in Waterloo Street, central part of the city, of Dr. Bankim Mukerjee, a leading dental surgeon, on Saturday, the 29th November last. The late Dr. Mukerjee was suffering for a long time and in July last he was taken to London for treatment. He was 60.

After completing his course at the Calcutta Medical College, the late Dr. Mukerjee joined the University College, London, and specialized in dentistry. He started practising in this city in 1937 and since then had been connected with various organizations including the Rotary Club. He was a member of the Executive Council of the Dental Council of India, President, West Bengal Dental Council, and others.

The late Doctor belonged to the well-known Mukerjee family of Konnagar, in the district of Hooghly, where the cremation took place. By his amiable disposition and charming manners the deceased endeared himself to those who came in contact with him.

Shri Benoy Bhusan Bose, Editor, 'Beema O Banijya' died on Wednesday, the 26th November last, after a very brief illness, at his residence, Sankaripara Road, southern part of the city. He was about 45.

The late Shri Bose was connected with the paper for about fifteen years. He was also responsible for publishing the Silver Jubilee Number of the journal.

Earlier in his life, the late Shri Bose was connected with revolutionary movement of Bengal and took an active part in it for which he suffered imprisonment and internment. He was also connected with the All-Bengal Periodicals' Association, and various others.

TWO COLOUDFUL PARESH NATH PROCESSIONS were taken out and terminated peacefully at their destinations on Wednesday, the 25th November last. The two processions were the Kartick Mahotsava Pareshnath and the Digambar Jain Pareshnath procession. Both were on two different routes.

The procession of the Swetambar Jain community was taken out from the Jain Temple at Cotton Street and teminated at the Dadaji Temple at Badridas Temple Street while the other procession by the Digambar Jain community was taken out from the Bysack Lane and reached the Belgatchia Garden Temple.

Large crowds, estimated to be larger than the previous year, watched the progress of the processions along the streets.

INDO-SOVIET CULTURAL SOCIETY, WEST BENGAL, held its Fourth Annual Conference, through a three-day function, in the Maha-Bodhi Society Hall, College Square, central part of the city. Inaugurated on Saturday, the 29th November last, the conference stressed the need of connecting the friendship between the two countries, India and Union of the Soviet Socialist Republic. The second day was devoted to a Delegates' Session. Later on, the conference elected office-bearers for the next year.

The conference also felt for a proper understanding between both the countries through their languages. Science and culture, would surely bring good to the human race.

Inaugurating the conference, Prof. Humayun Kabir, Minister of Scientific Research and Culture, said that both the countries had paved the path for establishing true democracy and economic stabilization through revolutions. Co-operation and co-existence among different countries although aiming at to achieve different ideals, would surely bring a common path for the upliftment of humanity, he also said.

Presiding over the function, Dr. Suniti Kumar Chatterjee, President of the West Bengal Legislative Council, urged all to make a better understanding of the cultures of both the countries, India and Soviet Union, on a deeper level. The latter country has come to India's sight with the attainment of her independence still her interest to understand the depth of Indian culture, he said, was appreciative. Referring to his recent visit to that country, the President of the Cultural Society, also emphasized that he had witnessed a prospering nation marching ahead for the upliftment of the human race as a whole.

As one of the well-known linguists, Dr. Chatterjee also said that Russians were earnest in learning Indian languages as a basis of establishing cultural relationship between the two countries. He was happy to witness the performance of 'Nauka Dubi', the well-known novel of Rabindranath on the stage in Uzbekistan, a State within the United States of Soviet Republic and hoped that Bengalis would also similarly stage a story of that country in Calcutta.

Earlier, welcoming the guests, the Mayor, Dr. Triguna Sen, said Indians bore a cultural heritage from the ancient days and as such they were keen to establish a cultural link between the two countries. Equally Russians have built up a culture on the same level, Dr. Sen added.

Among those spoke on the occasion were the First Secretary of the U.S.S.R. Embassy, New Delhi, Mr. Evan Itichesko, a Soviet Physical Instructor, Mr. Zoladvi Smoleviski, Mr. Zukov of Soviet Trade Commissioner's Office in Calcutta, who spoke in Bengali and Shri Mohan Kumar Mukherjee.

AN EXHIBITION ON SOCIAL (ADULT) EDUCATION & LIBRARY SERVICE was inaugurated on Monday, the 1st December last, in the auditorium Hall of the Calcutta University Institute in connection with the observance of the All-India Social (Adult) Education Day. Dr. Kalidas Nag, presided and the Deputy Mayor, Shri Keshab Chandra Basu, opened the same.

Through charts, diagrams, maps, photographs and books, the exhibition seeks to illustrate India's planning and progress in education and developments in this field in other countries.

Dr. Nag advised the youths of Bengal to come forward and devote themselves to social service. He felt that for such work money would not be lacking if the sincere will was there.

Shri Sambhu Nath Banerjee, I.A.S., detailed out the activities of the Institute since 1938 to spread literacy. He regretted the reluctance of the Bengal people to help implementation of the Social (Adult) Education Scheme.

A CONFERENCE ON INDUSTRIAL AND OCCUPATIONAL HEALTH OF SOUTH-EAST ASIAN COUNTRIES was inaugurated in the building up of the All-India Institute of Hygiene and Public Health by the Union Minister of Labour, Shri G. L. Nanda on Monday, the 24th November last. Jointly sponsored by the W.H.O. and the 1.L.O., the conference was attended by 29 delegates from Afganistan, Burma, Ceylon, India, Indonesia and Thailand, The delegations included representatives of both employers' and employees' organizations.

Referring to India, the Union Minister said that legislation and rules were on work in factories, mines and docks on internationally accepted regulations. Measures relating to industrial hygiene, health and safety were provided in adequate detail. The law relating to sickness and accident insurance through a statutory corporation had been a pioneering venture in South-East Asian countries.

M. Marcel Robert, Chief of the Occupational Safety and Health Division, International Labour Organization Headquarters, Geneva, said that industry must be careful that conditions at work places were not such as to jeopardize the workers' health. It would be folly to train a man to do a special job and then lose his services for want of a few simple precautions which could be introduced easily.

Dr. A. B. Ray, West Bengal's Health Minister, said that the State Government had participated in the benefit schemes of the Employees' State Health Insurance Scheme as introduced by the Union Government. At present the beneficiaries numbered over 250,000 in this State.

For West Bengal with a crowded population of about three crores and a density of 833 per square mile, industrialization seemed the only hope of economic rehabilitation. Industrial health, therefore, had a special importance in a State already highly industrialized. He emphasized that Calcutta was certainly the biggest industrial city in India. "With the further development of heavy industries in the eastern region of India, we are converting West Bengal and contiguous parts of Bihar into the Ruhr of India". And bence the need for such health measures, he concluded.

Professor Leo Noro, a Short-term Consultant of the World Health Organization, and Dr. M. N. Gupta, I.L.O. Conference Consultant, in a joint paper on "Occupational Health In South-East Asian Countries" said that occupational health legislation had been developed on British lines in some countries of the region.

They also dwelt on medical services and the problems of administration and co-ordination. Training facilities in that branch, they said, were limited. Post-graduate training was recently made available in Calcutta, at the All-India Hygiene and Public Health Institute, a nine-month course with diploma in industrial health and a three month certificate course. During the last ten years, fewer than 100 students received the diploma or certificates. In Bombay, a three-month course was available, but it had been attended by only a few physicians. The other countries had no regular training facilities, though they had some facilities for refresher course, they stated.

GURU NANAK'S BIRTHDAY ANNIVERSARY was observed by the Sikhs in the city on Wednesday, the 26th November last. The ceremony had begun on Monday with non-stop reading of the Granth Saheb, the Holy Book. This continued for 48 hours and ended on Wednesday morning.

Gaily attired Sikh men, women and children thronged the Gurdwaras on that day to offer money and flowers to the Granth Saheb and to receive "prasad". Devotional songs were sung with the accompaniment of instrumental "music.

The Governor, Shrimati Padmaja Naidu visited the Gurdwara on Rashbehari Avenue, South Calcutta, and paid

#### ST. JOHN AMBULANCE'S SURGEON HONOURED

It is with much pleasure we have to announce that the 'Saint John Ambulance Brigade, Calcutta Corporation Division, has been rendering useful services to this city through its various activities and philanthropic deeds.

Recently the Division has added another feather to its cap when the Divisional Surgeon, Dr. Gobinda Gopal Deb Sharma's valuable services for the cause of Ambulance work . was recognized and in testimony thereof a certificate was granted to him by the President of the Indian Union, Dr. Rajendra Prasad.

homage to the memory of Guru Nanak in that morning. Speaking at a congregation meeting in a pandal erected beside the Gurdwara. Shrimati Naidu stressed the universal aspect of Guru Nanak's message of love, peace and brotherhood. She referred to her association with a Gurdwara at Nanded in South India, one of the four holy "takts" (seats) of Sikhism, where Guru Govind Singh is believed to have died.

ONE OF WORST FIRES IN RECENT YEARS broke out in a combined timber and steel fabrication factory on Radhanath Chowdhury Road in the Entally area, castern part of the city, on Wednesday, the 26th November last. A part of the factory adjoining the store room was destroyed when it was detected. The flames, rising about 70 feet high, spread at terrific speed and engulfed the entire factory, covering about two acres of land soon. There were no casualties.

Fifty-five fire extinguishers of the factory were put into operation first. The Fire Brigade arrived later but with little result till 13 Fire Engines were engaged. The entire roof made of corrugated sheet, measuring 200 feet by 500 ft. collapsed. Pressure in the adjoining street hydrants was said to be extremely low and water had to be obtained through the relay pumping system from three tanks in the adjoining area. About a dozen Fire Brigade water tanks each with a capacity between 600 gallons and 1,000 gallons, were also pressed into service.

The proprietors of the factory, all Chinese, watched the grim spectacle of their 50-year-old enterprise going up almost completely in flames.

Fire Brigade engines worked throughout the night. Seven Calcutta Fire Brigade Pumps continued pullingdown operation throughout Thursday, the second day of fire. Twisted iron beams hung askew from damaged walls-the roofs of the sheds had already collapsed.

Vehicular traffic on Radhanath Chowdhury Road was suspended on that night of occurrence and partly on next day for public safety.

The extent of the damage could not be fully estimated. But, according to survey, the factory's central portion was the worst affected. Salvage operations were not undertaken as there were smouldering pockets even on Thursday. Collapsed corrugated iron sheets, still red hot, had to he removed before jets could be applied to the areas.

According to an inquiry into the cause of the fire it was told that it originated in a furnace from which it spread to some oil drums. There were logs of wood nearby. In course of searches, two containers of terpentine oil stated to have been found from there also.

8. No dogs, bicycles, pricycles, or perumbulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lesses thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 a.m. to 7 F.m.; between 7 F.m. to 12 a.m. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-19-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-19-0, Motor Cycle 0-6-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the markets.

12. Customers are requested to examine the coins ob-

12.

Oustomers are 12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

#### **UNION PRESIDENT IN CITY**

On his way for a State Visit of the Malaya States and the Republic of Indonesia, the President of the Indian Union, Dr. Rajendia Prasad spent two days in this city. The President reached the city on the 4th December last by a special train from Delhi. He was received at the Howrah Station by the State Governor, Shrimati Padmaja Naidu, the State Chief Minister, Dr. B. C. Roy and others.

As Dr. Prasad stepped on to the red carpeted platform a large number of people cheered him. Ministers and other prominent citizens were then presented to the President by the State Chief Minister, Dr. Roy. Among those present were the Indonesian Consul in Calcutta and Mrs. Mochtar.

Dr. Prasad, accompanied by Shrimati Naidu and Dr. Roy, then in an open car started for Raj Bhavan where he stayed.

The President, Dr. Rajendra Prasad, planned his own programme for Friday, the 5th December hist, which included a visit to Dakshineswar temple in a Port Commissioners' launch up the Hooghly. He also placed a wreath on the foot of the Mahatma Gandhi's statue at the Outram Boad, Chowringhee crossing.

The President, Dr. Rajendra Prasad, left the city on Saturday, the 6th December last, for Kuala Lampur, capital of the Federation of Malaya, to begin his two-week goodwill visit to Malaya and Indonésia. On his way he stopped in Rangoon for the hour to take still. He reached Kuala Lampur, on the same day. The Indian shift Force Viscount Rajelland applications and the Raphberg was a second

"A Mi-gum minte ...in, the heart William marked has deporture of the Proplem (specific Ref Bharum) later that have presented to the State of Security the airport. Members of the Consular Corps., West Bengal Cabinet Ministers, and other high officials of the State and Union Governments were then introduced to the President.

Among others present at the airport to see, the President off were, the Chief Justice, Calcutta High Court, Shri K. C. Das Gupta, the Mayor of Calcutta, Dr. Triguna Sen, the Sheriff, Shri S. C. Roy, members and trade representatives of all the Consuls in Calcutta including the Indonesian Consul-General in Calcutta.

A guard of honour was presented by a detachment of the 2nd Battalion of the 5th Gurkha Regiment to the Head of the State who took the salute from a specially erected rostrum there. He then inspected the Battalion in slow-march. Indian National Anthem was played on bands by the Battalion.

President Dr. Rajendra Prasad was accompanied by the Union Minister for Scientific Research and Cultural Affairs, Prof. Humayun Kabir and the President's Secretary, Shri A. V. Pai, and other personnel staff.

The aircraft under the command of Sqdn. Ldr. J. B. Lal and with Flt. Lt. P. B. Mehra as the co-pilot took off in a slow climb exactly at schedule.

#### SHRI LOKE NATH BAL

Shortly after his arrival in office, on 2nd December last, Shri Loke Nath Bal, Deputy Commissioner of the Corporation, fainted all on a sudden in his office room. He was on his desk them: He remained in a semi-conscious stage for mearly three hours. Latter on Shri Bal was semoved to the Sukhlal Karnani Hospital.

who happened to be in the Corporation attended him just then. The Houlth Officer, Dr. A. Mukherjen, and other madical different work of The Chief Resources Officer, Sare J. C. Major I.A.S. (Retd.), Shri A. K. Basak, Deputy Commissioner, Shri B. Ghosh, Secretary, and a large number of Corporation officials attended him in his sick bed in the Corporation Office.

Shri Bal is still now confined to bed in that hospital. His condition is gradually improving 10 2000 under expert medical attention.

The Corporation at its weekly meeting on the 5th December last, granted him leave for three months, as applied for, and sanctioned medical expenditures to be incurred by Shri Bal.

We pray for his speedy recovery.

#### **DIPTHERIA IN CITY**

Sporadic outbreak of diptheria cases in the city has caused much concern to the citizens particularly the parents of young children-as the disease is restricted mainly to youngsters between certain specified ages. Press Reports during last week indicate that an average seven to nine children, suspected to be suffering from the same disease, were removed to city's hospitals. According to another report about seven hundred children were admitted into the Infectious Diseases' Hospital, Beliaghata, said to be the only hospital for treating this disease -during last two months.

Equal concern was expressed by members of the House when Councillor Dr. Himangshu Kumar Das, pointed out about the gradual spread of the disease. He re-iterated his claim for declaring the disease as an epidemic one-in view of the fact of increased number of cases in the city. Preventive vaccines were available to stop the menace, apprised Councillor Dr. Das to the House, urging the Corporation to utilize the same to its full extent.

According to the experts of children's diseases, Diptheria is preventable like cholera or small-pox epidemic diseases. At present many of countries in Europe, once infested with this menace, have become quite free with the application of Diptheria-Whooping-cough Tetanus Prophylectic Injections. Only two children died of the disease in Great Britain during the year 1957-58. And in this city this disease is responsible for fifty per cent. of children's deaths. According to an expert, application of three Prophylectic Injections in three months should be made compulsory to the children during each five year in order to get rid of this menace. Corporation Reports indicate that nearly six hundred children died of this disease during a period from the beginning of 1956 and uptill the end of November. And almost all of them were between the ages of nine months and nine years.

. .... Unfortunately, the Corporation Health Statistics do not keep those cases isolated from the rest as to enable others to realize the of menace done. The only remedial measure by the Corporation is the application of Anticongested area whenever a case is reposted to if authorities. Schemes to undertake the Prophyl System & Seatment have not been subserved; yet the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subserved to the subser

en the Standing Health Com

An experimental measure should at tried in this city through a ministure scheme by applying the system to Corporation School children whose number amount to no less than fifty thou sands. A timely action will always be welcomed.

#### DEATHS AND DISEASES IN THE CITY

Attacks and deaths from small-pox during the week ending the 6th December last, in the city were six and one respectively against seven and five during a corresponding week last year. 31 persons were attacked and totalled four deaths from the same disease during the previous two weeks ending the 22nd and the 29th November. During a corresponding fortnight last year attacks and deaths totalled 11 and eight respectively.

Two persons were attacked from cholera causing one death during the first week-end of December while there were five attacks and two deaths during the corresponding week last year. Attacks and deaths totalled five and two respectively from the same disease during the last fortnight of of November while the city was free from Malaria during the same period. Altogether five persons died of Malaria and 17 from Typhoid during a similar period last year.

Two persons died of Malaria and one from Typhoid during the week ended the 6th December. Typhoid tolled seven lives during the last two weeks of November while the city was free from Malaria during the same period. Altogether five persons died of Malaria and 17 from Typhoid during a similar period last year.

Tuberculosis caused the highest number of deaths from a single disease, the numbers being 46, 50 and 36 during the three weeks ending the 6th December, the 29th and the 22nd November respectively this year. Deaths from the same totalled 98 during the corresponding period last

Deaths from all causes totalled 631 during the first week ending of December against 625 during the almost similar period last year. 1,161 persons died altogether during the last two weeks of November against 1,266 during the corresponding fortnight last year.

# THE CORPORATION AT WORK

A Cost of Proceedings of the Twenty-Eighth Ordinary Meeting of the Corporation held on Friday, the 5th December, 1958.

#### CONDOLLINCES

At the sourcet, the House condoled the death of Dr. Bankin Mukherjee, the eminent Dental Surgeon in this city. His death has caused a void in the profession to which he belonged and for long years to come it would be difficult to fill it up', remarked the Mayor, Dr. Triguna Sen.

The death of Shri Bhupati Charan Das Gupta, was also condoled by the House. The late Shri Das Gupta, who belonged to the well-known Zamindar family of Vikrampur, Dacca, devoted himself to social and political activities after his graduation from the Presidency College, Calcutta. His door was opened to the fighters of freedom. He also possessed a profound knowledge in may of the subjects he came across and commanded respect and honour in the society.

#### FAKED TEA IN MARKET

Councillor Dr. K. P. Ghosh drew the attention of the House to a commodity, which he described as synthetic dye, that was being used in tea stalls in several bustees. He asked the Corporation to stop its use immediately as it was affecting people's health.

The Mayor, however, assured the House to look into the matter.

#### ALDERMAN PRATIMA BOSE

The House elected Alderman Pratima Bose, as member of the Standing Education Committee, under Section 15(5) of the Calcutta Municipal Act, 1951.

The vacancy was caused by the resignation of Shri Ajit Kumar Dutta, from the Aldermanship of the Corporation.

#### DEVELOPMENT OF LAKE MARKET

The House, on the recommendation of the Standing Public Utilities & Markets' Committee, sanctioned an Engineer's estimate amounting to about Rupees Seventy-three thousands for construction of a second storey over the existing old building and new first storey buildings of the Lake Road Market on Rash Behari Avenue.

#### INADEQUATE AMENITIES IN BUSTEES

Councillor Amulya Charan Sarkar complained of inadequate amenities provided in the city Bustees. Almost all the Bustees suffer from want of filtered water, light and other inconveniences as the present Calcutta Municipal Act did not provide such on an easy reach. Moreover, the Bustee people are to pay to the Corporation treasury taxes on the highest slab as 23 per cent. He felt that either the Act should be amended in such a way so that the tax might be paid on the service cost principle or these would be provision of amenities in Bustees.

Councillor Sarkar further said that the matter had long been ventilated but no remedial measures had yet been taken. He urged the House to take symmetry upon those poor Bustee dwellers.

cinema houses contained some scenes which were found to be objectionable. A section of citizens have already protested against the continuance of the film, added Councillor Dhar.

According to Councillor Dhar this film would largely mar the progress of city's art and culture and he suggested that the authorities should immediately ban the screening of the film. Councillor Dhar also thought that the Corporation could help much in this regard by prohibiting display of posters and placards of the film.

The Mayor, however, assured the House that the matter would be looked into.

#### GIRISH GHOSH MEMORIAL HALL

The House, on the recommendation of the Standing Town Planning & Improvement Committee, set up a Committee for the management of the Girish Memorial Hall, under Ward No. 7, recently handed over to the Corporation by the Calcutta Improvement Trust. The Committee has been constituted with the following:—

- (1) Mayor-President (Ex-officio).
- (2) Deputy Mayor-Vice President (Exofficio).
- (3) Chairman, Standing Town Planning and Improvement Committee.
- (4) Chairman of the Borough Committee concerned.
- (5) Ward Councillor.
- (6) Chairman, Calcutta Improvement
  Trust.
- (7) Commissioner or Chief Executive Officer.
- (8) Natyacharya Sisir Kumar Bhaduri.
- (9) Shri Ahindra Chowdhury.
- (10) Dr. Hemendra Nath Das Gupta.
- (11) Shri Naresh Mitra.
- (12) Proprietor of the Star Theatre.
- (13) Proprietor of the Biswa Roopa Theatre
- (14) Proprietor of the Rang Mahal Theatre.
- (15) Girish Chandra Ghosh Memorial Lecturer of the year.
- (16) Secretary to the Corporation who will act as Secretary to the Committee.

#### CORPORATION OUTFALL SYSTEM

The House, on the recommendation of the Standing Finance Committee, requested the West Bengal Government to take over the Corporation's Outfall System from Bantala to Kulti with an immediate effect so that 'the public interest might not deteriorate in absence of adequate care and protection.'

The House also agreed to extend facilities to the Government for execution of the improvement work for the postions taken over as well as the entire Outfall Scheme which would be taken over by the Government later on, as communicated by the West Bengal Government, Irrigation and Water Ways Department.

# QUALIFICATION RULES

The House, so the recommendation of the Standing Finance Committee, prescribed qualification rules for the posts of the Treasurer and the Assistant Treasurer to the Correlation.

(Br Seeineati Hacela Mitra, B.A.)

in what is civics? Naturally, this question arises in our minds when we speak of Citizenship or Sotiety. The very word Civics is directly related to citizenship, citizens' rights and privileges as well as their mode of living. As a social animal man cannot live alone. He wants sympathy and cooperation from others in this context.

An equal status has also been given to the Eve's family in civic matters. Like men they have imbibed an amount of civic sense and they have claimed certain rights and privileges like their male partners in life. The latest addition is that women Peeress sits to-day in equal rank with the Peers in one of the world's oldest parliaments.

But every person is correlated with the well and woe of others. Otherwise society cannot exist, nor even can function efficiently and effectively. It is unfortunate that most of the citizens are not fully conscious of their duties and responsibilities not because they are ignorant but due to their callousness and utter neglect of duties. But they do not know that their rights imply their duties also.

A sweet music in a high pitch of voice might be pleasant to hear but not so much to a student who prepares his or her study for the ensuing examination. There are occasions when objections raised in that regard, and these are little attended to. Under specific cases wastes are thrown out on the public streets and thoroughfares, very often polluting the neat and tidy dress or uniform of a passer by. And it would be a clear confession if we say that the city's womenfolk are largely responsible form any of these evils. We do not hesitate even to spit on the heads of passers by. We never mind the after effect of our ignorant misdeeds.

Are our women civic conscious? It is the first and foremost question of our every-day life. I am sorry to confess that most of our women are totally ignorant of their civic rights and duties. Every officen, man or woman, is bound to obey the civic laws. But, what opinion do we gather when a bunana skin or a piece of glass cause so much trouble to the pedestrians? Are our children brought up with much care of their mothers as they do deserve; certainly not in the most cases. And they cannot attain perfectness in their behaviour even in their mature ages. They remain 'old-girls' or "old-boys' all along. They feed their children, wash their hands and mouths with the help of their own 'safees'.

During an epidemic season Corporation, municipalities and local bedies warn public against epidemics and request them to follow health rules carefully. Have women no duty in this regard? Wester ought to try their best to prevent epidemic disease. They should keep their homes must and class indeer. It is their primary duty to see their shilldren get vaccinated. They must co-operate in classing up the city. House to house collection might be more efficiently done if women's seaso of classificate unit be remained to a certain cities. If they have the following the city when the distribution with the remaining the contribution of the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remaining the remainin

Our womenfolk are mostly ignorant of their own mis-deeds and what amount of mischief they cause to the public health simply because of their care-lessness.

Each house-wife requires water. But it has been found that one wastes so much water recklessly that others are deprived of their requirement. There is a proverb waste not want not. Do our women follow the proverb? Women may easily remove the dust and smoke from their kitchens by using some new appliances, if possible. In this way, they can improve city's health. Bombay is far advanced in this regard. The inhabitants of Bombay are not annoyed with smoke. Smoky coal has been replaced by gas ovens. But this is not possible in each and every city. Still, if there is will there is a way to get rid of this evil which cause so such injury to our health.

Are women considerate of their children's health? Why do they not press the Municipality for better parks or better schools? Why are they so indifferent to their own requirements? Are they ingnorant, or illiterate? No, that is not the real cause. They know everything but they never try to follow them in practice. Their indifference is intolerable. How long would they remain so apathetic?

Here is a plea to the women of Bengal to take a more active part in reusing the civic consciousness of the citizens. So far they have largely restricted themselves to educational work but there are many other spheres of national life where their services could be employed with profit to society and to themselves.

Madras had a lady Mayor, and so has Delhi today. In Bombay, too, women play an important role in the civic and social activities of that city. Bengal should not lag behind. There is much women can do, if given the opportunity, to tone up the administration of municipalities, hospitals, homes for the aged and a host of other institutions.

### Health Problems Of Calcutta

Diseases are, no doubt, the main reasons of all problems that are being confronted by citimens di Calcutta. This has not only by the civic authorities but also by the scientists and others. In this connection a symposium was erganized by the Science Club in the Asiatic Sesisty Hall on Saturday, the 6th December last. Specialists read papers and delivered talks on various health problems of this city. Among the causes they mentioned were overcrowding and the housing shortage; insanitary bustees; a large number of festivals, including bathing in the Hooghly, and the existence of the dual water supply system.

The Mayor, Dr. Triguna Sen, who presided, emphasized the seriousness of the sanitary problem and wondered what the Corporation's officers could do. The officers, he held, did not possess "adequate powers to go ahead." Members, who controlled the Corporation, too often differed in their views on the problem and consequently work was hampered. Co-operation from the citizens was also lacking because of the pressure of taxation.

Pressure of population coming from almost all parts of India in search of jobs has caused to increase the number of bustees, khatals and stray cattles in this city, the Mayor added.

Dr. A. B. Roy, Health Minister, West Bengal, who inaugurated the discussion, expressed concern over the large influx of patients into this city from other parts of West Bengal. Such an influx tended to upset the already inadequate arrangements in the city's hospitals. Remarking that Calcutta's health problem was vast and apparently baffling he refersed to the efforts the Government had been making to tackle it.

Dr. S. C. Seal, Professor of Epidemiology, All-India Institute of Hygiene and Public Health, said that the principal causes of death in the city were respiratory diseases, diarrhoea and dysentery, tuberculcula, cholera, smallpox, enteric fever, malaria, influenza, diptheria, cerebrospinal meningitis and chicken-pox.

Dr. Seal said that for control measures to be control to the surrounding areas was also registed. The problem of epidemics in this city had been discussed from many forums from time to time and reports submitted. Except for some action last year no tangible improvement in the measures to be taken was effected.

Speaking on "Air Pollution", Dr. M. K. Chakrawarty said although the immediate reaction of air pollution might not be so obvious, its long-standing effects might be serious. Smoke to a great extent cost down sun rays, which were essential both for entired and plant life. It was an established fact that children and old people were most affected by polluted alr.

Dr. Chekenwarty staid that people took green to an about four that four from the people took green the sent that four sent staids which from from the people of the first sent that the people of the first sent that the people of the first sent that the people of the first sent that the people of the first sent that the people of the first sent that the people of the first sent that the people of the first sent that the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the people of the

and apparent. The body consumed about 35 lb of air each day—much more than of food and drink. The city dweller was constantly breathing air vitiated by industries and other similar evils.

The respiratory system was the first organ to be affected by polluted air. Air pollution was not likely to produce any disease peculiar to itself like that of polluted water, but it acted rather as an important causative agent for disease.

To control air pollution, he suggested that attempts be made by industries to increase the efficiency of combustion in their furnaces by using modern machinery. The use of coal for domestic purposes should be replaced by smokeless fuel like coke gas and electricity.

Dr. T. K. Ghosh, President of the Club, in a brief speech referred to the aims of the organization. Among others who spoke were Alderman Dr. A. K. Bose, Chairman, Standing Health Committee of the Corporation and Dr. S. C. Roy. Shri S. K. Kabasi, B.E., M.E. (PH.) and Shri K. L. Dey, B.Sc., Eng'g. (Lond.) two Corporation Engineers, also apprised the audience the projects and plans by which the Corporation was trying its best to improve the sanitary conditions of this city.

Whatever, might have been spoken of in this regard, the Mayor, Dr. Sen, in an earlier statement also stated that the Corporation had a genuine grievance against the West Bengal Government for its allegedly unconscionable delay in taking action on many urgent representations made to them.

According to the Mayor, the delay has almost paralysed the Corporation's machinery in dealing with food adulteration for over three years. The continuation of khatal nuisance in the city has also met the same fate inspite of all attempts made both by the State Government and the Corporation. A clog somewhere in the wheel has placed the situation in standstill.

It appears that the "authority," to enforce the Prevention of Food Adulteration Act, which enached in June, 1955, has not been come into force. Before enforcement of the Act, the Corporation used to deal with offences relating to food and drugs within its area under the Municipal Act. In day-to-day working they felt that they have not been given adequate powers under the Act to deal effectively with adulteration cases.

At a meeting in July 1957, the Corporation adopted a resolution asking the State Government to delegate certain powers to it so that effective measures could be taken against food adulteration. The resolution was forwarded to the Minister for Local Self-Government for his "kind information and necessary, action" under the aignature of the Mayor. More than a year has passed and nothing has been heard yet as to the steps the Government is taking in this direction.

Some suggestions were also made for amendment of the government of Food Adulteration Act and the Rules to the Union Minister of Sizelih to enable Comparting officers to work more freely he checking adults with of food. The Mayor himself had personally distanced the profiling with the Union

Health Minister in Delhi some time towards the middle of last year and was told that there was a Standing Committee for prevention of food adulteration consisting of the State Governments' representa-tives and that the committed it is the state of the control of the control of the committed it is the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the control of the "soon" to decide the matter.

A communication was also received by the Maytir last year from the Officer on Special Districting the Union Ministry of Health stating that, the various smendments wangested were under examination. This was followed by another letter from the Under-Secretary, Union Ministry of Health stating that Sthe suggestions were under consideration" and that a communication on the subject would be sent when the question regarding further amendments to the Actuand the Rules weste finalized in consultation with the other authorities denoemed. And thus the progress of the situation, a second

The Corporation's efforts to tackle the khatal nuisance are bound to remain grotesquely feeble until the West Bengal Government passes a legislation on the subject. The State Covernment's propossi for having a Khatal Bill has not yet been materialized. Sufficient alternative arrangements outside the city limits for evicted cattle have not back, fully, implemented, and who have seem to be

For several months this year, the Corporation made energetic efforts to remove unauthorized khatals and seized a large number of nattle. Operations were abandoned in June when the khatal owners obtained an injunction from the High Court prohibiting further action by the Corpora-The Corporation's efforts in this regard, in gollaboration with the police are expected to resume the drive against stray cattle, not against unauthorized khatals.

Thus the health position in this city can not be said to be satisfactory. Moreover, the above statement tells heavily upon the health of the" people. Adulteration of foodstuffs is mainly responsible for many of the diseases. In weekly Corporation meeting on Friday, the 6th Bacember last, Councillor Dr. K. Ghoth complained of food adulteration and wanted to remove the menace. Khatal nuisance adds much to the Tuberculoris, though not count within the sold of epidemic diseases, still that spreads stairom these nuisances and cause thousands of lives every year. Bustee menace is the most acute in this regard.

The Corporation campaign in eradicating the spideinic thiseases is also on the full swing. A deliver for mass vaccination campaign is on the offing. Help from clubs and philanthropic organizations have also been enlisted in this regard.

The West Bengal Government, has, it is learnt, approached the Covernment of India for adopting ediate legislative measures to make vaccination plinat small-pos compulsory on the part of every estimate in the country. Such a measure has recom-actionary in order to check the periodic epidemic of suisibpose in the State particularly in this one Accomplished the State Covernment in a large of visiting the Santa Wilders

CITY NEWS PARABE

OBIGURY: Shirl Tara Chiarm Baneries, a scalar partition of Shears. Our, Diagram & Co., a leading solicitor's this, cheef a his residence in the northern part of the city, on November 28. He was 63.

Birm in a devout Brahmin family of Bagibazar, the lette Shri Banerjea combined in him the best of Eastern and Western cultures. Joining the firm in 1916 became a Senior Phirmer of the five later on. As a social worker his came in close contact with many people in the legal profession and in business and in other fields. He was respected for his integrity, strong sense of duty, great legal acumen, patriothem, and pleasing manners.

The Corporation at its weekly meeting on Friday, the 5th December last, mourned his death. Eloquent tributes were paid to his memory by the Mayor, Dr. Triguna Sen.

NATIONAL CADET CORPS' TENTH ANNIVERSARY was observed by about 1,900 cadets, boys and girls of West Bengal schools and colleges who took part in a colourful ceremonial parade held on the Brigade Parade Ground, Calcutta Maidan, on Sunday morning, the 7th December.

Shri Bhupati Majumdar, Minister for Commerce and Industries, West Bengal, took the salute as smartly turned out cadets marched past the flag-stand. Bands of Punjab and Garhwal Regiments and West Bengal Police were played.

Engineering, Medical, Air and Naval units of the N.C.C. took part in the parade. There were four girls units in each of the senior and junior divisions. These were followed by armoured cars and A. A. gun-carriers. Major A. M. Banerjee commanded the parade. Among those present were Lt.-Gen. B. Chaudhury, Director-General of the Armed Forces Medical Service, and Air Commodore that Dev Singh of the Indian Air Force and others.

The Minister said that India did not want to rule over cather dountries but it must be fully prepared to meet any foreign aggression. The growing response to the N.C.C.'s call should a healthy desire among the youth to serve the cause of national defense.

desiliber Minister also gave away medals and cups to the

William Bowshill W

Studder Street, Calcutta, held its Annual Convocation on the 30th November last. Some 331 students, who came out successful in the recent examinations, were awarded Destinates.

Shri Balvantaray Mehta, M.P., Chairman, Estimates Camadittes, Lok Sablia, whi addressed the Convocation, said that ross accolining had come to play an important role in the cause of the country's half progress in industry and commerce,

Shri Mehts said that the Union Covernment was smallering the question of setting up a Council to study the method of productivity. This would require many continued paracetred in virious branches, including many continued paracetred in virious branches, including many continued paracetred in this branch of Accompancy spould so setting a thirty training to that they could replace the setting and the setting of the setting as the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting of the setting o

Addenoused. In Bases traffered to the difficulties their Institute had passed through before the attained disciprocesses stature.

Addressing members of the liberat Chamben allo Commerce, on the same day, Shri Shastri spoke of a generally absorbable standard of espoit policy which would be established. Shri Shastri also taid that both the public, and private sectors would have to west in full co-operations for greater production, fewer imports, increased expects, stillabove all, larger employments.

A FARMERS' PARTY FROM RAJASTHAN came on a short visit to this city. The leader of the party called on the Chief Minister, Dr. B. C. Roy at the Writers' Buildings on Monday, the 1st December last and presented to him a few presents and a calico print table cloth from Saraganer near Jaipur, specimens of letter pads and envelopes of hand-made paper, and a few varieties of dry vegetables.

The farmers' representatives also visited the house of Netaji Subhas Chandra Bose where the leader of the party garlanded the bust of Netaji.

In the afternoon they called on the Mayor, Dr. Triguns' Sen and presented him with a turban, an album of Rajesthan' paintings and 'Mangail Kalasa' (coloured earthen pot with a cocoanut) as gifts from the farmers of Rajesthan in the Mayor's office, S. N. Banerjee Road, Councillors U. N. Sen, A. Maitra and others were present.

TENTH ANNIVERSARY OF UNIVERSAL DECLARA-TION OF HUMAN RIGHTS was observed in the city under the suspices of the Calcutta Association for United Nations at the Indian Association Hall, Bowbazar Street, through a two-day programme. On the 9th Decembers there were screening of films in this connection and staging of a drama 'Jagaran'.

On Wednesday, Shri S. C. Roy, Sheaff of Calcutta, who presided over a Symposium on the subject, praised India Government's policy of general support to freedom movements of all nations. Dr. Sukumar, Mitra, Prof. Anath Bandhu Dutta and Shri Sudhir Kumar Ghosh also spoke.

BENOT-BADAL-DINESH, MARTYRS' DAY was observed in the city through a meeting in the Mahabodhi Society Hall, College Square, central part of the city, on Monday, the 5th Detember, inder the amplices of the Bengal Volunteers, a pre-independent day revolutionary organization. In 1930, on this day, these three martyrs made an attempt on the lives of a few English civilisms in the Writers Buildings, Dalbouries Square, Who ruthlight tried to stippens the Civil Disobediance Movement thin going on in this country initiated by Mahatesa Citadhi. Two of the diviliant were killed. The first two of the party computated materials while this third day was himsied to death later on after until

had not entered and head on more every not armic last garden to Presiding over the meeting, Shut Bhupati Manuarder, Minister, West Bengal, gave the background of revolutionary ensual in this country. The urge for an Independent Liddle was first felt by Shri Mohanial, a martyr in the fields of Pleasey about two hundred years back. Since then halfknown and unknown attempts were made in different corners with the same object. The Sepay Muliny, the Sanyasi Rebellion were some of the events. The revolutionaries of Bengal, the Punjab and other provinces added: another chapter culminating into the 'Quit' India' mass movement within the country and the Azad Hind Movement in outside India, added the Minister. He also said that the country would derive inspiration from those martyrs whose names were still checkhod in the minds of the citizens.

FOUNDATION STONE OF A NEW BUILDING OF NATIONAL HIGH SCHOOL was laid by Dr. Sarvapalli: Radhakrishnan, Vice-President of the Indian Union, on the 30th Nevember last at Hazza Road, South Calcutta. The school is run by the N. R. Iyer Memorial Education Society mainly for students of the South Indian community.

The Vice-President urged the people to develop a "national outlook". He said: "What is necessary is a transformation of our own nature, our own growing intellectuality. We are powerful; natural resources we have in plenty; manpower we have a great deal. If we mobilize the natural and intellectual resources and work in team spirit, work with detachment, work with devotion, this country can be made into a paradise."

Dr. Radhakrishnan regretted that narrow provincialism and prejudices had "overtaken" the country. These must be not rid of in the interest of "fundamental unity" of the country and if they wanted to make their country great, he said. "Greatness of a country and narrowness of mind cannot go together".

Shri C. S. Sundaram, President of the Society, welcomed Dr. Radhakrishnan. Shri P. R. Sheshian, Secretary of the Society, gave the history of the society. Dr. Radhakrishnan was once associated with it at its early stage. Shri Pratapral Shastri welcomed the Vice-President in Sanskrit.

FLAG-DAY, in aid of ex-Servicemen was observed in the city on Friday, the 5th December last, when box collections were made by volunteers." Earlier appeals were issued by important personalities and citizens including the State Governor, Shrimati Padmaja Naidu and the State Chief Minister, Dr. B. C. Roy. The Governor said in her appeal : The service rendered by the Armed Forces in guarding our freedom and security, in relieving distress and giving succour to our people in times of natural calamities and their magnificent role as messengers of peace abroad bear eloquent testimony to their courage, strength, discipline and resourcefulness. The welfare of our ex-Servicemen and their families and also of the serving personnel should therefore, be our paramount concern." Service Copy of

INDIAN ASSOCIATED CHAMBERS OF COM-MERCE'S Annual General Meeting was addressed by the Union Finance Minister, Shri Morarji Desai. The mosting miss held at the Loyns' Range, being attended by the Industrialists and businessmen in the city. The United dom High Commissioner for India, His Excellency; the Right Hon. Malcolm Macdonald was also present.

A takan dala

Prosiding at the meeting, Mr. J. D. E. Brown subbonid 

condition to be a second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to the second to th that feeling, they would be lacking in enthusiasm to participate whole beartedly in development work

in this context, Shri Desal said that the Covernment's: plans, both the present and the future, could be termed, modest and far from adequate. The need were tremendous Industries or prosperity in terms of money and material possessions were not ends in themselves. Ultimately the people's happiness was the thing that counted...This consideration weighed heavily with the Government which: was committed to democracy, Democracy, Shri Dessi believed, was the only way of advancement.

... There was no announcement of any specific measures. to meet demands for tax relief by industrialists and business. men. The second day of the meeting was devoted in. passing of resolutions and other connected matters.

The British High Comissioner also met the Editors of the Calcutta Newspapers and Press Representatives on the first day.

PROF. SIDNEY HOOK, a well-known teacher to philosophy of the United States' Universities, gave a number. of talks on different branches of philosophy in different, corners of the city during last week. Prof. Hook was on a short visit to this city while on a tour round the country. His mission also included gathering of a fair amount of knowledge on Indian Philosophy.

One of the subjects of his speech was on Dialectical. Materialism' which he delivered before the students of the Jadavpur University on the 4th December last. Freedomand Responsibility was another subject which he spoke. before a fairly intellectual gathering in the southern part of. the city. His other talk was 'Science and Culture' at the Ramkrishna Mission Institute of Culture, Syamaprasad. Mookerjee Road, South Calcutta. The programme was arranged by the Congress of Cultural Freedom, Calcutta.

ALL-INDIA WOMEN'S CONFERENCE, Calcutta Branch, held a seminar on the Second Five-Year Plan on Saturday, the 6th December last with special reference to the scope of women to make it a success.

Inaugurating the seminer, Shri Tarun Kanti Chosh, Minister of State for Development, West Bengal explained the general cuttine of Second Plan for West Bengal under which Rs. 158 crotes would be spent. The Social Welfare development would take Rs. 53 crores, he said. But no plan could be made a success unless people participated fully for the attainment of its goal. Hence workers of this organization should come forward with concrete plans for work for the success of it.

Shrimati Karuna Kana Gupta, Assistant Director of Public Instruction (Finance), said that in post-independence period there were various ayenpes of work for women is India in the field of education there was beavy demand for qualified teachers. Moreover, these was faciling amo

### CALCUTTA MUNICIPAL (AMENDMENT) BILL PASSED

The West Bengal Assembly on Monday, the 15th December, passed the Calcutta Municipal (Second Amendment) Bill replacing the Ordinance incorporating the appointment of a Chief Executive Officer to carry on the duties and functions of the Commissioner of the Corporation. The Ordinance was promulgated in August last when the Corporation faced a deadlock situation due to an order of the Calcutta High Court preventing the permanent Commissioner to function.

Introducing the amendment to the Calcutta Municipal Act, 1951, Shri Iswardas Jalan apprised the House the circumstances under which the Government had to provide the post of the Chief Executive Officer in order to run the administration of the Corporation. According to the Minister of Local Self-Government, under Section 21 and 22 of the Act, provisions have been made for appointment of a temporary Commissioner, 'in the event of the death, resignation or removal of the Commissioner'. But the Sections do not provide anything if 'for any reason the Commissioner is unable to act or circumstances exist which render # difficult for him to act, the provision should be made for appointment of another officer vested with equal powers of the Commissioner. Thus the amendment is absolutely necessary at this stage to carry on the Corporation's administration', added the Minister. The person appointed shall be paid out of the Municipal Fund such salaries and allowances as the State Government may determine; he also said.

The Bill evoked a great deal of controversy. Several members alleged that the West Bengal Government was responsible for bringing the affairs of the Corporation to its present unhappy allowable. They also said that this additional post-would cause increased burden to the rate payers.

The Government has also flouted the public opinion and has taken away the autonomous powers of the Corporation, an elected body, they added.

Among the participants in the debate were Councillor Dhirendra Nath Dhar, and Shri Sunft Das, two representatives of this city. Shri Subodh Banerjee, Shri Sisir Das, Bar-at-Law, Shri Bankim Mukherjee and others spoke on the occasion. A section also thought that the present Municipal Act should be changed largely in order to safeguard the interests of the citizens particularly the rate-payers of Calcutta.

A motion for circulation of the Bill was pressed to the vote and lost by 116 to 64. There was no division on any of the clauses during its final passing.

#### PLANNING AND DEVELOPMENT DEPARTMENT RE-ORGANIZED

The Corporation at its adjourned Special Meeting, held on Wednesday, the 17th December, unanimously decided to re-organize the Planning. Development and Construction Departments as a separate organization other than the existing Maintenance Sections The re-organization was felt ncessary when the blue-prints of Corporation's Forty-five Crore Five Year Plan was prepared a few years back. Since then sources were tapped to raise money for the purpose. As progress to this effect has little been made the question of re-organization becomes most imperative. The House passed a resolution to this effect, moved by the Mayor, Dr. Triguna Sen, from the Chair. It was an amendment to an original recommendation of the Standing Finance Committee and Special Meeting was called a week back to approve the Committee's recommendation. The House discussed the issue on another day. Dr. Sen then placed before the meeting a statement of accounts showing the progress made towards disbussement of the Central Government Loan of Re. 2.25 crores. The House also authorized the Standing Fina mittee to make necessary arrang cocopy, for the staf

he new Department The Resolution pas ed by the Hope, runs

follows :-

(1) In view of the urgency of execution of Loan Works, the Standing Finance Comintities be authorized to make necessary arrangements from the existing staff, with minimum disturbances to maintenance werks, in consultation with the Standing Works or Standing Water Supply Committee as the case may be.

(2) Appointment to the post of Project Engineer be kept in abeyance for the time

being till it is further considered.

(3) The Planning, Development and Construction Sections be taken as a separate organization from maintenance as it was intended from the very inception of the Planning and Development Section of the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the Corporation and the

- (4) That a post of Development Engineer with the prescribed qualifications as those of the Chief Engineer be created for five years, the salary of which is to be met from the Loan Budget. The salary of the post will not exceed Rs. 1,800|- plus usual allowances and allowing free use of a car.
- (5) That other posts already sanctioned by Corporation for this Department be filled up immediately for a period not exceeding five years in modification of the previous resolutions of the Corporation.

Moving the amendment, the Mayor said that the Corporation had been maintaining a skeleton staff of the Planning Section under the Chief Engineer, Shri A. K. Sen, and whose life had been extended from time to time. The Section has prepared specifications of tenders and other base work of many of the construction projects. The immediate task is the execution of the projects to be financed out of Rs. 2.25 crores Union Government's Loans for the improvement of city's health and sanitation', said Dr. Sen.

The Mayor's statement said 'out of which tenders have been either called or received for Rs. 82.43 lakhs. The programme includes installation of Pumping sets in both Palmer Bridge and Ballygunge Drainage Pumping Stations. Installation of Rapid Gravity Filters at Pulta Pumping Station has been estimated at Rs. 66 lakhs. Estimates have been prepared for Rs. 1.22 crores mostly related to extension work in different Pumping Stations under the Corporation. Executive sanction have also been obtained for the rest. of the project work.

This was in continuation of his previous statement on the beginning of the debate when he said that out of the total estimated amount required for the project the Union Government had agreed to finance a total sum of Rs. 2.25 crores for the implementation of the Scheme. The balance would be spent from Corporation's Loan Fund. The Union Government had already paid Rs. 30.5 lakhs to begin the work. If the Corporation failed to utilise the amount by the end of March, 1959, Union. Government might divert the amount for other purposes. E STANDER BY LAWY ME

Dr. Sen's statement further contained the progress of the work; financed out of Corporations

Lock Fund. odelling, Ju Re. 37 laking Therefore the book called the tion of Rapid Gravity Pinters out of a raised Res: 46.) lakha. The progress of laying of the 72-inches Pulta-Tullah Main is worth-mentioning. added the Mayor. The whole present cost of Rs. 1.58 crores has been subscribed out of Corporation's Loan Fund, raised fully. The progress of im has also been watched by many members of the House recently when they went to Pulta

Replying to the members when doubts were expressed as to the original recommendation of the Standing Finance Committee, the Mayor said that the Chief Engineer was the only Statutory Officer of the Corporation in the Engineering Department and he possessed entire responsibility of installation or construction of new projects as well as maintenance of the existing ones, and both were inter-mingled together.

On the first-day, the House debated long but could not arrive at a decision even continuing over two and and a half hours. On the second day, the House vainly took one hour. The original recommendation of the Standing Finance Committee was for the setting up of a separate Planning and Construction Department headed by an Additional Chief Engineer, equally qualified as the Chief Engineer, the post to be created for five vears only.

When the recommendation was moved by the Committee's Chairman, Councillor K. L. Dhandhania, another recommendation of the Standing Works Committee, entrusted with the task of execution of all project work, was also pressed into. Councillor R. N. Mazumdar, its Chairman, placed some recommendations which might be treated as amendments to the original one. One amendment suggested that instead of having an Additional Chief Engineer, as the Finance Committee suggested, there should be three Project Engineers who would work under the Chief Engineer for Planning, Development and Construction work.

A question also arose as to the validity of putting up so many amendments when the House met to dispose of an item only. Opposing creation of the post of an Additional Chief Engineer, the Works Committee's recommendation expressed the view that the Chief Engineer should ordinarily be appointed by promotion from the Deputy Chief Engineer and Deputy Chief Engineer ordinarily be appointed by direct recruitment. Chance should be given to the Departmental candidates also.

A section of the Councillors also opposed the recommendation of the Standing Finance Committee to create the post of the Additional Chief Engineer for the execution of the development project. They suggested that the existing Chief Engineer should be kept in charge of both the maintenance and development work and a young engineer should be appointed to take up the work of the plan. Several other members supported also the recommendation of the Finance Committee.

Criticizing both the recommendations, Councillor Bejoy Kumar Banerjee said that the appointment of an individual as the head of the proposed Department would not help to revitalize the work on development projects. More emphisis should be given as competent engineers in the lower gradies. who would be ultimately responsible for the work."

counties. Bency Lal Chock did not seem to favour the establishment of a separate Department. For Medical work work has suggested a Consultant Lagineer should be appointed who would work under the Chief Engineer.

Councillor Naren Sea remanded the Heuse that something must be done immediately, otherwise a grant of m. 30.3 lakes by the Union Government for the development work might lapse as informed by the Mayor.

Moving an amendment to the original resolution, Councillor J. L. Saha suggested that a separate section for Planning and Development should be set up and a Special Officer under the Chief Engineer having the same qualifications of Chief Engineer exclusively for the Loan Work be appointed at a fixed salary of Rs. 1,500 per month with other allowances. The amendment was seconded by Councillor Karam Hossain.

On Friday, the 12th December last different members spoke expressing diverse views.

The importance of the issue was emphasized by Councillor Dr. P. K. Sen Gupta who stressed the need for taking a definite step so that the execution of the project could be taken up without any further delay.

But this sensible pointer seemed to be of little effect. As many as ten members participated in the hour-long discussion on the subject with their subdivergent views on the 12th December last.

Thus the present decision of the House was a compromised formulae, made up by the Mayor, in consultation with different sections of the House and it is hoped that the execution work would be smoother and easier.

### SHRI PANNALAL MITRA APPOINTED ASSESSOR TO C. I. T.

Shri Pannalal Mitra, has been appointed as an Assessor of the Calcutta Improvement Tribunal under Sub-Section (3) of Section 72 of the Calcutta Improvement Act, 1911 at an adjourned meeting of the Corporation, held on Wednesday, the 17th December. Shri Mitra was also appointed on the last occasion and his present term of office will expire on the 1st January, 1959.

The appointment was largely debated in the House for two days. On the 12th December last, Shri Mitra's name was proposed in the House by Councillor Brojendra Nath Banerjee and it was duly seconded. But the decision could not be arrived at due to a prolonged discussion.

Councillor S. K. Gupta, I.C.S., Chairman, Calcutta Improvement Trust, said that a sum of Rs. 14,200 was paid last year as emoluments to the Assessor. He suggested that an efficient person with requisite qualifications should be appointed for the post.

Councillor Sushil Kumar Roy, suggested that a Special Committee consisting of Councillors Dr. P. K. Sen Gupta, Usha Nath Sen and Anil Maitra be formed to consider the question of the appointment. The members from the other side did not agree to the proposal.

At the resumed meeting on Wednesday, the Opposition stuck to that amendment seeking to postpone the appointment in order to scrutinize the applications of candidates for the post. The Opposition walked out, the amendment having been rejected when put to vote. And thus Shri Mitra's

applied for the post and out of which one withdrew. It may be recalled here that Shir Mitra is a tried worker in the fight for country's freedom since he had joined the Non-co-operation Movement in 1921. He suffered imprisonment and was interned for long. He was also once a member of the Indian National Congress.

### A CHAIN OF TEMPORARY APPOINTMENTS

The Corporation, at its adjourned meeting on Wednesday, the 17th December, sanctioned a chain of temporary appointments in the upper level of the officials. The sudden illness of Shri Lokenath Bal, Deputy Commissioner II, necessitated the appointments These were duly recommended by the Standing Finance Committee which run as follows:—

Shri Benoy Iiban. Ghash. Secretary, be appointed to act as Deputy Commissioner II on his own pay of Rs. 925; plus an acting allowance of Rs. 75; per month and other usual allowances and free use of a cur for Corporation work and that Shri Ghosh be allowed to continue to occupy the Secretary's Quarters on payment of rent at 5% of his basic salary.

While Shri Binoy Jiban Ghosh acting as Deputy Commissioner II he will look after the work of the Food Supply Department for which he would be paid a special pay of Rs. 200|- per month.

Vice Shri Ghosh, Shri Amulya Kumar Bhattacherice, Assessor, be appointed to act as Secretary on his pay of Rs. 925|- per month plus usual allowances and that in lieu of quarters he will draw House Rent Allowance under the general rules and a Motor Car Allowance of Rs. 150|- per month.

Vice Shri Bhattacharjee, Shri Ajit Kumar Dutta, License Officer, be appointed to act as Assessor on his own pay of Rs. 550|- plus an acting allowance of Rs. 150|- per month and a Motor Car Allowance of Rs. 150|- per month and other usual allowances.

Vice Shri Dutta, Shri Sisir Kumar Bose, Deputy License Officer, be appointed to act as License Officer on his own pay of Rs. 420|- plus an acting allowance of Rs. 80|- and Travelling Allowance of Rs. 100|- per month in lieu of Motor Car Allowance plus other usual allowances.

A controversy related mainly to a technical point arose in the House wherein several members took part. It was followed by a prolonged discussion.

Councillor K. L. Dhandhania, the Chairman, Finance Committee, explained that it was proposed to make the appointment only for three months and as "a matter of expediency". In such circumstances, he said, the Corporation had competence to make temporary arrangements and, if necessary to relax rules subject to the Advente General's approval.

The sanction was given effect to since the 18th.

December.

### REPLACEMENT OF OLD PIPES

The House, on the recommendation of the Standing Water Supply Committee, granted an administrative sanction to an estimate amounting to R. 5.25 lakes for replacement of worn-out cent from mains for carrying filtered water in Burrabezar, Manicktala, Tangra and Kidderpore areas.

### SYNKING OF A TUBE-WELL

The Corporation; on the recommendation of the Standing Water Supply Committee, requested

### DEATHS AND DISEASES IN CITY

There was a fall in the incidence of smallpox in the city during the week ended the 13th December. Attacks and deaths numbered three and one against six and one in the previous week. In the corresponding weeks last year there were 10 and seven attacks and 10 and five deaths.

There were six attacks of and one death from cholera against two and one the week before. In the corresponding fortnight last year there were 15 attacks and four deaths.

Tuberculosis claimed 26 lives against 46 in the previous week and 29 and 34 in the corresponding weeks last year.

Deaths from all causes totalled 562 against 631 the week before and 587 and 625 in the corresponding weeks last year.

the West Bengal Government to sink a fire fighting tube-well near about the crossing of Chandi Ghosh Road and Chanditala Lane, in Tollygunge area, Ward No. 79. This is to be included in the next year's programme.

#### **NEW MACHINERY**

Based on another recommendation, the House accepted a tender amounting to Rs. 90.93 thousands submitted by Messrs. Jewell Fifter Co., Ltd. for delivery of four sets of chlorinators driven by motor and equipped with Porcelain Tower for the four zone main ends.

### FILLING UP OF PRIVATE LANDS

STEE MARK ALL CLARKS OF MARKS OF THE POPP OF

The House, on the recommendation of the Standing Works Committee, authorized the same Committee to deal with applications received from parties for filling up low lands with Corporation refuse or silt as well as to levy charges in filling up

those lands at the approval of the Standing Borough Committee concerned. The refuse for the purpose would be made available on account of paucity of dumping grounds.

### DECLARATION OF MARKETS

The House, on the recommendation of the Standing Public Utilities and Markets Committee, declared 17, Pageyapatty Street as a market place under certain conditions.

A GIST OF PROCEEDINGS OF THE TWENTY-NINTH ADJOURNED MEETING OF THE CORPORATION HELD ON WEDNESDAY, THE 17TH DECEMBER, 1958.

#### RELAXATION OF AGE LIMIT

The House, on the recommendation of the Standing Finance Committee, relaxed the agelimit in the matter of entering into Corporation services in the Press Department, to 35 years instead of 25 years, in consideration of the fact that technical qualifications were necessary for those posts. The relaxation in age has also been agreed to by the Municipal Service Commission.

While confirming the resolution the House also accepted the suggestion of Councillor Samar Kumar Rudra that there should be similar relaxation in the age of new entrants to other technical posts under the Corporation.

#### A RE-ORGANIZATION SCHEME

The House, on the recommendation of the Standing Finance Committee, rejected a scheme formulated by the then Commissioner and subsequently approved by the Corporation in connection with re-organization of certain categories of menials and other staff and for their teaching and coaching in free-night schools.

The House, however, fixed for all future recruitment to the posts of Duftries, Jamadars, Bearers, Orderlies, all categories of Peons. Record Suppliers and Despatchers, a minimum educational qualification of having completed at least the Class VII standard of the High Schools.

#### CALCUTTA WEATHER

Possibility of fogy weather towards the morning was the city's weather forecast for many of the days in recent times. Otherwise, there was fair weather in many of the days with slight fall in night temperature. This was accompanied by normal temperatures. Only on few cases minimum temperatures maintained above normal figures. This was because of the minimum temperature remained amusually high this year on account of delaying winter approach in this city for the last two years.

Cloudy wasther was not at all during their day

### 'VIJOYA' RE-UNION OF TOLLYGUNGE EMPLOYEES

Corporation employees working at present in the Tollygunge area held its annual 'Vijoya' Re-Union on Sunday, the 7th December last with Shri P. C. Mazumdar, I.A.S. (Retd.) Chief Executive Officer, in the Chair. The Mayor, Dr. Triguna Sen, acted as the Chief Guest. Among others present were Councillors Ushanath Sen, Anil Maitra, Raj Satyendra Nath Mitra, Deva Prasad Chatterjee, M.L.C., Nripendra Nath Banerjee, Dr. Aurabindo Das Gupta and others (picture above).

MAYOR RECEIVES THE PURSE

A purse of Rupees One Thousand and One was presented to the Mayor on behalf of the 'Karmi Sangha' (employees of Tollygunge) to be placed in the Mayor's Benefit Fund in aid of the distressed employees of the Corporation. Acknowledging the amount the Mayor wished the growing strength of the Sangha and appreciated its attempt to give relief to the needy employees of the Corporation, their fellow brothers. Dr. S. Bagchi presented the purse.

A 'Souvenir', published on the occasion contained a few articles from experts. Messages of good-wishes for the prosperity and well-being of the association were also included in it. Mention may be made of an article written by Shri Surendra Kumar Roy, a former Principal of

the Jadavpur College of Engineering and Technology, and another from Councillor Anil Maitra—'Tollygunge—A Metropolitan Mockery'.

The function ended with a musical soirce participated in by many musicians of repute.

#### COUNCILLOR B. K. DAW

It is gratifying to note that Councillor Barendra Krishna Daw has been elected as the Chairman of the Standing Education Committee at one of its recent meetings. The vacancy was caused by the resignation of Shri Ajit Kumar

Dutta from the Aldermanship of the Corporation. Shri Dutta was elected as Chairman in 1957 and was re-elected to the same post in 1958.

Although young in age, Councillor Daw has shown his acumen in handling Corporation affairs. Elected for the first time in 1952, Councillor Daw was a Chief Whip of the United Citizens' Committee Party in the Corporation. Later on, he was elected as Secretary and successfully piloted the party during the last General Election in 1957 bringing in an increased strength in the House. He has been continuing as a Member of the Standing Education Committee for the last few years.

## HEALTH AND HYGIENE

### **NEURO-SURGERY**

PROF. J. B. S. HALDANE has provoked much thought in the medical and surgical world by his latest article entitled "Heart and Brain Surgery". He described the needle and cortex treatment of Professor I. S. Cooper of New York for Parkinson's disease in such a fine manner that even lay people are able to understand the potentialities of this treatment. Under other conditions, Dr. Haldane says, it should be possible instead of opening up the patient, to introduce an instrument into him which will do the required job with the minimum of damage. There are signs that surgery is more and more being resorted to in this country in the treatment of such diseases though certain age-long prejudices still seem to stand in the way of the surgeon having a free hand in this matter. There should be no two opinions about the part that surgery plays in the treatment of diseases giving relief to young and old alike. The old fashioned method of resorting to drugs in order to avoid an operation is giving place gradually to the knife. What we should develop in the present day if we want to be abreast of the other advanced countries, is to train better and yet better surgeons who will be prepared to give us the well-needed relief aiming at a high water-mark of efficiency.

According to medical science, there are, so far as this country is concerned, three main diseases of the brain which come under the category of manic depressives, hypochondria and paranoia. It is claimed that many of them could be dealt with and the patient cured completely of the disease by surgical operations of the nervous system of the brain. There is no denying that every citizen of the country who could be reclaimed by this process should be brought back to society if such a reclamation has not been possible through the normal course of treatment in a mental hospital.

Treatment for Parkinsonism as described by Prof. Haldane is being practised for the last five years in the Stanley Hospital, Madras, with encouraging results. A fresh factor in this connection which comes to notice is that this disease is not a peculiarity confined to old age but that young people are also susceptible to it arising out of inflamation of the brain.

It is welcome news that sometime back in the Stanley Hospital as many as 64 cases were handled, operations performed and that the results were very encouraging. In four cases the operation method has proved such a thumping success that the recipients of this treatment have returned to their normal work and are doing splendidly well. In fact a young lady who was operated upon is at present leading a perfectly normal married life.

Expert opinion has it with reference to Haldane's article that operations involving complete

bilateral removal of the frontal lobes which might result in loss of initiative are rarely done. The usual limited operations of leucotomy or lobotomy do not, it is averred, show any evidence of loss of initiative in the operated individual. Supporters of the surgical method also recommend that the best method of judging the usefulness of the operation is by ascertaining the statistical figures of any hospital undertaking this work. Information that could be gathered might have a bearing on the following points: average duration of stay in the Mental Hospital before operation, number of patients operated, those discharged, those who have come back in the last ten years, persons who hold offices of responsibility after discharge and those who have fitted themselves into family life.

Details ascertained show that injection of alcohol into the globus pallidum for the cure of tremore and rigidity in Parkinsonism has been practised in the Stanley Neurology Clinic for the last five years as part of clinical research "with satisfactory results and no mortality."

A new technique of dilating the blood vessels of the brain in established cases of cerebral thrombosis, by injection of novocaine into the carotid artery repeatedly day after day for ten days, appears to have a much better result than any of the known methods in such cases as the action of this drug when injected into the artery appears to be directly on the walls of the blood vessel as ascertained by a Professor of Physiology in animal experiments. The idea has been taken from the Russian method of injecting arteries with novocaine in Buergers disease of the limbs. Till recently it was considered dangerous to put novocaine into the brain which is an effective nerve blocker. Physiological experiments in Stanley may dispel such fears.

The Madras Government also appear to have given some attention to this problem of how far in mental cases the surgical method could be utilised. A Committee of experts which was constituted for this purpose sometime ago went into the question thoroughly and seems to have recommended that surgery has a place in the treatment of these diseases. There are at present in the Madras Mental Hospital alone about 2,200 patients and it appears to be the view of surgical experts that surgery should be resorted to in a large number of cases now kept confined in the Mental Hospitals in the City and other places. This view has not been com-pletely accepted by an expert dealing in mental cases who is of the opinion that the number of cases suitable for operation is very small. Even in cases where such an operation could be performed, he says, guardians of patients seldom give their consent. It is for the authorities to step in and cut this Gordian Knot. They should take up this issue almost immediately and lay down a policy after consulting the concerned opinion.—The Hope.

#### LEGAL INTELLIGENCE

### TOLLYGUNGE RATE-PAYERS' APPLICATION ADJOURNED

Mr. Justice Sinha of Calcutta High Court adjourned, recently, the application by Dr. Tarak Jiban Gupta for himself and as President of the Kar Bridhi Pratirodh Committee (tax increase opposition committee) concerning the new assessment of the holdings in the Tollygunge area for two months to enable his lordship to see whether Calcutta Corporation could take up the cases of the ratepayers of Tollygunge, for granting reliefs, bearing in mind the difficulties referred to in the application and also to ascertain whether the resolution already passed by the Corporation, allowing special rebate to the rate-payers of Tollygunge, could be implemented.

In the application his lordship had issued a rule calling upon the Corporation, its Chief Executive Officer and others to show cause why appropriate writs should not issue commanding them to cancel or forbear from giving effect to the proposed assessments or valuations, to take effect from April 1 last, in respect of the premises in what was formerly known as the Tollygunge Municipality, now merged in Calcutta Corporation, and to show cause why they should not be commanded to cancel similarly or forbear from giving effect to the imposition of consolidated rates in respect of this area.

It was urged on behalf of the ratepayers that the consolidated rate was in the nature of a fee for services rendered by the Corporation to the ratepayers. Various budgets and accounts of the Corporation were placed before the Court for the purpose of pointing out that, during the last five years, no steps had been taken to confer benefits on the ratepayers of the added area. Further, rates were correlated to the services rendered and reference was made in particular to the consolidated rate against which water had to be supplied and for the provision of rebate if such services were not available to the ratepayers. The history of the imposition of the consolidated rate was also discussed with reference to an earlier statute which showed that the con-

#### LETTERS TO THE EDITOR

#### CORPORATION ARREAR TAXES

To the Editor, "CALCUTTA MUNICIPAL GAZETTE"

Dear Sir,—The Corporation of Calcutta has not taken proper action for the realization of the arrear taxes since 1950 in respect of many premises in this city. There are more than one crore of rupees of arrear taxes lying outstanding. Rate-payers are willing to co-operate in paying the legitimate dues but the Department concerned is absolutely callous to enforce the laws on the defaulters regularly for obvious reasons best known to them.

We cite a single case among the hundreds where the purchaser of one divided lot (out of three) of premises 9C, South Sinthee Road (which is now 9D, South Sinthee Road since 1955) tried his level best to pay his share of arrear taxes and wrote about a dozen of letters to different officers. Unfortunately no action has been taken to realize the same uptill now.

Hence without any fault of rate-payers, there are accumulation of arrear dues. We may appeal to the Authorities concerned to investigate into the matter and see how the poor rate-payers are subjected to such sufferings.—Yours faithfully.

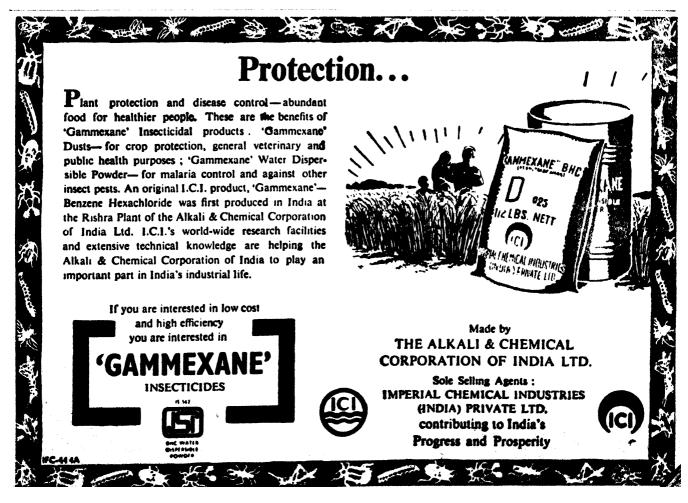

SUKUMAR DUTTA, SUNIL KUMAR DUTTA, ETC.

9D. South Sinthee Road, Calcutta-2. 13th December, 1958.

Market and the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the s

solidated rates consisted of building rate, water rate, sewer rate, lighting rate, etc., and these charges were referrable to the obligations to be discharged by the Corporation for the benefit of the ratepayers.

After some discussion his lordship adjourned the application, observing that if the Corporation did not take steps in the meantime he would further consider the matter.

# CITY · NEWS · PARADE

OBITUARY: Shri A. P. Mathur, Jute Commissioner, Government of India, died in his residence in Alipore on Wednesday the 10th December last.

The late Shri Mathur's first appointment was in the Indian Audit Department where he served as Chief Accountant of three successive Viceregal Funds started during World War II. He was also associated with St. John's Ambulance Association, St. John Ambulance Brigade Overseas, the Countess of Dufferin's Fund and many other philanthropic organizations.

After his transfer to the Ministry of Commerce in 1945, he held several posts in the Export Control organization, including that of Export Trade Controller, Bombay.

Dr. Sanker Kumar Bose, grandson of the late Dr. Kailas Bose, died on the 7th December last. He was at the age of 27. The late Dr. Bose was attached to the Infectious Diseases' Hospital, Beliaghata.

SECOND DEATH ANNIVERSARY OF DR. B. R. AMBEDKAR was observed by his friends and admirers at a well-attended meeting in the Mahabodhi Hall, College Square, recently.

Dr. Arabinda Barua, Bar-at-Law, Education Officer, Corporation, presided and several speakers addressed the gathering paying tributes to the magnificent work done by Dr. Ambedkar for India.

The President said that historians should not ignore the greatness of the late Dr. Ambedkar and recognize the services he had rendered to the country. As one of the makers of a happy, united and prosperous India he would be ever remembered.

Shri D. Valisinha, Secretary, Mahabodhi Society, said that Dr. Ambedkar became convinced from the time he was doing higher studies, that Buddhism was the ideal religion which would bring unity to India and make all its citizens equal in all respects.

AN EXHIBITION OF HANDICRAFTS was opened by Shri Bhupati Mazumder, West Bengal Minister for Commerce and Industries, at 21, Chittaranjan Avenue, central part of the city, on Saturday the 13th December last to mark the inauguration of the All-India Handicrafts Week. He said there was a good demand, even in industrialized countries, for India's cottage industries' products. West Bengal artisans and craftsmen had the ability and taste to make their products attractive and worth buying. The Government was doing its best to develop and expand small industries to provide employment for thousands. The exhibition remained open for a week.

LECTURES ON SOCIAL RESEARCH, organized jointly by Calcutta University and the U.N.E.S.C.O.'s Research Centre in this city was inaugurated on Monday the 8th December last at the University's Darbhanga Hall by Prof. Nilmal Kumar Bose. He spoke on the scope and role of social research in the context of India's efforts for planned development.

Prof. Bose said if the Five Year Plans did not work out in the manner anticipated, it was partly because of external forces and partly owing to internal social or cultural agencies. Social research could suggest modification in the planners' and executives' approach to the Plans and also help to educate people by making them conscious of the obstacles in the way of the desired change.

NEW DEPUTY MINISTERS: Two Parliamentary
Secretaries to the West Bengal Government, Shri Ardhendu
Naskar, Department of Home (Police) and Shri Ashutosh
Chosh, Department of Food, Relief and Supplies, have been
appointed as Deputy Ministers by the State Governor.

The newly appointed Deputy Ministers were administered oath by the West Bengal Governor, Shrimati Padmaja Naidu, at Raj Bhavan on Tuesday, the 9th December last. The Chief Minister, Dr. B. C. Roy, and other Ministers of the State Cabinet attended the ceremony.

With their appointments the number of Deputy Ministers in the West Bengal Government rose to 14.

DEMONSTRATIONS: A procession of Refugee people was prevented from proceeding on 12th December last at Government Place East, by a police cordon in their attempt to reach Writers Building on a mass deputation in support of their demand for rehabilitation of camp refugees in West Bengal. They protested against the Dandakaranya Scheme.

Led by Shri Jogendra Nath Mandal, President, Purba Bharat Bastuhara Sansad, a deputation on behalf of the demonstrators met Shri Bimal Sinha, Minister for Land and Land Revenue, at Writers Building to submit a Memorandum.

Earlier, the refugees assembled on the Maidan where Sansad leaders suggested that the Dandakaranya Scheme should be abandoned and that the money proposed to be spent on the Scheme be utilized to reclaim land in West Bengal.

Corporation employees made several demonstrations in support of their demands. They held a meeting recently at Raja Subodh Mullick Square, central part of the city, where the demands were re-iterated.

The Corporation Jamadars, Peons and Workers' Association in a statement appealed to the authorities of the Corporation to consider their demands. The demands included revision of grade of salary, increased Dearness and House Rent allowances, one and a half days' weekly leave and Conveyance Allowance of Rs. 15 to all outdoor peons.

•

Some workers of Corporation's Engineering Department in Tollygunge struck work, demonstrated at the Central Municipal Buildings, S. N. Banerjee Road on Saturday the 13th December last demanding regularization of their pay scales and other amenities. They complained that although Tollygunge Municipality had been merged into the Corporation they were drawing pay in the old scale. The demonstration was followed by their refusal to accept pay on the previous day and resulting injury to many. The police dispersed the demonstrators. The workers alleged that the police resorted to lathi-charge in which few workers were injured.

An inquiry into the matter was made by a Special Officer. The men resumed work on Sunday, the 14th December.

'QUIT AFRICA' DAY was observed through a meeting convened by a number of prominent citizens of Calcutta on Wednesday the 10th December last demanding immediate end of "foreign colonial domination" in Africa and expressed support for the struggle for freedom in the dependent African territories. It was held in response to a call by the Secretariat of the Afro-Asian Solidarity Committee in Cairo.

M. Cherif Guellel, the Algerian Liberation Front's representative in New Delhi, said that it was not true as some people remarked that colonialism was no longer a danger, that the real threat was posed by Communism. Colonialism to Africans was not an academic notion but a day-to-day experience of exploitation, racial discrimination and regression. Legislative Council, said that Africa, which had contributed o world pulture as a subject continent, would do it to a

as a free country.

Hasu, Leader of the Opposition in the State sinst the stistence of colonialism in Africa.

INDIAN MEDICAL ASSOCIATION, Calcutta Branch, s expressed concern over the "appalling condition of health of school children in West Bengal." At its Annual Meeting on Saturday, the 13th December last, the Association adopted a resolution stressing the need for a school health programme and the formation of a School Health Board to control and co-ordinate it. A study and survey unit, appointment of school medical officers for medical examination of children. compulsory tiffin during school hours were some of the Seatures of the programme. The meeting assured the Goverament of the co-operation of the medical profession for the implementation.

SOCIAL CRIMES: The Enforcement Branch police in co-operation with the West Bengal Government's inspectorste staff, visited many licensed rice dealers in Calcutta on Tuesday the 9th December last, to ascertain their stock position and to find out whether there were any bogus dealers.

According to a list supplied to the police by the Government, about 3,000 wholesalers, retailers and grocers' shops have licenses to deal in rice. It was suspected that a number of the shops did not exist.

FIRES: Two workers of a chemical factory in Manicktolla area, Shrimati Jyotirmoyee Chakravorty and Shari Sibranjan Sarkar received severe burns in a fire that occurred in the factory on Thursday, the 11th December last. They were admitted to hospital.

The kitchen and store of a restaurant on Chowringhee, were burnt out early on Sunday, the 14th December. Its air conditioning plant, ceiling, amplifiers and interior decoration were also damaged.

Working with four pumps, Fire Brigade men brought the outbreak under control in about an hour.

WEST BENGAL STATE LEGISLATIVE ASSEMBLY started its winter session on Monday, the 15th December, when the Opposition sought to move seven adjournment anotions, four of which related to the proposed cession of part of Berubari Union in Jalpalguri to Pakistan. The others were on the demolition of sheds built by refugees in the compound of the Railway Divisional office at Sealdah, the fall in jute prices and on the occupation of Indian territory by Pakistani troops in Murshidabad District.

The Speaker, Shri Sankardas Banerjee, declined to give his consent to any of these. Shri Jyoti Basu, the Opposition Leader, pleaded that the proposed transfer was a grave matter and the Assembly should have the fullest scope to discuss it, especially when the Prime Minister had stated in the Lok Sabha that the arrangement relating to Berubari had been arrived on the basis of information supplied by West Bengal Government's revenue officers.

Among others who put up adjournment motions were Shari Hemanta Kumar Basu and Shri Deven Sen, two Calcutta representatives.

Explaining why he had declined to give assent to the ent motions relating to Berubari, the Speaker said that the subject was of very great importance. If any et of West Bengal was to be coded, it would be a fit all for discussion in the House.

The other featpoor Wilson to be discussed on that day Specialities Science metabled the food and relegae

Council, said that Africa, which had contributed made in a report in which an official of Botanical Gardens and some other Government officials figured. There was also the question of the Ganga Barrage scheme implementation of which was being delayed by the Centre in the name of further investigation. Shri Basu said the scheme had been investigated by experts more than once already.

### Councillor Usha Sen Passes Away

As we go to press we have been shocked to receive the news of sudden passing away of Councillor Ushanath Sen, on Friday early morning, the 26th December at his residence Ramanath Pal Road, Kidderpore. His cremation took place at the Sahanagore Burning Ghat on that noon. A special pyre was provided for the purpose.

When the death news spread over the city thousands flocked at his residence. Wreaths were placed on the bier.

The Mayor, Dr. Triguna Sen, Alderman Bejoy Singh Nahar, M.L.A., and most of the Aldermen and Councillors went to his residence to pay homage to the departed soul. Many members of the House attended the funeral procession. Shri P. C. Mazumdar, Chief Executive Officer and a large number of Corporation officials also attended the funeral.

Elected to the Corporation for the first time in 1952, the late Councillor Sen was a popular member in the House. He was Chairman of the Standing Education Committee for one term and an important member of the Standing Finance Committee and many other Special Committees. He was the Leader of the party in the House and was the Vice-President of the Congress Municipal Association. Besides, he was associated with a large number of philanthropic and cultural organizations in the locality he lived.

A detailed report containing life and activities of the late Councillor Sen will be published in a subsequent issue.

We extend our sincerest condolences to the members of the bereaved family.

#### VIEWS AND REVIEWS

### UNION PRESIDENT PASSES OVER THE

The President of the Inthian Union, Dr. Rajendra Prasad returned to this city on Friday evening the 19th December last by the Indian Air Force Viscount "Rashansa" from his 12-day State visit to Malaya and Indonesia. The President's goodwill visit to those are countries was most successful. He had been able to strengthen the bond of union between India and those visiting countries.

Dr. Prasad was greeted at the airport by the Governor of West Bengal, Shrimati Padmaja Naidu and the State Chief Minister Dr. B. C. Roy. The State Ministers, the Mayor, Dr. Triguna Sen, the Sheriff of Calcutta, Shri S. C. Roy and members of the Consular Corps who were present at the airport, were introduced to the President.

A large number of people gathered on either side of the 8-mile route from Dum Dum to Raj Bhavan to cheer the President, who drove in an open

The President, Dr. Rajendra Prasad left Calcutta for Delhi next morning with his party

The 'Calcutta Municipal Gazette' will not be published on the 3rd January next on account of Year Ending and New Year's Day Holidays.

The Market Prices Current will, however, be issued as usual on that date.

The next issue of the 'Gazette' will appear on the 10th January, 1959.

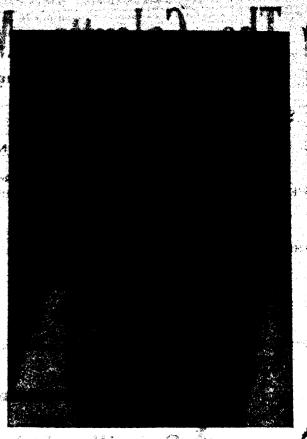

after an overnight step at Raj Bhaban. He was seen off at the airport by the Governor, Shrimati Padmaja Naidu, the Chief Minister, Dr. B. C. Roy and other Ministers and high discials of the State Government.

The journey was pleasant and the President reached the capital on that afternoon safely.

## SHRI BEJOY SINGH NAHAR ELECTED

Special Meeting held on Wednesday, the 24th December Shri Nahar polled 39 votes while this Phinged into the Jugantar' secured 38 votes. The third candidate, successful political career. His aspeiation with the Dr. Nripendra Nath Mukherjee secured no vote at revolutionary activities in the thirty's was worthall. After the counting, the Deputy Mayor, Shri mentioning. He also served the Indian National Keshab Chandra Bann, declared amidst cheers, Shri Congress in different capacities. He is at present Nahar elected as Alderman. The vacancy was the Trainment of the Pradesh Congress Committee caused by the resignation of Shri Ajit Kumar Dutta, and was its Secretary for long tears apart from a leading Advocate of the Calcutta Bar. Shri being the life and blood of the Central Calcutta

was also proposed in the House to preside over the

SHRE BEINY SHIEL NAMAR

meeting by Councillor Tulsi Charan Paul and it was duly seconded but Councillog Dr. Sen Gupta withdrew his name. Of 79 members, who were present at the meeting, Councillor S. K. Gupta, I.C.S., Chairman, Calcutta Improvement Trust, abstained from voting and one vote was rejected. Councillor Dhirendra Nath Dhar, M.L.A., could not be present at the time of viting as he was lying seriously ill in hospital.

The Mayor, Dr. Triguna Sen administered the Oath of Allegiance to Shri Nahar de Friday, the 26th December.

Shri Nahar is not unknown to the Corporation. Elected for the first time in 1933 he was a member of the Corporation for a fairly considerable period extending more than ten years at ALDERMAN

Streetch. And he served many of the Standing Committees then. In 1953, he was elected by the Shri Bejoy Singh Nahar, M.L.A. has been House to represent the Corporation in the Municipal elected as Alderman of the Corporation at its Service Commission for a term, where his services Special Meeting has an Wednesday at 1850 Service Commission for a term, where his services were also recognized.

strugg for country's next rival Shri Vivekananda Mukherjee, Editor, freedin since his student life, ari Nahar has a Nahar's term of office will continue till the end of Congress Committee. He had to suffer imprison-the life of the present Corporation.

Earlier, Shri P. C. Majumdar, I.A.S. (Retd.), tary career is also equally remarkable. Shri Nahar Chief Executive Officer, requested the Councillors was first time elected to the West Bengal Legislative to select a member to preside over the meeting. Council in 1952. And during the last General Elecname of the Dempty Mayor. It was seconded tive assembly in 1957 on a Congress ticket from the simultaneously by Chuncillors Mihir Lal Ganguly Chowinglies Constituency. He has already earned and Dr. P. K. Roy Chowdhury.

## ALDERINE DONG THE INTES BIERIER! | OUR ORATION AT WORK

appoint streaman Gurugobinda Basu, M.L.C., F.S.A.A. C.I.S., President, Bengal National Chamber of Commerce, to be the Sheriff of Calcutta with effect from the 20th December, 1958. Alderman Basu is Chairman of the State Board of Industries and a Director of the State Industrial harmance Comporation. He is President of the of Institute of Gost and Works Accountants and of the B Federation of Small and Medium Industries.

Besides, Shri Basu is connected with a number of other business and social welfare institutions. Alderman Basu was a member of the Industrial Finance Corporation Inquiry Committee, Company Law Amendment Committee, Excess Profits Tax Board of Referees and several other Committees appointed both by the Union and State Governments.

In the weekly Corporation meeting on Friday, the 20th December last, Alderman Basti was greeted by his colleagues on his appointment as Sheriff. Many of the Alderman and Councillors gave him warm handshakes congratulating him on this occasion. The appointment was also welcomed from different other quarters.

Shri S. C. Roy, the retiring Sheriff and Shrimati Roy organized a delightful Reception to meet the new Sheriff on the lawn of their Alipore residence on Wednesday, the 17th December last. There was a large gathering of over 400 distinguished guests including Shrimati Padmaja Naidu, Governor of West Bengal. Among others present were the Mayor, Dr. Triguna Sen, the Vice-Chancellor, Dr. N. K. Sidhanta, and a large number of businessmen, Government officials, members of the Senate and Syndicate and the Bar.

Alderman Basu comes off a respectable family of Basu. Ramananda, a devotee of Shri Chaitanya Dev, in the District of Burdwan. He was born in 1898, and after graduation went to England to qualify himself as an Incorporated Accountant. He also became a Chartered Secretary there. Since then he joined the profession of Accountants and gradually became a wizard in the line. Business and industrial magnets have always sought his co-operation and advice in their work in the field. As a teacher of this branch of science he has gained reputation for his 25 years association with the Calcutta University.

As a tried Rotarian Aklerman Basu become the President of Calcutta Rotary Club in 1954-55. He also occupied a higher rank in the international level of Rotarians.

Skri Basn was elected to the Corporation as an Alderman after the General Election of 1957 and since then he has been an important member of the Standing Finance Committee.

Basa we also hope that he would render useful and effective services to the citizens.

It may be recalled here that Shri J. C. Jain Sheriff of Bombay, recently suggested that the Sheriff should be vested with more powers in order to could him to render effective service to citizens.

While relinquishing his office Shri Jain said that his experience of a year had convinced hum that the literith had a netful role to play in the life of the community.

A GIST OF PROCEEDINGS OF THE THINTEETH ORDINARY MEETING OF THE COMPORATION HELD ON FRIDAY, 19TH DECEMBER, 1958.)

#### ARREAR RATE BILLS

Several members in the House pointed out the hardship experienced by the rate-payers in paying off large amounts accumulated due to arrear Rate Bills. Councillor Pannalal Das, who raised the issue in the House, stated that these Bills had been dated as far back as 1951-52. He wanted that directions should be issued to the Assessor from the House not to issue arrear Rate Bills more than twice within one calender year. Probably these Bills were issued after the Assessment Department had done away with the General Revaluation work in many parts of the city.

Councillor Krishna Chandra Bysack also spoke in the same manner. He said that the outstanding arrears had been accumulated up to Rupees One lakh in a few instances and realizing the difficulties of the rate-payers in paying off the amount, the speaker suggested that there should be easy monthly instalments in order to give relief to the rate-payers.

The Mouse however, agreed to discuss at the next meeting a motion submitted by Councillor Nripendra Nath Banerjee seeking that directions be issued to the Assessor to issue Supplementary Bills for two quarters only in each month in respect of each premises affected by the General Revaluation, as this would give poor rate-payers much relief.

## ALLEGED HIG-HANDEDNESS ON SEALDAH REFUGEES

Referring to the recent incidents near about the Sealdah Station whereby a large number of refugee population had to suffer much, Councillor Samar Kumar Rudra condemned the action and wanted that the House should voice protest against such inhuman treatment. He also criticized the Union Covernment's policy of rehabilitating the refugee population under the Dandakaranya Scheme.

The incident referred to that over 40 sheds that had been unauthorizedly built by refugees within the compound of the Bailway's Divisional Office at Scaldah were demolished on Sunday the 14th December last.

Armed with shovels, 'daos' and knives, it is alleged, railwaymen, under the direction of an officer, destroyed the sheds at a time when most of the male occupants had been away in search of work. It is stated that the demolition was carried out in presence of some policemen.

Counciller Chandra Sekhar Bhowmick also protested against the Authorities actions.

#### COUNCILLOR DR. P. K. SEN GUPTA

The House elected Councillor Dr. Parimal Kumar Sen Gupta, as a member of the Standing Accounts Committee. The vacancy was caused by the resignation of Councillor Sudha Sankar Singh.

#### COUNCILLOR SUDHA SANKAR SINGH

The House, also elected Councillor Suchs
Sankar Singh as a member of the Standing Education Committee.

The vacancy was caused due to resignation of Councillor Dr. P. E. Sen Gupta.

## BUDGET ESTIMATES FOR 1959-60

### C. E. O. Presents It Before The Standing Pinance Committee

BUDGET ESTRATES FOR 1959-60, as compiled by the Chief Executive Officer, Shri P. C. Mazumdar, I.A.S. (Retd), was presented before the Standing Finance Committee, on the 16th December last as required under Section 126 of the Calcutta Municipal Act, 1951. The Standing Finance Committee sat then headed by its Chairman, Councillor K. L. Dhandhania. Members including Councillors Dr. P. K. Roy Chaudhuri. A. Maitra, B. L. Ghosh, D. C. Mukherjee, S. S. Mitter. Dr. B. C. Basu attended the meeting. Shri A. K. Basak, Deputy Commissioner, Shri P. Mitra, Finance Officer and Chief Accountant, and other Corporation officials were present. The Standing Finance Committee made a preliminary discussion on the estimates on the 17th December last. Detailed discussion of the Estimates would start within a few days. After proper examination the revised estimates would be placed before the Corporation towards the middle of March for final acceptance along with other proposals.

The Estimates showed an income of Rs. 747.25 lakhs and an expenditure of Rs. 806.91 lakhs resulting in an expected deficit of Rs. 47.17 lakhs in the Revenue Fund for the year 1959-60. The Opening Balance on the 1st April, 1959, is expected to be Rs. 12.49 lakhs. The Municipal Loan Fund for the year will open with a balance of Rs. 394.64 lakhs. A sum of Rs. 554.05 lakhs would be raised as a loan during coming year to swell up the total amount to Rs. 948.69 lakhs. Almost the entire amount would be utilized in new projects and development work.

The Revised Estimates for the current year was opened with Rs. 70.56 lakhs as per preliminary accounts for the year 1957-58, showing an improvement in financial position. The total revised receipts for the year are Rs. 747.82 lakhs against original estimates provided Rs. 803.89 lakhs. The revised estimated expenditure for the year would be Rs. 826.89 lakhs against the original provision of Rs. 822.70 lakhs. The estimated Closing Balance thus would be equal to the coming year's Opening Balance.

The Seventh Budget of the Corporation under the Calcutta Municipal Act, 1951, has not proposed any new or increased taxation.

#### ESTIMATES IN SOME DETAILS

INTRODUCING the Estimates, the Chief Executive Officer made a brief reference to the financial position of the Corporation. He said :-

"It has always been the endeavour of the Corporation to improve the qualities as well as to extend the scope of the various civic amenities that it has to render to the citizens under the provisions of the present Act. During the last World War and sometime thereafter, there was a great deterioration in many branches of the service on account of various reasons, mainly for shortage of materials and inadequacy of funds. Due to persistent efforts, there has been an augmentation of the income and, therefore, it has been possible to improve the quality of the services to an appreciable extent. Nevertheless, it must be admitted that our services have not reached the desired standard as yet in all respects.

"Although, our income has steadily improved during the last few years, we are still confronted with the uphill task of preparing a balanced Budget which will leave, after meeting all our requirements, the minimum balance of Rs. 12.49 lakhs as required under the Act, not to speak of having a workable cash balance of at least Rupees Forty Lakhs at the end of the year. Our receipt has no doubt increased from Rs. 532 lakhs in 1952-53 to Rs. 748 lakhs in 1958-59 according to the revised estimates just prepared, but even then it is far short of our requirements, as our expenditure has increased to Rs. 827 lakhs according to the revised estimates of 1955-59 against Rs. 530 laking in

This heavy growth in expenditure mainly due to the soaring prices of all materials and the rise in the cost of establishment apart from expansion of the service in certain branches such as water supply, education, health, lighting, and others. Notwithstanding this rise in expenditure, the Corporation is endeavouring to render a measure of service as much satisfactory as is possible to do with its meagre income. But time has again come when it would be impossible to render even a tolerable measure of service with its present slender income on account of the ever-increasing cost of labour and materials.

The Officer continued that against heavy requirements for capital work, the Corporation's borrowing capacity was limited and great difficulty was experienced in raising adequate loans to finance those capital projects. On the top of this, the municipal administration of the Tollygunge area had devolved on the Corporation. The income from this area was far below the expenditure incurred by the Corporation. A heavy demand from the people of this area, particularly for improvement of water supply, sewage and drainage could not be met on account of inadequacy of funds. It would hardly be possible to further, improve the services in that area unless the income was augmented. But the rate-payers of Tollygunge had already raised objections to the General Revaluation of the area and levy of the Consolidated Rate under the Calcutts Municipal Act, 1981, which fell thus from the commencement of this year. They had taken the matter to the Court with the result that the Rates could not be levied in accordance with the provisions of the Act and there was hardly any possibility of

an apparatible improvement in the income from the area in the current year, added Shri Mozumdar.

In spiler to meet the high level of expenditures.

The Conjunction has been trying its level best to augment income from the limited sources available to it under the existing Municipal Act. The various license and other taxes have already been increased as far as feasible. New sources of revenue have also been tapped such as levy of fees for washing cars, taxis, lorries, and buses, and for removal of trade refuse under Section 426 of the Act. In spite of the fact that there has been some improvement in income from these sources full exploitation has not been possible due to opposition from the public. While adopting the Budget Estimates for the current year, the Corporation scaled up the charges for supply of filtered water to Municipalities and Cantonments from 1st April. 1958 in order to meet the rising cost of labour and materials. But the Municipalities and Cantonments have protested and have held back payments. The Corporation's attempt to augment its income from the places of amusement by enhancing the cinema license fees has not been successful. The realization of license fees from advertisements has totally been stopped on account of a ruling of the Hon'ble High Court. Thus faced with a very difficult situation to further improve its revenue from the sources available to it under the Act the Corporation finds it hard to run the existing services not to speak of improving or expanding the existing amenities to the citizens.

The Chief Executive Officer further said:-

"The Budget Estimates for the year 1959-60 has been prepared in the context of the above financial position. Therefore it has not been possible to make provision for all the requirements. In the next year's Budget even Rs. 6 lakhs for improvement work in the undeveloped and under-developed areas of the city to be spent at the direction of the Borough Committees, could not be provided with all intention to do so. Rs. 4 lakhs only have been provided for all the Boroughs besides making provision for other urgent requirements. Still it has not been possible to present a balanced budget, the income proving too in-

adequate to meet the expenditure for the essential requirements. The budgetary position is much embarrasing and appears to be heading towards a collapse. An indication of the possibility of a crisis like this given by the Finance Officer & Chief Aocountant last year when the Standing Finance Committee examined and re-framed the Budget Estimates for the current year. In his view the provisions made by the Committee on the Receipts side of the Budget were not realistic. He pointed out that there was a deficit of about Rs. 70 lakhs in Receipts in each of the two preceding years, and apprehended a similar fall in receipts this year also. On the 10th May, 1958, he again invited the attention of the Corporation to the unsatisfactory condition of the finances and advised the stoppage of all new work at least. But this caution produced little result as his advice to restrict expenditure was not accepted by them.

"Having regard to the essential requirements provisions have been made for maintaining the various services at the present level as far as practicable in the existing circumstances rather than expanding them. Comparatively larger amounts have been provided for maintenance work and a comparatively small amount for new projects. Many of the buildings such as office, markets, slaughter houses, labour quarters, etc., are badly in need of repairs. Most of these buildings have not been properly attended to for several years. Some of them have already been declared insecure by the City Architect and unless they are immediately attended to there is a risk of collapse at any moment. On account of the dilapidated condition of some of the labour quarters, the labour staff accommodated therein have become restive. As sufficient funds are not available out of the normal revenue, funds have been provided on the Receipt side of the Budget by drawing Rs. 1,75,000|- from the Building Repairs Fund. In fact all the funds that have been provided in the Budget are for similar urgent work besides the obligatory payments such as Establishments, Loan Charges, Contribution to the Improvement Trust, and others.

#### ASSESSMENT AND COLLECTION OF RATES AND TAXES

Out of an estimated demand of about Rs. 109 lakhs in respect of Central Government properties—Rs. 67 lakhs are for increased rates and Rs. 42 lakhs for service charges, which being calculated at 20 per cent of the annual value.

Difficulties in respect of rating of Union Government properties have partly been solved.

As regards properties which existed prior to 1st April, 1937, the Central Government have decided to pay increased rates with effect from 1st April, 1948, whether such increase is due to increase in the valuations or increase in the percentage of the rate. Notices of revised valuations have been served with effect from 1st April, 1948 onwards. Objections to the revised valuations in respect of properties belonging to the Defence Department have been disposed of, and Supplementary Rate Bills to the tone of Rs. 12 lakes have been forwarded to

the Collector. As regards objections made on behalf of properties belonging to other departments, four cases have so far been disposed of by Special Officer I. The C.P.W.D. have referred the decisions in respect of those cases to the competent authority in Delhi for approval in order to enable them to participate in the hearings of the other remaining cases.

As regards properties and holdings of the Central Government acquired or erected after 31st March, 1937, are exempted from local taxation under the Constitution. The Central Government have agreed to pay service charges with effect from 1st April, 1954 or the date of completion of the buildings, whichever is later. In such cases also, notices have been issued about the annual valuations upon which service charges would be calculated. Objections have been received but could not be proceeded due to a selectant nature of the Central P. W. D.

#### RATHS OF SERVICE CHARGES ....

The Central Covernment have now finally decided to pay service charges at 18 per cent of the gross annual rateable value in those cases where full services are rendered by the Corporation. In other cases, where partial services are rendered, service charges will be paid as follows:-

- (i) Water Supply-10% of the normal charges.
- (ii) Drainage-80% of the normal charges.
- (iii) Roads (Approach)-50% of the normal charges.
- (iv) Conservancy-66-2|3% of normal charges.
- (v) Lighting-50% of normal charges.

These decisions of the Central Government await consideration by the Corporation.

A number of points require clarification in this context, and an appropriate item has been forwarded to the Standing Finance Committee. There are doubts in them. They lack simplicity and leave ample room for long disputes in individual cases. However, Rs. 10 lakhs have been provided in the next year's Budget with the expectation of recovery of on account payments pending finalization.

#### PORT TRUST PROPERTIES

A draft agreement about the revised basis, already agreed upon, was forwarded to the Chairman, Port Commissioners, as early as April 1955. Since then continued correspondences and negotiations followed. A draft agreement which is materially different from the one originally envisaged as received, has been placed before the Standing Finance Committee for consideration. The financial implications are still under investigation. Ad hoc payments of a sum of Rs. 10 lakhs per annum are being received from year to year commencing from 1954.

#### CALCUTTA IMPROVEMENT TRUST PROPERTIES

Sections 29 and 30 of the Calcutta Municipal (Amendment) Act. 1953, became operative on and from the 5th July, 1956. As a result, the Corporation is no longer entitled to amalgamate the annual valuations of the properties acquired in connection with an Improvement Scheme and present a single rate bill on the basis of such amalgamated valuation. Separate assessment of each individual holding, or portions thereof, acquired by the Trust in connection with Improvement Schemes is still being a complicated problem for the Corporation. The Chairman, Calcutta Improvement Trust, has agreed to pay rate bills on the amalgamated valuations of such schemes at a uniform percentage of 22 per cent on the valuation. But as this requires amendment of the Calcutta Municipal Act, the

(Revised)

Corporation assolved that the State & Gavern be requested to amonth the Act secondingly. In the meanwhile the Calcutta Improvement Trust was requested to make an on-account payment of Rs. 5 lakhs. The Chairman has agreed to make payment at 20 per cent, of the amalgamented valuation as rates on account of particular schemes, pending amendment of the Act. The Standing Finance Committee has accepted the offer subject to the final approval of the Corporation.

#### CONSOLIDATED RATE

The income from Consolidated Rates been steadily increasing. In the course of last few years there has been an appreciable increase in the preliminary demand itself. The preliminary bills amounted to Rs. 351 lakhs in 1952-53. These amount to Rs. 447 lakhs in the current year. A further increase by about Rs. 7 lakhs is expected in the next year. These figures exclude the preliminary bills of the Tollygunge area amounting to about Rs. 15 lakhs.

The system of collection of Rate Bills has undergone a thorough change under the present Municipal Act. Previously bailiffs used to collect the tax by going over to the rate-payers. Now, the rate-payers are required to pay their taxes the collecting counters at different places within a fortnight of presentation of Rate Bills and to earn certain rebate for such quick payment. Besides, the five counters, one in each of the four districts and another in the Tollygunge Office, the counter at Cossipore will be opened as soon as the staff is appointed. There is also a proposal for opening another counter in the Lake Road Market. The postal presentation system is also now complete all over Calcutta.

Although this system was introduced under the present Municipal Act with the object of quick realization of the Corporation's dues, but there has been no improvement in the percentage of collection. At the same time the cost of collection has gone up due to postal presentation and for opening and maintaining counters. There has rather been a fall in the percentage of collection at the counters.

#### TRADES, AND PROFESSIONS, TAXES

The revenue from License Taxes and Fees (excluding Cart Registration fees), particularly in regard to Trade license fees has been steadily increasing every year. From Rs. 39.43 lakhs in the year 1953-54 it rose to Rs. 45 lekhs in 1957-58. fusther increase is expected this year. This is due to increase in the number of assessees as also to better collection as would be evident from the figures. given helo-

had to be suspended in view of a judgement of the Hon his High Court declaring Section 229 of the Calcutta Municipal Act and the Rules made thereunder Julius vires the Constitution. An appeal has, however, been filed against the said judgement of the High Court.

Receipts under "Scavenging Tax from Khatals" is on the decline for the last few years. This is mainly due to the "drive" against unlicensed khatals resulting in dispersal of a large number of cattle from the city.

There has been a fall in the receipt under 'Cart Registration Fees' owing to a large scale conversion of carts from non-rubber tyred wheels (i.e., iron-plated wheels—registration fee Rs. 40|- for every cart per half-year) either to solid rubber or Pneumatic tyred wheels (Registration Fee—Rs. 18|- and Rs. 10|- respectively for every cart per half-year). Of late, such conversions are being made on a large scale, basis as follows:—

#### Number of Carts registered Non-rubber Solid rubber Pneumatic

	Tyre.	Tyre.	Tyre.
1st half 1957-58	6979	1931	2497
1st half 1958-59	4503	5728	3785

It may be noted that in spite of the fall in the receipts of the Cart Registration fee, such conversion

#### **BUDGET AT A GLANCE**

	Estimates for 1959-60
Opening Balance	12,49,000
Receipts	7,47,25,000
Total	7,59,74,000
Expenditures	8,06,91,000
Closing Balance (-)	47,17,000

to rubber wheeled carts is the objective since rubber tyred carts would do the least damage to roads and streets.

#### GOVERNMENT GRANTS AND CONTRIBUTIONS

The State Government bear the major portion of the cost of Dearness Allowance and Food Concessions to the Corporation employees by way of contribution. Some other minor grants are paid by

the Covernment from time to time. "Covernment contributions towards ulcarness allowance and food concessions are, according to an arrangement, equal to 80% of the estimated cost. Such contributions are being paid by Government since the year 1942-43. But in the year 1953-54, Covernment all on a sudden claimed refund of a heavy amount vizi, about Rs. 32 lakhs on the ground of over-drawat from 1942-43 to 1953-54. Since the year 1954-55, contributions are being paid at 70% of the estimated cost in order to recover the alleged overdrawal. Various representations were made against such recovery but all proved abortive. The amount thus paid short upto 31st March, 1958 amounted to about Rs. 69 lakhs. After deducting the alleged overdrawal of Rs. 32 lakhs and Rs. 7 lakhs already recovered the net amount short paid comes to Rs. 30 lakhs. After continued representations the Government have agreed to pay Rs. 14% lakhs out of this short payment which has been shown in the revised estimate of the current year's Budget.

#### ADDITIONAL DEARNESS ALLOWANCES

As regards the additional dearness allowance of Rs. 5|- per month from 1st April, 1957, the Government have agreed to pay 80% of the actual cost for payment to the employees drawing pay upto Rs. 100|- per month as grant and for the employees drawing pay above Rs. 100|- and up to Rs. 250|- per month as ways and means advance

#### REVISED ESTIMATES FOR 1958-59.

Opening Balance	Rs.	70,56,000
Receipts	Rs.	7,47,82,000
Recoupment of Advances	Rs.	21,00,000
	Rs.	8,39,38,000
Expenditures	Rs.	8,26,89,000
Closing Balance	Rs.	12,49,000

repayable in seven annual instalments at an interest of 3-7|8% per annum. There has been some discrepancy between the figures of such advance as calculated by Government and the Corporation and this has not yet been settled. In the meantime provision has been made in the revised estimate of the current year's Budget for repayment of the first instalment of this advance according to the Corporation's calculation.

#### **ESSENTIAL CIVIC AMENITIES**

At present 90 million gallons of water is being daily supplied to the city. Of which, 80 million gallons are being supplied from the Pulta Pumping Station, the permanent source of the city's water supply, and the remaining 10 million gallons from the tube-wells—both big and small, sunk throughout the city. To increase the supply to a level of 150 million gallons a day special stress has been laid towards augmentation of water supply in the Pulta Water Works.

has already raised a loan of Rs. 46 lakes in addition to Rs. 145 lakes allotted from the Union Government's promised loan of Rs. 225 lakes to the Comparation for improvement of water

supply and sanitation. Action for implementation of the scheme has already been taken. A tender for installation of the Water Purification Plant of 60 million gallons per day at an estimated cost of Rs. 99.60 lakes has been called. Besides, tenders for Electricity driven pumping sets 1.4 g.p.h at an estimated cost of Rs. six lakes for the New Intake Station at Pulta Pumping Station as well as pumping sets of 1.75 g.p.h. at a cost of Rs. 10 lakes for the new Pressure Station at Tallah Pumping Station are being called for.

#### 72-IN. PULTA-TALLAH MAIN

For laying a new 78 in. Pults Tallah Main at an estimated cost of Rs. 225 lakes the requisite loan

has already been raised and work order for the same along Barrackpore Trunk Road has also been entrusted with Messrs. Structural Engineering Works Ltd. Of the total quantity of 13,700 tons of steel, required for fabrication of the 72 in steel pipes, 4,500 tons of steel have already been received and quota certificates for 1,300 tons have also been granted out of which orders for 700 tons M. S. Plates of % in thick has been placed with Messrs. Tata Iron & Steel Co. Ltd. Negotiations for placing orders for the remaining 600 tons are going on at present. On representation by the Mayor, Dr. T. Sen, some time ago, the Minister of Steel, Mines and Fuel, Government of India, has assured the supply of the balance 7,900 tons of steel in due time.

#### INTERIM SUPPLY-TUBE-WELLS

At present 69 big dia. tube-wells including those in Tollygunge and Fire Fighting tube-wells scattered throughout the city, are supplying about five million gallons of water. Seven big dia. tube-wells have been put into commission during this year. A few more tube-wells of the same type for fire fighting, sunk by the Government of West Bengal, would be put into commission within this year.

During the period under review, in addition to 2848 already sunk, a further 547 small dia. tubewells have been put into commission. Another set of 527 tube-wells of this type are going to be installed within this year.

#### PULTA SOURCE-HIGH SALINITY

Salinity of filtered water from the Pulta Water Works rose as high as 860 parts per million. Due to a long drought, the river water was highly saline and maintained this salinity for a long period, the maximum being 2280 parts per million. For reduction of this high salinity in filtered water the Corporation had to depend wholly on Freshet in the river at that period. The Ganga Barrage at Farakka when constructed is expected to reduce this salinity.

#### WATER MAINS CONTAMINATION

Laying of Reserve Mains as well as enlargement and extension of existing water mains have also been carried out and Reserve Mains approximately 6732 Rft. and water mains of 4 in. and 6 in. size both filtered as well as unfiltered water about 21,222 Rft. have been laid in the city during the period under review. Further laying of Reserve Main and 4 in. as well as 6 in. Service Mains are being carried out from Loan and Revenue Funds respectively.

Contamination work in detection and mending of leakages have been carried out successfully by the Department. Besides, for usual chlorination by the Stirrup Pump two Portable Chlorinators were used effectively to eradicate this menace. Purchase of four additional Chlorinators have been recommended by the Water Supply Committee and a sum of Rs. 91,000 has been provided for the same in the next year's Budget.

#### FILTERED WATER SUPPLY BY LORRIES

On the outbreak of Cholera during the last summer, 36 hired lorries in addition to ten Corporation lorries were used for supplying filtered water throughout the sourcity areas in the city. A sum of Rs. 30,000- has been provided in the next year's Budget also for the same purpose,

#### PULTA & TALLAH PUMPING SATIONS

Two 2 M.G.H. pumping sets, one at Pulta and other at Tallah, were put into commission. But these have now gone out of order and are under repairs. The estimated cost of Rs. 1.21 lakks for repairs to them including spare parts has been provided in the next year's Budget. To meet this cost, an equivalent amount has been provided in the receipt side of the revised estimate for 1958-59 by diversion from the Plant & Machinery Replacement Fund.

Construction of the building for the second 2 M.G.H. pumping set at Tallah Pumping Station is under progress and the set will be installed on its completion in the coming year.

The Steam Turbines of the Pumping Set, one each at Pulta and Tallah Pumping Stations would be replaced by Electric Motors. The work of dismantling the Turbine at Pulta has just been completed and the Motors of both the places will be installed soon.

#### UNFILTERED WATER SUPPLY

At present 90 million gallons unfiltered water is being supplied daily from the two remodelled Pumping Stations at Watgunge and Mullickghat. The pumping sets of higher capacity have been put into commission at both the Stations.

At Mullickghat Pumping Station, extension of the Intake Jetty including laying of the new suction mains have been put into commission.

Some protective measures were immediately taken on account of a sudden heavy scouring of the river bed at the Mullickghat Pumping Station. The appropriate cost for the same was about Rs. 50,000|-provided in the revised estimate of the current year. A further provision of Rs. 30,000|- has been made in the next year's Budget for similar protective measures at that Station and Rs. 10,000|- for the Pulta Pumping Station on account of erosion of the river bank at Pulta.

#### WATER SUPPLY TO SHIPPING

The Corporation is supplying 1,00 gallons of filtered water daily to ships as per agreement from the beginning of this year. Orders have been placed for two new Barges without Boilers and Pumps with Messrs. Hooghly Docking & Engineering Co. The major repairs to the SWB "Theo" by Messrs. East Bengal Engineering Co. in their Dockyard have been done. The SWB "CHARLES-PAYNE" after repairs has been brought into service. Annual survey and repairs to SWB "JALABAHI" will also be completed by Entally Workshops very soon.

#### DRAINAGE

During 1958-59, besides the reconstruction of damaged sewers at a number of places, sewering of Garcha 2nd Lane (portion) at a cost of Rs. 24,000|-and extension of sewer at Ballygunge Place at a cost of Rs. 18,000|- have been nompleted. The work of laying sewer in Old Ballygunge 2nd Lane at a cost of Rs. 62,000|- will start shortly.

interistical during the year by employment of additional temporary Sewer Cleansing Staff at a cost of Ra. 1.56 bighs. It is essential that this work should be continued in the next year by the employment of an additional staff and a provision of Rs. 1.70 lakhs has the solve been made in the Budget for the year 1966-60.

Beerpara Drainage Pumping Station, serving a large area in Cossipore, functioned throughout the year to relieve the drainage congestion and quick disposal of storm water in that area. Two newly installed Electric Pumps of total capacity 2.2 million gallons per hour were put into commission at Ballygunge Drainage Pumping Station for the improvement of drainage system. At Palmer Bridge Drainage Pumping Station, the installation of a new Driving H. T. Motor, with a capacity 2.86 million gallons per hour has been put into use. At Dhapa Lock Drainage Pumping Station, R. C. Lined Delivery Channel about 1,800 ft. in length was completed at a cost of Rs. 1.50 lakhs and the execution of the unfinished items of work at a cost of Rs. 37,000 is on the verge of completion. The installation of the pumping plants with electrical accessories and the extension of the H. T. Cable Line upto the Pumping Station have already been completed. Arrangement is being made to put the pumps into commission before the calendar year is out.

Remodelling of the Storm Water Channels upto Bantola at an estimated cost of Rs. 30 lakhs was taken up during the last part of 1957-58. A length of channel 1½ miles along Central Lake Channel has already been completed and the work of remodelling of Suburban Storm Water Channel from Ballygunge to Bantola is at present in progress.

Out of the Union Government's promised loan of Rs. 225 lakhs to the Corporation for Water Supply and Sanitation Schemes, Rs. 80 lakhs have been allotted to Sanitation Schemes. For augmentation of pumping capacities at Palmer Bridge and Ballygunge Drainage Pumping Stations which form part of the Sanitation Scheme, tenders have already been invited for additional Pumping Plants for the said stations.

#### DRAINAGE OUTFALL

Since 1953, the matter of taking over Outfall from Bantola to the Kulti by the State Government has been pursued. Most of the terms and conditions have been finalized but the taking over of the staff proves still a stumbling block. It is expected that the finalization of the issue may be reached by the early part of 1959. A small amount viz., Rs. 5,000 has therefore been provided in the next year's Budget for maintenance of this portion of the Outfall as in the current year's original Budget.

#### LIGHTING.

In the current year, the standard of lighting in the city has undergone further improvement. About 3500 gas lamps have been converted into cheeric lamps during the first eight months by the sustalisation of lamp standards and water tight brockets in accordance with the Narrow Passage Scheme. A further number of about 1500 gas

lamps is expected to be converted during the remaining months of the financial year. The number of gas lamps in the city at the end of the current financial year will therefore come down to about 5000. These gas lamps are expected to be converted into electric lamps in course of the next two or three years.

Adequate provision has been made in the next: year's budget for occasional lighting arrangements as in the Pujahs and other festivities. This practice had been found useful during the last two years.

The Electric Crematorium installed at Mysore Carden is functioning smoothly and about 2000 dead bodies were cremated during the last eight months.

#### FURTHER IMPROVEMENT IN LIGHTING

Additional lamps of Fluorescent or Discharge Types, as the case may be, have to be installed according to the Street Lighting Code prepared by the Lighting Superintendent, for the improvement of main throughfares and congested roads at present placed before the Standing Public Utilities and Markets' Committee for consideration. It is gratifying to note that Messrs. Calcutta Electric Supply Corporation Ltd.. have agreed to supply L.T.A.C. in the D.C. Area by transforming H.T.A.C. to L.T.A.C. from their H.T. points in the D.C. Area by erecting Pole Transformers subject to certain terms and conditions. A comprehensive scheme in this regard has to be drawn up first before necessary funds have to be arranged for.

#### ROADS

With the expansion of limits of the city and the progressive increase in the population of the Metropolis, the mileage of roads and the intensity in the volume of traffic have gone up considerably. The Corporation have been experiencing difficulties in maintaining the urban roads in serviceable condition. The lapse on the part of the Calcutta Tramways' Company in maintaining the roadways in between and on both sides of the tracks has constantly inconvenienced both the pedestrians and the vehicular traffic. The deep pot holes formed along the tracks have also been resulted in damages to the roads. Difficulties have been added to maintain the roads in proper condition. The Asphaltum Plants have been kept in continuous commission throughout the season in order to keep the roads in fairly good condition as far as practicable. During the year 1958-59, new asphalt roads have been laid and repairs to old bituminous surface have been attended to throughout the city besides the laying of bituminous roads in District III & IV. The cost of Rs. 4 lakhs for the purpose was met by the C. I. T. and was completed in the earlier part of this year.

#### MOTOR VEHICLES

The number of service trips by the Motor Vehicles Department has considerably increased. Since 1950 there has been a steady increase in the number of vehicles from 286 to 430. Under Conservancy Services, there has been an increase of 76 vehicles. The increase is mainly due to mechanization of Goshalat and introduction of House for House Collection system. Seven Vehicles for

Bustee Services have during this year been sanctioned on permanent basis. 91 vehicles have been declared almost unserviceable the by purchase proposal for the department. A of motor vehicles out of the budget allotment of the current year 1958-59 is engaging the attention of the Standing Works Committee. In order to enable the department to function efficiently, provision has been made for Rs. 10 lakhs in the Budget for the year 1959-60 for the replacement of some vehicles. As sufficient funds are not available out of the normal revenue, Rs. 5 lakhs have been provided on Receipt side of the Budget by diversion from Motor Vehicles Insurance Fund to meet a moiety of this cost.

#### HEALTH MEASURES

In the current year's Budget a sum of Rs. 41.97 lakhs has been provided for Health measures including Rs. 6.69 lakhs for measures against Epidemic. In the early part of April this year Cholera broke out in virulent type and suddenly took a trend to spread throughout the city. Vigorous and effective measures were taken by the Department forthwith in collaboration with other Department check the spread at an estimated cost of about Rs. 12.61 lakhs. As a result of the combined efforts it was possible to control the disease to an appreciable extent.

The Epidemic Control Scheme with 80 Epidemic Officers, one in each Ward and 273 Vaccinators, was originally sanctioned for one year only and its life has been extended for further two years.

Funds are there in this year's Budget for replacement of five worn out Ambulance Vans. A further sum of Rs. 1 lakh has been provided in the next year's budget for replacement of another five old vans.

Five new Milk Kitchen Centres are expected to be opened this year and funds have been provided in the next year's budget for opening another five centres.

In the Loan Budget funds have been provided for various projects. With the completion of the building at 7, Dent Mission Road for Kidderpore Dispensary it will be shifted to its new opening of Dental Clinic in this new building has been approved by the Standing Health Committee and funds have been provided in the next year's Revenue Budget for this.

The construction of the building at 59, Christopher Road for the Tangra Maternity Home is almost complete and funds have been provided in the next year's Revenue Budget to start this Home.

Although the proposed expansion of the Vaccine Institute has not been possible yet, still it is worth mentioning that out of the total production of the vaccine lymph by the existing staff the Corporation has been able to sell out lymphs of the value of Rs. 30,000 - after meeting its full demands.

The Corporation maintains four Chest Clinics of which the Mansatola Chest Clinic has recently been equipped with X-ray camera unit at a cost of Rs. 30,000 only. This Clinic is one of the biggest and best equipped one in the city. In all Chest

Clinics (viz., Mensetola and 3 Mayor's Clinics) there exist adequate arrangements for free treatment and bacteriological examination including free supply of all medicines, X-ray, etc. There are also arrangements for domicilliary treatment of T.B. patients residing within the bounds of the city. In the Revised Budget Rs. 1.13 lakhs have been provided against the original One Lakh to meet this increased cost of medicines which has gone up to a considerable extent due to import restrictions.

Provision also exists in the budget for maintenance of T.B. beds at Corporation cost. There are, 65 beds in Jadavpur, 10 beds in Balananda Sebayatan, 8 beds in Patipukur T.B. Hospital and 27 beds in Beliaghata Hospital.

There is also provision in the Loan Budget for a T.B. Isolation Camp Hospital at Rs. 5.55 lakhs. Besides above, funds have been provided for contribution to certain Hospitals for maintenance of Cancer beds, Diphtheria beds and Mental Diseases beds in addition to annual recurring grants to local hospitals and dispensaries which applied for Corporation grants-in-aid.

#### EDUCATION

There are at present 251 Primary Schools (including 9 Night Schools for adult labour). Considerable progress has been made in imparting primary education to the city's children since the introduction of the present Municipal Act. The following figures will prove this:

		1951-52	1958- <b>59</b>
No. of Schools		216	251
No. of Students		42,055	49,000*
No. of Teachers		1,040	1,535†
•(Approx.).			
†(Sanctioned post	bs).		1

A scheme to construct Corporation's own buildings for the schools has also been taken up. Three such buildings have been completed during the last two years, two more are nearing completion and others are in contemplation. There are now only 17 buildings owned by the Corporation, as against 144 rented buildings for those schools. A programme of supplying improved furniture and equipment to the schools has also been taken up. A sum of Rupees One Lakh has been provided for this purpose in the next year's Budget

The Corporation is spending to the tune of Rs. 34 lakhs under this 'essential service' although the statutory obligation indicates expenditure of Rupees Five Lakhs on account of primary education.

It may be recalled here that the Corporation, last year, confirmed a resolution of the Standing Finance, Committee urging the Government either to render adequate financial assistance for promotion of primary education, or to take over the entire task from this civic body.

New Works
In order to improve the quality of civic services with regard to water supply, drainage, lighting and others a large number of new works is acquired to be executed. The Corporation has already raised loans amounting to Rs. 550 lakes during the last also years from 1952-53 to 1957-58 besides a loan of Rs. 73.36 leichs just raised.

The cost of capital work along with a long life to serve the citizens, should not be borne wholly by the present rate-payers. It is, therefore, advisable to finance new works out of the Loan Fund as a matter of principle. The Finance Officer and Chief Accountant has remarked, many a times, that a large expenditure on New Work out of revenue year after year, adversely affected the borrowing capacity. The normal revenue is not quite sufficient even for meeting up all the requirements for efficiently running and maintaining the various services. Accordingly, the last few years' Budgets provided every year, Rs. 4 lakhs only out of revenue and Rs. 20 lakhs out of loan for new work at the disposal of Borough Committees besides about Rs. 10 to 12 lakhs out of revenue for urgent new work for roads, etc. Since the New Corporation has come into being, it has been providing a very heavy amount out of revenue every year in the Budget for New Work as a result of which the annual recurring expenditure has advanced by about Rs. 12 lakhs and this is one of the reasons for the diminished borowing capacity. Thus there is little capacity to undertake new borrowing projects at present. Therefore, a small amount of Rs. 4 lakhs only out of revenue for New Works has been provided at the disposal of Borough Committees besides Rs. 10 to 12 lakhs for Roads and other work of urgent future.

#### A Few Suggestions

Thus it appears that there is very little scope for augmenting income from the sources available to the Corporation under the Municipal Act. Some of the attempts made last year to increase the revenue did not succeed. In adopting the Budget Estimates of the current year on 22nd March, 1958, the Corporation expressed its desire to reduce the present rate of levy of the Consolidated Rate by three per cent. in respect of the properties, the annual valuations of which did not exceed Rs. 3,000 -. The Corporation also desired at the same time to raise the rate from 23 per cent. to 27 per cent. for the properties, the annual valuations of which exceeded Rs. 12,000 -. It is not so hopeful to raise the rate so high at a time. This increase, if given effect to, will no doubt yield an annual income of about Rs. 30 lakhs, but even that amount is not sufficient to meet the estimated deficit of Rs. 59.17 lakhs. Thus an immediate conference with the "Government is being suggested to meet the situation.

With a view to augment its income, the Corporation has been relentlessly pressing Government for many years past to divert certain taxes such as Motor Vehicles Tax, Amusement Tax, etc., realized by them in the city. In progressive cities, these taxes, more or less, form part of the revenue of the municipal administration. These demands of the Corporation are also supported by the recommendations of the Local Finance Enquiry Committee and the Taxation Enquiry Commission.

Leaving apart all these, the following measures may be taken:

(a) To amend Section 88 of the Calcutta improvement Act. 1911 so as to provide for payment

of the Corporation's contribution to the Calcutta. Improvement Trust at enciourts per cost, per quarter instead of one-half per cent on the annual rateable valuation of the city. This will give the Corporation relief to the extent of about Rs. 21 lakks a year in expenditure side.

- (b) To permit the Corporation to defer payment of the annual instalments for repayment of Government Loans and Advances until the financial position improves. This means a saving of about Rs. 9 lakhs a year in expenditure.
- (c) To bear at least a moiety of the expenses on Education inasmuch as imparting free primary education is the responsibility of the State Government under the Indian Constitution. This will mean an additional income of about Rs. 15 lakhs per annum.

The Corporation should also seriously consider the desirability of taking the following steps:-

- (a) To stop all new work immediately unless absolutely necessary.
- (b) To refrain from adopting any scheme which involves extra recurring expenditure, unless they are of acute necessity.
- (c) To make a more realistic approach on the Budget on the Receipt side.
- (d) To effect economy in expenditure as far as practicable.

To meet other items of immediate needs of the situation the Government should be moved to pay off at once all the arrear dues of the Corporation such as contribution for dearness concessions short paid, rent of Town Hall, etc.

#### LOAN BUDGET

The next year's Loan Budget starts with an estimated Opening Balance of Rs. 3,94,64,000 (including Rs. 73,36,000 raised during the current year as per Loan Statement of 1957-58). The Finance Officer & Chief Accountant has already reported that the Corporation have no borrowing capacity at present. Besides, it must have to conserve the resources for repayment of the Central Government's agreed loan of Rs. 2.25 crores for wate supply and sanitation schemes. 'However, as we have a good number of projects in our Loan Programme, I have provided for a new Debenture Loan of Rs. 464.05 lakhs in the next year's Budget to be required for the urgent capital project', added the C. E. O.

The Chief Executive Officer ended his speech with the following:—

"In conclusion, I cannot help remarking that although I am not less optimistic than any one, yet I am rather worried about the financial prospects. I consider it my misfortune that I have had to refer more than once to the financial stringency that exists and to the possibility of the situation getting worse in the future, but I sincerely feel that there is no room for complacency and we must all proceed with greater caution and restraint in carrying on the function of this great body to which we all belong, and which belongs to us all.

# CITY NEWS PARADE

ANTI-PROFITEERING BILL was high lighted forming the main discussion on the floors of the West Bengal State Legislative Assembly during recent years. As many as two scores of speakers participated in those days' discussions. Several members criticized the Government's food policy of which the State Government was the main target for not fixing the floor prices of paddy and rice, and other essential food-stuffs and useful medicines.

The Bill is going to replace largely the Anti-Profiteering Ordinance promulgated a few months back as well as to check high profiteering by means of cornering or hoarding during the period of new harvest.

On Tuesday, the 23rd December, the Bill had reached on the stage of passing clause by clause by the Assembly and five clauses were passed on that day.

Shri P. C. Sen, the State Food Minister, drew a highly re-assuring condition of State's food position because of the good harvest and large imports from neighbouring States. And this probably calmed the tense situation in the House for four days.

Replying to the debate he announced that the Government had fixed the minimum prices for producers of different grades of paddy and that these were the same as the maximum prices fixed a few days ago for the respective grades. However bright the food position might be the Government would not relax its vigilance. He reminded the House that threats were being issued by private traders against the Government's food policy, and stressed that these would not cow the Government, which had large food stocks.

The Food Minister also explained the steps taken by the Government under the Anti-Profiteering Ordinance, which had the limited objective of checking profiteering in a few daily necessities. The scope of the Essential Commodities Act was wide, and price and other control measures for rice and paddy had been made under that Act, he added.

Referring to complaints on the fixation of the maximum price of a particular brand of baby food, Shri Sen said that the fixed price was much lower than the price which had prevailed during September last. After the fixation, complaints were made that it had been fixed too high and the Madras example was cited. In Madras there was no control order on baby food but merely a gentleman's agreement between dealers and the Government, and the price under that agreement was 5 nP. higher then that fixed in this city.

Moving the Bill, on Thursday, the 18th December last, Shri Sen produced statistics to show the State's dependence for such essential commodities as dal, spices, mustard oil, sugar and fish, as well as rice, on import from outside West Bengal. The fixation of prices, he said, would have been easier if the State was able to produce its own requirement and retail prices would be effectively stabilized if the entire responsibility of distribution was taken over by the Government.

Initiating the debate on the Bill Shri Joyti Basu, said that the food policy of the Government would be disestrous, this year as that of last year. It would neither safeguard the interests of farmers nor benefit consumers. As no minimum prices were fixed, the farmers would have to sell their produce at uneconomic rates as they lacked means to hold their stocks. The Government was not procuring sufficient rice to prevent speculation and an upward trend of prices, which was sure to come two or three months hence, said the Leader of the Opposition on the list day.

Walcoming the measure is principle, some members, including Shri Siddhartha Sankar Ray, a representative from the southern part of the city who argued that the provisions for punishment in the Bill were not strong enough to deter dishonest traders from pursuing their anti-social activities. One member doubted whether the Enforcement Branch police, entrusted with tracking down offenders, could be relied upon to enforce it effectively.

To make fixation of prices effective and operative simultaneously all over the State some members pointed out, the system of dual control as it prevailed at present should be done away with, as otherwise the State would experience difficulties and the Centre would blame the State Government and the State the Centre. All the speakers were of the Opposition group.

Opening the day's debate on Saturday, the 20th December last Shri Ray also pointed out that except for those relating to drugs and medicines, and wheat and wheat products no notification under the Ordinance which was sought to be replaced by the Bill applied uniformly all over the State. Principles and procedures of fixation of prices had not been laid down in the Bill. Shri Ray regretted that the Government had not moved in the right way in this direction.

Shri Hemanta Kumar Basu, a popular representative of this city, said that the Government had not yet set up all-party food committees at district and lower levels. The measure, he argued, would not bring any change for the better in the food position in the State. "The Bill should be redrafted' demanded the President of the United Citizens' Committee in the Corporation.

Shri Jatin Chakravarty said that the Bill was a great hoax. The Ordinance had been delayed and well publicized in advance to allow traders to profit. Rice millers' interests had been safeguarded and they had welcomed the Bill.

The other speakers on that day included Shri Subodh Banerice.

On a resumed debate on Monday, the 22nd December, altogether lifteen members took part. The Opposition's main contention was that the measure had been introduced too late in the season to provide relief for poor farmers. Before the minimum prices could be fixed and enforced by the Government such producers would be compelled to sell their stocks at low prices. The critics wondered why, if the Government was sincere in its intention to stop profiteering, it had not yet taken steps to procure sufficient quantities of paskdy.

The members on the Treasury Bench although supported the Bill still they wanted effective measures for anti-hoarding and other anti-social measures to check the abnormal rise in prices.

Shri Bankim Mukherjee, a veteran labour leader, referred to the reperted controversy between the Centre and sarcastically remarked that both the State were supposed to sarcastically remarked that both the State and the Centre were supposed to have been fighting profiteering but in different ways. He supported State trading in food.

In course of that day's debate the State Food Minister stated that the West Bengal Government had decided to move amendments to the Anti-Profiteering Bill, in order to seek powers to fix the minimum prices to be paid by a purchaser for any of its ten scheduled articles—rice and sice in the husk, wheat and wheat products, pulses, spices, edible oil, sugar, baby foods, paper, drugs and medicines and skimmed milk powder.

AN ACCIDENT: A bull gored a middle-aged man at the crossing of Harrison Road and Strand Road, in Burra Bazar area secontly. Shri Dhora Mahatu, the injured was admitted to Mayo Respital. It was stained that he was bleeding insumally and would have to indesign an operation.

> A. K. DUTT, License Officer.

CENTRAL MUNICIPAL OFFICE: The 20th September, 1958.

#### -CITY-NEWS-PARADE

(Continued from Page 216)

A WEEK-LONG REGIONAL SEMINAR ON TECH-NIQUES OF SOCIAL RESEARCH was inaugurated in the city at Barrackpore Trunk Road, under the auspices of the UNESCO Research Centre on Monday, the 15th December last. Delegates from several countries mostly of the South-East Asia attended the seminar.

Dr. Chintaman D. Deshmukh, Chairman of the University Grants' Commission, while inaugurating the seminar, stressed the need to determine the future lines of research in social sciences so that it might help to implement the national plans in South-East Asia.

He also said that Planning Commission appointed a Research Programme Committee in Economics and Social Sciences when the First Plan was undertaken. At first most of the projects were largely economic in character but the domain of social research was gradually increasing and in this the Centre's work was expanding and would further

Dr. Chintaman Deshmukh referred to a number of projects the seminar would discuss and to the programmes and activities undertaken by the Centre. He mentioned some problems facing India and suggested that the question of Calcutta's pavement-dwellers might be an interesting topic to work on. He had been recently told that about 200 of the city's 300,000 pavement-dwellers were daily prosecuted on charges of illegal peddling. Job analysis and work efficiency were some other subjects which needed attention.

Janab Ahmad Ali Chowdhury, Deputy High Commissioner for Pakistan in India, Dr. Bernardina G. Bantegui and Prof. William Paw of Rangoon University, spoke on the development plans of their countries.

Shri S. N. Ray, Chief Socretary, West Bengal Government, said that the Centre's findings were essential for administrative work. Refugee rehabilitation, on which Government money and labour had been spent, had not succeeded as it should have.

Prof. C. N. Vakil, Director of the Centre, said that people in charge of planning had to realize that social policy and planning were essential counterparts of economic and planning.

D. G. Mandelbaum of the University of Prof. California said on the second day's seminar that the economic forces of industrialization were affecting all people, but the nature of their influence depended on the particular society and culture.

In South Asian countries, the development was taking certain courses which were different from those of Western countries. In order to avoid costly hindrances they must take into account the human factors. Social scientists had a vital opportunity to contribute to the success of such plans, added Prof. Mandelbaum.

Mr. Louis Moss, Director of Research, Social Survey, London, at a meeting in Calcutta on another day spoke on the use of survey techniques for operational purposes in the administrative sphere. Prof. C. N. Vakil, Director of the Centre, presided.

Mr. Moss said that use of scientific methods to analyse administrative problems was a relatively new development. In the past, government and politics were considered as an art and decisions were based largely on philosphical consideration

CONVENTION OF CHEMISTS AND DRUGGISTS held at the Student Hall, on Thursday, the 18th December last, discussed many problems the trade had faced since the promulgation of the Anti-Profiteering Ordinance. Speakers declared that, except for six items, the medicines listed in the Ordinance were in India and were freely available, and that drugs and medicines in general should not have been covered by the Ordinance. They agreed that a few imported patent and proprietary medicines in short supply might come under the measure. They said maintenance of the daily stock account by wholesalers as was required under the Ordinance, was difficult.

#### MARKET NOTICES

I. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. I Hour—four annas. Every succeeding nour part of an hour—four annas.

1. Coolies for carrying basar purchases are obtainable

per part of an hour—four annas.

2. Coolies for carrying basar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the carrent half-year. "A" class coolies have been allowed whalf arm badges with Green numbers from Nos. 1 to 400.

3. Any complaints about coolies should be made at the superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not promotered.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as

otionble

6. If goods are taken "on approval" customers are mannended to obtain a voucher to that effect stating the

orice paid.
7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No slegs, bicycles, tricycles, or perumbulators are allowed inside the markets.

2. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep these bicycles in charge of the lesses thereof on payment of a few of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P. A.; between 7 P.M. to 12 A.M. Bicycle 0-30, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10 Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving aims of any description within the markets.

principles from giving mine of any market,

12. Customers are requested to examine the coins chained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the abop.
